SECOND QUARTER (APRIL-JUNE) 2011 SUMMARY

- Ontario's real **Gross Domestic Product** (GDP) declined 0.3% in the second quarter of 2011, following seven consecutive quarterly gains.

- Business investment on plant and machinery** continued its upward trend, advancing 4.9% in the second quarter, following five consecutive quarterly gains. **Investment in machinery and equipment** jumped 6.2% while **non-residential construction** spending edged up 0.3%.

- Consumer expenditures** on goods and services increased 0.2%, the ninth consecutive quarterly gain. Consumers increased their purchases of auto parts, furniture and appliances, electricity, drugs and personal goods and other durable goods. Spending on services increased 0.6%, after rising 0.3% in the previous quarter.
- Investment in residential construction** rose 1.8% in the second quarter. Expenditures on new housing construction increased 2.8%, while renovation activity jumped 4.6%. Spending on ownership transfer costs relating to housing resales declined 5.0% after two consecutive quarterly gains.
- Businesses accumulated \$5.9 billion (\$2002) in **inventories** in the second quarter, following a \$2.2 billion build-up in the first quarter.
- Exports** declined 1.4%, while **imports** increased 1.2% in the second quarter. International trade, particularly auto imports in the second quarter, was impacted by supply chain disruptions caused by the tsunami in Japan.
- In **current dollars**, **GDP** edged up by 0.1% in the second quarter to \$634.5 billion. Economy-wide prices, as measured by the **GDP implicit price index**, increased 0.4%, matching the first quarter increase.
- Economic production estimated on an **industry basis** declined 0.4%. Production by goods-producing industries declined 1.0%, while that of services-producing industries edged down 0.2%.

EXPENDITURE AND INCOME DETAILS

BUSINESS INVESTMENT GROWTH CONTINUES

Capital spending on plant and equipment by Ontario businesses continued increasing by a strong 4.9% in the second quarter. Investment growth was powered by a 6.2% expansion in **real machinery and equipment** spending, the sixth consecutive quarterly gain. Since its last decline in the fourth quarter of 2009, machinery and equipment investment spending has jumped by 38.0% or \$13.4 billion (\$2002). **Real non-residential construction** spending rose 0.3%, following a 4.0% gain in the first quarter.

Real Machinery and Equipment Investment Advances in Second Quarter

CONSUMER SPENDING ADVANCES

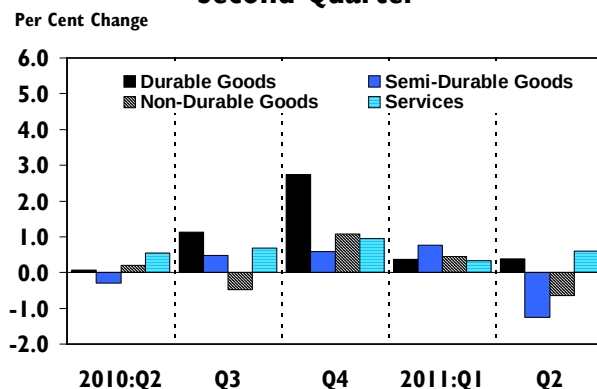

Real consumer spending on goods and services continued to grow, rising 0.2% in the second quarter, the ninth consecutive quarterly increase.

Spending on consumer **durables** increased 0.4%, as household spending on auto repairs and parts (+2.8%), furniture and appliances (+0.9%) and other durable goods (+2.5%) advanced. In contrast, sales of new and used motor vehicles declined 1.7%.

Purchases of **semi-durable** (-1.3%) and **non-durable** (-0.6%) goods declined in the second quarter. Expenditures on clothing and footwear, food and beverages, natural gas and motor and other fuels declined, while spending on electricity and drugs and personal goods increased in the quarter.

Household spending on **services** increased 0.6% in the second quarter, the ninth consecutive quarterly advance.

