

Impact in Ontario

2023-2024 Annual Report

Board Approved: July 15, 2024

Ontario
Trillium
Foundation

Fondation
Trillium
de l'Ontario

An agency of the Government of Ontario
Un organisme du gouvernement de l'Ontario

For more than 40 years, OTF has been a cornerstone in building healthy and vibrant communities across the province.

Our commitment to supporting the people of Ontario is reflected in our strategic investments in organizations that drive positive change and foster growth.

Through our grants, we empower local initiatives that enhance the quality of life for residents, promote inclusivity and strengthen the fabric of our communities.

This report highlights the significant impact of our work over the past year and reaffirms our dedication to fostering a brighter future for all Ontarians.

Thank you for being a part of this journey and for your continued support. Together, we are building a stronger, more resilient Ontario.

Our Mission

Our mission is to build healthy and vibrant communities throughout Ontario by investing in community-based initiatives and strengthening the impact of Ontario's non-profit sector.

Our Values and Guiding Principles

Our values direct our activities and shape our culture. They are guided by our volunteers and staff in their actions and relationships.

- We act with integrity and fairness.
- We provide outstanding customer service.
- We lead change that matters to communities.
- We pursue excellence in all we do.
- We improve through knowledge and learning.
- We build trust through transparency and accountability.
- We pursue diversity, equity, and inclusion in everything we do.

Message from the Chair and CEO

Dear Supporters and Community Members,

At the Ontario Trillium Foundation, we believe that creating meaningful change starts with measuring the impact of our community investments. As we look back on the accomplishments of the past year, we are delighted to share some significant milestones and successes.

First and foremost, we are proud to report that the grants OTF awarded to a diverse range of organizations across the province have empowered countless initiatives — fostering growth and innovation within our communities.

Among this year's standout achievements has been the successful wrap-up of the Resilient Communities Fund grant. This initiative has played a crucial role in building capacity and resilience, ensuring that organizations are well-equipped to face potential challenges. By supporting these organizations, we have laid a solid foundation for a stronger, more resilient future.

This year also marked the 10th anniversary of our Youth Opportunities Fund. Over the past decade, the YOF has provided invaluable support to community-led initiatives, creating opportunities and nurturing the potential of young Ontarians. We celebrated this milestone with immense pride and look forward to many more years of empowering our youth.

The OTF successfully closed numerous grants, each making a significant impact on their respective communities. These achievements are a testament to the dedication and hard work of the non-profit organizations we support, whose efforts continue to transform the lives of Ontarians.

In addition to our grant activities, we have also undergone a strategic planning process to chart a clear direction for the coming years. As part of the new plan, OTF has updated its grant investment framework to offer a simpler structure, making it easier and more effective for applicants to align their project goals with OTF's funding priorities. The new plan will guide our efforts, ensuring that we remain focused on our mission and responsive to the evolving needs of our communities.

We wish to thank the Ontario government for its unwavering support and commitment to our mission.

We also extend our heartfelt gratitude to our dedicated volunteers, whose commitment to the granting process and community perspective are invaluable.

Finally, we want to acknowledge the incredible work of non-profits across Ontario. Your efforts make a profound and lasting impact on our communities.

Thank you for your continued support and dedication.

