| <p><b>Reason for Use Code      Clinical Criteria</b></p> <p>330      For the treatment of asthma in patients who are using optimum anti-inflammatory treatment and are still experiencing breakthrough symptoms</p> <p>LU Authorization Period: Indefinite.</p> <p>Solutions for use in nebulizers are more expensive than metered dose inhalers (MDI) and turbuhalers, and for most patients, there is no significant benefit. The only indication for this mode of administration is for selected patient groups, such as those noted in the Limited Use clinical criteria for solutions for use in nebulizers, who are unable to use other formulations. Even children who are unable to coordinate actuation of a MDI and inhalation can usually use a spacer or turbuhaler. Special fittings are available for patients with severe arthritis who have difficulty using a standard MDI.</p> |                                                    |                                                    |            |            |

(Interchangeable with Plavix)

**Reason for  
Use Code**

**Clinical Criteria**

- 375      For patients immediately post-hospitalization for Acute Coronary Syndrome (ACS), in combination with ASA. ACS is defined as any myocardial infarction (MI) or unstable angina (UA).  
  
LU Authorization Period: Indefinite.
- 376      For patients immediately pre- or post-percutaneous coronary intervention (PCI).\*  
\*Therapy may be initiated up to 10 days prior to PCI  
  
LU Authorization Period: Indefinite.
- 411      For patients who experience a stroke or transient ischemic attack (TIA) while taking Aggrenox (dipyridamole and ASA) or ASA alone; or  
  
For patients experiencing ongoing severe symptomatic peripheral vascular disease (PVD) (i.e. with Ankle Brachial Index < 0.5) after a vascular event while on ASA. ASA should not be used concomitantly; or  
  
For patients requiring ASA with documented severe allergy to ASA, such as anaphylactic reaction or bronchospasm. Gastrointestinal events (GI), including GI bleeds, are excluded.  
  
LU Authorization Period: Indefinite.

OxyNEO 10mg, 15mg, 20mg, 30mg, 40mg and 80mg tablets for cancer patients or palliative care patients for whom the prescriber is registered on the Palliative Care Facilitated Access List will be funded with the following criteria:

- . For the treatment of cancer-related pain, or pain in patients receiving end-of-life palliative care;  
AND
- . The patient has experienced intolerance or has failed an adequate trial (for example, 3 months) of at least one other listed long-acting opioid product.

Note: For reimbursement of OxyNEO via the Facilitated Access mechanism, prescribers must be registered on the Palliative Care Facilitated Access List. To facilitate the reimbursement process at the pharmacy, the prescriber is asked to indicate "Cancer", "Palliative" or "P.C.F.A.", on the prescription to signify that the patient meets the above-noted eligibility criteria. This would be an indication to the pharmacist that these medications may be reimbursed under this mechanism.

Note: If prescriber is not registered on the Palliative Care Facilitated Access List, a request for funding of OxyNEO must be made through the EAP process based on the EAP criteria noted above.

Note: OxyNEO 60mg tablets are not funded.

Approval Period: 1 Year

Additional information on the Facilitated Access Mechanism can be found on Part VI of the ODB Formulary.

**Status Change(s) from Not-A-Benefit to General Benefit.**