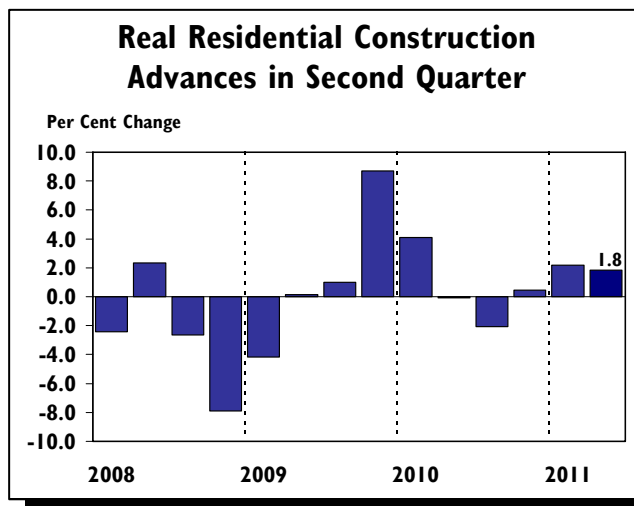

Real Consumer Spending Increases in Second Quarter

RESIDENTIAL CONSTRUCTION HIGHER

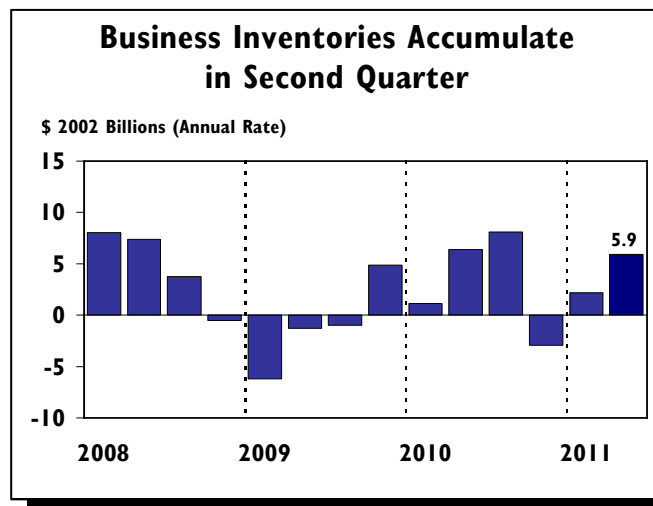

Real residential construction investment

continued to rise, advancing 1.8% in the second quarter, led by a 2.8% increase in new housing construction and a 4.6% rebound in renovation activity. Spending on ownership transfer costs relating to housing resales declined 5.0%, following a strong 5.9% gain in the previous quarter.

INVENTORY LEVELS UP

Ontario businesses increased inventories by \$5.9 billion in the second quarter. Manufacturers accounted for most of the accumulation by building up stocks of primary metal products, motor vehicles and other transportation equipment. Retailers and wholesalers also added to stocks in the quarter.

EXPORTS DECLINE, IMPORTS INCREASE

Ontario real **exports** of goods and services (-1.4%) declined while **imports** (+1.2%) increased in the second quarter.

International merchandise exports declined 2.9% following two quarters of gains. Lower exports of autos, other consumer goods and industrial goods and materials more than offset increases in exports of machinery and equipment, agricultural commodities and other goods in the second quarter.

International merchandise imports advanced 2.2% after increasing 3.6% in the first quarter. All import categories except autos posted gains in the quarter. The slow down in auto imports was largely due to a supply chain disruption caused by the tsunami in Japan. This was a transient shock impacting imports of autos and parts from Japan in the second quarter.

Interprovincial exports of goods and services were flat, edging up by an estimated 0.1% while interprovincial imports declined 1.6%.

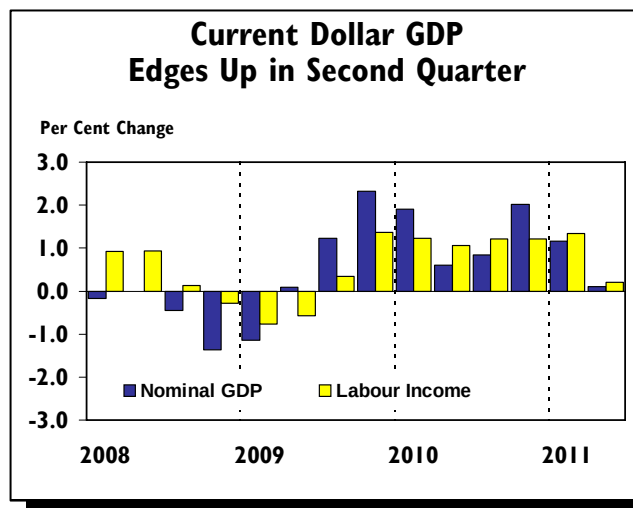

CURRENT DOLLAR GDP GROWTH SLOWS IN SECOND QUARTER

Gross Domestic Product measured in current dollars edged up 0.1% in the second quarter, after growing 1.2% in the first quarter. A 0.4% rise in prices counterbalanced the 0.3% decline of real GDP. Slower growth in labour income and lower corporate profits contributed to the deceleration of nominal GDP growth.