With gratitude,

William (Bill) Walker
Chair

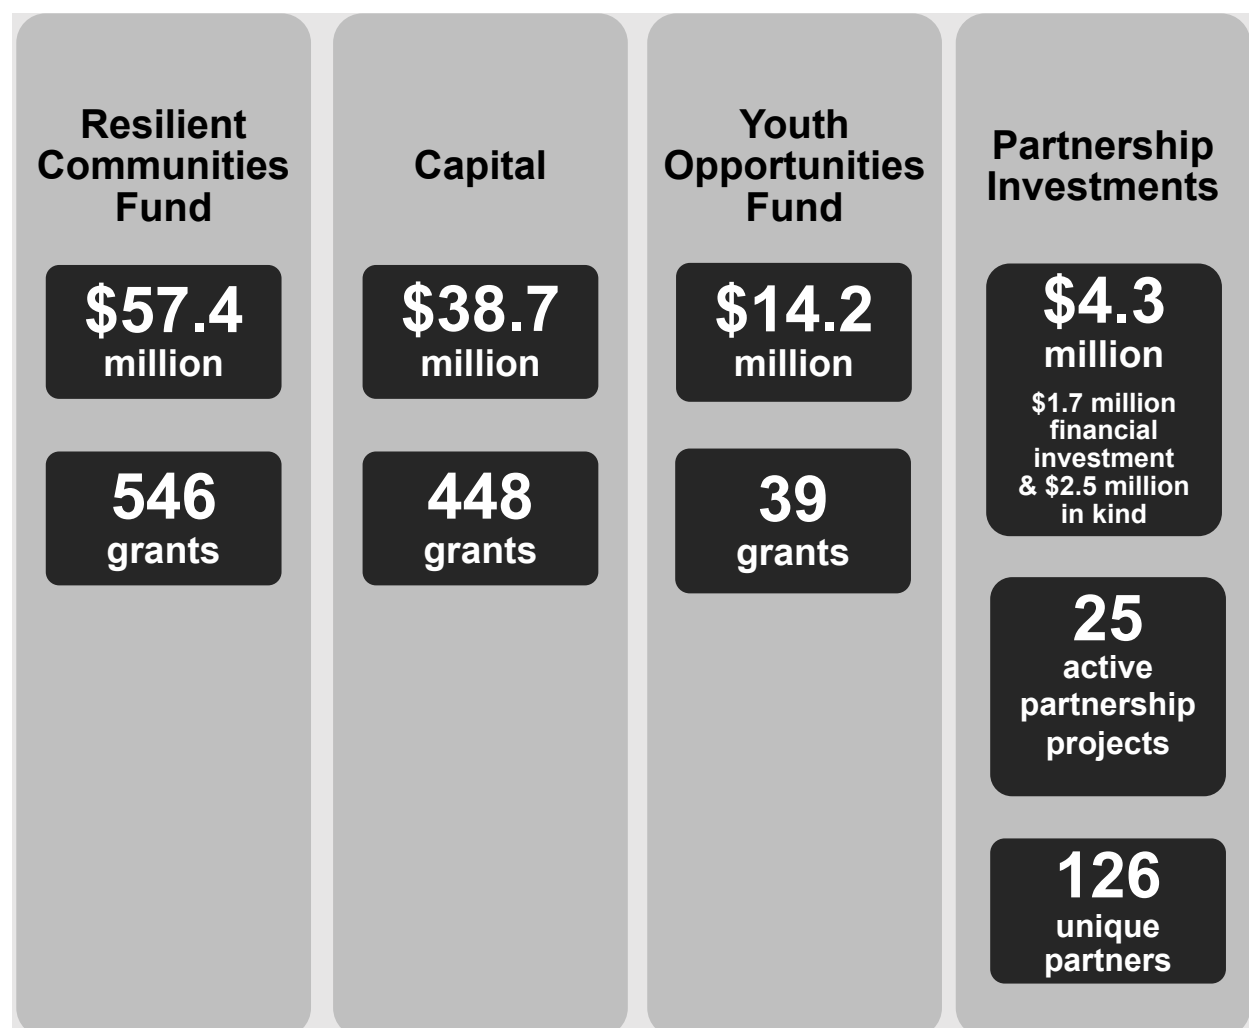

Katharine Bambrick
Chief Executive Officer

OTF at a Glance

2023–2024

The Ontario Trillium Foundation, a Government of Ontario agency and leading granting foundation in Canada, plays a pivotal role in shaping and enhancing the cultural and economic fabric of communities throughout the province. This year, OTF allocated more than \$110 million to community organizations and partnerships through the programs below:

300+

volunteers

bring local knowledge and diverse perspectives to grant application assessments

1,879+

active (ongoing) grants,
a combined investment of

\$283 million

Impact of OTF grants

People of all ages benefit

Percentage of people impacted based on age group:

68% General population	6.5% Children (0-12)	10% Youth (13-24)	11% Adults (25-64)	5.0% Seniors (65+)
------------------------------	----------------------------	-------------------------	--------------------------	--------------------------

Communities and populations

OTF grants benefit a wide range of Ontarians, with 42% of our grant dollars serving people with diverse identities and lived experiences.

Identity 16% of grants have benefitted Black, Indigenous, other racialized groups, 2SLGBTQIA+, and diverse cultural communities.	Lived Experience 41% of grants have benefitted people who are low income, newcomers/ refugees, living with mental health and addiction issues, underhoused/homeless, have disabilities, and are in care/leaving care.	Gender 10% of grants have benefitted specific gender populations (e.g. women/girls, Trans-women, Trans-men etc)
Language 11% of grants have benefitted people who are Francophone, bilingual in English and French, and speak other languages besides English and French.	General populations 46% of grants have benefitted the general population.	* These percentages total more than 100% as some grants serve more than one population.

Communities of all sizes

Percentage of grant dollars benefitting different community sizes:

21% Rural or small communities	21% Mid-size communities	58% Urban centres
--------------------------------------	--------------------------------	-------------------------

Grant Investment Streams

We prioritize investments in community-driven projects that foster a healthy, lively and resilient Ontario, for today and generations to come.

Resilient Communities Fund

The Resilient Communities Fund wrapped up this year, marking the final chapter of its impactful journey. Throughout 2023-2024, the fund continued its mission of aiding community-based organizations in bolstering their capacity, fostering resilience, and securing long-term stability.

By providing essential financial support, the fund enabled the non-profit sector to strengthen its resilience, empowering organizations to adapt swiftly to evolving community needs. This year's efforts facilitated the uninterrupted delivery of vital programs and services, underscoring the fund's role in fortifying the sector against unforeseen challenges.

Capital Stream

The Capital stream is a vital avenue through which the Ontario Trillium Foundation invests in community infrastructure, enabling improvements across various regions. Through capital grants, OTF empowers organizations to take on projects that enhance community well-being, including the purchase of equipment, construction of new spaces, and completion of renovations, retrofits, or repairs.

Additionally, OTF's support extends to initiatives leveraging technology solutions, which amplify the impact and reach of programs and services, further aligning with the evolving needs of Ontarians. Through strategic investments, the Capital stream plays a pivotal role in shaping resilient and thriving communities across the province.

Youth Opportunities Fund

The Youth Opportunities Fund offers grants and capacity-building support to grassroots organizations and community-led collaborations. It focuses on improving the well-being of children, youth, and families facing systemic barriers, with particular emphasis on supporting Indigenous and Black communities.

OTF oversees the Youth Opportunities Fund (YOF) on behalf of the Ministry of Children, Community and Social Services, this year marking a decade of impactful service. Since its inception in 2013, YOF has been a beacon of support, awarding nearly \$124.7 million to 397 projects across the province. These initiatives are dedicated to enhancing the welfare of youth and families grappling with barriers, leaving an indelible mark on more than 203,000 people who have been impacted since the start of YOF program.

The Youth Opportunities Fund provides grants through three investment streams:

Youth Innovations

Grants supporting youth-led grassroots organizations and collaborations between youths and adults, providing them with the resources to develop and implement impactful solutions to relevant issues.

Family Innovations

Grants that support grassroots organizations implement projects that empower and assist parents, guardians and caregivers tackle issues impacting families.

System Innovations

Grants that support collaboratives who are strategizing ways to improve access to services and strengthen systems for youth confronting systemic barriers.

How we invest to make an impact in communities

OTF funds a range of sectors that include arts and culture, sport and recreation, environment and human and social services. These sectors correspond with OTF's six Action Areas, which are guided by the indicators of community well-being outlined in the Canadian Index of Wellbeing (CIW).

Active People

Fostering more active lifestyles

Connected People

Building inclusive and engaged communities together

Green People

Encouraging people to support a healthy and sustainable environment

Inspired People

Enriching people's lives through arts, culture and heritage

Promising Young People

Supporting the positive development of children and youth

Prosperous People

Enhancing people's economic well-being

Grantee Impact Story

The Township of Blandford-Blenheim

Catchment: Thames Valley

This initiative will support a rapidly growing community by enhancing inclusivity, while providing a social activity area in the township, Plattsville Park. The **\$125,000 Capital grant** will provide a multitude of accessible equipment, including rubber flooring featuring 2SLGBTQIA+ colours, a communication board with pictograms that assists children who are mute or have language difficulties, and an Indigenous land acknowledgement plaque.

These capital improvements will allow underrepresented groups to feel more welcome and create opportunities for new and adapted programming for children with accessibility needs.

OTF’s role in empowering non-profit sector resilience

The Resilient Communities Fund was established in 2020-2021 as a response to the challenges the non-profit sector faced due to the COVID-19 pandemic. OTF responded quickly to Ontarians’ emerging and urgent needs by developing the Resilient Communities Fund. Recognizing the unprecedented demand for support, OTF pivoted to deploy funds where they were most urgently needed, offering a critical resource for organizations as they navigated their communities’ shifting needs.

In its second year, the Resilient Communities Fund underwent a strategic transformation, aligning its focus with the demands emerging from the evolving and ongoing crisis. Beyond stabilization efforts, the fund embraced a forward-looking approach by empowering organizations to adapt and innovate. With its flexible funding, the fund could enable non-profits to explore new avenues of program delivery, procure essential equipment, and undertake necessary renovations to meet the evolving needs of the communities they serve.

