FOREWORD

The Distance Table is a Ministry of Transportation publication providing the official road distances along the Provincial Highways network.

As a handy guide indicating all destination points along Ontario's economic and social lifelines-the highways, it is hoped that the Distance Table will facilitate the travelling public to plan their routes for easy access to various communities in the province, provide the commercial drivers with accurate distances to ensure efficient delivery of goods and assist the tourists to locate the recreational centres and attractions.

In our continuing effort to seek new and better ways to serve the travelling public, we are confident this booklet will prove to be a helpful companion to the Official Road Map.

Distances given in this booklet are the official road distances used by this Ministry for the King's and Secondary Highways and the Tertiary Roads in Ontario as of April 1, 1997. Due to ongoing physical changes in the highway network, some distances may, at times, be subject to slight modifications. Also, odometer readings may give slightly different distances due to equipment inaccuracy, frequent lane changing or other driving habits.

Highways are listed in numerical order, with the Queen Elizabeth Way (QEW) first. The point descriptions along each are listed from east to west or from south to north depending on the general direction of the highway.

Highways in the 400 series, together with the QEW, are generally multi-lane, divided and controlled-access routes. Highways numbered from 2 up are generally conventional highways of two or more lanes.

Highways in the 500 and 600 series are Secondary Highways. Roadways in the 800 series are Tertiary Roads. Overlapping highways are shown with a slash between the highway numbers (e.g. Hwy 7/8 or Hwy 11/17, etc.).

Distances are shown cumulatively in both directions including the sections of roads which are not under MTO's jurisdiction. The only exceptions occur where a highway is interrupted for construction purposes or ferry crossings.

The explanations of various abbreviations used in the table are given on the following page. Inquiries regarding this booklet should be directed to the Program Planning & Evaluation Office, 4th Floor, 301 St. Paul Street, St. Catharines, Ontario L2R 7R4.

DISCLAIMER

The Ministry of Transportation has attempted to ensure the accuracy of the contents of this handbook. However, the Ministry makes no representation or warranties, expressed or implied, with respect to the accuracy or completeness of its contents and assumes no liability for any error or incompleteness that may exist.

AVANT-PROPOS

Les tables des distance publiées par le ministère des Transports donnent les distance officielles du réseau routier provincial.

Ce guide pratique les diverses destinations situées le long des artères économiques et sociales que sont les routes. Il vise à aider les voyageurs à planifier leurs trajets afin qu'ils puissent se rendre facilement aux diverses localités de la province, à fournir aux conducteurs commerciaux une liste précise de distances pour assurer la ponctualité de leurs livraisons, et à permettre aux touristes d'identifier les centres récréatifs et les attractions.

Soucieux d'offrir toujours davantage de services aux voyageurs, nous publions le présent livret, qui est le complément parfait de la carte routière officielle.

Les distances données dans le présent livret sont les distances routières officielles utilisées par le ministère pour les routes principales, secondaires et tertiaires de l'Ontario en date du 1^{er} avril, 1997. En raison des modifications physiques subies par le réseau routier, certaines distances peuvent varier quelque peu. De plus, l'odomètre d'un véhicule peut indiquer une distance différente en raison de sa calibration, des changements fréquents de voie et d'autres habitudes de conduite.

Les routes sont indiquées par ordre numérique, en commençant par l'autoroute Queen Elizabeth (QEW). Les descriptions des routes sont présentées en fonction d'une orientation est-ouest ou sud-nord, selon la direction générale de la route.

Les routes de la série 400, de même que la QEW, sont généralement des routes à voies multiples, séparées et à accès limité. Les routes dont le numéro est 2 ou plus sont généralement des routes conventionnelles ayant au moins deux voies.

Les routes de la série 500 et 600 sont des routes secondaires. Les routes de la série 800 sont des routes tertiaires. Lorsque deux routes se chevauchent, elles sont séparées par une barre oblique (p. ex. route 7/8, route 11/17, etc.).

Les distances sont indiquées de façon cumulative dans les deux directions, y compris pour la partie des routes qui n'est pas du ressort du ministère des Transports, sauf lorsqu'une route est interrompue suite à des travaux de construction ou pour le passage d'un traversier.

On trouvera à la page suivante l'explication des diverses abréviations utilisées dans les tables. Pour tout renseignement au sujet du présent livret, s'adresser au Bureau de la planification et l'évaluation des programmes, 4^e étage, 301 rue St. Pual, St. Catharines ON L2R 7R4.

AVERTISSEMENT

Le ministère des Transports a veillé à l'exactitude des données contenues dans le présent livret. Toutefois, il ne donne aucune garantie explicite ou implicite quant à l'exactitude et à l'exhaustivité de ce livret et n'assume aucune responsabilité concernant les erreurs ou les omissions qui auraient pu s'y glisser.