Labour income was up 0.2%, easing from 1.3% growth in the first quarter.

Personal disposal income advanced 0.4%, following a 0.6% gain in the first quarter. Personal consumption expenditures increased 0.6%. As a result, the personal savings rate*, the ratio of savings to disposable income, fell slightly to 4.0% in the second quarter from 4.2% in the first quarter.

Corporate profits, on a national accounts basis, declined 3.5% in the second quarter, as earnings fell for both financial and non-financial enterprises.

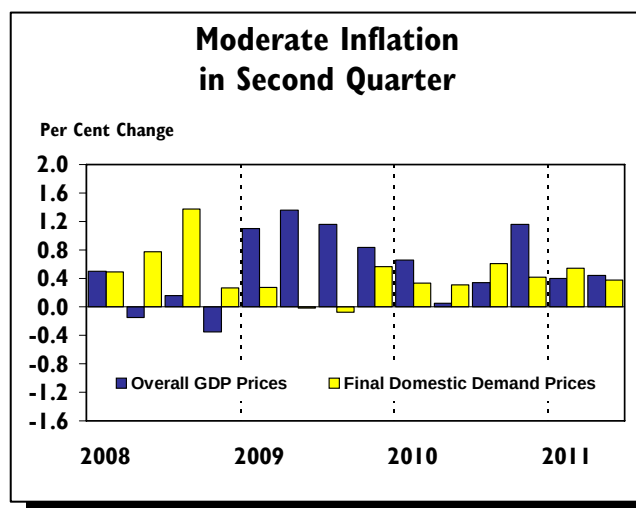

***Note:** Personal savings is calculated in the System of National Accounts as the difference between the amount households receive as income and their outlays on taxes and personal consumption.

PRICES RISE 0.4% IN SECOND QUARTER

Economy-wide prices, as measured by the **GDP implicit price index**, rose 0.4% in the second quarter, matching the first quarter price increase. The implicit price index for final domestic demand also was up 0.4%.

Prices for **personal consumer expenditures** on goods and services increased 0.4% reflecting higher prices for clothing and footwear, food and non-alcoholic beverages, tobacco products, natural gas, motor and other fuels and other non-durable goods. Lower prices for motor vehicles, furniture and appliances and other durable goods helped moderate overall consumer price gains.

Prices for **business investment expenditures** edged up 0.1%, after declining in the previous four quarters. **Machinery and equipment** prices continued to decrease, falling 1.8% in the second quarter, the ninth consecutive quarterly decline. **Non-residential construction prices** increased 0.5%. **Residential construction prices** advanced 1.4%, reflecting higher ownership transfer costs and higher costs for new houses and renovation.

Export prices (+0.6%) were up, as international prices for industrial goods and materials, agricultural and energy products and “other” consumer goods increased in the quarter. International prices for machinery and equipment, auto products and forestry products were all lower in the quarter. **Import** prices rose 1.4% in the second quarter, after a 0.4% advance in the first quarter.

ONTARIO PRODUCTION BY INDUSTRY

HIGHLIGHTS

Output by industry declined 0.4% in the second quarter, the first quarterly decrease in two years. Output was down in both the service (-0.2%) and the goods-producing (-1.0%) sectors.

Production declined in the manufacturing (-2.3%), finance (-0.3%) and retail trade (-1.0%) sectors. The utilities (+3.1%) and construction (+0.9%) sectors posted gains in the second quarter.

Ontario Output at Basic Prices	-3.5	3.4	0.5	1.2	0.8	-0.4
<i>(annualized rates)</i>			1.9	4.8	3.1	-1.4

Note: Output by industry is defined as real gross domestic product (GDP) at basic prices in chained 2002 dollars. GDP at basic prices includes taxes net of subsidies on labour and capital inputs, but not taxes on final products.

MANUFACTURING OUTPUT DECLINES

The manufacturing sector's output decreased 2.3% in the second quarter, with nine of the eleven manufacturing industries included in the Ontario Economic Accounts recording lower output.

