46 JOHN SMALL, *C.E.C.*

HIS MAJESTY'S Receiver General gives Notice to the holders of Debentures Nos. 4, 5, and 6, dated 10th July 1822,—and Nos. 7, and 8, dated 16th September 1822, issued under the authority of an Act of the Provincial Legislature, passed in the first Session of the 8th Parliament, Chap. 5, entitled "An Act to authorise the Governor, Lieutenant Governor, or Person administering the Government of this Province, to borrow a Sum of Money upon the Securities therein mentioned, to be applied in discharging the arrearages due to Militia Pensioners," to present the same at his Office for payment, agreeable to the terms mentioned in the said Act.

Receiver General's Office,
YORK, *25th March,* 1829. 44

HIS MAJESTY having granted certain of the Crown Reserves to the Corporation of the King's College in exchange for an equal portion of lands hereto fore set apart for the foundation of an University, the Council of King's College are proceeding to take such measures with respect to these Reserves, as may render them productive for the purpose intended, and at the same time afford every opportunity to the persons legally occupying or holding a Lease of any of the Reserves, to make such arrangements as will best suit their wishes and interests.

They are procuring an accurate inspection to be made of the situation and circumstances of every Lot, and have directed their Agent, when he finds any person actually resident upon any of the Reserves which he is directed to visit, to leave with such person a copy of this printed paper, by which he will understand, that if he is the Lessee of the Lot, or has gone upon it and made improvements under any proper authority, that the Council of King's College will pay every respect and attention to the interest and claim of such person, that they could with any justice have expected of the Government; and in particular, that whenever the Council is prepared to dispose of any of the Reserves under the circumstances above mentioned, the person having a claim to consideration, will have the choice, either to renew his Lease for twenty-one years upon the terms held out by the original Lease from the Crown, as specified in the subjoined Order in Council of the 18th April, 1819, or he shall have the refusal of the Lot, if the Council desire to sell it, in preference to any other purchaser, for such price as the Council are willing to accept.

But it is to be understood, that if the party chooses another Lease, there will be no pledge given for any renewal at the end of twenty-one years, the Government never having afforded any assurance beyond the Grant of a second term; but in such case, the conditions on which the party can be allowed to continue to occupy it, will, no doubt, be settled with a due regard to every reasonable claim on his part—the back rent due upon the first Lease must be paid to the Government before the Council will have it in their power to treat with the Claimant.

It is further to be understood, that, with respect to Lots which have been leased, but never improved or occupied, unless the back rent shall be paid to the Receiver General before the 1st January, 1829, the Council will not feel themselves bound to consider the interest of the Lessee in disposing of the Lot. JOSEPH WELLS,
Bursar, King's College.
York, 1st February, 1828. 37tf.

Extract from the Order of Council, bearing date 13th April, 1819, above referred to:—

"That upon the renewal of any Lease for the whole or part of the term of twenty-one years, a Rent of One Pound Fifteen Shillings be reserved as Rent for the first seven years of the renewed term in addition to the increased Rent, payable for the last period of Original Lease, adding One Pound Fifteen Shillings at the end of each period of seven years."

ADELPHI HOTEL,

MR. JOHN FORD, respectfully announces to his friends and the public, he has taken this establishment, in connection with the UNITED STATES HOTEL, at *Saratoga Springs*.

The Adelphi is a house already distinguished as a house of select resort, and has been considerably enlarged this Spring.—Its delightful situation commands a beautiful view of the Bay of New-York—the adjacent shores of Long Island—New Jersey, and the walks of the Battery, in its immediate vicinity.

Passengers in the London, Liverpool and Havre Packets will find the Establishment peculiarly convenient, agreeable, and contiguous to the Steam-Boats proceeding in all directions from the City.

The distinction between this and other Hotels in New-York, is attributable to the circumstance of having a number of Parlours on the European plan, where Gentlemen and Families have the option of enjoying the retirement of a private Table, or partaking the accommodation of a very limited *Table D'Hôte*.—Conveniencies, combined with strict order and attention in the interior economy of the Establishment, which it is hoped, are calculated to obtain general approbation.

SIR,—As the competition for three of the Medals offered by the NATURAL HISTORY SOCIETY of MONTREAL, is open to *all* inhabitants of the British Provinces, you will confer an infinite favor on an infant Society if you give publicity to its advertisement, as below, thereby extending the notice of its intentions to rouse the dormant talent of the BRITISH NORTH AMERICAN PROVINCES.

ROBERT ARMOUR, JR.
Secretary.

NATURAL HISTORY SOCIETY.

NOTICE is hereby given that the NATURAL HISTORY SOCIETY of MONTREAL, anxious to encourage a spirit of research, and to create a taste for scientific pursuits, have resolved upon offering FOUR SILVER MEDALS for Essays on scientific subjects, thereby endeavouring to rouse the dormant talent of the Province, by exciting a praiseworthy emulation.

For THREE of these Medals, the competition will be open to the public generally, and ONE only will be exclusively confined to the competition of the several classes of Members

The Medals are as follows:—

1. *A Silver Medal* for the best Essay descriptive of the QUADRUPEDS of BRITISH NORTH AMERICA, their generic and specific characters, their modes of life and the uses to which they can be applied.—This Essay to be open to general competition.

2. *A Silver Medal* for the best Essay descriptive of the PLANTS indigenous to the CANADAS, their generic and specific characters, their habitats, and their uses, medical and economical. This Essay to be open to the competition of the Honorary, Corresponding and Ordinary Members of the Society, resident in the BRITISH NORTH AMERICAN PROVINCES, *only*.

3. *A Silver Medal* for the best Essay on any branch of general Literature, the particular subject thereof to be chosen by the respective authors. This Essay to be open to general competition.

The Society being anxious to encourage general talent, imposes no restriction as to the qualification of competitors for the Medals, further than that they shall be resident or usually so, of some one of the BRITISH NORTH AMERICAN PROVINCES, nor to the language in which the Essays are to be written.

The Essays intended for the competition are to be transmitted to, and received by A. F. HOLMES, Esq., M. D. Corresponding Secretary of the Society, on or before the 20th day of February, 1830, accompanied by a sealed note containing the name of the author, and a motto similar to one to be inscribed at the commencement of the Essay. The Essays which do not obtain the prize will, if required, be returned with their accompanying notes unopened to any designated address. The Society also reserves to itself the right of retaining the successful Essays, as well as the power of refusing any of the Medals, should none of the Essays be deemed, in the opinion of the Judges to be appointed worthy of it.

The Committee of Judges to whom the Essays will be referred will be appointed at the Monthly Meeting of the Society in February 1830, and will be composed of Members of the Society and of other individuals residents of Montreal distinguished for their literary and scientific acquirements, and the Society would recommend competitors resident in Montreal, and whose hand-writing might possibly be familiar to the Judges to be appointed, to procure the assistance of some friend to copy the Essay intended for competition, in order that not even the slightest grounds for supposed partiality may exist.

The Medals will be presented to the successful candidates or to their authorised representatives at the Annual Meeting of the Society on the 13th May, 1830.

CHURCH MUSIC.

TO be published by subscription, a selection of SACRED MUSIC, arranged in Parts for two, three, and four voices, as sung in the congregations of the United Church of England and Ireland; chiefly designed for the use of the members of that Church in the Province of Upper Canada, and adapted to every measure in the new version of the Psalms; with an Introduction to the art of Singing, and an Appendix containing a great variety of favorite Hymn Tunes, and Anthems,—also in Parts—which are used by various other denominations of Protestant Christians.

BY A DAVIDSON,
Professor of Sacred Music.

"The Church triumphant, and the Church below,
In songs of praise their present union shew;
Their joys are full, our expectation long:
In life we differ, but we join in song.
Angels and we, assisted by this art,
May sing together, though we dwell apart."

☞ The above work, in which most of the Psalms suited to public worship are set to music, with a view to their distinct nature as being expressive of joy, sorrow, &c.—will appear as soon as possible after a sufficient number of subscribers is procured, to afford each copy at 5s. Clergymen, and other gentlemen of every denomination, who may be convinced of the importance of the undertaking, not only in reference to singing associations, but especially to the proper performance of an essential part of Divine Worship, are respectfully solicited to procure and forward subscribers. And as this will necessarily be attended with some trouble and expense, such will be entitled to a copy for every ten good subscribers forwarded free of postage, to A. DAVIDSON, Port Hope, or the Rev. A. N. BETHUNE, Rector of Cobourg.

Port-Hope, Newcastle District, March 9, 1829. } x 6

THE Subscriber most respectfully informs his friends and the public throughout UPPER and LOWER CANADA, that he has taken that excellent and old established house (fronting on the ST. LAWRENCE,) well known as CLAMP'S COFFEE HOUSE, of which he will enter into possession early in May.—The accommodations which this House affords are equal to any in MONTREAL, and are too well known to need remark. He intends to fit up the house with the utmost attention, to comfort, accommodation, neatness and style. He promises that his House will at all times be supplied with the best PROVISIONS, which the Markets afford, and the WINES and LIQUORS will be of the choicest description that can be procured. *Good Stabling* is attached to the premises. He hopes therefore, by a diligent and unremitted attention to his guests, to give general satisfaction, and to merit and receive a liberal share of the public patronage.

ADELPHI HOTEL,
10, BROADWAY, NEW-YORK.

MR. JOHN FORD, respectfully announces to his friends and the public, he has taken this establishment, in connection with the UNITED STATES HOTEL, at *Saratoga Springs.*

The Adelphi is a house already distinguished as a house of select resort, and has been considerably enlarged this Spring.—Its delightful situation commands a beautiful view of the Bay of New-York—the adjacent shores of Long Island—New Jersey, and the walks of the Battery, in its immediate vicinity.

Passengers in the London, Liverpool and Havre Packets will find the Establishment peculiarly convenient, agreeable, and contiguous to the Steam-Boats proceeding in all directions from the City.

The distinction between this and other Hotels in New-York, is attributable to the circumstance of having a number of Parlours on the European plan, where Gentlemen and Families have the option of enjoying the retirement of a private Table, or partaking the accommodation of a very limited *Table D'Hote.*—Conveniencies, combined with strict order and attention in the interior economy of the Establishment, which it is hoped, are calculated to obtain general approbation.

☞ *The United States Hotel at Saratoga Springs, re-opens on the twentieth of this month, where Mr. Ford will contribute his best exertions for the comfort of his guests during the Season.*

UNDER THE PATRONAGE OF THE LORD BISHOP OF QUEBEC.

CHURCH MUSIC.

TO be published by subscription, a selection of SACRED MUSIC, arranged in Parts for two, three, and four voices, as sung in the congregations of the United Church of England and Ireland; chiefly designed for the use of the members of that Church in the Province of Upper Canada, and adapted to every measure in the new version of the Psalms; with an Introduction to the art of Singing, and an Appendix containing a great variety of favorite Hymn Tunes, and Anthems,—also in Parts—which are used by various other denominations of Protestant Christians.

BY A DAVIDSON,
Professor of Sacred Music.

"The Church triumphant, and the Church below,
In songs of praise their present union shew;
Their joys are full, our expectation long;
In life we differ, but we join in song.
Angels and we, assisted by this art,
May sing together, though we dwell apart."

☞ The above work, in which most of the Psalms suited to public worship are set to music, with a view to their distinct nature as being expressive of joy, sorrow, &c.—will appear as soon as possible after a sufficient number of subscribers is procured, to afford each copy at 5s. Clergymen, and other gentlemen of every denomination, who may be convinced of the importance of the undertaking, not only in reference to singing associations, but especially to the proper performance of an essential part of Divine Worship, are respectfully solicited to procure and forward subscribers. And as this will necessarily be attended with some trouble and expense, such will be entitled to a copy for every ten good subscribers forwarded free of postage, to A. DAVIDSON, Port Hope, or the Rev. A. N. BETHUNE, Rector of Cobourg.

WESTERN DISTRICT.

WHEREAS by an Act of the Parliament of this Province, passed in the sixth year of His Majesty's Reign, entitled "An Act to amend and make permanent a certain Act of the Parliament of this Province, passed in the fifty-ninth year of the Reign of His late Majesty King George the Third, entitled "An Act to repeal the several laws now in force relative to levying and collecting Rates and Assessments in this Province, and further to provide for the more equal and general Assessment of Lands and other Rateable Property throughout this Province," and to render more effectual the several Laws of this Province imposing Rates and Assessments, by providing, under certain restrictions, for the levying such Rates and Assessments by the sale of a portion of the Lands on which the same is charged,"—the Treasurer is required to publish a list of the Lots or Parcels of Land upon which the Rates and Assessments or any part thereof shall have been in arrear for the space of eight years.

NOTICE is therefore hereby given, that the following Lots or Parcels of Land have been returned by the undersigned, Treasurer of the Western District, as liable to sale for arrears of Assessment.

Drawing Master—MR. DRURY.

The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observation, or from the representation of the Masters.

The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.

It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.

Drawing will be taught at the option of the Parents.

A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.

The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.

In each Establishment Books will be provided at the expense of the Pupils.

The management of the affairs of the College will be vested in the Directors and Trustees, who will also regulate its financial concerns, and receive all dues for Tuition.