Resilient Communities Fund Total			
3,299 grants (13,162 applications)		\$294.2M awarded (\$1.342B requested)	
2020-2021:	* 2021-2022:	2022-2023:	2023-2024:
1,045 grants \$83.1M	1,146 grants \$95.8M	562 grants \$58.1M	546 grants \$57.3M
* 2021-2022: OTF also delivered the government’s Community Building Fund, which helped to increase the amount of support going to communities.			

Grantee Impact Story

Children’s Centre Thunder Bay

Catchment: Northwestern

With a **\$200,000 Resilient Communities Fund grant**, this collaborative will expand research and educational resources related to “The Brain Story”, which explains how adverse childhood experiences profoundly affect the developing brain. These experiences can lead to mental and physical health impacts across the lifespan.

With this funding, the collaborative will share prevention measures and data about the importance of the “The Brain Story” with rural communities, 2SLGBTBQ+, Indigenous, Neurodiverse, and Francophone clients across the Thunder Bay District.

Resilient Communities Fund Impact

More than 2,200 Resilient Community Fund grants successfully closed, and grantees have submitted their final reports. Among these, 72% reported a notable increase in organizational capacity. Furthermore, 95% of grantees achieved the outcomes they set out to accomplish, with the remaining 5% partially meeting their intended goals.

The highest achievement rates were for the following outcomes:

Achievement rate:	Outcome:
	100% Meet public health guidelines, safely deliver programs and services and/or prepare for future disruption.
	99% Adapt or add new program- and service-delivery to meet the changing needs of the community.
	96% Adapt or reimagine the delivery of programs and services to meet the needs of the community, employees and volunteers.
	96% Procure equipment or renovate spaces to meet the needs of the organization to be able to safely deliver its programs and services and/or to adapt to new ways of working.
	95% Equip Board members and employees with support to implement new approaches, prepare for change and build resiliency.

Review of Achievements

2023–2024

OTF's accomplishments were driven by the three strategic goals and supporting objectives outlined in our annual business plan. Here's a summary of what we achieved:

Goal 1:

Deliver grants that improve the lives of Ontarians

Objective: Invest granting budget into Ontario communities in line with OTF's investment strategy

Resilient Communities Fund

The Resilient Communities Fund has played a pivotal role in strengthening community resilience by empowering organizations to persist in their efforts to advance positive change. In its final year, demand remained high as organizations sought to adapt, reimagine and innovate in response to shifting circumstances brought on by the pandemic.

With a total of 3,273 applications received across two deadlines, amounting to \$365.4 million in requested funding. OTF awarded 546 grants totaling \$57.4 million to support non-profit organizations across Ontario. The Resilient Communities Fund once again had very high demand – with \$6.37 for every dollar granted. There were applications for a very wide range of projects and from a wide variety of organizations, including submissions from diverse groups, including 2SLGBTQIA+, women, Black and racialized, Indigenous and Francophone communities.

Grantee Impact Story

The Township of Georgian Bay

**Catchment: Muskoka,
Nipissing, Parry Sound &
Timiskaming**

A growing 55+ population in Georgian Bay expressed interest in one-on-one technology training and creative technological activities. Currently, the local public library has a selection of workstations, however they don't have access to laptops. With upgraded computers, they would offer as-needed tech support, group technology classes, and programs and services extended beyond the physical space of the library.

The laptops and other equipment purchased with a **\$10,000 Resilient Communities Fund grant** will allow the library to reach residents where they are and address a community need for greater technology focused programming for the growing 55+ seniors population.

Financial support and resources from the fund enabled organizations to adapt, build capacity and resilience, and continue serving their communities. Grantees used these funds for initiatives with multiple projected outcomes:

Percent selected	Outcomes
58%	Create and execute medium- to long-term strategies to tackle emerging organizational needs for recovery and/or bolster resilience and sustainability. <i>Examples: Organizational training and coaching, strategic planning and implementation, operational planning, reopening planning, developing fundraising plans, strategic planning for mergers, seek opportunities for public-private partnerships and social finance, planning to attract/retain staff and/or volunteers, cybersecurity planning.</i>
45%	Broaden existing adapted programs and services to align with evolving community needs. <i>Examples: Continue program/service previously adapted to meet community needs, scale access to program/service that was previously adapted, continue programs meeting a community need, improve quality of programs already being delivered.</i>
42%	Modify or introduce new program- and service-delivery methods to accommodate evolving community needs. <i>Examples: Research and development, identify new health and safety processes and required personal protective equipment; technology supports; staffing and volunteer recruitment and training, community consultation to understand emerging needs resource, knowledge and data sharing, feasibility studies; program implementation.</i>
24%	Assist staff and volunteers in adjusting to organizational changes associated with recovery efforts. <i>Examples: Mental and physical health and wellbeing supports, peer learning, professional development, networking</i>
12%	Adhere to public health guidelines, ensure the safe delivery of programs and services, and/or prepare for potential disruptions. <i>Examples: Identify fundraising and financial technology resource, as well as equipment to meet changing technology, or convert to cloud-based data systems to enable business continuity in future work disruptions, procure technology to effectively transition between office and home working conditions, planning and/or procurement needed to meet relevant public health standard.</i>

Note: Percentages do not total 100%, as grantees could select more than one outcome.

Capital Grants

Investing in community infrastructure

Non-profit organizations use OTF capital grants to address community needs and improve the infrastructure Ontarians need to thrive. These grants support initiatives such as purchasing equipment, constructing new spaces and renovating existing ones, enabling better access to community facilities, programs and services.

In 2023-2024, OTF saw a surge in demand, receiving 1,600 applications totaling \$149.2 million in funding requests, reflecting an increase from the previous year. To support these needs, 448 grants were awarded, amounting to \$38.7 million, empowering grantees to embark on projects with multiple projected outcomes:

Percent selected	52%	41%	25%	38%
Outcome	Enhance program and service delivery	Extend life of facility	Improve facility accessibility	Increase use of facility

Note: Percentages do not total 100%, as grantees could select more than one outcome.

Grantee Impact Story

Durham Curling Club

A **Capital grant of \$150,000** will fund upgrades to a sports and recreation facility, which also provides space for community events and school activities. With a new concrete floor, this 60-year-old community club will expand its programming and reach, offering activities such as pickle ball and curling.

As the only local sports hub in the area, the capital improvements will make this facility available year-round, creating more opportunities for people of all ages to stay active, connected, and healthy.