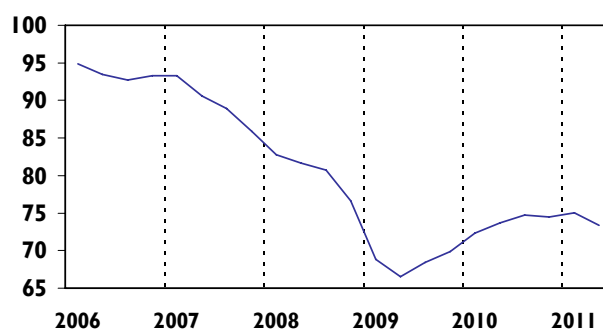

The transportation equipment sector declined 5.2% after remaining flat in the first quarter. Auto industry production decreased 8.4% in the second quarter, following a 5.6% gain in the previous quarter. Auto production was partly affected by the supply chain disruption caused by the tsunami in Japan. Transportation equipment, apart from autos, rebounded 8.1% in the second quarter, after falling 18.0% in the first quarter.

There were also significant output reductions in the chemical and petroleum products (-2.8%), machinery (-3.1%) and primary metal and fabricated metal products (-1.0%) industries.

The electrical and electronic products industry advanced 0.4% in the second quarter continuing its steady recovery since 2010Q1. The current level of production in the electrical and electronic products industry is 14.6% above the level posted in the fourth quarter of 2009.

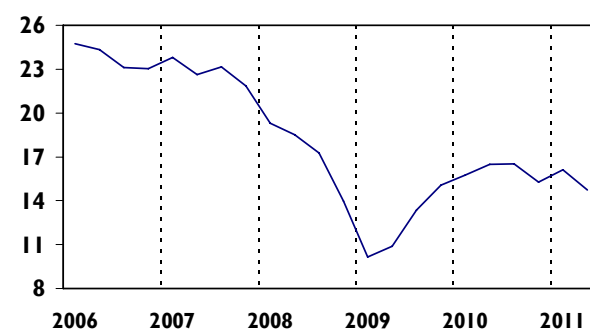

Manufacturing Down in Second Quarter

\$ 2002 Billions

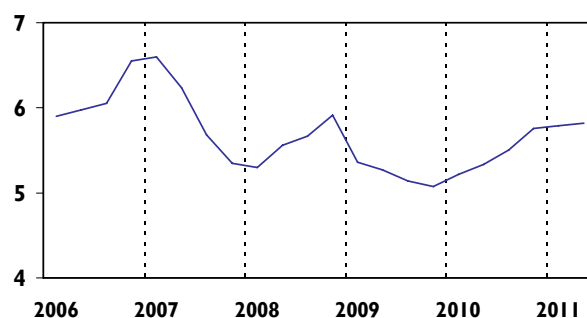

Auto Industry Output

\$ 2002 Billions

Electrical and Electronic Products

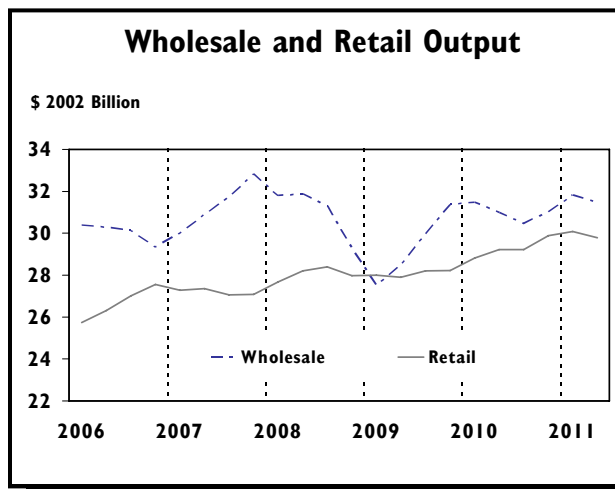

\$ 2002 Billions

WHOLESALE AND RETAIL

Wholesale trade output decreased 1.1%, following two consecutive quarterly gains. A decline in sales by motor vehicle wholesalers, a reflection of supply chain disruptions caused by the Japanese tsunami in March, weighed down output in the second quarter.

Retail trade activity declined 1.0%, following a 0.7% gain in the first quarter. Food and beverage stores and gasoline stations led the overall decline in the retailing industry.