The Vacations will be ten days at Christmas, and six weeks in the Summer, from the middle of August to the end of September, with a few occasional Holidays. All the Masters will be allowed to take Boarders.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

Secretary to the Board of Education.

The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observation, or from the representation of the Masters.

The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.

It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.

Drawing will be taught at the option of the Parents.

A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.

The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.

In each Establishment Books will be provided at the expense of the Pupils.

The management of the affairs of the College will be vested in the Directors and Trustees, who will also regulate its financial concerns, and receive all dues for Tuition.

The Vacations will be ten days at Christmas, and six weeks in the Summer, from the middle of August to the end of September, with a few occasional Holidays. All the Masters will be allowed to take Boarders.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

Secretary to the Board of Education.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising

Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

THE Annual Meeting of the Society for the relief of the Sick and Destitute, was held in the Grand Jury Room, on Tuesday, the 1st day of December 1829.

The Hon. William Allan, one of the Vice Presidents, was requested to take the chair, when the Secretary made the following statement to the Meeting:

The objects and proceedings of this society being now so generally known and well understood, it has not been deemed necessary to make any other report to this Meeting than the accounts of the treasurer, which show the amount collected during the year, and how the same has been expended, agreeably to the directions of the several committees and officers appointed under the revised constitution of last year.

The sums subscribed and collected amount to £192 6 0, and the sum expended is £201 0s 4d, being £8 14 4 more than the amount received within the year, and which balance the Treasurer has advanced.

On motion made and seconded, it was resolved, that Messrs Ketchum and Bergin, be appointed a committee, to examine the Accounts of the Treasurer and to report thereon.

The treasurer reported that there remained in the charge of the Issuer 392 pounds of Flour.

The following Resolutions were then put and carried:

Resolved—That the thanks of the Society be given to the President and Vice Presidents for their services during the last year, and that they be requested to continue in office for the next year.

Resolved—That the thanks of the society be given to Mr. Coulson, the clerk of the Market, for the valuable services which he has performed in purchasing and issuing the Provisions ordered by the society.

The President then acquainted the meeting, that the Secretary of the Lieut. Governor, had called and stated to him, that His Excellency was prevented by business from attending the meeting, which he regretted, as he felt much interested in the success of the Society's exertions, and requested they would proceed in the business of the day without waiting for him.

It was then resolved that the following Members be added to the managing committee for the ensuing year, viz:

Messrs Sheriff Jarvis, " S. P. Jarvis, } For Sept.
The Hon. P. Robinson,
Messrs Ewart, " Fitz Gibbon, } For Oct.
" Mosley,

At a meeting of the committee of management, on Monday, the 7th December, it was—

Resolved—That a list of the members of the Society be given into the Treasurer, and that he be requested to take measures, to have the Subscriptions for the present year collected.

The committee directed that the following Memorandum, should be published with the foregoing proceedings.

The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observation, or from the representation of the Masters.

The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.

It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.

Drawing will be taught at the option of the Parents.

A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.

The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but it is hoped practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

GEO. H. MARKLAND,
Secretary to the Board of Education.

*** The Principal will be ready to receive Boarders (to a limited extent only, until his residence in the College is completed,) at the opening of the College on the 4th of January.

The objects and proceedings of this society being now so generally known and well understood, it has not been deemed necessary to make any other report to this Meeting than the accounts of the treasurer, which show the amount collected during the year, and how the same has been expended, agreeably to the directions of the several committees and officers appointed under the revised constitution of last year.

The sums subscribed and collected amount to £192 6 0, and the sum expended is £201 0s 4d, being £8 14 4 more than the amount received within the year, and which balance the Treasurer has advanced.

On motion made and seconded, it was resolved, that Messrs Ketchum and Bergin, be appointed a committee, to examine the Accounts of the Treasurer and to report thereon.

The committee reported that the Accounts were correct, leaving a Balance due to the treasurer of £8 14s 4d.

The treasurer reported that there remained in the charge of the Issuer 392 pounds of Flour.

The following Resolutions were then put and carried:

Resolved—That the thanks of the Society be given to the President and Vice Presidents, for their services during the last year, and that they be requested to continue in office for the next year.

Resolved—That the thanks of the Society be given to the Treasurer and Secretary, and that they be requested to continue in office for the next year.

The Secretary having been in office for eight years, requested leave to retire, which was granted, and it was

Resolved—That Alexander Wood, Esquire, be requested to accept the office of Secretary, for the next year.

Resolved—That the thanks of the society be given to the Medical Gentlemen of the town, who continue unremittingly their usual attentions to the sick.

Resolved—That the thanks of the society be given to the Masters of the several Steam Boats, for having given many passages gratis to poor people on the recommendation of the officers of the Society.

Resolved—That the thanks of the society be given to Mr. Coulson, the clerk of the Market, for the valuable services which he has performed in purchasing and issuing the Provisions ordered by the society.

The President then acquainted the meeting, that the Secretary of the Lieut. Governor, had called and stated to him, that His Excellency was prevented by business from attending the meeting, which he regretted, as he felt much interested in the success of the Society's exertions, and requested they would proceed in the business of the day without waiting for him.

It was then resolved that the following Members be added to the managing committee for the ensuing year, viz:

Messrs Sheriff Jarvis, " S. P. Jarvis,	For Sept.
The Hon. P. Robinson, Messrs Ewart, " Fitz Gibbon, " Mosley,	For Oct.
Messrs Proudfoot, " John Monro, " Atkinson.	For Nov.

On the Chairman leaving the chair, it was taken by the Hon. Col. Wells, when the thanks were voted to the chairman, and the meeting adjourned.

JAMES FITZ GIBBON, *Secretary*

At a meeting of the committee of management, on Monday, the 7th December, it was—

Resolved—That a list of the members of the Society be given into the Treasurer, and that he be requested to take measures, to have the Subscriptions for the present year collected.

The committee directed that the following Memorandum, should be published with the foregoing proceedings.

The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observation, or from the representation of the Masters.

The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.

It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.

Drawing will be taught at the option of the Parents.

A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.

The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.

In each Establishment Books will be provided at the expense of the Pupils.

The management of the affairs of the College will be vested in the Directors and Trustees, who will also regulate its financial concerns, and receive all dues for Tuition.

The Vacations will be ten days at Christmas, and six weeks in the Summer, from the middle of August to the end of September, with a few occasional Holidays. All the Masters will be allowed to take Boarders.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

GEO. H. MARKLAND,
Secretary to the Board of Education.

*** The Principal will be ready to receive Boarders (to a limited extent only, until his residence in the College is completed,) at the opening of the College on the 4th of January.

Upper Canada Gazette,

EXTRAORDINARY.

YORK, UPPER CANADA, FRIDAY, JANUARY 8, 1830.

By Authority.

YORK, Friday, January 8th, 1830.

This day at Two o'clock, HIS EXCELLENCY THE LIEUTENANT GOVERNOR proceeded in the usual State, from the Government House, to the Chamber of the Honorable the Legislative Council, where being arrived and seated on the Throne, the Gentleman Usher of the Black Rod was sent with a Message from His Excellency to the House of Assembly, commanding their attendance.—The Members present being come up accordingly, His Excellency was pleased to open the Session of the Legislature, with the following

SPEECH:

Honorable Gentlemen of the Legislative Council, and
Gentlemen of the House of Assembly,

You are again convened for the despatch of Public Business; and it will be gratifying to to give effect to the measures, which, from your general and local knowledge of the Colony, may be proposed as conducive to the welfare and prosperity of the people.

The activity and industry of the Agriculturists in all parts of the Province; their efforts to unlock the Country, and reach the Lakes with their surplus Produce; the successful Culture introduced in the Western Townships; point out the profitable result that may be anticipated from affording proper encouragement to this individual exertion and labor.

Fortunately the difference of situation of several Districts has been equalized by the opening of the Welland Canal: the extension of it to the Grand River will complete this first great Provincial enterprize; and will require your immediate support and protection.

These improvements must naturally lead your attention to the St. Lawrence, and to the manifest advantages that may be derived from perfecting the Navigation in that quarter.

Gentlemen of the House of Assembly,

I have directed a statement of the Revenue and expenditure of the last year to be laid before you, with the estimate of supplies for the current year.

From the accounts you will perceive, that in consequence of the favorable returns of the duties levied under the Statute of the 14th Geo. 3rd, the expense of the administration of Justice, and of that part of the Civil Establishment, not provided for by His Majesty's Government, or by the annual vote of the Imperial Parliament, has been defrayed entirely from those proceeds; and that a considerable balance accruing from the excess of former estimates beyond the expenditure, remains at the disposal of the Legislature.

The necessity of reforming the Royal Grammar School, was evident from your Report at the close of the last Session.

In establishing a College at York, under the guidance of able Masters, the object which we have in view, will, I trust, be speedily attained.

The delay that may take place in revising the Charter of the University; or in framing one suitable to the Province and to the intention of the Endowment, must, in fact, under present circumstances, tend to the advancement of the Institution: as its use depended on the actual state of education in the Province.

Dispersed as the population is, over an extensive Territory, a general efficiency in the Common Schools cannot be expected; particularly whilst the Salaries of the Masters will not admit, of their devoting their whole time to their profession.

Honorable Gentlemen and Gentlemen,

The King's pleasure on the Bills reserved has not yet been communicated to me.

I recommend you to examine the Acts that may be about to expire.

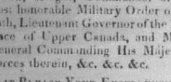
Your attention will also be drawn to another subject of importance; the exposure of property, and the facility of depredation in certain Districts, and the frequent cases of Capital Convictions, where, through the dispensing power of the Crown, it is thought advisable to arrest the Sentence of the Law, notwithstanding the evils that may arise from repeated mitigation, without a system of secondary punishment, or any means of disposing of offenders.

With regard to the questions submitted to His Majesty's Government; whatever difficulties may have occurred in determining them, or in reconciling the respective interests with which they are connected, the diligent investigation through which they are passing evinces the earnest desire of His Majesty that this portion of His dominions should reap the full benefit of good Laws and free Institutions.

VOL. 6. NO. 36.

Upper Canada Gazette.

YORK, UPPER CANADA, THURSDAY, JANUARY 14, 1830.



BY AUTHORITY.

GOVERNMENT HOUSE, *York, 30th Dec.* 1829.

THE KING has been graciously pleased, by Letters Patent under the Great Seal of this Province, to summon to the Legislative Council, JOHN BEVERLY ROBINSON, ESQUIRE.

GOVERNMENT HOUSE, *York, 1st Jan'y.* 1830.

HIS EXCELLENCY the LIEUTENANT GOVERNOR has been pleased to appoint, by Letters Patent under the Great Seal, THE HONORABLE JOHN BEVERLY ROBINSON to be SPEAKER of the Honorable the Legislative Council.

TO HIS EXCELLENCY SIR JOHN COLBORNE, Knight, Commander of the most honorable Military Order of the Bath, Lieutenant Governor of the Province of Upper Canada, and Major General Commanding His Majesty's Forces therein, &c. &c. &c.

MAY IT PLEASE YOUR EXCELLENCY,

WE, His Majesty's Most Dutiful and Loyal Subjects, the Legislative Council of Upper Canada, in Provincial Parliament assembled, return our most respectful thanks for Your Excellency's Speech from the Throne.

It is pleasing to us to be assured that, it will be gratifying to Your Excellency to give effect to such measures for the advancement of the welfare and prosperity of the people, as our general and local knowledge of the Colony may suggest.

We most readily concur in the opinion expressed by Your Excellency that, the activity and industry of the Agriculturists in all parts of the Province; their efforts to unlock the Country and reach the Lakes with their surplus produce, and the successful Culture introduced in the Western Townships, point out the profitable results that may be anticipated from affording proper encouragement to such individual exertion and labour.

We rejoice that the difference of situation of the several Districts has been fortunately equalized by the opening of the Welland Canal, and most cordially agree with Your Excellency that its extension to the Grand River in order to complete this the first great Provincial enterprise, requires our immediate support and protection.

Nor shall we neglect to avail ourselves of Your Excellency's wise recommendation to direct our attention to the improvements which may be made in the River St. Lawrence, and the manifest advantages that may be derived from perfecting its Navigation.

We shall wait with deference for the signification of His Majesty's pleasure on the Bills reserved at the close of the last Session, and which has not yet been communicated to Your Excellency.

The recommendation of Your Excellency to examine the Acts about to expire will command our early attention.

We are deeply sensible that, the exposure of property and the facility of depredation in certain Districts requires a system of secondary punishment, or some means of disposing of offenders, since the frequent cases of capital convictions in the present state of things, render it advisable to arrest the sentence of the Law by the despensing power of the Crown, notwithstanding the evils that may arise from repeated mitigation, and to this important subject we shall give our best consideration.

It is gratifying as well as interesting for us to learn that, the questions submitted to His Majesty's Government whatever difficulties may have occurred in determining them, or in reconciling the respective interests with which they are connected, are passing through a diligent investigation, as it evinces the earnest desire of His Majesty that this portion of His Dominions should reap the full benefit of good Laws and free Institutions.

Drawing Master—MR. DRURY.

The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observation, or from the representation of the Masters.

The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.

It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.

Drawing will be taught at the option of the Parents.

A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.

The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.

In each Establishment Books will be provided at the expense of the Pupils.

The management of the affairs of the College will be vested in the Directors and Trustees, who will also regulate its financial concerns, and receive all dues for Tuition.