Catchment: Grey, Bruce, Huron & Perth

Youth Opportunities Fund

Investing in projects led by Ontario’s youth and families

In the past year, the Youth Opportunities Fund (YOF) has provided support to children, youth and families facing systemic barriers. With a total investment of \$14.2 million distributed among 39 projects, the YOF has played a pivotal role in addressing the social and financial challenges that hinder access to essential supports. These funds were strategically allocated across the YOF’s three streams:

Youth Innovations	Family Innovations	System Innovations
22 grants \$6.7 million	12 grants \$3.9 million	5 grants \$3.6 million

Across these streams, the YOF received 331 Expressions of Interest and grant applications, totaling \$115 million in funding requests. Among them:

- ✓ Youth Innovations and Family Innovations:
 - 286 Expressions of Interest
 - 49 grant applications
- ✓ Systems Innovations
 - 44 grant applications

Funding was allocated to create safe spaces where young people can build community ties and take part in cultural activities. Support was also provided to assist parents and caregivers in safeguarding the well-being of their families. Moreover, resources were directed to youth as they entered the job market and transitioned to sustainable career opportunities. Indigenous-led and Black-led organizations accounted for 21% and 64% respectively, of all new YOF grantees.

OTF anticipates this year’s YOF grants to grassroots groups and community-based organizations will impact 5,691 youth, parents, guardians and caregivers across the province. Just under a third (27%) of this year’s projects will benefit children and youth in northern and remote communities.

Grantee Impact Story

Jane/Finch Community and Family Centre

Catchment: Toronto

This initiative will support the collaborative groundwork needed to strengthen the employment system for Black, racialized and newcomer youth in the Jane-Finch area.

A **\$500,000 YOF System Innovations grant** will allow this collaborative to conduct research, explore youth experiences, and develop a Collective Impact Strategy to encourage partnerships and connections with larger workforce development organizations. This phase of work sets the stage for stronger collaboration to develop strategies and initiatives that remove barriers on youth in the community.

Objective: Supporting our applicants and grantees

Customer Resources

OTF's commitment to customer service underscores our dedication to supporting organizations throughout the grant application process. Whether applying for the Resilient Communities Fund, Capital grants or YOF, bilingual support materials and resources are available to enhance applicants' understanding and increase success rates across all grant streams. These resources include:

- One-on-one coaching sessions
- Comprehensive, user-friendly and accessible website
- Support Centre
- Workshops and information sessions
- Online application portal

"We appreciate all the efforts OTF goes thru to provide all the info and funding to support much needed community projects and initiatives"

- Grant Applicant

Customer Service Supports

To ensure applicants are well-equipped to navigate OTF's granting process and submit successful funding applications, we conducted extensive outreach efforts and provided targeted support sessions. OTF offers bilingual support services throughout the customer service experience that includes the Support Centre, coaching, webinars and all resources available on OTF's website.

Resilient Communities Fund and Capital supports

OTF offered stream specific outreach sessions as well as launched ongoing sessions throughout the year. Through 90 English and 44 French outreach sessions, engaging with 4,130 applicants, and 30 targeted partnership sessions involving 523 participants, applicants gained a deeper understanding of OTF's program's goals and requirements.

Additionally, OTF facilitated 3,495 one-on-one coaching calls, enabling applicants to seek personalized guidance and address specific questions related to their applications. These calls also served as opportunities to assist declined applicants in understanding how they can improve future submissions.

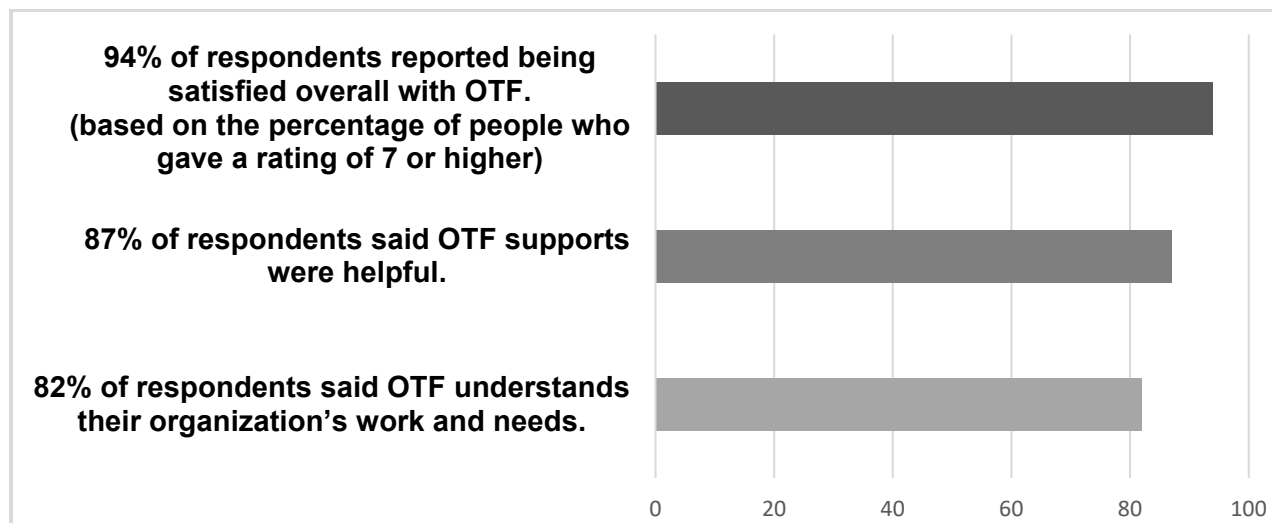

Our Support Centre and program administrators handled more than 12,389 phone calls — a 20% increase from the previous year — and responded to more than 4,700 emails from applicants and grantees.

Youth Opportunities Fund: Building engagement and capacity

Prospective YOF applicants benefited from approximately 269 hours of application coaching and networking support. Additionally, more than 875 individuals engaged in online information sessions, design workshops, and webinars on application writing. Through various platforms, such as Information Webinars and live Q&A Sessions on Zoom, as well as Ask Me Anything sessions hosted by YOF grassroots grantees, 479 community members were actively involved.

Customer Satisfaction

OTF values applicants' feedback and is committed to continuously improving the application experience. Our annual customer satisfaction survey yielded the following results:

Onboarding and supporting grantees

OTF is dedicated to ensuring grantees are well-prepared to embark on their projects successfully. As part of this commitment, OTF conducted personalized one-on-one sessions for the recipients of the Resilient Communities Fund and Capital grants. These sessions offered guidance on key expectations and requirements, equipping grantees with the necessary knowledge and tools to implement their grants effectively — from initiation to completion.

The onboarding process for the 39 new YOF grantees included an impactful two-day virtual Launch Summit, bringing together 45 youth and parents, guardians and caregivers. The summit served as a platform for networking, knowledge exchange and skill enhancement.

