Independent Auditors' Report

To the Board of Governors of The Lambton College of Applied Arts and Technology

We have audited the accompanying financial statements of **The Lambton College of Applied Arts and Technology** which comprise the statement of financial position as at March 31, 2014 and the statements of revenue and expenditure, changes in net assets and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian public sector accounting standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

1. STATUTES OF INCORPORATION AND NATURE OF ACTIVITIES

The Lambton College of Applied Arts and Technology ("Lambton College") was incorporated as a College in 1966 under the laws of the Province of Ontario. Lambton College is dedicated to providing high quality education and training as well as contributing to the social and economic well being of the Community.

Lambton College is exempt from income taxes under Section 149 of the Income Tax Act.

Lambton College has an economic interest in The Lambton College Foundation. The Foundation was incorporated without share capital on March 29, 1994 under the Ontario Corporations Act. The operations of the Foundation are not included in these financial statements. The objectives of the Foundation are to promote interest in and awareness of Lambton College and to establish and administer funds for the support of students, research and development in the areas of curriculum and instruction, facilities and equipment and new initiatives.

2. ACCOUNTING POLICIES

The financial statements of Lambton College have been prepared in accordance with Canadian public sector accounting standards for government not-for-profit organizations, including the 4200 series of standards, as issued by the Public Sector Accounting Board ("PSAB for Government NPOs") and include the following significant accounting policies:

Revenue recognition

Lambton College follows the deferral method of accounting for contributions, which includes donations and government grants. Deferred contributions are recognized as revenue in the year in which the related expenses are recognized. Other contributions are recognized as revenue when received or receivable.

Donations of assets are recorded at fair value when a fair value can be reasonably estimated. Endowment contributions are recognized as direct increases in net assets.

Revenue from student fees and from the sale of services and products is recognized at the time the products are delivered or the services provided.

Accrual accounting

The accrual basis of accounting recognizes revenues as they become available and measurable; expenditures are recognized as they are incurred and measurable as a result of receipt of goods or services and the creation of a legal obligation to pay.

Vacation pay

Lambton College recognizes vacation pay as an expense on the accrual basis.

2. ACCOUNTING POLICIES - continued

Retirement and post-employment benefits and compensated absences

Lambton College provides defined retirement and post-employment benefits and compensated absences to certain employee groups. These benefits include pension, health and dental, vesting sick leave and non-vesting sick leave. Lambton College has adopted the following policies with respect to accounting for these employee benefits:

The costs of post-employment future benefits are actuarially determined using management's best estimate of health care costs, disability recovery rates and discount rates. Adjustments to these costs arising from changes in estimates and experience gains and losses are amortized to income over the estimated average remaining service life of the employee groups on a straight line basis.

The costs of the multi-employer defined benefit pension are the employer's contributions due to the plan in the period.

The costs of vesting and non-vesting sick leave benefits are actuarially determined using management's best estimate of salary escalation, employees' use of entitlement and discount rates. Adjustments to these costs arising from changes in actuarial assumption and/or experience are recognized over the estimated average remaining service life of the employees.

The discount rate used in the determination of the above-mentioned liabilities is equal to Lambton College's internal rate of borrowing.

Cash and cash equivalents

Cash and cash equivalents include cash on hand, balances with banks and any highly liquid market instruments with short-term maturities.

Inventories

Inventories are valued at the lower of cost and net realizable value.

Capital assets

Capital assets are recorded at cost with the exception of donated assets which are recorded at their fair market value at the date of acquisition. Construction in progress is not amortized until the constructed asset is put into service. Depreciation is provided on a straight-line basis over the following periods:

Buildings	30 - 40 years
Site improvements	10 years
Leasehold improvements	5 years
Major equipment	10 years
Equipment and vehicles	5 years
Computer hardware	3 years
College information system	10 years

2. ACCOUNTING POLICIES - continued

Deferred capital contributions

Contributions received to fund capital asset acquisitions are deferred and amortized over the same term and on the same basis as the related capital asset.

Restricted funds

Restricted funds account for monies received for a specific purpose. The funds follow the restricted fund method of accounting for contributions.

Internally restricted funds (appropriations) represent allocations primarily relating to capital projects intended to be completed in future years.