The Vacations will be ten days at Christmas, and six weeks in the Summer, from the middle of August to the end of September, with a few occasional Holidays. All the Masters will be allowed to take Boarders.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

GEO. H. MARKLAND,
Secretary to the Board of Education.

*** The Principal will be ready to receive Boarders (to a limited extent only, until his residence in the College is completed,) at the opening of the College on the 4th of January.

TERMS.

YORK, UPPER CANADA, THURSDAY, JANUARY 21, 1830.

BY AUTHORITY.

GOVERNMENT HOUSE, }
York, 6th Jan'y. 1830. }

THE undermentioned Gentlemen having received Certificates from the Medical Board of this Province, of qualification to practice Physic, Surgery, and Midwifery, HIS EXCELLENCY THE LIEUTENANT GOVERNOR has been pleased to grant them Licences accordingly, viz.—*Benjamin Walton,* of Bolleville, in the Midland District—*John Warner Leonard,* of Sidney, in the Midland District, and *William Rees,* of York, in the Home District.

TO HIS EXCELLENCY SIR JOHN COLBORNE, Knight, Commander of the most honorable Military Order of the Bath, Lieutenant Governor of the Province of Upper Canada, and Major General Commanding His Majesty's Forces therein, &c. &c. &c.

MAY IT PLEASE YOUR EXCELLENCY,

WE, His Majesty's Dutiful and Loyal Subjects, the Commons of Upper Canada, in Provincial Parliament assembled, humbly thank Your Excellency for your Gracious Speech from the Throne, at the opening of the present Session.

Convened again in Provincial Parliament, we shall devote ourselves to the despatch of public business, and feel assured it will be gratifying to Your Excellency to give effect to those measures which will be conducive to the welfare and prosperity of the people.

We concur in the sentiment expressed by Your Excellency, that the activity and industry of the Agriculturists in all parts of the Province, and the general improvement of the Country from the labour they have bestowed upon it under all the difficulties and privations inseparable from the settlement of a new Colony, present the strongest claims upon the Legislature to afford every proper encouragement to their exertions, and every facility in our power for the exportation of their surplus produce.

We will take into our consideration the present state of the Welland Canal, which Your Excellency has recommended to our immediate support and protection. We shall be happy to find the favourable expectations of Your Excellency respecting it fully realised; and when our constitutional right over the resources of the country shall be practically recognized, our attention can be wisely and effectually directed to the important public improvements mentioned by Your Excellency: improvements which are both desired and deserved by the people.

We will carefully examine the statement of the revenue and expenditure of the last year, with the estimate of supplies for the current year, which Your Excellency may cause to be laid before us. Whatever sums may at any time be found disposable after we have provided for the proper support of His Majesty's Government, we shall anxiously devote to objects of public improvement. But we cannot advert to the subject of the duties levied under the 14th Geo. 3rd, and to the general resources of the country, without respectfully repeating to Your Excellency our conviction that the unqualified recognition of our constitutional right over all monies raised in, or to and for the uses of this Province, can alone secure to us our due weight in the Constitution, and enable us to realize the many and urgent objects of public improvement without unnecessarily increasing the burdens of the people.

We do not doubt the necessity which existed upon the accession of Your Excellency to the Government for the reformation of the Royal Grammar School, and we shall derive much gratification from the renewal of the enquiries we last Session instituted into the state of Education, upon finding that the reformation mentioned by Your Excellency is grounded upon those equal rights and liberal principles which we so earnestly pressed upon Your Excellency's attention. Without the faithful observance of those equal rights and liberal principles as a foundation, and the stability of that foundation duly secured against the varying policy of different administrations, we cannot but regard such Institutions as threatening to entail, under the appearance of some present good, those exclusive and dominant establishments which have perpetuated so much unhappiness in European Nations, and the introduction of which into this country the people are wisely most solicitous to avert.

We are glad to find that Your Excellency still anticipates a modification of the Charter of King's College, which as at present constituted is undeserving of public patronage, and likely to foment sectarian jealousies, and prove equally injurious to the purity of our Religion, and to the liberties of the people.

While we are willing to support a College for instruction in the professions and in the higher branches of science, we feel it to be a primary and more imperative duty to provide for the general extension of the means of education among the people in every Township.—But we concur with the opinion expressed by your Excellency, that dispersed as the population is over an extensive Territory, a general efficiency in the Common Schools cannot be expected, particularly while the public Salaries of the Masters and the small remuneration which their patrons in the present condition of the country can afford to give, will not admit of their devoting their whole time to their useful calling. From these considerations we feel the increased necessity and duty of securing besides the sum already provided by Law, a more equal and just distribution of the proceeds arising from the Lands reserved for education, from which resources the people have hitherto derived no advantage.

We regret that the King's pleasure on the Bills reserved, has not yet been communicated to your Excellency.

We will follow your Excellency's recommendation to examine the Acts that may be about to expire.

We will direct our attention to all the subjects recommended by your Excellency, particularly the exposure of property, and the facility of depredations in certain Districts, the frequent cases of capital convictions, where, through the dispensing power of the Crown, it is thought advisable to arrest the sentence of the Law, notwithstanding the evils that may arise from repeated mitigation, without a system of secondary punishment or any means of disposing of offenders.

With regard to the questions submitted to His Majesty's Government, whatever difficulties may have occurred in determining them, or in reconciling the respective interests with which they are connected, we are happy to learn from your Excellency that the diligent investigation through which they are passing, is likely to evince the earnest desire of His Majesty, that this portion of His Dominions shall reap the full benefit of good Laws and free Institutions.

We respectfully refer Your Excellency to our Journals of last Session, from which Your Excellency will find that we bestowed important consideration on the subject of Education, and transmitted to the Legislative Council, a Bill, granting Thirteen Thousand Six Hundred and Fifty Pounds, for the improvement of the Highways. Your Excellency will also find, that we were engaged in the trial of a Contested Election for the Town of York, which duty was imposed by Law, and unavoidably occupied a large portion of our time.

We were, therefore, obliged at the close of our Session, the duration of which is not in our power, to press upon Your Excellency our proceedings relating to the important subjects of Finance, Education and Religious Liberty; subjects, which from the assiduity of those hostile to our Interest, did not properly admit of further delay.

We still feel unabated solicitude about the Administration of Public Justice, and entertain a settled conviction, that the continuance about Your Excellency of those advisers who from the unhappy policy they pursued in the late Administration, have long deservedly lost the confidence of the Country, is highly inexpedient, and calculated seriously to weaken the expectations of the People, from the impartial and disinterested Justice of His Majesty's Government.

We beg leave most respectfully to assure Your Excellency of our desire, as far as is in our power, to second Your Excellency's personal disposition to promote the interests of the country.

Speaker.

English, Writing and Arithmetic, } Mr. G. A. Barber, Mr. J. Padfield.
Drawing Master—Mr. Drury.

The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observation, or from the representation of the Masters.

The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.

It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.

Drawing will be taught at the option of the Parents.

A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.

The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.

In each Establishment Books will be provided at the expense of the Pupils.

The management of the affairs of the College will be vested in the Directors and Trustees, who will also regulate its financial concerns, and receive all dues for Tuition.

The Vacations will be ten days at Christmas, and six weeks in the Summer, from the middle of August to the end of September, with a few occasio. l Holidays. All the Masters will be allowed to take Boarders.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

GEO. H. MARKLAND,
Secretary to the Board of Education.

*** The Principal will be ready to receive Boarders (to a limited extent only, until his residence in the College is completed,) at the opening of the College on the 4th of January.

TERMS.

£11 5s per quarter, including all necessary expenses of Board and Tuition, except Books—There will be an additional charge for those Pupils who learn Drawing.

HALF-PAY AFFIDAVITS, in the latest form for Sale at the Gazette Office

PARCHMENT DEEDS, *with and without Bar of Dower*, for sale at the Gazette Office, York.

The Courier, OF *UPPER CANADA.*

THE EDITOR of the late GORE GAZETTE proposes to publish, immediately, in the Town of YORK, a Weekly Newspaper under the above title.

The COURIER will be literally and emphatically, an *independent* BRITISH Newspaper. It will support the Colonial Government, so long as that Government shall be administered conformably to the benignant spirit of the British Constitution: and it will do so from the most perfect conviction, acquired from experience, and more strongly confirmed by every additional day's observation, that human ingenuity has not yet succeeded in devising any other system of Government, which is equally calculated to secure the *permanent* enjoyment of rational freedom, or to promote the true interests of mankind.—But as the COURIER will be entirely exempt from all extraneous influence, it will, just as freely, and just as fearlessly, criticise or condemn every measure of that Government, which it may deem either impolitic, or incompatible with the public welfare.

It will be unnecessary further to explain the character of the new Publication, than to say, that it will be conducted upon the plan of the late GORE GAZETTE, so far as that plan is applicable to the change of place and of circumstances. And the Editor of that Paper would here avail himself of the opportunity to remark, that he commenced the publication of the GORE GAZETTE with the determination to rely, for the support of the political doctrines which he advocated, upon reason and argument alone; and not to descend to what is usually denominated "Personalities;" and it was not until a late stage of the existence of that Paper, under entirely new circumstances, when a new class of persons appeared upon the political arena of the Province, whose plans he conceived to be fraught with the most dangerous consequences to the very existence of our Institutions; and, who were of that peculiar *caste* of our species who are not accessible to argument, or rational disquisition; that he was induced, in some measure to deviate from his original intention. His experience had taught him that, to employ the weapons of reason and argument against men who had levelled all distinction between truth and falsehood—the good and the bad—would be like "firing over the heads of his opponents;" and that if he would counteract their plots for undermining our constitutional fortress, he had no other choice but to descend (or rather to allow some of his contributors to descend) into their own arena—to contend with them upon their own ground, and with their own weapons. How far the choice was judicious, or the result efficacious, he must leave the public to decide; and the explanation is only now made, as a justification, or at least an apology, for that deviation from the original determination of the Editor, which was repulsive to his own taste, and which may have been so to that of his more refined readers.

Claiming for himself that right of judging of, and freely canvassing, the conduct and measures of all Public men, which is the *birthright* of an Englishman; he cannot have the presumption to dispute the right of every other British Subject to exercise a similar privilege:—and he will, therefore, feel it to be his duty, as Editor of the COURIER, to treat the public conduct of every person, who may honestly differ from him in opinion, with that courtesy and respect, which he could desire to be awarded to his own. But, toward those public individuals who *manifestly* aim at the subversion of our present political and religious institutions, for the sole purpose of advancing their own individual aggrandisement, or of gratifying their own personal resentments toward their more (deservedly) successful rivals, he will certainly not feel himself called upon to extend a similar courtesy.

The very serious losses, and consequent pecuniary difficulties, to which the Editor subjected himself, from the almost unlimited credit which was given in the Gore Gazette establishment, render it incumbent on him, as a measure alike of prudence and necessity, to make it an indispensable condition, that Subscriptions to the COURIER should be *paid in advance.* And he humbly conveives, that every reasonable and considerate individual, will admit that the cause assigned, is a sufficient justification of the condition annexed.

The first number of the COURIER will be published on *Saturday* the twentieth February. In the interim, the Editor begs leave, most respectfully, to solicit the public patronage.

Price, per annum, ONE POUND, and when sent by Mail, the Postage, [4s.] is added.

MR. J. PADFIELD.
Drawing Master—MR. DRURY.

The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observation, or from the representation of the Masters.

The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.

It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.

Drawing will be taught at the option of the Parents.

A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.

The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.

In each Establishment Books will be provided at the expense of the Pupils.

The management of the affairs of the College will be vested in the Directors and Trustees, who will also regulate its financial concerns, and receive all dues for Tuition.

The Vacations will be ten days at Christmas, and six weeks in the Summer, from the middle of August to the end of September, with a few occasional Holidays. All the Masters will be allowed to take Boarders.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

GEO. H. MARKLAND,
Secretary to the Board of Education.

*** The Principal will be ready to receive Boarders (to a limited extent only, until his residence in the College is completed,) at the opening of the College on the 4th of January.

TERMS.

HALF-PAY AFFIDAVITS, *of the latest form for Sale at the Gazette Office.*

PARCHMENT DEEDS, *with and without Bar of Dower*, for sale at the GAZETTE OFFICE, York.

The Courier,
OF
UPPER CANADA.

THE EDITOR of the late GORE GAZETTE proposes to publish, immediately, in the Town of YORK, a Weekly Newspaper under the above title.

The COURIER will be literally and emphatically, an *independent* BRITISH Newspaper. It will support the Colonial Government, so long as that Government shall be administered conformably to the benignant spirit of the British Constitution: and it will do so from the most perfect conviction, acquired from experience, and more strongly confirmed by every additional day's observation, that human ingenuity has not yet succeeded in devising any other system of Government, which is equally calculated to secure the *permanent* enjoyment of rational freedom, or to promote the true interests of mankind.—But as the COURIER will be entirely exempt from all extraneous influence, it will, just as freely, and just as fearlessly, criticise or condemn every measure of that Government, which it may deem either impolitic, or incompatible with the public welfare.