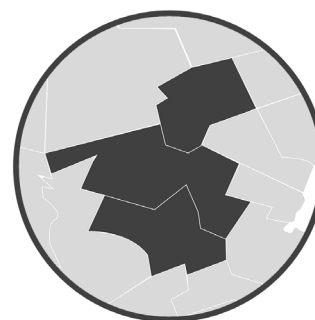

Grantee Impact Story

Preston Heights Community Group

Catchment: Waterloo, Wellington, Dufferin

This neighbourhood-based group connects community members with resources and support to help meet their basic needs. Serving families, youth, adults and seniors, programs range from preventing and reducing the effects of poverty to supporting Black leaders and teaching basic cooking skills.

A **\$52,300 Capital grant** will increase the use of their community facility and participation rates with upgrades to their space. An accessible washroom and flooring will be installed as well as a kitchenette area and workstation to expand programs and services offered to meet the diverse needs of participants.

Active Grants

OTF maintains ongoing communication with its grantees to ensure their projects progress smoothly and effectively. During regular OTF-initiated touchpoints, grantees are provided the necessary support and assistance to address any challenges they may encounter. Grantees have engagement with OTF staff during the term of their grants while multi-year grants submit annual Progress Reports tracking their projects' advancement.

Upon project completion, all grantees are required to submit a comprehensive Final Report. These reports play a crucial role in assessing the collective impact of OTF grants. They not only serve as valuable tools for evaluating project outcomes but also help inform future funding decisions. Although the number of grants being monitored continually fluctuates, OTF is dedicated to maintaining thorough oversight to ensure the success and effectiveness of its grant programs.

The 2023-2024 fiscal year* (* at March 31, 2024)

Resilient Communities Fund

- Active grants: 1,025
- Successfully closed: 1,089

Capital Stream (and Grow and Seed)

- Active grants: 659
- Successfully closed: 385

Youth Opportunities Fund

- Active grants: 167 across YOF's three grant streams.
- Successfully closed: 8

Volunteer support

Across Ontario, OTF's team of more than 300 volunteers, comprised of grant-review volunteers and Board members, plays an integral role in the grant-making process. Drawing from diverse backgrounds and local insights, these volunteers enriched the application assessments and final funding recommendations for our Resilient Communities Fund, Capital stream, and Youth Opportunities Fund investment streams.

This year saw 59 new volunteers join our Community Investments Grant Review Teams and Youth Opportunities Fund Grant Review Committee and participate in assessing applications and making grant recommendations. As part of this dynamic community, 68 volunteers concluded their terms. We are so grateful for their invaluable contributions to OTF's mission and vision.

"OTF sets the example in many ways. thank you for all you are doing, including consultation on how to make it better! great resources, staff and fund streams. keep it up!"

- Grant Applicant

Objective: Demonstrate impact of our investments

Proven results

In line with OTF's dedication to accountability and transparency, we systematically evaluate the success and outcomes of all funded projects. We are proud to report that 95% of the grants achieved their projected results, a testament to the commitment and effectiveness of the organizations we support. By consistently achieving our grant objectives, OTF reaffirms its dedication to making a significant and enduring impact on the well-being of our communities.

Data-driven

Data and business intelligence are integrated into every initiative undertaken by OTF and play a pivotal role in the granting process. We accurately track, measure and report on the impact of our investments on communities. This data-informed approach ensures that decisions are rooted in evidence, informing resource allocation and strategic planning. Moreover, the gathering of data on the state of the non-profit sector has yielded valuable insights, both from research reports and grant applications, further enhancing our ability to make informed decisions and drive positive change.

Grantee Impact Story

Bkejwanong Eco-Keepers

Catchment: Essex, Kent, Lambton

Building on the success of a proven program, a **\$450,000 YOF Youth Innovations Scale grant** will support skills training opportunities, environmental fieldwork, cultural activities, community engagement and career-based activities. This work will address racism and intergenerational traumas for Indigenous youth in Bkejwanong/Walpole Island First Nation. An Environmental Career Guidebook will be created for students to learn more about starting a career in the environment field.

Providing opportunities for youth to connect with local Elders and Knowledge Holders, equipping the youth with leadership skills, and empowering them as leaders will help them succeed in their future careers and drive involvement in the community.

Goal 2: Support Ontario's non-profit sector to innovate and deliver greater impact

Objective: Advance the sector's capacity in research and development, accessing social finance, and making better use of data and evidence

Under the Partnership Investments program, OTF forged 13 new partnerships, expanding the total number of active collaborative projects to 24, involving 126 distinct partners. These partnerships are centred on:

- Expediting the adoption of digital advancements in the non-profit sector and supporting organizations in enhancing their digital capabilities.
- Assisting community-based social finance intermediaries and empowering community organizations to meet eligibility criteria for financing opportunities.
- Empowering the non-profit sector to share knowledge regarding trends in Ontario communities and the sector.

Partnerships are integral to our efforts and involve a diverse range of stakeholders, including foundations, businesses, networks, governments, Indigenous organizations, Francophone groups, academia and non-profits. Collaboratively, these diverse stakeholders empower us to enhance capacity, drive innovation, and bolster the financial resilience of Ontario's non-profit sector. Each year, we seek feedback from our partners to gauge our impact, and we're proud to report that 93% of them recognize OTF's positive influence on the non-profit landscape.

"The Ontario Trillium Foundation - Innovation and Partnerships work is critically important to building towards systemic change that provides long-term sustainable impact for Ontario communities. OTF partnerships are true partnerships, bringing knowledge, connections, and insights alongside vital financial resourcing. OTF is a model that has provide massive impact to Ontario communities with a professional, knowledgeable and valued team to back it up! Good work!"

- Partner Survey Respondent

In 2023-2024, OTF committed substantial financial resources, investing nearly \$1.5 million in 13 new partnerships. Collectively, our partners contributed \$8.7 million, encompassing both monetary and in-kind support. These collaborations resulted in a leverage ratio of \$5.16 for every dollar invested. During this period, eight partnerships successfully concluded their activities, signifying tangible progress and achievements in our joint initiatives.

Throughout the 2023-2024 fiscal year, our Partnership initiatives facilitated 245 events, including partner convenings, conferences, presentations, and webinars/workshops, collectively reaching 5,482 people.

Noteworthy among these were our co-convenings, where collaboration thrived. In March 2024, we co-hosted Canada's inaugural two-day Blended and Catalytic Capital Summit alongside Spring Investment Society and Thrive Impact Fund, attracting 85 funders and investors. Additionally, our Data Convening Series brought together partners at the forefront of data-focused collaborations with OTF, alongside funders and entities from academia, government and the non-profit sector. This series aimed to advance the field, forge connections, and collectively explore innovative solutions.

