PRIVATE MEMBERS' MOTIONS

1. Mr. Allen - Resolution - That in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action. Lost on division November 24th, 1983.
2. Mr. Epp - Resolution - That this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the Canadian Charter of Rights and Freedoms to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
3. Mr. Dean - Resolution - That in the opinion of this House, and acknowledging the increased economic hardships facing the people of Hamilton-Wentworth and of other parts of Ontario, arising from the depressed outlook for the steel industry, the Minister of Industry and Trade should: (a) immediately organize a regional manufacturing show in Hamilton to provide a forum for local manufacturers to display items which they import at present and to create an avenue for mutual interchange of product need and manufacturing capability; (b) maximize industrial development opportunities, particularly in import replacement given the high degree of imports of machinery and equipment, in respect to major projects in the oil and gas sector with a view to joint ventures, licensing, and acquisition of new technology to enable Ontario to broaden its industrial base; and (c) pursue discussions with the Government of Canada to ensure that Ontario receives a fair share of contracts from the frigate programme. Carried May 26th, 1983.
4. Mr. Reid (Rainy River) - Notice of Amendment - That the motion for Interim Supply (Government Notice of Motion No. 1) be amended by striking out the words "October 31st, 1983" and substituting therefor "July 31st, 1983". Withdrawn April 21st, 1983.
5. Mr. Swart - Resolution - That in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.

6. Mr. Lane - Resolution - That this House acknowledges the outstanding contribution of the seasonal resort and tourist industry to the economy of Ontario, in particular, the significant economic contribution of small operators and family run businesses. Further, that this House recognizes that seasonal resorts and tourism operations pay business taxes for the whole of the year yet they operate for only part of the year; and that, in order to sustain small seasonal tourist businesses in Northern Ontario and encourage them to take advantage of opportunities for further development and expand capacities for additional employment, this House recommends that the Minister of Revenue review the application of business taxes to the owners of these properties so as to minimize the impact of these taxes on their seasonal operations. Carried June 2nd, 1983.
7. Ms Bryden - Resolution - That in the opinion of this House the government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act --"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership."
8. Mr. Kerrio - Resolution - That in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. Mr. Roy - Resolution - That as section 43 of the Constitution Act, 1982, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the Canadian Charter of Rights and Freedoms be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

10. Mr. Kolyn - Resolution - That in view of the increasing efficiency and economy of converting to alternative energy fuels in motor vehicles, and as a further example of the Government's leadership rôle in stimulating interest in and appreciation for energy conservation, this House urges the Government to consider implementation of an alternative energy conversion programme for all Government vehicles, where such conversion is possible and financially cost effective. Carried June 9th, 1983.
11. Mr. Kolyn - Resolution - That in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. Mr. Kennedy - Resolution - That in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the Criminal Code (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.
13. Mr. Eakins - Resolution - That in the opinion of this House, a comprehensive study be initiated by this Legislature; to review the expressed concerns associated with the use and abuse of alcohol in Ontario. The review should address: (1) the mandates of the LCBO and LLBO with respect to distribution and licencing; (2) the concerns expressed by Ontario's Tourism and Hospitality Industry with regard to the need for revision of hours of sale, industry costs, etc.; (3) a review of the legislation and the enforcement of such legislation dealing with violations of the abuse of alcohol; (4) the current and future role and funding of Detox Centres; (5) the current and future role and funding of the Addiction Research Foundation; and (6) industry advertising; and that this review be open and that the public participation be encouraged. Carried June 16th, 1983.

14. Mr. Philip - Resolution - That this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
15. Mr. Mitchell - Resolution - That due to the large number of children who are killed or injured in falls from apartment windows, this House urges all municipalities that have not already done so to pass by-laws under the Planning Act to require that all upper floor windows capable of being opened in multiple dwelling-unit buildings be fitted with suitable locking or latching devices and/or strengthened screens so that children cannot climb or fall through. Carried October 20th, 1983.
16. Ms Copps - Resolution - That the principle of equal pay for work of equal value be enshrined into the Employment Standards Act R.S.O. 1980, c. 137. Carried on division October 20th, 1983.
17. Mr. DiSanto - Resolution - (1) That in the opinion of this House, the government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to "begging" from municipal agencies. (2) And That the government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors' user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And That the government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit systems provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And That the government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres' Act to an equivalent of its 1975 value and that it be indexed annually. (5) And That grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And That the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And That the government should introduce legislation aimed at removing education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.