It will be unnecessary further to explain the character of the new Publication, than to say, that it will be conducted upon the plan of the late GORE GAZETTE, so far as that plan is applicable to the change of place and of circumstances. And the Editor of that Paper would here avail himself of the opportunity to remark, that he commenced the publication of the GORE GAZETTE with the determination to rely, for the support of the political doctrines which he advocated, upon reason and argument alone; and not to descend to what is usually denominated "Personalities;" and it was not until a late stage of the existence of that Paper, under entirely new circumstances, when a new class of persons appeared upon the political arena of the Province, whose plans he conceived to be fraught with the most dangerous consequences to the very existence of our Institutions; and who were of that peculiar *caste* of our species who are not accessible to argument, or rational disquisition; that he was induced, in some measure to deviate from his original intention. His experience had taught him that, to employ the weapons of reason and argument against men who had levelled all distinction between truth and falsehood—the good and the bad—would be like "firing over the heads of his opponents;" and that if he would counteract their plots for undermining our constitutional fortress, he had no other choice but to descend (or rather to allow some of his contributors to descend) into their own arena—to contend with them upon their own ground, and with their own weapons. How far the choice was judicious, or the result efficacious, he must leave the public to decide; and the explanation is only now made, as a justification, or at least an apology, for that deviation from the original determination of the Editor, which was repulsive to his own taste, and which may have been so to that of his more refined readers.

Claiming for himself that right of

judging of, and freely canvassing, the conduct and measures of all Public men, which is the *birthright* of an Englishman; he cannot have the presumption to dispute the right of every other British Subject to exercise a similar privilege:—and he will, therefore, feel it to be his duty, as Editor of the COURIER, to treat the public conduct of every person, who may honestly differ from him in opinion, with that courtesy and respect, which he could desire to be awarded to his own. But, toward those public individuals who *manifestly* aim at the subversion of our present political and religious institutions, for the sole purpose of advancing their own individual aggrandisement, or of gratifying their own personal resentments toward their more (deservedly) successful rivals, he will certainly not feel himself called upon to extend a similar courtesy.

The very serious losses, and consequent pecuniary difficulties, to which the Editor subjected himself, from the almost unlimited credit which was given in the Gore Gazette establishment, render it incumbent on him, as a measure alike of prudence and necessity, to make it an indispensable condition, that Subscriptions to the COURIER should be *paid in advance*. And he humbly conceives, that every reasonable and considerate individual, will admit that the cause assigned, is a sufficient justification of the condition annexed.

The first number of the COURIER will be published on *Saturday* the twentieth February. In the interim, the Editor begs leave, most respectfully, to solicit the public patronage.

Price, per annum, ONE POUND, and when sent by Mail, the Postage, [4*s*.] *is added.*

The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observations, or from the representation of the Masters.

The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.

It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.

Drawing will be taught at the option of the Parents.

A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.

The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.

In each Establishment Books will be provided at the expense of the Pupils.

The management of the affairs of the College will be vested in the Directors and Trustees, who will also regulate its financial concerns, and receive all dues for Tuition.

The Vacations will be ten days at Christmas, and six weeks in the Summer, from the middle of August to the end of September, with a few occasional Holidays. All the Masters will be allowed to take Boarders.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

GEO. H. MARKLAND,
Secretary to the Board of Education.

*** The Principal will be ready to receive Boarders (to a limited extent only, until his residence in the College is completed,) at the opening of the College on the 4th of January.

YORK, UPPER CANADA, SATURDAY MARCH 6, 1830.

By Authority.

York, U. C. March 6, 1830.

At Twelve o'clock this day, HIS EXCELLENCY the LIEUTENANT GOVERNOR, being seated on the Throne in the Legislative Council Chamber, and the House of Assembly being present, HIS EXCELLENCY, was pleased to Prorogue the present Session with the following

SPEECH:

Honorable Gentlemen of the Legislative Council, and
Gentlemen of the House of Assembly.

The assiduity with which the Public business of this Session has been transacted, now enables me to relieve you from your Legislative duties.

Among the Bills passed, there are none which can afford more general satisfaction than those which secure the long expected remuneration for War Losses; the repair of Roads; a convenient entrance to Burlington Bay; and the completion of the Welland Canal—a work as advantageous to the conjoint interests of the Province, as it is peculiarly favorable to the Agricultural and Commercial prosperity of some of your finest Districts.

I regret that the Bill for imposing an additional duty on Shop Licences, must be necessarily reserved for the signification of His Majesty's pleasure, the usual accounting Clause being omitted.

Gentlemen of the House of Assembly,

I thank you for the supplies which you have granted for the service of the Province, and for defraying the expense incurred in carrying on several public works.

Honorble Gentlemen, and Gentlemen.

We need only compare the actual state of the Province with its condition a few years since, to perceive how susceptible of rapid improvement it is, at this period, by a judicious application of the means at the command of the Legislature.

From your Individual exertions also, much benefit may be expected, by promoting measures to encourage in your respective Districts, Moral and Industrious habits: the sure path to that ease and independence, which every Settler in this productive Country can obtain, by his own activity and perseverance.

The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observation, or from the representation of the Masters.

The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.

It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.

Drawing will be taught at the option of the Parents.

A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.

The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.

In each Establishment Books will be provided at the expense of the Pupils.

The management of the affairs of the

College will be vested in the Directors and Trustees, who will also regulate its financial concerns, and receive all dues for Tuition.

The Vacations will be ten days at Christmas, and six weeks in the Summer, from the middle of August to the end of September, with a few occasional Holidays. All the Masters will be allowed to take Boarders.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensible, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

GEO. H. MARKLAND,
Secretary to the Board of Education.

*** The Principal will be ready to receive Boarders (to a limited extent only, until his residence in the College is completed,) at the opening of the College on the 4th of January.

TERMS.

YORK, UPPER CANADA, THURSDAY, MARCH 18, 1830.

BY AUTHORITY.

AN ACT to repeal and amend the Laws now in Force respecting the Limits of the respective Gaols in this Province.

[*Passed 6th March,* 1830.]

WHEREAS it is expedient to assign certain enlarged Limits to the several Gaols within this Province, in which Debtors may have the greater benefit of exercise and air, without subjecting the Sheriff, or other Officer in whose custody the Debtor may be, to any action at Law for an escape; and also, to render more efficient and summary the remedies to be continued on behalf of Creditors against any Debtor or Debtors availing themselves of the Provisions of this Act.—*Be it therefore enacted,* by the King's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Assembly of the Province of Upper Canada, Constituted and Assembled by virtue of and under the authority of an Act passed in the Parliament of Great Britain, entitled, "An Act to repeal certain parts of an Act passed in the fourteenth year of His Majesty's Reign, entitled, 'An Act for making more effectual provision for the Government of the Province of Quebec in North America, and to make further provision for the Government of the said Province,'" and by the authority of the same, That the whole of a certain Act, passed in the second year of the Reign of King George the Fourth, entitled, "An Act for assigning Limits to the respective Gaols in this Province, And also a certain other Act passed in the seventh year of the Reign of King George the Fourth, entitled, "An Act to continue and amend an Act passed in the second year of the Reign of King George the Fourth, entitled, "An Act for assigning Limits to the respective Gaols in this Province." And also a certain other Act passed in the eighth year of the Reign of King George the Fourth, entitled, "An Act to repeal part of, and amend the Law now in force assigning limits to Gaols in this Province." And also a certain other Act, passed in the eleventh year of His Majesty's Reign, and during the present Session of Parliament, entitled, "An Act to continue the Laws now in force for establishing Limits to the respective Gaols in this Province," be, and the same are hereby wholly repealed.

II. *And be it further enacted by the authority aforesaid,* That it shall and may be lawful for the Justices in General Quarter Sessions of the Peace assembled, in each and every District of this Province, other than the District of Niagara, and they are hereby authorized and required, at the first Session of the General Quarter Sessions of the Peace held after the passing of this Act, to assign and mark as Limits to the respective Gaols in each District of the Province, other than the District of Niagara, not more than sixteen Acres of ground, contiguous to the said Gaols, and that after the establishment of such limits, it shall and may be lawful for any Debtor or Debtors, confined or to be confined in such Gaols, to be and remain at any part or place within such Limits, without subjecting the Sheriff, or other Officer in whose custody such Debtor or Debtors may be, to any action or suit for any escape from such Gaol Limits. *Provided however,* That it shall not be incumbent upon such Sheriff, or other Officer, to allow any Debtor or Debtors the use and benefit of such Limits unless such Debtor or Debtors shall furnish good and satisfactory security that he, she, or they, shall not at any time, during his, her, or their confinement, go or remove beyond such established Limits. *Provided nevertheless,* That during such time as any Debtor in execution shall have the liberty of such Limits as aforesaid, such Debtor shall not be entitled to receive from the Plaintiff in the action, any weekly maintenance by reason of any Statute for the benefit of Insolvent Debtors.

III. *And whereas,* From the peculiar local situation of the Gaol of the District of Niagara, owing to the greater distance thereof from the Town, it is expedient that the area assigned as Limits thereto should be more extensive than to others—*Be it further enacted by the authority aforesaid,* That the Justices of the said District of Niagara, shall and may, in manner and form aforesaid, assign as Limits to the said Gaol, any extent of ground not exceeding twenty-six Acres.

IV. *And be it further enacted by the authority aforesaid,* That if any Debtor or Debtors, who may be confined in any Gaol within this Province, and who may have given security to entitle himself, herself, or themselves, to the benefit of such Limits, shall withdraw or depart from or out of the said Limits, it shall and may be lawful for the Sheriff, or other Officer, from whose custody such Debtor or Debtors may so withdraw, to sue for and recover from the prisoner, or person or persons giving such security, or either of them, such sum or sums of money as such Debtor or Debtors may have been confined for in such Gaol or Limits, together with all such costs and damages as he may have sustained by reason of such Debtor or Debtors withdrawing from and out of the said Limits.

V. *And be it further enacted by the authority aforesaid,* That the Sheriff, or other Officer, on such Debtor or Debtors so withdrawing or departing, shall be bound to assign over the Security to the Plaintiff, if required by him, and that the Sheriff, upon so doing, shall be discharged from any claim the Plaintiff may have on him the said Sheriff, for or on account of such Debtor or Debtors.

VI. *And be it further enacted by the authority aforesaid,* That this Act shall not extend, or be construed to extend, to any person or persons confined for debt, who may at the same time be in custody for any criminal charge.

VII. *And be it further enacted by the authority aforesaid,* That upon such assignment of the security to the Plaintiff, or his legal Representatives, he, she or they may, as Assignee or Assignees, sue therefore, in his, her, or their own name; and that it shall not be in the power of the Sheriff, in whose name such security was taken, to release such action.

VIII. *And be it further enacted by the authority aforesaid,* That it shall and may be lawful for any person or persons having given security to the Sheriff for any prisoner to enjoy the Limits of the Gaol, to surrender such Prisoner into the hands of the Sheriff, or his Deputy, or Gaoler, and upon such surrender, the Sheriff shall, and he is hereby required, to deliver up the bond or security given to him by such person or persons, and that he, she, or they, shall be wholly discharged therefrom. *Provided always,* that nothing in this clause contained shall extend, or be construed to extend, to prevent the Sheriff of any District from renewing such security in the same manner as if such Prisoner had not enjoyed the Limits of such Gaol.

The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observation, or from the representation of the Masters.

The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.

It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.

Drawing will be taught at the option of the Parents.

A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.

The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.

In each Establishment Books will be provided at the expense of the Pupils.

The management of the affairs of the College will be vested in the Directors and Trustees, who will also regulate its financial concerns, and receive all dues for Tuition.

The Vacations will be ten days at Christmas, and six weeks in the Summer, from the middle of August to the end of September, with a few occasional Holidays. All the Masters will be allowed to take Boarders.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

GEO. H. MARKLAND,
Secretary to the Board of Education.

*** The Principal will be ready to receive Boarders (to a limited extent only, until his residence in the College is completed,) at the opening of the College on the 4th of January.

TERMS.

YORK, UPPER CANADA, THURSDAY, MARCH 25, 1830.

BY AUTHORITY.

AN ACT to repeal and amend the Laws now in Force respecting the Limits of the respective Gaols in this Province.

[*Passed 6th March*, 1830.]

WHEREAS it is expedient to assign certain enlarged Limits to the several Gaols within this Province, in which Debtors may have the greater benefit of exercise and air, without subjecting the Sheriff, or other Officer in whose custody the Debtor may be, to any action at Law for an escape; and also, to render more efficient and summary the remedies to be continued on behalf of Creditors against any Debtor or Debtors availing themselves of the Provisions of this Act:—*Be it therefore enacted*, by the King's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Assembly of the Province of Upper Canada, Constituted and Assembled by virtue of and under the authority of an Act passed in the Parliament of Great Britain, entitled, "An Act to repeal certain parts of an Act passed in the fourteenth year of His Majesty's Reign, entitled, 'An Act for making more effectual provision for the Government of the Province of Quebec in North America, and to make further provision for the Government of the said Province,'" and by the authority of the same, That the whole of a certain Act, passed in the second year of the Reign of King George the Fourth, entitled, "An Act for assigning Limits to the respective Gaols in this Province, And also a certain other Act passed in the seventh year of the Reign of King George the Fourth, entitled, "An Act to continue and amend an Act passed in the second year of the Reign of King George the Fourth, entitled, "An Act for assigning Limits to the respective Gaols in this Province." And also a certain other Act passed in the eighth year of the Reign of King George the Fourth, entitled, "An Act to repeal part of, and amend the Law now in force assigning limits to Gaols in this Province." And also a certain other Act, passed in the eleventh year of His Majesty's Reign, and during the present Session of Parliament, entitled, "An Act to continue the Laws now in force for establishing Limits to the respective Gaols in this Province," be, and the same are hereby wholly repealed.