New partnership spotlight

Increasing Cohesion on Sector Data Initiatives

Data initiatives and the development of data policies and regulatory frameworks are proliferating in the philanthropic and non-profit sector. Despite demonstrated interest and attention to data amongst philanthropic actors, the sector is not working together as effectively as it could be to meet the data needs of the sector and capitalize on the windows of opportunity. This partnership will change that by helping to transform the disjointed data environment towards one defined by enhanced coordination and cooperation amongst funders, more effective mechanisms for sharing knowledge and understanding data needs, and improved data capacity in the philanthropic sector.

Goal 3: Be a high-value partner in the delivery of public funds

Objective: Demonstrate effective and accountable stewardship of public funds

Data and business intelligence

We are proud to support the State of the Sector Survey in collaboration with the Ontario Non-profit Network. This survey serves as a vital tool for decision-making across the sector, providing a consistent and comprehensive source of data on the operational, financial, and other needs of organizations and the sector as a whole. By contributing to this initiative, we empower organizations with valuable insights to inform their strategies and initiatives.

Furthermore, our engagement in external research initiatives enriches our understanding and contributes to the broader knowledge base, ultimately benefiting the non-profit sector and community development efforts across Ontario.

Grantee supports

In line with OTF's commitment to responsible management of public funds, we have enhanced supports for grantees' evaluation efforts. To assist our grantees, we offer guidance in creating straightforward logic models for them to clearly outline their programs and intended results. These models also provide OTF with essential metadata, such as the served population and program details, facilitating a deeper understanding of program impact.

Accountability measures

Throughout the lifespan of our grants, our staff engage with grantees to monitor progress and address any potential gaps to ensure successful and accountable completion of funded projects. As part of our commitment to accountability, our internal audit processes include conducting random audits on a sample of grants closing each year.

In the 2023-2024 fiscal year, 146 grants were randomly selected, representing approximately 13% of grants closing during this period. The results revealed an impressive compliance rate, with 97% of grantees adhering to the terms and conditions of their grant contracts. By implementing these accountability measures, we ensure transparency and efficiency in the use of public funds, ultimately making a significant impact on the communities we serve.

Digital-first approach

To ensure seamless communication and accessibility for all staff members, OTF has prioritized adopting digital-first solutions, which not only enhance efficiency but also facilitate collaboration across teams.

Moreover, OTF continues to prioritize business continuity planning and preparedness to manage and address unforeseen disruptions. This includes regular disaster-recovery testing, annual reviews of business continuity plans, and the conduct of business-impact analyses and cybersecurity response plans.

Additionally, OTF is exploring potential use cases for AI that can provide value without introducing risk or harm. By embracing digital advancements while closely monitoring the impact of AI, OTF aims to explore how AI can enhance its work and that of its grantees, ultimately driving greater impact in communities across Ontario.

Funding recognition

Throughout the year, grantees organized 1,126 recognition activities to acknowledge the investments made by OTF and the Ontario government. Members of Provincial Parliament (MPPs) participated in 935 of these, highlighting the importance of our elected officials in recognizing the impact of community-based programs. OTF supports grantees in organizing these recognition opportunities and facilitates the participation of MPPs and volunteers.

These events serve as platforms to celebrate the achievements of our grantees and provide valuable networking opportunities in communities. What's more, they foster a sense of community and engagement while ensuring transparency and accountability in the management of public funds.

Grantee Impact Story

Afghan Women's Organization Refugee and Immigrant Services

Catchment: Halton Peel

This **Capital grant of \$16,900** will provide newcomer women in Mississauga the opportunity to connect with others while learning new job skills within the textile industry.

Grant funds were awarded for the purchase of sewing machines and a weekly series of learn to sew sessions. The participants, many of whom are from refugee backgrounds, will receive training from textile artists as well as ongoing mental health supports, helping to reduce isolation and create new sources of income for families.

Inspiring excellence

Engagement with OTF's cost-effective learning program is notably high. Through ongoing learning and professional development initiatives, employees gain the necessary skills and knowledge to effectively contribute to OTF's business priorities.

What's more, the incorporation of educational activities around significant recognition dates, such as Black Heritage Month, Pride Month, Orange Shirt Day, National Day for Truth and Reconciliation and Mental Health Week, underscores OTF's dedication to fostering diversity, equity, and inclusion.

To nurture a culture of continuous learning and prioritize staff health and wellness, we offered regular CEO town halls, wellness sessions, and learning opportunities. These efforts aim to support an agile, effective, and results-oriented staff team.

In assessing staff engagement, we conduct an employee pulse survey biannually, which continues to positive results. 74.7% of our staff who responded agreed or strongly agreed with the statement: "I am inspired to give my very best." With an overall response rate of 70% and an average survey score of 3.99 out of 5, the survey results reflect commitment to OTF's mission, and reaffirm our commitment to fostering a supportive and engaging work environment where every team member feels empowered to excel and contribute meaningfully to our shared goals.

We also provided continuous training and assistance to our volunteers, aiding them in evaluating grant applications and effectively utilizing our grant management system.

Grantee Impact Story

Waabinong Head Start Family Resource Centre - OM for Indigenous For Life

Catchment: Algoma, Cochrane, Manitoulin & Sudbury

With a **\$300,000 YOF Family Innovations Test grant**, this group will bring straight, cisgendered, 2 Spirit dads/caregivers and participant families together so they can help build each other up and break stereotypes.

Through peer support, professional services, land-based skill building and cultural activities and ceremonies, participants in the Robinson Huron Treaty territory will strengthen relationships, build strong cultural connections, and heal from trauma.

Objective: Explore new granting opportunities with government partners to deliver on shared priorities

In the fiscal year 2021-2022, OTF initiated a partnership with Employment and Social Development Canada (ESDC) to advance social innovation and social finance throughout the province and to strengthen the social finance system with a \$750,000 grant provided by ESDC and administered by OTF.

This funding allowed OTF to support individual and regional community capital partners in their efforts in 2022-2023 and 2023-2024.

The Catalyst: Community Finance Initiative was part of the Ecosystem Builder Project supported by Economic and Social Development Canada's (ESDC) Investment Readiness Program (IRP) which aims to advance social innovation and social finance in Canada. The initiative supported individual and regional community capital funds by enhancing capacity building and technical infrastructure as well as increasing and improving knowledge resources to help them start-up and scale up operations. Critical needs such as resourcing, geographic and equity gaps were addressed as part of broader efforts to develop enhanced policy and ecosystem infrastructure for these vital community capital organizations (intermediaries?) who are essential in supporting and capitalizing social impact activities in communities across the country.