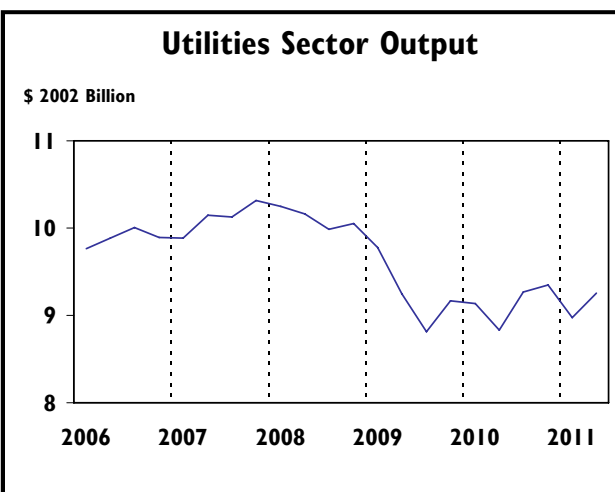

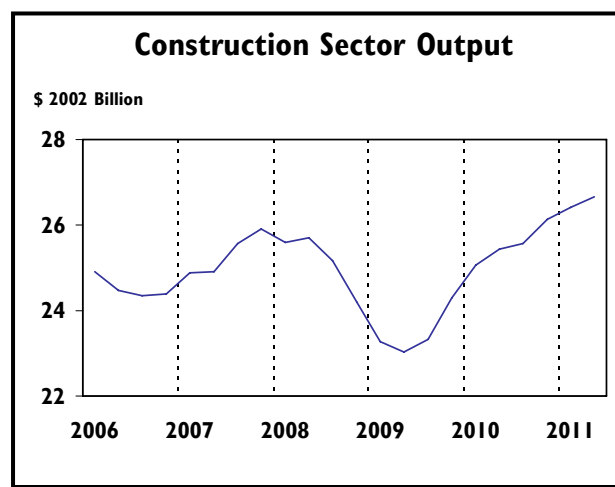

CONSTRUCTION, UTILITIES AND RESOURCES

Construction sector output increased 0.9% in the second quarter, advancing for the eighth consecutive quarter. Residential construction rose 3.8%, posting the sharpest gain since the first quarter of 2010. Non-residential and engineering construction declined 0.9%.

Utilities output rose 3.1% in the second quarter, following a sharp 4.0% decline in the first quarter. Electric power output advanced 5.0%, more than offsetting a 2.1% decline in natural gas and water distribution.

Mining output increased 1.2% in the second quarter, marking the fifth gain in six quarters, as the sector continues to rebound from a year long labour dispute in the metal mining industry in 2009.

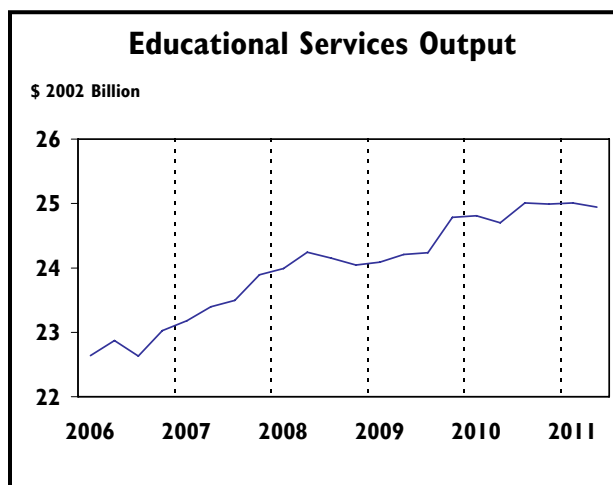

Note: Construction industry output is measured by the value added of the industry. Construction investment, as reported in the expenditure-based GDP accounts, measures the spending on new construction projects.

EDUCATION, HEALTH CARE AND PUBLIC ADMINISTRATION

Education service output declined 0.3% in the second quarter, after being virtually unchanged over the previous two quarters.

Output of both the health care and social service (+0.5%) and public administration (+0.4%) sectors increased in the second quarter.

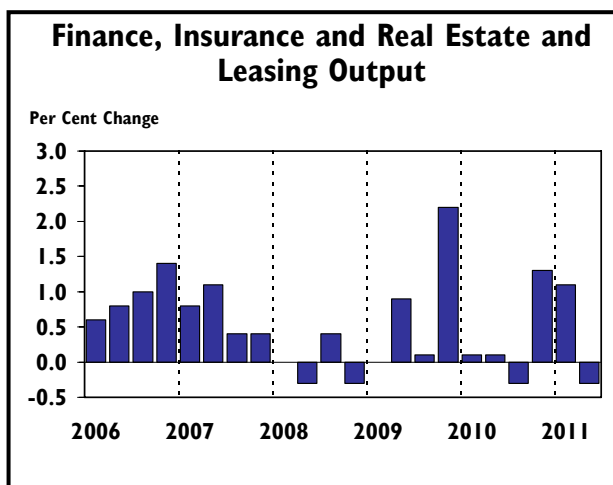

FINANCE, INSURANCE AND REAL ESTATE AND LEASING*

Output in the finance, insurance and real estate and leasing sector declined 0.3% in the second quarter, following two strong quarterly gains.