18. Mr. Wrye - Resolution - That in recognition of the importance of the automotive industry to the economies of Ontario and Canada, of the vital necessity of preserving the more than 100,000 jobs in the national industry, and of the pressing need to realize the 40,000 direct and 90,000 indirect jobs which could be created by adopting a new automotive trade policy, this House endorses the recommendations of the Report of the Federal Task Force on the Canadian Motor Vehicle and Automotive Parts Industries, and urges the Parliament of Canada and the Legislative Assemblies of the other provinces to do likewise. And, further, that, this House recommends that the Government of Ontario, as an indication of its willingness to share the costs as well as the benefits of a restructured industry, should institute an Automotive Industry Assistance Program to be administered by the Ontario Development Corporation, with the aim of providing low-cost capital to Ontario companies in this sector. Carried November 3rd, 1983.
19. Mr. Ruprecht - Resolution - That as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:- That this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil aircraft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.
20. Mr. Cunningham - Resolution - That in the opinion of this House, the Government of Ontario, should limit and control the growth of Crown Corporations and subsidiaries in the Province of Ontario and make them accountable to the Legislature for the Province of Ontario. And that all Ontario government Agencies, Boards, Commissions, Corporations and their Subsidiaries should come under the direct control of the Legislature of Ontario. And that no new Crown Corporation or Subsidiary or joint venture involving the expenditure of tax dollars should occur without the approval of the Ontario Legislature. And that every Board, Agency, Commission, Crown Corporation or Subsidiary should be subjected to the auditing provisions contained in the Audit Act of Ontario. And further that all detailed financial transactions and budgetary matters of the aforementioned should be included in the budget of Ontario and the Manual of Administration for the Province of Ontario should apply to all of the aforementioned. 21. Mr. Gillies - Resolution - That in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. Mr. Wrye - Resolution - (1) That this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (4) And, That a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. 24. Mr. Van Horne - Resolution - That the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. Mr. Johnston (Scarborough West) - Resolution - That in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the Ontario Labour Code, the Employment Standards Act and the Occupational Health and Safety Act. The investigators should report their recommendations to the Standing Committee on Social Development.
26. Mr. Gordon - Resolution - That the demographic trend being towards an aging society, and the future economic and social well-being of our province depending on a vigorous, productive and healthy elderly population, this House support an all-party Committee to seek ways of developing, in co-operation with the Seniors Secretariat and other agencies, a long-term strategy aimed at minimizing the dependency and maximizing the productivity of our future senior citizens. Carried November 9th, 1983.

27. Mr. Piché - Resolution - That in view of the importance of efficient systems and networks for travel and goods transportation for the quality of life and economic development of Northern Ontario, especially for the Far North, this House urges the Government of Ontario to establish and maintain an Office of the Commissioner for Northern Transportation. The Commissioner would be directly responsible to Cabinet and would, (a) co-ordinate and facilitate the development of policies for improved travel and goods transportation in Northern Ontario; (b) make recommendations to Cabinet, the Minister of Transportation and Communications and the Minister of Northern Affairs for the improvement of facilities for travel and goods transportation in Northern Ontario; and (c) assist and advise individuals, corporations, Indian bands and municipalities that experience difficulties with or seek improvements in travel and goods transportation in Northern Ontario. 29. Mr. Ruston - Resolution - Resolution - That in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation. Carried December 8th, 1983.
30. Mr. Philip - Resolution - That in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.
31. Mr. Cousens - Resolution - That in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
32. Mr. Conway - Resolution - That in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counselling.

34. Mr. Laughren - Resolution - That this House, recognizing that the Province's forest lands require detailed classification, complete regeneration treatment after harvest and diligent tending of new growth, and further recognizing that these measures require a substantial financial commitment and a similar commitment of human resources in the field, requests the Government to make a statutory commitment to sustained yield forest management to ensure that at least two trees are planted for every one harvested and that every acre harvested be regenerated.
35. Mr. Havrot - Resolution - That given the persuasive evidence that properly installed smoke detectors to help prevent tragic loss of life and property damage by providing occupants of a dwelling with an early warning in the case of fire, this House urges all municipalities which have not already done so to pass by-laws under the Planning Act to require that, regardless of their date of construction, all homes, apartments, and such public buildings as hotels and motels be fitted with appropriate smoke detectors; and that the insurance industry encourage homeowners to install smoke detectors by offering more attractive insurance rates to homeowners who install smoke detectors on their property.
36. Mr. Rae - Motion under Standing Order 63(a) - That this House condemns the Government for its failure to manage, invest and spend effectively the money entrusted to it and for its inaction in the face of the dramatic contrast between the waste and extravagance found at the highest levels of government and unemployment and hardship facing hundreds of thousands of people in Ontario;

An that this House condemns in particular the Government's refusal to account fully and publicly for its spending, and its failure to spend public money prudently, in such instances as the following:

- the obvious neglect by the Cabinet of its responsibility to ensure financial prudence as witnessed by the refusal of the Chairman of Management Board or any other minister to take responsibility for ensuring that the Government's own Manual of Administration is being followed;

- the Government's support for the privatization of hospital services, hospital management and other health services to 'for-profit' corporations and merchants of care, a practice which drains scarce public funds into private profits and curtails public accountability for the expenditure of public funds involved;

- the commitment of the Government to the private-profit model for nursing home care, its refusal to take clear steps towards a non-profit model for long-term care, and its refusal to require a full public accounting of their expenditures by all nursing home operators;

- the uncontrolled growth of taxpayer-paid government advertising which has made the Government of Ontario the sixth largest advertiser in the country, spending over \$23 million on major media advertising alone;

- the Government's repeated refusal to agree to an ongoing thorough Legislative review of all aspects of Ontario Hydro's performance in the absence of any public forum in which Hydro's capital expenditure plans can be scrutinized;

- the Government's commitment to the completion of the Darlington nuclear generating station in the face of growing evidence that it is not needed and widespread concerns about the vulnerability of a 70% nuclear system;

- the Government's blatant refusal to release information concerning the management of Ontario's forests at a time when the future of this resource is of such public importance;

And that for these reasons the Government now lacks the confidence of this House. Lost on Division December 14, 1983.

37. Mr. Kolyn - Resolution - That in the opinion of this House, the Government, acknowledging the recent federal promise in the Throne Speech to support regional economic opportunities and to develop duty free export zones for manufacturing and processing goods for export, initiate an investigation through the Ministry of Industry and Trade and in consultation with regional development bodies to determine strategic areas in our province in which duty free trade zones would enable Ontario industries to become more competitive in international markets, and following such an investigation, make application with the federal government to establish such zones in Ontario.