Risk Events and Key Performance Indicators

Risk events

Our risk-management processes include:

- A formal and structured approach to risk management
- Quarterly reviews of threats that could affect the successful outcomes of our grants
- Implementation of several mitigation activities to reduce identified risks
- Consideration of all business risks in our analysis and mitigation plans

We did not experience any risk events or other significant factors that affected our results in 2023-2024.

- The Finance & Audit Committee of the Board of Directors reviews the Enterprise Risk Management plan quarterly including any changes in the likelihood and/or impact of identified risks, with escalation to the full Board of medium-high risk events.
- With heightened global awareness and focus on cybersecurity as a key risk, management introduced in-depth semi-annual cybersecurity briefings to the Finance & Audit Committee and the Board.

Grantee Impact Story

Réseau Ontario des arts de la scene Inc.

Catchment: Champlain

With a **\$54,700 Resilient Communities Fund grant**, a new online portal will be created to manage art tours and shows, strengthening the capacity, resilience, and long-term viability of the francophone performing arts scene.

The portal will automate tasks, make schedules easy to view and update, and help with overall planning and management to ensure shows are delivered successfully. The new platform will also help with data collection and data management to help the organization expand performing arts throughout the province.

Key performance indicators

We measure and track the overall performance of the Foundation through a series of key performance indicators:

OTF Key Performance Indicators Scorecard

Fiscal Year 2023-24 Year-End

Goal	Metric*	Key Risk	Status	2023-24 Annual Target	2023-24 Year End
Goal 1: Deliver grants that improve the lives of Ontarians	Invest 100% of the annual grant allocation into communities**	OTF operations (policies, processes, people) do not enable successful delivery of the Board approved investment strategy		100%	101%
	% of grantees delivering projected results	Grantees fail to achieve intended impact		80%	95%
Goal 2: Support innovation in the not-for-profit sector to deliver greater impact	Dollars leveraged through partnership investments	OTF or its partners fail to achieve intended impact		≥\$1.00	\$4.20
Goal 3: Be a high-value partner in the delivery of public funds	Operating expenses do not exceed Board-approved targets	Change in funding allocation from the Government that reduces grant investments into communities OTF does not meet the Board approved operating budget		≤100%	96.7%
	Explore new granting opportunities with government partners on shared priorities	Future potential granting programs do not align with OTF's mandate and Grant Investment Framework, do not leverage OTF's operating model, and/or do not provide enough resources to adequately implement the program		n/a	\$92k

Fax 905 265 6390

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of Ontario Trillium Foundation

Opinion

We have audited the financial statements of Ontario Trillium Foundation (the Entity), which comprise:

- the statement of financial position as at March 31, 2024
- the statement of operations for the year then ended
- the statement of changes in net assets for the year then ended
- the statement of cash flows for the year then ended
- and notes to the financial statements, including a summary of significant accounting policies

(Hereinafter referred to as the "financial statements").

In our opinion, the accompanying financial statements, present fairly, in all material respects, the financial position of the Entity as at March 31, 2024, and its results of operations and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the **"Auditor's Responsibilities for the Audit of the Financial Statements"** section of our auditor's report.

We are independent of the Entity in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Entity's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Entity's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Page 3

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

A handwritten signature in black ink that reads 'KPMG LLP'. The signature is written in a cursive, stylized font. A horizontal line is drawn underneath the signature, starting from the left and extending to the right, ending with a small upward tick.

ONTARIO TRILLIUM FOUNDATION

Notes to Financial Statements

Year ended March 31, 2024

Ontario Trillium Foundation (the "Foundation" or "OTF"), an agency of the Ministry of Tourism, Culture and Sports ("MTCS"), is financially supported by the Ontario government. OTF began operations as an arm's-length agency of the Ontario government on August 23, 1982 and was incorporated without share capital under the laws of Ontario under letters patent dated November 17, 1982. The mission of OTF is to build healthy and vibrant communities throughout Ontario by investing in community-based initiatives and strengthening the impact of Ontario's non-profit sector.

Government funding is subject to Memoranda of Understanding that define how the funds must be invested and distributed.

1. Significant accounting policies:

The financial statements have been prepared by management in accordance with Canadian public sector accounting standards, including the 4200 standards for government not-for-profit organizations.

(a) Revenue recognition:

OTF follows the deferral method of accounting for contributions, which includes government funding. Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured. Externally restricted contributions are deferred and recognized as revenue in the year in which the related expenses are incurred.

Investment income is recorded on accrual basis.

(b) Financial instruments:

Financial instruments are recorded at fair value on initial recognition. All other financial instruments are subsequently recorded at cost or amortized cost unless management has elected to carry the instruments at fair value. The Foundation has not elected to carry any such financial instruments at fair value.

Financial instruments are adjusted by transaction amortized costs incurred on acquisition and financing costs, which are amortized using the effective interest rate method.

All financial assets are assessed for impairment on an annual basis. When a decline is determined to be other than temporary, the amount of the loss is reported in the statement of operations.

ONTARIO TRILLIUM FOUNDATION

Notes to Financial Statements (continued)

Year ended March 31, 2024

1. Significant accounting policies (continued):

As financial instruments are recorded at cost or amortized costs, a statement of remeasurement of gains and losses has not been included.

(c) Grants:

Grants awarded by the Foundation are recorded as grants pledged expenses in the year that the Foundation approves the grant.

Grants awarded by third party organizations for which the Foundation acts as an administrative agent are recorded as agent grant payments when payments are issued.

(d) Allocation of support services expenses:

The Foundation classifies expenses on the statement of operations by function. The Foundation allocates certain costs by identifying the appropriate basis of allocating and applying that basis consistently each year. The Foundation allocates its support services expenses proportionately on a per capita basis.

(e) Capital assets:

Capital assets are recorded at cost less accumulated amortization. Amortization is provided on a straight-line basis over the following periods:

Furniture and fixtures	5 years
Computer hardware	4 years
Computer software	3 years

(f) Use of estimates:

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the year. Items subject to estimates and assumptions include the allocation of expenses. Actual results could differ from those estimates.

ONTARIO TRILLIUM FOUNDATION

Notes to Financial Statements (continued)

Year ended March 31, 2024

2. Investments:

	2024	2023
Short-term investments	\$ 32,605,485	\$ 57,276,373
Laddered bond portfolio	74,572,814	74,527,818
	<u>\$ 107,178,299</u>	<u>\$ 131,804,191</u>

All investments, excluding the laddered bond portfolio, are in cash or cash equivalents, or in fixed income securities and mature within the next 11 months (2023 - 43 months). These fixed income investments bear interest from 4.500% to 5.180% (2023 - 4.419% to 4.80%).

In OTF's laddered bond portfolio, all bond investments are in fixed income securities and have maturity dates between 3 months and 3 years (2023 - 2 months and 3 years). These investments bear interest from 0.738% to 4.558% (2023 - 0.546 % to 3.867%).

The Ontario Financing Authority acts as OTF's investment manager under an investment management agreement that adheres to OTF's policies and procedures governing risk and also includes additional risk concern measures.

All investments purchased starting April 1, 2019 are recorded at cost. Investments purchased prior to April 1, 2019 are recorded at amortized cost.

3. Capital assets:

			2024	2023
	Cost	Accumulated amortization	Net book value	Net book value
Furniture and fixtures	\$ —	\$ —	\$ —	\$ 26,629
Computer hardware	384,293	273,386	110,907	208,804
Computer software	267,249	242,610	24,639	38,078
	<u>\$ 651,542</u>	<u>\$ 515,996</u>	<u>\$ 135,546</u>	<u>\$ 273,511</u>

ONTARIO TRILLIUM FOUNDATION

Notes to Financial Statements (continued)

Year ended March 31, 2024

4. Deferred contributions and grants payable:

- (a) Deferred contributions represent funding received from Ministries that has not yet been pledged as grants or spent on operations. These funds are restricted until grants are approved by the Board of Directors and pledged to third parties, and payments are made or until operating expenditures are made. OTF has controls in place to ensure that the restrictions on grant pledges are met prior to utilization of these funds.

ONTARIO TRILLIUM FOUNDATION

Notes to Financial Statements (continued)

Year ended March 31, 2024

4. Deferred contributions and grants payable (continued):

Youth Opportunities Fund:

On November 7, 2013, the Foundation signed an agreement with the Ministry of Children and Youth Services ("MCYS") to administer the Youth Opportunities Fund ("YOF") to provide grants for community-based and positive youth development projects that improve conditions for youth who face multiple barriers to positive outcomes in the Greater Toronto Area.

Community Building Fund:

On February 11, 2021, the Foundation signed an agreement with MTCS to administer the Community Building Fund Program. The total funding received from MTCS was \$105,000,000. The purpose of the program was to provide recovery support to municipalities, Indigenous communities and non-profit organizations in the heritage, sport and recreation, tourism, and culture sectors impacted by COVID-19. The program was a time-limited, application-based program that will provide funding to eligible organizations through three funding streams: (i) Operating Funding; (ii) Capital Funding; and (iii) Strategic Initiatives. Operating Funding provided emergency operating relief. Capital Funding supported investments in infrastructure repairs, rehabilitation and renovation, in order to meet public health protocols and local community needs. Strategic Initiative Grants were approved by the MTCS for organizations that required more than the maximum program threshold and/or did not meet program parameters.

Employment and Social Development Canada: Investment Readiness Program:

On March 25, 2022, the Foundation signed an agreement with Employment and Social Development Canada ("ESDC") to administer the Social Innovation and Social Finance Strategy: Investment Readiness Program. The purpose of the program was to support social purpose organizations to improve their capacity and ability to participate in the social finance market, access new investment opportunities, and move along the investment readiness continuum. The program ended March 31, 2024.

4. Deferred contributions and grants payable (continued):

- (b) Once OTF pledges grants for distribution, the grants are recorded as grants payable. Grants pledged and not yet distributed are payable, subject to the receipt of funds by OTF and to certain performance conditions placed on the recipients. The continuity of Community Investment grants payable is as follows:

	2024	2023
Grants pledged	\$ 110,300,100	\$ 110,148,900
Grants rescinded	(3,744,000)	(4,291,900)
Grants paid	(130,106,200)	(194,959,700)
	(23,550,100)	(89,102,700)
Grants payable, beginning of year	119,477,800	208,580,500
Grants payable, end of year	\$ 95,927,700	\$ 119,477,800

Grants are payable to various organizations in the fiscal years ending March 31 as follows:

2025	\$ 65,068,400
2026	21,629,260
2027	7,338,340
2028	1,528,000
2029	338,700
Thereafter	25,000
	\$ 95,927,700

Included in grants payable is \$908,750 (2023 - \$1,386,881) relating to partnership grants.

5. Allocation of expenses:

The Foundation allocates certain of its support services expenses based on the proportion of the total staff directly involved with grantmaking and partnership grants. The following percentages were used to calculate the allocation: grantmaking: 56.24% (2023 - 55.28%) and partnership grants: 0.78% (2023 - 0.75%).

Support services reported in the statement of operations of \$2,730,869 (2023 - \$2,393,769) are reported after allocation of \$3,576,327 (2023 - \$3,384,036) to grantmaking expenses and \$41,971 (2023 - \$37,809) to partnership grants.

6. Partnership grants:

Partnership grants are grants to non-profit organizations that perform activities such as research and development, convening, knowledge sharing, capacity building and providing technical assistance to the sector. These partnerships are innovative in nature and their objective is to maximize impact across the sector and the province. Grants are issued in accordance with OTF's Partnership Investment Policy introduced in 2021.

7. Indemnification of officers and directors:

OTF has indemnified its past, present and future directors, officers, employees and volunteers against expenses (including legal expenses), judgments, and any amount actually or reasonably incurred by them in connection with any action, suit or proceeding in which the directors are used as a result of their service, if they acted honestly and in good faith with a view to the best interests of OTF. The nature of the indemnity prevents OTF from reasonably estimating the maximum exposure. OTF has purchased directors' and officers' liability insurance with respect to this indemnification.

8. Financial risks:

(a) Liquidity risk:

Liquidity risk is the risk that the Foundation will be unable to fulfill its obligations on a timely basis or at a reasonable cost. The Foundation manages its liquidity risk by monitoring its operating requirements. The Foundation prepares budget and cash forecasts to ensure it has sufficient funds to fulfill its obligations.

Accounts payable and accrued liabilities are generally due within 60 days of receipt of an invoice.

(b) Market risk:

Market risk is the risk that changes in market prices, such as foreign exchange rates or interest rates, will affect the Foundation's income or the value of its holdings of financial instruments. The objective of market risk management is to control market risk exposures within acceptable parameters while optimizing return on investment.

Year ended March 31, 2024

8. Financial risks (continued):

(c) Interest rate risk:

Interest rate risk is the risk that the fair value of future cash flows or a financial instrument will fluctuate because of changes in the market interest rates.

Financial assets and financial liabilities with variable interest rates expose the Foundation to cash flow interest rate risk. The Foundation is exposed to this risk through its investments.

As at March 31, 2024, had prevailing interest rates increased or decreased by 1%, assuming a parallel shift in the yield curve, with all other variables held constant, the estimated impact on the market value of bonds would approximate \$910,000.

The Foundation's investments are disclosed in note 2.

There have been no significant changes to the risk exposures from 2023.