II. *And be it further enacted by the authority aforesaid*, That it shall and may be lawful for the Justices in General Quarter Sessions of the Peace assembled, in each and every District of this Province, other than the District of Niagara, and they are hereby authorized and required, at the first Session of the General Quarter Sessions of the Peace held after the passing of this Act, to assign and mark as Limits to the respective Gaols in each District of the Province, other than the District of Niagara, not more than sixteen Acres of ground, contiguous to the said Gaols, and that after the establishment of such limits, it shall and may be lawful for any Debtor or Debtors, confined or to be confined in such Gaols, to be and remain at any part or place within such Limits, without subjecting the Sheriff, or other Officer in whose custody such Debtor or Debtors may be, to any action or suit for any escape from such Gaol Limits. *Provided however*, That it shall not be incumbent upon such Sheriff, or other Officer, to allow any Debtor or Debtors the use and benefit of such Limits unless such Debtor or Debtors shall furnish good and satisfactory security that he, she, or they, shall not at any time, during his, her, or their confinement, go or remove beyond such established Limits. *Provided nevertheless*, That during such time as any Debtor in execution shall have the liberty of such Limits as aforesaid, such Debtor shall not be entitled to receive from the Plaintiff in the action, any weekly maintenance by reason of any Statute for the benefit of Insolvent Debtors.

III. *And whereas*, From the peculiar local situation of the Gaol of the District of Niagara, owing to the greater distance thereof from the Town, it is expedient that the area assigned as Limits thereto should be more extensive than to others—*Be it further enacted by the authority aforesaid*, That the Justices of the said District of Niagara, shall and may, in manner and form aforesaid, assign as Limits to the said Gaol, any extent of ground not exceeding twenty-six Acres.

IV. *And be it further enacted by the authority aforesaid*, That if any Debtor or Debtors, who may be confined in any Gaol within this Province, and who may have given security to entitle himself, herself, or themselves, to the benefit of such Limits, shall withdraw or depart from or out of the said Limits, it shall and may be lawful for the Sheriff, or other Officer, from whose custody such Debtor or Debtors may so withdraw, to sue for and recover from the prisoner, or person or persons giving such security, or either of them, such sum or sums of money as such Debtor or Debtors may have been confined for in such Gaol or Limits, together with all such costs and damages as he may have sustained by reason of such Debtor or Debtors withdrawing from and out of the said Limits.

V. *And be it further enacted by the authority aforesaid*, That the Sheriff, or other Officer, on such Debtor or Debtors so withdrawing or departing, shall be bound to assign over the Security to the Plaintiff, if required by him, as if that the Sheriff, upon so doing, shall be discharged from any claim the Plaintiff may have on him the said Sheriff, for or on account of such Debtor or Debtors.

VI. *And be it further enacted by the authority aforesaid*, That this Act shall not extend, or be construed to extend, to any person or persons confined for debt, who may at the same time be in custody for any criminal charge.

VII. *And be it further enacted by the authority aforesaid*, That upon such assignment of the security to the Plaintiff, or his legal Representatives, he, she or they may, as Assignee or Assignees, sue therefore, in his, her, or their own name; and that it shall not be in the power of the Sheriff, in whose name such security was taken, to release such action.

VIII. *And be it further enacted by the authority aforesaid*, That it shall and may be lawful for any person or persons having given security to the Sheriff for any prisoner to enjoy the Limits of the Gaol, to surrender such Prisoner into the hands of the Sheriff, or his Deputy, or Gaoler, and upon such surrender, the Sheriff shall, and he is hereby required, to deliver up the bond or security given to him by such person or persons, and that he, she, or they, shall be wholly discharged therefrom. *Provided always*, that nothing in this clause contained shall extend, or be construed to extend, to prevent the Sheriff of any District from renewing such security in the same manner as if such Prisoner had not enjoyed the Limits of such Gaol.

IX. *And be it further enacted by the authority aforesaid*, That whenever any person or persons shall be in execution upon a Capias ad Satisfaciendum, at the suit of any Creditor or Creditors, and shall have obtained leave, under the provisions of this Act, to reside upon the limits of the Gaol where he shall have been confined, it shall and may be lawful for such Creditor or Creditors to sue out any other species of Execution, notwithstanding such person or persons may have been charged in Execution as aforesaid. *Provided always*, that his, her, or their Household Furniture, not exceeding twelve pounds ten shillings in value, together with the Tools and Implements of Trade used by such person or persons in any Trade or Handicraft, shall not be liable to any such subsequent Execution so to be sued out as aforesaid.

X. *And be it further enacted by the authority aforesaid*, That it shall and may be lawful for any such Creditor or Creditors as last aforesaid, to tender such and the like interrogatories to any such Debtor or Debtors so residing on the Limits of any Gaol as aforesaid, in like manner as may now be tendered to any Insolvent Debtor charged in Execution. And in case such Debtor or Debtors shall refuse or neglect to answer such Interrogatories for the space of twenty days next after a copy thereof shall have been delivered to such Debtor or Debtors, he, she, or they shall no longer be entitled to the benefit of such Limits, but shall be re-committed to the Gaol of the District, where he, she, or they shall be confined.

XI. *And be it further enacted by the authority aforesaid*, That if any person or persons shall, upon any answer or answers to such Interrogatories, swear falsely, he, she, or they shall be liable to all the pains and penalties of wilful and corrupt perjury.

XII. *And be it further enacted by the authority aforesaid*, That notwithstanding anything contained in this Act, every person now in execution for debt, enjoying the privileges of the present Gaol Limits in any District of this Province, shall continue to enjoy such limits, between the time which shall elapse after the passing of this Act, and the establishment of enlarged Limits,

under the provisions herein contained, and shall further, in like manner, continue to enjoy such limits as heretofore established, subject to the several provisions in this Act contained, until such new security shall be given by such person respectively, as will be sufficient, under this Act, to afford the party the benefit of the Limits hereby authorized.

AN ACT for the relief of Indigent Debtors.

[*Passed 6th March*, 1830.]

WHEREAS it is expedient that not only the Bed and Bedding of Debtors should be exempt from being seized and sold in execution of Judgment, but also that their necessary wearing Apparel, and the Bed and Bedding of their family should in like manner be exempt from such seizure and sale.—*Be it therefore enacted*, by the King's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Assembly of the Province of Upper Canada, Constituted and Assembled by virtue of and under the authority of an Act passed in the Parliament of Great Britain, entitled, "An Act to repeal certain parts of an Act passed in the fourteenth year of His Majesty's Reign, entitled, 'An Act for making more effectual provision for the Government of the Province of Quebec in North America, and to make further provision for the Government of the said Province,'" and by the authority of the same, That in all cases wherein a Writ of Execution shall be issued upon any Judgment obtained in any Court in this Province, it shall not be lawful for the Sheriff, or other Officer executing such Writ, to seize the necessary Wearing Apparel of the Debtor or Debtors against whom such Judgment shall have been obtained, or of his, her, or their family, nor the Bed or Bedding in actual use by the members of his, her, or their family, in satisfaction of such Judgment, any Law, Usage or Custom to the contrary notwithstanding.

AN ACT to extend the Provisions of the Law of Set-off—and to prevent unnecessary and vexatious Law-Suits.

[*Passed 6th March*, 1830.]

WHEREAS the Provision for setting Mutual Debts, one against the other, is highly just and reasonable at all times, and ought to be extended, so as to allow a Defendant to recover the balance due to him. *Be it therefore enacted*, by the King's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Assembly of the Province of Upper Canada, constituted and assembled by virtue of and under the authority of an Act passed in the Parliament of Great Britain, entitled, "An Act to repeal certain parts of an Act passed in the fourteenth year of His Majesty's Reign, entitled, 'An Act for making more effectual provision for the Government of the Province of Quebec in North America, and to make further provision for the Government of the said Province,'" and by the authority of the same, That if in any action to be hereafter commenced in His Majesty's Court of King's Bench, or in any of His Majesty's District Courts in this Province, the Defendant having given notice of set-off or pleaded the same according to Law, shall on trial of said action, prove a sum due to him, or if he be sued as Executor or Administrator to the Testator or Intestate from the Plaintiff, or if the Plaintiff sue as Executor or Administrator from the Testator or Intestate, greater than such Plaintiff has proved due to him, or his Testator, or Intestate from such Defendant, or his Testator or his Intestate, it shall and may be lawful for the Jury to render a verdict for the Defendant to the amount of the difference of their respective claims proved as aforesaid, And for every such Defendant to enter up Judgment for such sum, besides his costs and charges, and to have execution therefore.

II. *And be it further enacted by the authority aforesaid*, That in any Action within its Jurisdiction which shall hereafter be commenced in any Court of Requests in this Province, the Commissioners thereof shall give Judgement against the Plaintiff, for such sum not exceeding the limits of their Jurisdiction, as they may judge from the evidence to be a balance due from him to the Defendant, and such Defendant shall thereupon be entitled to an execution therefore in the same manner as if he had been the Plaintiff in the case, and the other party Defendant.—*Provided always nevertheless*, That such Court shall not have power to take cognizance of any Demand advanced on the part of the Defendant, which, from its nature or amount, would not come within the Jurisdiction of such Court, if brought forward on the part of the Plaintiff.

AN ACT to direct the Appropriation of Fines in certain cases.

[*Passed 30th January*, 1830.]

WHEREAS by the Criminal Law of England as adopted in this Province, various offences are made punishable by Fines or Penalties, which it is provided shall be either wholly or in part paid to the Church Wardens or Overseers of the Poor, or otherwise, appropriated for the support of the Poor. *And whereas*, there being no Public Provision made for the support of the Poor in this Province, such a distribution of the Penalties is inapplicable, and it is expedient to remove the obstacle which prevents the execution of the Criminal Law in the before recited cases, and in all other cases, where, by reason of the mode in which any Fine or Penalty is directed to be appropriated, the Criminal Law of England cannot be fully carried into effect.—*Be it therefore enacted*, by the King's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Assembly of the Province of Upper Canada, constituted and assembled by virtue of and under the authority of an Act passed in the Parliament of Great Britain, entitled, "An Act to repeal certain parts of an Act passed in the fourteenth year of His Majesty's Reign, entitled, 'An Act for making more effectual provision for the Government of the Province of Quebec in North America, and to make further provision for the Government of the said Province,'" and by the authority of the same, That when any Fine or Penalty imposed for the punishment of any offence, is in any manner appropriated for the support of the Poor, or to any Parochial or other purposes inapplicable to the existing state of this Province, such Fine or Penalty or such part thereof as shall be so appropriated, shall be paid when received, to the Treasurer of the District in which the Conviction shall have taken place, to be appropriated to the purposes of the District, and accounted for in the same manner as the Assessments levied in the several Districts are generally applicable by Law.

AN ACT to encourage the establishment of Agricultural Societies in the several Districts of this Province.

[*Passed 6th March*, 1830.]

WHEREAS it would greatly tend to the general improvement and prosperity of this Province, if Agricultural Societies were established in every District, with a suitable encouragement from the Public Funds.—*Be it therefore enacted*, by the King's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Assembly of the Province of Upper Canada, Constituted and Assembled by virtue of and under the authority of an Act passed in the Parliament of Great Britain, entitled, "An Act to repeal certain parts of an Act passed in the fourteenth year of His Majesty's Reign, entitled, 'An Act for making more effectual provision for the Government of the Province of Quebec in North America, and to make further provision for the Government of the said Province,'" and by the authority of the same, That when any Agricultural Society, for the purpose of importing valuable Live Stock, Grain, Grass Seeds, Useful Implements, or whatever else might conduce to the improvement of Agriculture in this Province, shall be established in any District of the said Province, and shall make it appear to the satisfaction of the Governor, Lieutenant Governor, or Person Administering the Government of the Province for the time being, that a sum not less than Fifty Pounds has been actually subscribed by the said Society, and paid into the hands of a regularly appointed Treasurer, and the President and Directors of the said Agricultural Society shall Petition the Governor, Lieutenant Governor, or Person Administering the Government of the Province for the time being, for aid in support of the said Society, it shall and may be lawful for the Governor, Lieutenant Governor, or Person Administering the Government of this Province, for the time being, to issue his Warrant to the Receiver General, in favor of such Petitioners, for the sum of One Hundred Pounds annually, during the continuance of such Society, and so long as the said Society shall themselves continue to raise a sum by Subscription of not less than Fifty Pounds, and the said annual Bounty of One Hundred Pounds shall be paid and accounted for out of the Rates and Duties now Raised, Levied and Collected, or hereafter to be Raised, Levied and Collected, and that are in the hands of the Receiver General, unappropriated.

II. *And be it further enacted by the authority aforesaid*, That in the event of there being an Agricultural Society established in each County of any particular District within this Province, the said Sum or Bounty of One Hundred Pounds shall be equally divided between the said Societies having claim upon it by the Provisions of this Act.