Driving the decline was lower output in the “other” financial services (-3.0%) (which includes activities of real estate agents and brokers), a reflection of a softer real estate market.

Declines were also recorded by the banking (-1.2%) and insurance (-1.2%) industries.

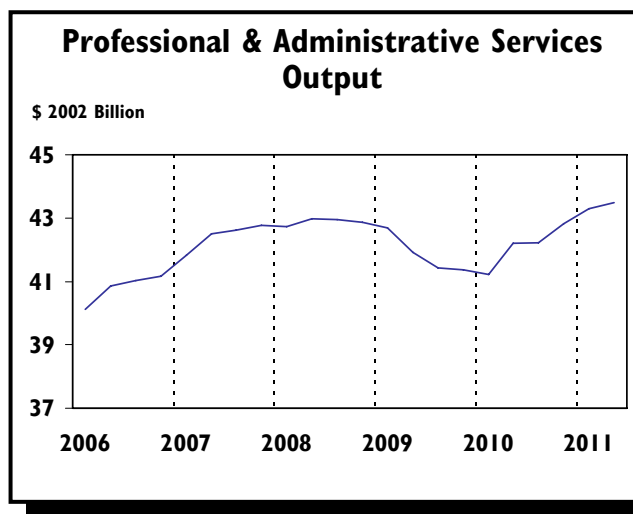

*This sector (NAICS 5A) includes the finance, insurance, real estate and renting and leasing and management industries.

OTHER SERVICE SECTOR INDUSTRIES

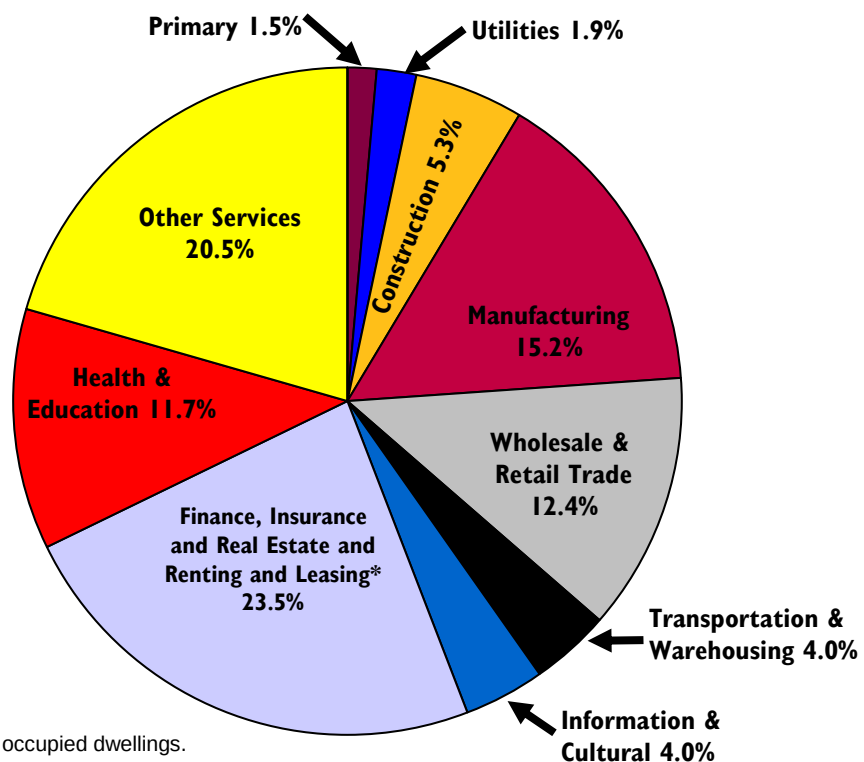

In the information and cultural sector (which includes telecommunications) production was down 1.3% in the quarter, as employment decreased. The second quarter decrease in production follows a 0.8% decline in the first quarter.

Accommodation and food services output increased 0.7%, decelerating from the 1.4% increases posted in the previous two quarters.

Output of professional and administrative services increased 0.4% in the second quarter.