Externally restricted funds represent contributions which are fully expendable for the stated purposes as defined by the fund providers.

Endowment funds

The endowment funds receive all revenue designated by the benefactors to be held in trust to generate income. Funds received from the Province of Ontario are held in Lambton College bank account and these values are not subject to market rate fluctuations. Income from these funds is to be used to fund projects meeting the guidelines provided by the funding body.

Management estimates

The preparation of financial statements in conformity with PSAB for Government NPOs requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenditure during the period. Actual results could differ from these estimates. Areas of key estimation include determination of fair value for deferred revenues, allowance for doubtful accounts, and actuarial estimation of post-employment benefits and compensated absences liabilities.

3. FINANCIAL INSTRUMENTS

Lambton College classifies its financial instruments as either fair value or amortized cost. Lambton College's accounting policy for each category is as follows:

Fair value

This category includes derivatives and equity instruments quoted in an active market. Lambton College has designated that cash is classified as fair value.

3. FINANCIAL INSTRUMENTS- continued

Amortized cost

This category includes all accounts receivable, long-term receivable, accounts payable and accrued charges, accrued payroll, vacation pay and employee deductions, funds held in trust, and long-term obligations. They are initially recognized at cost and subsequently carried at amortized cost using the effective interest rate method, less any impairment losses on financial assets.

Transaction costs related to financial instruments in the amortized cost category are added to the carrying value of the instrument.

Write-downs on financial assets in the amortized cost category are recognized when the amount of a loss is known with sufficient precision, and there is no realistic prospect of recovery. Financial assets are then written down to net recoverable value with the write-down being recognized in the statement of revenue and expenditure.

Credit risk

Credit risk is the risk of financial loss to Lambton College if a debtor fails to make payments of interest and principal when due. Lambton College is exposed to this risk relating to its cash, long-term receivable and accounts receivable. Lambton College holds its cash accounts with federally regulated chartered banks who are insured by the Canadian Deposit Insurance Corporation. In the event of default, Lambton College's cash accounts are insured up to $100,000 (2013 - $100,000).

Credit risk of student receivables is mitigated by financial approval processes before a student is enrolled.

Lambton College measures its exposure to credit risk based on how long the amounts have been outstanding. An impairment allowance is set up based on Lambton College's historical experience regarding collections. The amounts outstanding at year end were as follows:

			Past Due		
	Total	Current	31–60 days	61–90 days	91 + days
Government receivables	$ 2,178,737	$ 2,178,737	$ -	$ -	$ -

Net receivables	$ 6,016,578	$ 5,289,820	$ 144,406	$ 177,830	$ 404,522

3. FINANCIAL INSTRUMENTS - continued

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of market factors. Market factors include three types of risk: currency risk, interest rate risk and equity risk.

There have been no significant changes from the previous year in the exposure to risk or policies, procedures and methods used to measure the risk.

Currency risk

Currency risk relates to Lambton College operating in foreign currencies and converting non-Canadian earnings at different points in time at different foreign exchange rates when adverse changes in foreign currency exchange rates occur.

Interest rate risk

Interest rate risk is the potential for financial loss caused by fluctuations in fair value or future cash flows of financial instruments because of changes in market interest rates.

Lambton College is exposed to this risk through its long-term obligations.

At March 31, 2014, a 1% fluctuation in interest rates would have an estimated impact on interest expense related to Lambton College's bank loans of $7,000.

There have been no significant changes from the previous year in the exposure to risk or policies, procedures and methods used to measure the risk.

Equity risk

Equity risk is the uncertainty associated with the valuation of assets arising from changes in equity markets.

Lambton College is not exposed to this risk as they do not have equity holdings in the current year.

Liquidity risk

Liquidity risk is the risk that Lambton College will not be able to meet all cash outflow obligations as they come due. Lambton College mitigates this risk by monitoring cash activities and expected outflows through extensive budgeting.

There have been no significant changes from the previous year in the exposure to risks or policies, procedures and methods used to measure these risks.

8. POST-EMPLOYMENT BENEFITS AND COMPENSATED ABSENCES LIABILITY - continued

Above amounts exclude pension contributions to the Colleges of Applied Arts and Technology Pension Plan, a multi-employer plan, described below.