III. *And be it further enacted by the authority aforesaid*, That this Act shall be and continue in force for and during the term of four years, and from thence to the end of the then next ensuing Session of Parliament, and no longer.

AN ACT to provide for an increase of the number of Overseers of Highways, Pounds, and Pound-keepers, in the respective Townships throughout this Province.

[*Passed 6th March*, 1830.]

WHEREAS it hath been found, from experience, that in many Townships of this Province a greater number of Overseers of Highways, Pounds and Pound-keepers, is necessary than is provided for by Law, and it is expedient, therefore, to allow the same to be encreased,—*Be it enacted*, by the King's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and House of Assembly of the Province of Upper Canada, Constituted and Assembled by virtue of and under the authority of an Act passed in the Parliament of Great Britain, entitled, "An Act to repeal certain parts of an Act passed in the fourteenth year of His Majesty's Reign, entitled, 'An Act for making more effectual provision for the Government of the Province of Quebec in North America, and to make further provision for the Government of the said Province,'" and by the authority of the same, That from and after the passing of this Act, it shall and may be lawful for the Inhabitant Householders, in each and every Township, reputed Townships, or place in this Province, at their Annual Town Meetings, to choose and nominate any number of Overseers not exceeding thirty for such Township, reputed Township or place, and also one Pound-keeper to each and every Public Pound, not exceeding six in number, that shall have been or may be appointed as and for a Public Pound for such Township, reputed Township or Place—the situation whereof shall have been designated at some Annual Town Meeting, by causing the Lot or Parcel of Land on which the same is situated, to be recorded in the minutes of such Meeting.

II. *Provided always nevertheless and be it further enacted by the authority aforesaid*, That no distress shall be driven or taken to any other Pound authorized by this Act, than to one of the Pounds within the same Township, reputed Township or Place nearest to the place where such distress shall be taken.

III. *And be it further enacted by the authority aforesaid*, That such Overseers of Highways and Pound-keepers shall be chosen in the manner now by Law, provided for the choice of Overseers of Highways and Pound-keepers respectively, and shall have the same rights and authority, and be subject to the same duties and obligations as now by Law belong to Overseers of Highways and Pound-keepers respectively.

AN ACT for the better Regulation of the Currency.

[Passed 6th March, 1830.]

WHEREAS from the great quantities of depreciated Silver Coins at present in circulation in this Province, it is necessary to repeal part of an Act passed in the thirty-sixth year of His late Majesty's Reign, entitled, "An Act for the better regulation of certain Coins current in this Province."—*Be it therefore enacted*, by the King's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Assembly of the Province of Upper Canada, constituted and assembled by virtue of and under the authority of an Act passed in the Parliament of Great Britain, entitled, "An Act to repeal certain parts of an Act passed in the fourteenth year of His Majesty's Reign, entitled, 'An Act for making more effectual provision for the Government of the Province of Quebec in North America, and to make further provision for the Government of the said Province,'" and by the authority of the same, That such of the Silver Coins of the United Kingdom as are depreciated in weight, more than one-twenty-fifth part of their full weight, shall not be legal money in this Province.

II. *And be it further enacted by the authority aforesaid*, That so much of the first clause of the said herein before recited Act, as establishes the value of the Spanish Pistareen at one Shilling; the French Crown, coined before the year one thousand seven hundred and ninety-three, at five shillings and six-pence; the French piece of four Livres, or ten Sols Tournois, at four Shillings and two-pence; the French piece of thirty-six Sols Tournois, at one Shilling and one Penny, and all the higher and lower denominations of the said Silver Coins, and renders them a legal tender in payment of all debts and demands whatsoever, in this Province, in the same proportions respectively, shall be, and the same is hereby repealed.

III. *And whereas* it is inexpedient that the remaining clauses of the said Act, making it penal to counterfeit such Coin, should remain in force—*Be it therefore further enacted by the authority aforesaid*, That so much of the remainder of the said recited Act as regards, in any respect whatsoever, the several Coins hereby declared to be no longer a legal tender in this Province, shall be, and the same, so far as regards such Coins only, is hereby repealed.

PROSPECTUS.

It is somewhat a matter of surprise, that the DISTRICT OF NEWCASTLE, which, in every other respect, has not a superior in the Province of Upper Canada, whether we regard the internal improvement of its country, or the highly intellectual character of its inhabitants, should yet be deficient in one most obvious means of its advancement; viz. A RESPECTABLE AND INDEPENDENT NEWSPAPER, through which to convey to the surrounding Districts a just idea of its relative importance.

To supply this defect, and thereby to afford an enlightened people the power of asserting and maintaining their true position in the moral and political world, is the object of the person who now, for the first time, presents himself before the public.

In accordance with this purpose, he proposes, as soon as a sufficient number of Subscribers shall have appeared to sanction the undertaking, to issue weekly, in the Village of Cobourg, a Paper of the above description—aiming to be *truly* Independent and Respectable—alike free from the animosity of party spirit, and the licentiousness of personal Animadversion.

Attached, by birth and education, to the Institutions of GREAT BRITAIN, it will ever be his study to support them, as the means of that distinguished preeminence, which has so long constituted her the envy and admiration of the world. Thus, in principle, the character of

THE

Newcastle Pioneer,

will be found to be unequivocally and decidedly British; an avowal, which its Projector confidently anticipates will ensure it the general support of the Province.

In arrangement, the new Paper is intended, as nearly as possible, to resemble that of the two published in New York, called the *Albion*, and the *Atlas*, both of which are so well known and justly admired, that any dilation on their respective merits would be more than superfluous.

The Terms will be the same as the other Papers in the Province,—*One Pound per Annum, exclusive of Postage, and payable half-yearly in advance.*— A stipulation that it is hoped will be strictly complied with, as otherwise the permanency of the establishment cannot possibly be secured.

In conclusion, the writer might urge some claim to the particular attention of the Newcastle community, from the circumstance of his having been the first to introduce a Printing Press within their District, but he trusts the advantages of the proposed undertaking are in themselves sufficiently apparent, to render it independent of any such suggestion; and, with great respect, he remains

The Public's most obedient
and very humble Servant,
R. D. CHATTERTON.

The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observation, or from the representation of the Masters.

The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.

It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.

Drawing will be taught at the option of the Parents.

A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.

The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.

In each Establishment Books will be provided at the expense of the Pupils.

The management of the affairs of the College will be vested in the Directors and Trustees, who will also regulate its financial concerns, and receive all dues for Tuition.

The Vacations will be ten days at Christmas, and six weeks in the Summer, from the middle of August to the end of September, with a few occasional Holidays. All the Masters will be allowed to take Boarders.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

GEO. H. MARKLAND,
Secretary to the Board of Education.

*** The Principal will be ready to receive Boarders (to a limited extent only, until his residence in the College is completed,) at the opening of the College on the 4th of January.

TERMS.

YORK, UPPER CANADA, THURSDAY, APRIL 1, 1830.

BY AUTHORITY.

AN ACT to repeal and amend the Laws now in Force respecting the Limits of the respective Gaols in this Province.

[*Passed 6th March*, 1830.]

WHEREAS it is expedient to assign certain enlarged Limits to the several Gaols within this Province, in which Debtors may have the greater benefit of exercise and air, without subjecting the Sheriff, or other Officer in whose custody the Debtor may be, to any action at Law for an escape; and also, to render more efficient and summary the remedies to be continued on behalf of Creditors against any Debtor or Debtors availing themselves of the Provisions of this Act.—*Be it therefore enacted*, by the King's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Assembly of the Province of Upper Canada, Constituted and Assembled by virtue of and under the authority of an Act passed in the Parliament of Great Britain, entitled, "An Act to repeal certain parts of an Act passed in the fourteenth year of His Majesty's Reign, entitled, 'An Act for making more effectual provision for the Government of the Province of Quebec in North America, and to make further provision for the Government of the said Province,'" and by the authority of the same, That the whole of a certain Act, passed in the second year of the Reign of King George the Fourth, entitled, "An Act for assigning Limits to the respective Gaols in this Province, And also a certain other Act passed in the seventh year of the Reign of King George the Fourth, entitled, "An Act to continue and amend an Act passed in the second year of the Reign of King George the Fourth, entitled, "An Act for assigning Limits to the respective Gaols in this Province." And also a certain other Act passed in the eighth year of the Reign of King George the Fourth, entitled, "An Act to repeal part of, and amend the Law now in force assigning limits to Gaols in this Province." And also a certain other Act, passed in the eleventh year of His Majesty's Reign, and during the present Session of Parliament, entitled, "An Act to continue the Laws now in force for establishing Limits to the respective Gaols in this Province," be, and the same are hereby wholly repealed.

II. *And be it further enacted by the authority aforesaid*, That it shall and may be lawful for the Justices in General Quarter Sessions of the Peace assembled, in each and every District of this Province, other than the District of Niagara, and they are hereby authorized and required, at the first Session of the General Quarter Sessions of the Peace held after the passing of this Act, to assign and mark as Limits to the respective Gaols in each District of the Province, other than the District of Niagara, not more than sixteen Acres of ground, contiguous to the said Gaols, and that after the establishment of such limits, it shall and may be lawful for any Debtor or Debtors, confined or to be confined in such Gaols, to be and remain at any part or place within such Limits, without subjecting the Sheriff, or other Officer in whose custody such Debtor or Debtors may be, to any action or suit for any escape from such Gaol Limits. *Provided however*, That it shall not be incumbent upon such Sheriff, or other Officer, to allow any Debtor or Debtors the use and benefit of such Limits unless such Debtor or Debtors shall furnish good and satisfactory security that he, she, or they, shall not at any time, during his, her, or their confinement, go or remove beyond such established Limits. *Provided nevertheless*, That during such time as any Debtor in execution shall have the liberty of such Limits as aforesaid, such Debtor shall not be entitled to receive from the Plaintiff in the action, any weekly maintenance by reason of any Statute for the benefit of Insolvent Debtors.

III. *And whereas*, From the peculiar local situation of the Gaol of the District of Niagara, owing to the greater distance thereof from the Town, it is expedient that the area assigned as Limits thereto should be more extensive than to others—*Be it further enacted by the authority aforesaid*, That the Justices of the said District of Niagara, shall and may, in manner and form aforesaid, assign as Limits to the said Gaol, any extent of ground not exceeding twenty-six Acres.

IV. *And be it further enacted by the authority aforesaid*, That if any Debtor or Debtors, who may be confined in any Gaol within this Province, and who may have given security to entitle himself, herself, or themselves, to the benefit of such Limits, shall withdraw or depart from or out of the said Limits, it shall and may be lawful for the Sheriff, or other Officer, from whose custody such Debtor or Debtors may so withdraw, to sue for and recover from the prisoner, or person or persons giving such security, or either of them, such sum or sums of money as such Debtor or Debtors may have been confined for in such Gaol or Limits, together with all such costs and damages as he may have sustained by reason of such Debtor or Debtors withdrawing from and out of the said Limits.

V. *And be it further enacted by the authority aforesaid*, That the Sheriff, or other Officer, on such Debtor or Debtors so withdrawing or departing, shall be bound to assign over the Security to the Plaintiff, if required by him, and that the Sheriff, upon so doing, shall be discharged from any claim the Plaintiff may have on him the said Sheriff, for or on account of such Debtor or Debtors.

VI. *And be it further enacted by the authority aforesaid*, That this Act shall not extend, or be construed to extend, to any person or persons confined for debt, who may at the same time be in custody for any criminal charge.

VII. *And be it further enacted by the authority afoesaid*, That upon such assignment of the security to the Plaintiff, or his legal Representatives, he, she or they may, as Assignee or Assignees, sue therefore, in his, her, or their own name; and that it shall not be in the power of the Sheriff, in whose name such security was taken, to release such action.

VIII. *And be it further enacted by the authority aforesaid*, That it shall and may be lawful for any person or persons having given security to the Sheriff for any prisoner to enjoy the Limits of the Gaol, to surrender such Prisoner into the hands of the Sheriff, or his Deputy, or Gaoler, and upon such surrender, the Sheriff shall, and he is hereby required, to deliver up the bond or security given to him by such person or persons, and that he, she, or they, shall be wholly discharged therefrom. *Provided always*, that nothing in this clause contained shall extend, or be construed to extend, to prevent the Sheriff of any District from renewing such security in the same manner as if such Prisoner had not enjoyed the Limits of such Gaol.

IX. *And be it further enacted by the authority aforesaid*, That whenever any person or persons shall be in execution upon a Capias ad Satisfaciendum, at the suit of any Creditor or Creditors, and shall have obtained leave, under the provisions of this Act, to reside upon the limits of the Gaol where he shall have been confined, it shall and may be lawful for such Creditor or Creditors to sue out any other species of Execution, notwithstanding such person or persons may have been charged in Execution as aforesaid. *Provided always*, that his, her, or their Household Furniture, not exceeding twelve pounds ten shillings in value, together with the Tools and Implements of Trade used by such person or persons in any Trade or Handicraft, shall not be liable to any such subsequent Execution so to be sued out as aforesaid.

X. *And be it further enacted by the authority aforesaid*, That it shall and may be lawful for any such Creditor or Creditors as last aforesaid, to tender such and the like interrogatories to any such Debtor or Debtors so residing on the Limits of any Gaol as aforesaid, in like manner as may now be tendered to any Insolvent Debtor charged in Execution. And in case such Debtor or Debtors shall refuse or neglect to answer such Interrogatories for the space of twenty days next after a copy thereof shall have been delivered to such Debtor or Debtors, he, she, or they shall no longer be entitled to the benefit of such Limits, but shall be re-committed to the Gaol of the District, where he, she, or they shall be confined.

XI. *And be it further enacted by the authority aforesaid*, That if any person or persons shall, upon any answer or answers to such Interrogatories, swear falsely, he, she, or they shall be liable to all the pains and penalties of wilful and corrupt perjury.

XII. *And be it further enacted by the authority aforesaid*, That notwithstanding anything contained in this Act, every person now in execution for debt, enjoying the privileges of the present Gaol Limits in any District of this Province, shall continue to enjoy such limits, between the time which shall elapse after the passing of this Act, and the establishment of enlarged Limits,

under the provisions herein contained, and shall further, in like manner, continue to enjoy such limits as heretofore established, subject to the several provisions in this Act contained, until such new security shall be given by such person respectively, as will be sufficient, under this Act, to afford the party the benefit of the Limits hereby authorized.

AN ACT for the relief of Indigent Debtors.

[*Passed 6th March*, 1830.]

WHEREAS it is expedient that not only the Bed and Bedding of Debtors should be exempt from being seized and sold in execution of Judgment, but also that their necessary wearing Apparel, and the Bed and Bedding of their family should in like manner be exempt from such seizure and sale,—*Be it therefore enacted*, by the King's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Assembly of the Province of Upper Canada, Constituted and Assembled by v rtue of and under the authority of an Act passed in the Parliament of Great Britain, entitled, "An Act to repeal certain parts of an Act passed in the fourteenth year of His Majesty's Reign, entitled, 'An Act for making more effectual provision for the Government of the Province of Quebec in North America, and to make further provision for the Government of the said Province,'" and by the authority of the same, That in all cases wherein a Writ of Execution shall be issued upon any Judgment obtained in any Court in this Province, it shall not be lawful for the Sheriff, or other Officer executing such Writ, to seize the necessary Wearing Apparel of the Debtor or Debtors against whom such Judgment shall have been obtained, or of his, her, or their family, nor the Bed or Bedding in actual use by the members of his, her, or their family, in satisfaction of such Judgment, any Law, Usage or Custom to the contrary notwithstanding.

AN ACT to extend the Provisions of the Law of Set-off—and to prevent unnecessary and vexatious Law-Suits.

[*Passed 6th March*, 1830.]

WHEREAS the Provision for setting Mutual Debts, one against the other, is highly just and reasonable at all times, and ought to be extended, so as to allow a Defendant to recover the balance due to him. *Be it therefore enacted*, by the King's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Assembly of the Province of Upper Canada, constituted and assembled by virtue of and under the authority of an Act passed in the Parliament of Great Britain, entitled, "An Act to repeal certain parts of an Act passed in the fourteenth year of His Majesty's Reign, entitled, 'An Act for making more effectual provision for the Government of the Province of Quebec in North America, and to make further provision for the Government of the said Province,'" and by the authority of the same, That if in any action to be hereafter commenced in His Majesty's Court of King's Bench, or in any of His Majesty's District Courts in this Province, the Defendant having given notice of set-off or pleaded the same according to Law, shall on trial of said action, prove a sum due to him, or if he be sued as Executor or Administrator to the Testator or Intestate from the Plaintiff, or if the Plaintiff sue as Executor or Administrator from the Testator or Intestate, greater than such Plaintiff has proved due to him, or his Testator, or Intestate from such Defendant, or his Testator or his Intestate, it shall and may be lawful for the Jury to render a verdict for the Defendant to the amount of the difference of their respective claims proved as aforesaid; And for every such Defendant to enter up Judgment for such sum, besides his costs and charges, and to have execution therefore.

II. *And be it further enacted by the authority aforesaid*, That in any Action within its Jurisdiction which shall hereafter be commended in any Court of Requests in this Province, the Commissioners thereof shall give Judgment against the Plaintiff, for such sum not exceeding the limits of their Jurisdiction, as they may judge from the evidence to be a balance due from him to the Defendant, and such Defendant shall thereupon be entitled to an execution therefore in the same manner as if he had been the Plaintiff in the case, and the other party Defendant.—*Provided always nevertheless*, That such Court shall not have power to take cognizance of any Demand advanced on the part of the Defendant, which, from its nature or amount, would not come within the Jurisdiction of such Court, if brought forward on the part of the Plaintiff.

AN ACT to direct the Appropriation of Fines in certain cases.

[*Passed 30th January*, 1830.]

WHEREAS by the Criminal Law of England as adopted in this Province, various offences are made punishable by Fines or Penalties, which it is provided shall be either wholly or in part paid to the Church Wardens or Overseers of the Poor, or otherwise, appropriated for the support of the Poor. *And whereas*, there being no Public Provision made for the support of the Poor in this Province, such a distribution of the Penalties is inapplicable, and it is expedient to remove the obstacle which prevents the execution of the Criminal Law in the before recited cases, and in all other cases, where, by reason of the mode in which any Fine or Penalty is directed to be appropriated, the Criminal Law of England cannot be fully carried into effect.—*Be it therefore enacted*, by the King's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Assembly of the Province of Upper Canada, constituted and assembled by virtue of and under the authority of an Act passed in the Parliament of Great Britain, entitled, "An Act to repeal certain parts of an Act passed in the fourteenth year of His Majesty's Reign, entitled, 'An Act for making more effectual provision for the Government of the Province of Quebec in North America, and to make further provision for the Government of the said Province,'" and by the authority of the same, That in all cases in which by the Criminal Law of England in force in this Province, the whole or any part of any Fine or Penalty imposed for the punishment of any offence, is in any manner appropriated for the support of the Poor, or to any Parochial or other purposes inapplicable to the existing state of this Province, such Fine or Penalty or such part thereof as shall be so appropriated, shall be paid when received, to the Treasurer of the District in which the Conviction shall have taken place, to be appropriated to the purposes of the District, and accounted for in the same manner as the Assessments levied in the several Districts are generally applicable by Law.

AN ACT to encourage the establishment of Agricultural Societies in the several Districts of this Province.

[Passed 6th March, 1830.]

WHEREAS it would greatly tend to the general improvement and prosperity of this Province, if Agricultural Societies were established in every District, with a suitable endowment from the Public Funds.—*Be it therefore enacted*, by the King's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Assembly of the Province of Upper Canada, Constituted and Assembled by virtue of and under the authority of an Act passed in the Parliament of Great Britain, entitled, "An Act to repeal certain parts of an Act passed in the fourteenth year of His Majesty's Reign, entitled, 'An Act for making more effectual provision for the Government of the Province of Quebec in North America, and to make further provision for the Government of the said Province,'" and by the authority of the same, That when any Agricultural Society, for the purpose of importing valuable Live Stock, Grain, Grass Seeds, Useful Implements, or whatever else might conduce to the improvement of Agriculture in this Province, shall be established in any District of the said Province, and shall make it appear to the satisfaction of the Governor, Lieutenant Governor, or Person Administering the Government of the Province for the time being, that a sum not less than Fifty Pounds has been actually subscribed by the said Society, and paid into the hands of a regularly appointed Treasurer, and the President and Directors of the said Agricultural Society shall Petition the Governor, Lieutenant Governor, or Person Administering the Government of the Province for the time being, to issue his Warrant to the Receiver General, in favor of such Petitioners, for the sum of One Hundred Pounds annually, during the continuance of such Society, and so long as the said Society shall themselves continue to raise a sum by Subscription of not less than Fifty Pounds, and the said annual Bounty of One Hundred Pounds shall be paid and accounted for out of the Rates and Duties now Raised, Levied and Collected, or hereafter to be Raised, Levied and Collected, and that are in the hands of the Receiver General, unappropriated.

II. *And be it further enacted by the authority aforesaid*, That in the event of there being an Agricultural Society established in each County of any particular District within this Province, the said Sum or Bounty of One Hundred Pounds shall be equally divided between the said Societies having claim upon it by the Provisions of this Act.

III. *And be it further enacted by the authority aforesaid*, That this Act shall be and continue in force for and during the term of four years, and from thence to the end of the then next ensuing Session of Parliament, and no longer.

AN ACT to provide for an increase of the number of Overseers of Highways, Pounds, and Pound-keepers, in the respective Townships throughout this Province.

[*Passed 6th March*, 1830.]

WHEREAS it hath been found, from experience, that in many Townships of this Province a greater number of Overseers of Highways, Pounds and Pound-keepers, is necessary than is provided for by Law, and it is expedient, therefore, to allow the same to be increased,—*Be it enacted*, by the King's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and House of Assembly of the Province of Upper Canada, Constituted and Assembled by virtue of and under the authority of an Act passed in the Parliament of Great Britain, entitled, "An Act to repeal certain parts of an Act passed in the fourteenth year of His Majesty's Reign, entitled, 'An Act for making more effectual provision for the Government of the Province of Quebec in North America, and to make further provision for the Government of the said Province,'" and by the authority of the same, That from and after the passing of this Act, it shall and may be lawful for the Inhabitant Householders, in each and every Township, reputed Townships, or place in this Province, at their Annual Town Meetings, to choose and nominate any number of Overseers not exceeding thirty for such Township, reputed Township or place, and also one Pound-keeper to each and every Public Pound, not exceeding six in number, that shall have been or may be appointed as and for a Public Pound for such Township, reputed Township or Place—the situation whereof shall have been designated at some Annual Town Meeting, by causing the Lot or Parcel of Land on which the same is situated, to be recorded in the minutes of such Meeting.

II. *Provided always nevertheless and be it further enacted by the authority aforesaid*, That no distress shall be driven or taken to any other Pound authorized by this Act, than to one of the Pounds within the same Township, reputed Township or Place nearest to the place where such distress shall be taken.

III. *And be it further enacted by the authority aforesaid*, That such Overseers of Highways and Pound-keepers shall be chosen in the manner now by Law, provided for the choice of Overseers of Highways and Pound-keepers respectively, and shall have the same rights and authority, and be subject to the same duties and obligations as now by Law belong to Overseers of Highways and Pound-keepers respectively.

AN ACT for the better Regulation of the Currency.

[Passed 6th March, 1830.]

WHEREAS from the great quantities of depreciated Silver Coins at present in circulation in this Province, it is necessary to repeal part of an Act passed in the thirty-sixth year of His late Majesty's Reign, entitled, "An Act for the better regulation of certain Coins current in this Province,"—*Be it therefore enacted*, by the King's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Assembly of the Province of Upper Canada, constituted and assembled by virtue of and under the authority of an Act passed in the Parliament of Great Britain, entitled, "An Act to repeal certain parts of an Act passed in the fourteenth year of His Majesty's Reign, entitled, 'An Act for making more effectual provision for the Government of the Province of Quebec in North America, and to make further provision for the Government of the said Province,'" and by the authority of the same, That such of the Silver Coins of the United Kingdom as are depreciated in weight, more than one-twenty-fifth part of their full weight, shall not be legal money in this Province.

II. *And be it further enacted by the authority aforesaid*, That so much of the first clause of the said herein before recited Act, as establishes the value of the Spanish Pistareen at one Shilling; the French Crown, coined before the year one thousand seven hundred and ninety-three, at five shillings and six pence; the French piece of four Livres, ten Sols Tournois, at four Shillings and two-pence; the French piece of thirty-six Sols Tournois, at one Shilling and one Penny, and all the higher and lower denominations of the said Silver Coins, and renders them a legal tender in payment of all debts and demands whatsoever, in this Province, in the same proportions respectively, shall be, and the same is hereby repealed.

III. *And whereas* it is inexpedient that the remaining clauses of the said Act, making it penal to counterfeit such Coin, should remain in force—*Be it therefore further enacted by the authority aforesaid*, That so much of the remainder of the said recited Act as regards, in any respect whatsoever, the several Coins hereby declared to be no longer a legal tender in this Province, shall be, and the same, so far as regards such Coins only, is hereby repealed.

PROSPECTUS.

It is somewhat a matter of surprise, that the DISTRICT OF NEWCASTLE, which in every other respect, has not a superior in the Province of Upper Canada, whether we regard the internal improvement of its country, or the highly intellectual character of its inhabitants, should yet be deficient in one most obvious means of its advancement; viz. A RESPECTABLE AND INDEPENDENT NEWSPAPER, through which to convey to the surrounding Districts a just idea of its relative importance.

To supply this defect, and thereby to afford an enlightened people the power of asserting and maintaining their true position in the moral and political world, is the object of the person who now, for the first time, presents himself before the public.

In accordance with this purpose, he proposes, as soon as a sufficient number of Subscribers shall have appeared to sanction the undertaking, to issue weekly, in the Village of Cobourg, a Paper of the above description—aiming to be *truly* Independent and Respectable—alike free from the animosity of party spirit, and the licentiousness of personal Animadversion.

Attached, by birth and education, to the Institutions of GREAT BRITAIN, it will ever be his study to support them, as the means of that distinguished preeminence, which has so long constituted her the envy and admiration of the world. Thus, in principle, the character of

THE
Newcastle Pioneer,

will be found to be unequivocally and decidedly British; an avowal, which its Projector confidently anticipates will ensure it the general support of the Province.

In arrangement, the new Paper is intended, as nearly as possible, to resemble that of the two published in New York, called the *Albion*, and the *Atlas*, both of which are so well known and justly admired, that any dilation on their respective merits would be more than superfluous.

The Terms will be the same as the other Papers in the Province,—*One Pound per Annum, exclusive of Postage, and payable half-yearly in advance.*—A stipulation that it is hoped will be strictly complied with, as otherwise the permanency of the establishment cannot possibly be secured.

In conclusion, the writer might urge some claim to the particular attention of the Newcastle community, from the circumstance of his having been the first to introduce a Printing Press within their District, but he trusts the advantages of the proposed undertaking are in themselves sufficiently apparent, to render it independent of any such suggestion; and, with great respect, he remains

The Public's most obedient
and very humble Servant,
R. D. CHATTERTON.

Drawing Master—MR. DRURY.

The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observation, or from the representation of the Masters.

The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.

It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.

Drawing will be taught at the option of the Parents.

A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.

The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.

In each Establishment Books will be provided at the expense of the Pupils.

The management of the affairs of the College will be vested in the Directors and Trustees, who will also regulate its financial concerns, and receive all dues for Tuition.

The Vacations will be ten days at Christmas, and six weeks in the Summer, from the middle of August to the end of September, with a few occasional Holidays. All the Masters will be allowed to take Boarders.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

GEO. H. MARKLAND,
Secretary to the Board of Education.

*** The Principal will be ready to receive Boarders (to a limited extent only, until his residence in the College is completed,) at the opening of the College on the 4th of January.

TERMS.

£11 5s per quarter, including all necessary expenses of Board and Tuition, except Books—There will be an additional charge for those Pupils who learn Drawing.

The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observation, or from the representation of the Masters.

The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.

It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.

Drawing will be taught at the option of the Parents.

A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.

The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.

In each Establishment Books will be provided at the expense of the Pupils.

The management of the affairs of the College will be vested in the Directors and Trustees, who will also regulate its financial concerns, and receive all dues for Tuition.

The Vacations will be ten days at Christmas, and six weeks in the Summer, from the middle of August to the end of September, with a few occasional Holidays. All the Masters will be allowed to take Boarders.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

GEO. H. MARKLAND,
Secretary to the Board of Education.

*** The Principal will be ready to receive Boarders (to a limited extent only, until his residence in the College is completed,) at the opening of the College on the 4th of January.

The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observation, or from the representation of the Masters.

The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.

It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.

Drawing will be taught at the option of the Parents.

A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.

The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.

In each Establishment Books will be provided at the expense of the Pupils.

The management of the affairs of the College will be vested in the Directors and Trustees, who will also regulate its financial concerns, and receive all dues for Tuition.

The Vacations will be ten days at Christmas, and six weeks in the Summer, from the middle of August to the end of September, with a few occasional Holidays. All the Masters will be allowed to take Boarders.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

GEO. H. MARKLAND,
Secretary to the Board of Education.

*** The Principal will be ready to receive Boarders (to a limited extent only, until his residence in the College is completed,) at the opening of the College on the 4th of January.

PRINCIPAL.

The Reverend J. H. Harris, D. D.—*Late Fellow of Clare Hall, Cambridge.*

CLASSICAL DEPARTMENT.

VICE-PRINCIPAL,

The Revd. T. Phillips, D.D.—*Of Queen's College, Cambridge.*

FIRST CLASSICAL MASTER,

The Reverend C. Matthews, M.A.—*Of Pembroke Hall, Cambridge.*

SECOND CLASSICAL MASTER.

The Revd. W. Boulton, B.A.—*Of Queen's College, Oxford.*

MATHEMATICAL DEPARTMENT.

The Rev. C. Dade, M.A.—*Fellow of Caius' College, Cambridge, and late Mathematical Master at Elizabeth College.*

French.—Mr. J. P. De la Haye.

English, Writing } Mr. G. A. Barber,
and Arithmetic, } Mr. J. Padfield.

Drawing Master—Mr. Drury.

The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observation, or from the representation of the Masters.

The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.

It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.

Drawing will be taught at the option of the Parents.

A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.

The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.

In each Establishment Books will be provided at the expense of the Pupils.

The management of the affairs of the College will be vested in the Directors and Trustees, who will also regulate its financial concerns, and receive all dues for Tuition.

The Vacations will be ten days at Christmas, and six weeks in the Summer, from the middle of August to the end of September, with a few occasional Holidays. All the Masters will be allowed to take Boarders.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

EXTRACTS FROM THE REGULATIONS OF

Upper Canada College.

THE hours of attendance, each day, at the College and Preparatory School, are, from a quarter before nine o'clock, till twelve, in the forenoon; and from two o'clock till four, in the afternoon: except on Thursday, which is a half-holiday.

Punctuality is strictly required in the attendance of Scholars in every department. Any Scholar is considered *late* in the morning, who is not present to answer to his name at the calling over of the List at a quarter before nine, previous to Morning Prayers.

The only excuses admitted for Absence, are sickness and domestic calamity; to be notified, *in all cases*, by the Parents, in writing, when a boy returns to College or School. But in order to discountenance as much as possible, the practice of Scholars being detained from the College or School, on frivolous pleas (a practice which interferes most injuriously with their progress,) any boy who, *from whatever cause*, is absent during one division of the day, loses his standing, and is placed at the bottom of his form on his return. A Register is also kept, in which are entered all excuses assigned for absence.

The hours of attendance for those Scholars who learn Drawing, are from twelve till one o'clock, on Monday, Tuesday, Friday, and Saturday; and from one o'clock till three, on Thursday.

Every Branch of Instruction is included in the College Dues of £2 per Quarter, and the Preparatory School Dues of £1 10s. per Quarter: except Drawing, for which there is an additional quarterage of Ten Shillings, exclusive of the expense of Drawing Materials.

The College Quarters are ordered as follows:—

First Quarter—Begins immediately after the Christmas Vacation, (about the 4th of January), and ends on the 20th of March.

Second Quarter—Begins on the 20th of March, and ends on the 10th of June.

Third Quarter—Begins on the 10th of June, and ends at the commencement of the Summer Vacation, (about the 16th of August.)

Fourth Quarter—Begins immediately after the Summer Vacation, (about the 1st of October), and ends at the commencement of the Christmas Vacation, (about the 21st of December.)

*** At whatever period of either of the above Quarters a Scholar is admitted into the College, or Preparatory School, his Dues for Instruction are payable from the beginning of that Quarter. x 45

English, Writing and Arithmetic, } MR. G. A. BARBER, MR. J. PADFIELD.

Drawing Master—MR. DRURY.

The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observation, or from the representation of the Masters.

The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.

It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.

Drawing will be taught at the option of the Parents.

A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.

The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.

In each Establishment Books will be provided at the expense of the Pupils.

The management of the affairs of the College will be vested in the Directors and Trustees, who will also regulate its financial concerns, and receive all dues for Tuition.

The Vacations will be ten days at Christmas, and six weeks in the Summer, from the middle of August to the end of September, with a few occasional Holidays. All the Masters will be allowed to take Boarders.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

GEO. H. MARKLAND,

Secretary to the Board of Education.

⁂ The Principal will be ready to receive Boarders (to a limited extent only, until his residence in the College is completed,) at the opening of the College on the 4th of January.

TERMS.

£11 5s per quarter, including all necessary expenses of Board and Tuition, except Books—There will be an additional charge for those Pupils who learn Drawing.

EXTRACTS FROM THE REGULATIONS OF

Upper Canada College.

THE hours of attendance, each day, at the College and Preparatory School, are, from a quarter before nine o'clock, till twelve, in the forenoon; and from two o'clock till four, in the afternoon: except on Thursday, which is a half-holiday.

Punctuality is strictly required in the attendance of Scholars in every department. Any Scholar is considered *late* in the morning, who is not present to answer to his name at the calling over of the List at a quarter before nine, previous to Morning Prayers.

The only excuses admitted for Absence, are sickness and domestic calamity; to be notified, in *all cases*, by the Parents, in writing, when a boy returns to College or School. But in order to discountenance as much as possible, the practice of Scholars being detained from the College or School, on frivolous pleas (a practice which interferes most injuriously with their progress,) any boy who, *from whatever cause*, is absent during one division of the day, loses his standing, and is placed at the bottom of his form on his return. A Register is also kept, in which are entered all excuses assigned for absence.

The hours of attendance for those Scholars who learn Drawing, are from twelve till one o'clock, on Monday, Tuesday, Friday, and Saturday; and from one o'clock till three, on Thursday.

Every Branch of Instruction is included in the College Dues of £2 per Quarter, and the Preparatory School Dues of £1 10s. per Quarter: except Drawing, for which there is an additional quarterage of Ten Shillings, exclusive of the expense of Drawing Materials.

The College Quarters are ordered as follows:—

First Quarter—Begins immediately after the Christmas Vacation, (about the 4th of January), and ends on the 20th of March.

Second Quarter—Begins on the 20th of March, and ends on the 10th of June.

Third Quarter—Begins on the 10th of June, and ends at the commencement of the Summer Vacation, (about the 15th of August.)

Fourth Quarter—Begins immediately after the Summer Vacation, (about the 1st of October), and ends at the commencement of the Christmas Vacation, (about the 21st of December.)

⁂ At whatever period of either of the above Quarters a Scholar is admitted into the College, or Preparatory School, his Dues for Instruction are payable from the beginning of that Quarter. x 43

ONTARIO HOUSE,

YORK, UPPER CANADA.

DAVID BOTSFORD, late of the *Promenade Tavern*, NIAGARA, has taken this Establishment, which he has fitted up in a superior style for the reception of General Company. The proximity of this house to the Steam-Boat Wharf and public buildings, and the extensive view from the Galleries which overlook the Town and Bay, renders it particularly delightful. He has taken care that every department is filled with active and faithful servants, and noting shall be wanting on his part to render it a fashionable place of resort.

The proprietor of the above invites the attention of the visitors at Niagara Falls to this place: it is the Capital of the Province, Head-Quarters for the Military, who have a superior Band of Music attached; the distance is short, and every facility that is necessary for comfort can be had on the way. The Steam-boat *Canada* plies regularly every day from York to Niagara, leaving the latter at 1 o'clock, P.M. so that parties of pleasure may breakfast at the Falls, dine on board the Canada, and find themselves comfortably situated at 5 o'clock, P. The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observation, or from the representation of the Masters.
The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.
It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.
Drawing will be taught at the option of the Parents.
A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.
The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.
In each Establishment Books will be provided at the expense of the Pupils.
The management of the affairs of the College will be vested in the Directors and Trustees, who will also regulate its financial concerns, and receive all dues for Tuition.
The Vacations will be ten days at Christmas, and six weeks in the Summer, from the middle of August to the end of September, with a few occasional Holidays. All the Masters will be allowed to take Boarders.
The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.
GEO. H. MARKLAND,
Secretary to the Board of Education.
*** The Principal will be ready to receive Boarders (to a limited extent only, until his residence in the College is completed,) at the opening of the College on the 4th of January.

Drawing Master—Mr. Drury.

The Principal will have the general superintendence of the School, with the authority of a Master over every department. He will also have the power of introducing such alterations in the system of education as he may judge necessary, from his own observation, or from the representation of the Masters.

The course of instruction to be pursued will comprise, the Classics, Mathematics, English Composition and History; Writing and Arithmetic; Geography and French; and Pupils will not be allowed to confine their attention to a part of the system laid down to the exclusion of any of the subjects which it embraces.

It may be observed, however, that whilst a Pupil who remains at the College till he has reached the highest form, will be prepared to enter the University; another, whose views may be otherwise directed, will be perfectly qualified for Mercantile pursuits at an earlier period in the College course, with the additional advantage of having acquired a considerable stock of knowledge which will also greatly assist him in attaining his own more immediate object.

Drawing will be taught at the option of the Parents.

A preparatory School will be attached to the College, and conducted on a corresponding plan, under the inspection of the Principal.

The dues of each Pupil for instruction will be at the College Two Pounds per Quarter; and at the preparatory School One Pound Five Shillings per Quarter; to be paid at the expiration of each quarter. There will also be some charge for Pens, Fuel, &c.

In each Establishment Books will be provided at the expense of the Pupils.

The management of the affairs of the College will be vested in the Directors and Trustees, who will also regulate its financial concerns, and receive all dues for Tuition.

The Vacations will be ten days at Christmas, and six weeks in the Summer, from the middle of August to the end of September, with a few occasional Holidays. All the Masters will be allowed to take Boarders.

The whole of the arrangements intended for the improvement of the District Schools cannot at present be carried into effect; but if it be found practicable, some of their most promising Scholars will be appointed to exhibitions at the College. The number elected annually will depend on the proficiency of the Candidates. Modifications of the system of the Institution may be indispensable, but it is hoped the advantages to be derived from permanently fixing in Upper Canada a Public Seminary, accessible to all, and where a liberal and extensive education may be obtained on moderate terms, will be felt and duly appreciated throughout the Province.

GEO. H. MARKLAND,
Secretary to the Board of Education.

*** The Principal will be ready to receive Boarders (to a limited extent only, until his residence in the College is completed,) at the opening of the College on the 4th of January.