Retirement benefits

CAAT pension plan

Substantially all employees of Lambton College are members of the Colleges of Applied Arts and Technology Pension Plan (the "Plan"), which is a multi-employer jointly sponsored defined benefit plan for eligible employees of public colleges and related employers in Ontario. Lambton College makes contributions to the Plan equal to those of the employees. Contribution rates are set by the Plan's governors to ensure the long-term viability of the plan.

Any pension surplus or deficit is a joint responsibility of the members and employers and may affect future contribution rates. Lambton College does not recognize any share of the Plan's pension surplus or deficit as insufficient information is available to identify Lambton College's share of the underlying pension assets and liabilities. The most recent actuarial valuation filed with pension regulators as at January 1, 2014 indicated an actuarial surplus of $525 million. Lambton College made contributions to the Plan and its associated retirement compensation arrangement of $3,341,200 (2013 - $2,992,200), which has been included in the statement of revenue and expenditure.

Post-employment benefits

Lambton College extends post-employment life insurance, health and dental benefits to certain employee groups subsequent to their retirement. Lambton College recognizes these benefits as they are earned during the employees' tenure of service. The related benefit liability was determined by an actuarial valuation study commissioned by the College Employer Council.

The major actuarial assumptions employed for the valuations are as follows:

a) Discount rate

The present value as at March 31, 2014 of the future benefits was determined using a discount rate of 2.7% (2013 – 2.1%).

b) Drug costs

Drug costs were assumed to increase at 9% per annum for 2014 (2013 – 9.5%) and decrease proportionately thereafter to an ultimate rate of 4% in 2034 for fiscal 2014 (2013 – 4%).

c) Hospital and other medical

Hospital and other medical costs were assumed to increase at 4% per annum (2013 – 4%).

Medical premium increases were assumed to increase at 7.5% per annum in 2014 (2013 – 7.5%) and decrease proportionately thereafter to an ultimate rate of 4% in 2034 for fiscal 2014 (2013 - 4%).

8. POST-EMPLOYMENT BENEFITS AND COMPENSATED ABSENCES LIABILITY - continued

d) Dental costs

Dental costs were assumed to increase at 4% per annum in 2014 (2013 - 4%).

Compensated absences

Vesting sick leave

Lambton College has provided for vesting sick leave benefits during the year. Eligible employees, after 10 years of service, are entitled to receive 50% of their accumulated sick leave credit on termination or retirement to a maximum of 6 months' salary. The program to accumulate sick leave credits ceased for employees hired after March 31, 1991. The related benefit liability was determined by an actuarial valuation study commissioned by the College Employer Council.

Non-vesting sick leave

Lambton College allocates to certain employee groups a specified number of days each year for use as paid absences in the event of illness or injury. These days do not vest and are available immediately. Employees are permitted to accumulate their unused allocation each year, up to the allowable maximum provided in their employment agreements. Accumulated days may be used in future years to the extent that the employees' illness or injury exceeds the current year's allocation of days. Sick days are paid out at the salary in effect at the time of usage. The related benefit liability was determined by an actuarial valuation study commissioned by the College Employer Council.

The assumptions used in the valuation of vesting and non-vesting sick leave are actuarial best estimates of expected rates of:

	2014	2013
Wage and salary escalation	**0 - 1.75%**	0 - 1.5%
Discount rate	**2.7%**	2.1%

The probability that an employee will use more sick days than the annual accrual and the excess number of sick days used are within ranges of 0% to 24% and 0 to 40.6 days respectively for age groups ranging from 20 and under to 65 and over in bands of 5 years.

9. DEFERRED CAPITAL CONTRIBUTIONS

Deferred capital contributions represent the unamortized amount of donations and grants received to fund the purchase of capital assets. The amortization of the deferred capital contributions is recorded as revenue in the statement of revenue and expenditure. Changes in the deferred capital contributions balance are as follows:

	2014	2013
Balance, beginning of year	**$ 29,696,942**	$ 31,437,794
Contributions received for capital purposes	**1,049,667**	931,044
Amortization of deferred capital contributions	**(2,449,388)**	(2,671,896)
Balance, end of year	**$ 28,297,221**	$ 29,696,942

10. INVESTED IN CAPITAL ASSETS

a. Change in net assets invested in capital assets is calculated as follows:
