Resolution referred

Resolved, That, in the opinion of this House, in order to enhance the capacity of Ontario's young people to appropriate their cultural past, to cope with questions of meaning and values and to understand and respond to issues of a global society and an increasingly pluralist Ontario, the Government of Ontario should be encouraged to develop and promote for Ontario schools a multi-grade, multi-faith religious education curriculum (similar to that in place in a great many publicly supported schools in Great Britain) to be taught by certified teachers with appropriate training, and this House suggests that in preparation for such an undertaking, the Government should establish a religious advisory council and initiate at an early date a few pilot projects in typical board settings in co-operation with the local community involved.

TITRE

Titre

17. Titre de la présente modification : Modification constitutionnelle de 1987.

Carried on division June 29, 1988.

7. Mr Nixon - Resolution - That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of supply for the period commencing January 1, 1988, and ending April 15, 1988, such payments to be charged to the proper appropriation following the voting of supply.

Carried December 31, 1987.

8. Mr Kwinter - Resolution - That in the opinion of the Legislative Assembly of the Province of Ontario the proposed trade agreement between Canada and the United States fails to address Canada's needs and goals, while making significant concessions which could prove costly to Canadians. Specifically:

* The proposed agreement fails to secure access to the U.S. market for Canadian goods and services, and provides no assurance of fairer treatment for Canadian exporters. It provides Canadians with virtually no relief from the U.S. trade laws and regulations that are being used to harass them.

* Under the proposed agreement, Canadian exporters could still be penalized in the United States as a result of Canadian policies and programs to promote industrial development, reduce regional disparities, and manage our natural resources.

* This agreement would relinguish our ability to pursue an independent energy policy in order to ensure security of supply or enhance regional development.

* This agreement would significantly reduce our ability to ensure that Canadians benefit from U.S. investment and proposed takeovers of Canadian-owned firms.

* This agreement would undercut safeguards which have ensured the existence of a dynamic Canadian auto industry, and reduce Canada's ability to attract offshore auto industry investment.

* This agreement would eliminate tariffs simultaneously in both countries, despite the fact that Canadian tariffs start at a higher level.

* This agreement would threaten the existence of significant sectors of the agriculture and food-processing industries.

* This agreement would require the federal government to take "all necessary measures" to implement its provisions, including infringement on the provincial capacity to respond to the needs of Ontario citizens.

Under this agreement, Canada would give up far more than it gained.

For these reasons, the Legislative Assembly of the Province of Ontario opposes this agreement as detrimental to Canada's sovereignty and economic interests, and will not be bound to implement those aspects which fall under provincial jurisdiction. We urge the Parliament of Canada to reject the agreement.

Debated December 15, 16, 17, 21, 22, 23, 29 and 30, 1987; January 4 and 5, 1988. Carried on division January 6, 1988.

PRIVATE MEMBERS' MOTIONS

1. Ms Bryden - Resolution - That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.

2. Ms Bryden - Resolution - That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment.

3. Mr Faubert - Resolution - That, in the opinion of this House, the Government of Ontario, should amend the Fire Department Act R.S.O. 1980, regarding and related to management rights and structure; reform of the arbitration process; makeup of bargaining units; and the revision of definitions within fire departments to improve administration of such departments, and labour relations between management and the bargaining units.

4. Mr Morin-Strom - Resolution - That, in the opinion of this House, recognizing the importance of the TransCanada Highway to our nation and to our province, the government of Ontario should upgrade the TransCanada Highway to a modern four-lane system through Northern Ontario to the Manitoba border, and that the government should immediately commence design and schedule construction to ensure completion across Northern Ontario by 1997.

5. Mr Morin-Strom - Resolution - That, in the opinion of this House, recognizing the deplorable free trade agreement negotiated between the Government of Canada and the Government of the United States as a sell-out of Canada's sovereignty and independence and a threat to thousands of Canadian jobs, the Government of Ontario should ensure:

    1. That the Government or Legislature, will not approve or implement any part of the agreement falling within provincial jurisdiction,

    2. That the Government or Legislature, will not pass any laws, or orders-in-council, to comply with the agreement if the agreement is formally signed by the two federal governments, and approved by their respective national legislative bodies, and

    3. That the Government and Legislature, will pursue every constitutional, legal and political channel to express its opposition to this free trade agreement.

6. Mr Cleary - Resolution - That, in the opinion of this House, recognizing that heritage buildings play an important role in reminding us of the dedication our forefathers had in establishing a country that differs from the United States, the government of Ontario should establish a Heritage Building Fund to be used to maintain heritage buildings in their original state for all to enjoy and that money for the Fund should be derived from the provincial lotteries.

    Carried December 3, 1987.

7. Mr Ray (Windsor-Walkerville) - Resolution - That, in the opinion of this House, the Government of Ontario should amend the Insurance Act, R.S.O. 1980, to regulate pre-paid premiums for motor vehicle liability insurance policies to provide that premiums are held in trust for the insured until earned, and interest earned on the trust funds, until transferred from trust, would be paid to the insured.

    Carried December 17, 1987.

8. Mr Cousens - Resolution - That, in the opinion of this House, recognizing that the Government of Canada's supermailbox program has created second class citizens of many Ontario urban dwellers, this Legislature strongly urges the Government of Canada to direct the Canada Post Corporation to:-

    1. immediately abandon its supermailbox program;

2. halt all projected installations of supermailboxes;

3. remove all supermailboxes at existing sites and to relandscape the area they occupied;

4. restore home delivery to all affected residences;

and that this resolution be forwarded to the Parliament of Canada.
Carried on Division December 10, 1987.

9. Mr Wildman - Resolution - That, in the opinion of this House, the plans of the Canada Post Corporation to close, amalgamate or franchise many rural post offices and to eliminate or tender rural route services in order to reduce its operating deficit would reduce essential mail services from many rural Ontario communities, causing severe hardship and inconvenience to rural Ontarians, particularly the elderly and disabled; the Government of Ontario should urge the Government of Canada to halt, immediately, these plans to cut service and maintain and improve rural postal services across Ontario.

10. Mr Swart - Resolution - That, in the opinion of this House, recognizing the particular desirability of the protection of consumers of bereavement services from the business practices associated with corporate concentration and the desirability of fostering and encouraging the small business sector in Ontario, the Government of Ontario should introduce legislation as soon as possible to further regulate the bereavement industry to ensure the following:

1. That a Board of Bereavement Services, composed of representatives of the public and the various sectors and sub-sectors of the bereavement services industry, be constituted to make recommendations to the Minister of Consumer and Commercial Relations and the Minister of Health on further reforms of the regulation of bereavement services and to act as the licensing and regulating body for funeral directors, funeral service establishments, cemeterians, cemeteries, monument builders and monument building firms;

2. That the bereavement services industry be divided into three sectors, consisting of cemeteries, funeral services and monument builders and that no proprietor, partnership or corporate entity be allowed to offer services in more than one of these sectors and that any operator who currently offers services in more than one of the sectors be allowed five years to divest itself of operations in more than one sector and where one corporate entity owns more than twenty-five per cent of the shares in other corporate entities operating in more than one of the

sectors, relations between such entities shall be at arm's length;

3. That funeral service establishments may act as agents for monument building firms in rural areas where the Board of Bereavement Services establishes that a consumer need exists and where there is no monument building firm willing to establish in such rural areas;

4. That the ownership of any proprietorship, partnership or corporate entity involved in the provision of bereavement services must be fully disclosed to the public, including the names of all shareholders in a corporate entity who hold more than ten per cent of the shares in such entity;

5. That no funeral service facility be allowed on the grounds of, or adjoining the grounds of, a cemetery;

6. That for the purpose of provincial business and corporate income taxation, as well as for the purpose of municipal property taxation, cemeteries be categorized as either non-profit or commercial and that those categorized as non-profit be exempt from income and property tax and those categorized as commercial be subject to income taxation and to property taxation on all lands less each grave space occupied by a deceased person;

7. That funeral services be sold only by a licensed funeral director through a licensed funeral service establishment, cemetery services be sold only by a licensed cemeterian through a licensed cemetery and upright monument services be sold only by a licensed monument builder through a licensed monument building firm; and

8. That there be no telephone or door-to-door solicitation of funeral, cemetery or monument services.

Mr Daigeler - Resolution - That, in the opinion of this House, the members of the committees reviewing abortion applications to be performed in or through the recently announced women's clinics be chosen from the community itself in which these facilities are located and that these committees be required to substantiate in writing the facts of each case and why they warrant an abortion in conformity with the prescriptions of the Federal Legislation.

Withdrawn February 3, 1988.

12. Mr Runciman - Resolution - That, in the opinion of this House, recognizing that there have been twenty-eight bank branch

closures across Ontario between 1982 and 1986 which have left many small communities without adequate banking services, the Government of Ontario should review all requests for satellite banking services and establish Province of Ontario Savings Offices in those areas where population levels demonstrate a need for them and where financial benefit can be determined.

13. Mr Sterling - Resolution - That, in the opinion of this House, recognizing the devastating and lethal impact of tobacco on the health of our citizenry, and recognizing the tobacco industry's attempt to advertise in a manner designed to undermine the health warnings of its hazardous product, the Government of Ontario should pursue every opportunity to express its support for the Federal Government's initiative, Bill C-51, the Tobacco Products Control Act, An Act to prohibit the advertising and promotion and respecting the labelling and monitoring of tobacco products.

14. Mr Daigeler - Resolution - That, in the opinion of this House, in the interest of improved understanding between English and French-Canadians, this House urge the Government of Ontario to promote more wide ranging exchanges between francophone and anglophone communities in this country, and specifically, that the Government of Ontario be encouraged to establish twining programs for Ontario and Quebec municipalities.

Carried February 11, 1988.

15. 16. Miss Martel - Resolution - That, in the opinion of this House, this Legislature condemns the Government of Ontario for its failure to establish the Northern Ontario Heritage Fund as outlined in the Budget of May 20, 1987 and in the Speech from the Throne of November 3, 1987 therefore this Legislature strongly urges the Government to:

- immediately establish the Northern Ontario Heritage Fund;
- ensure that Northerners, through committees representing Northern communities, labour, Native groups, women's groups and local small businesses, control the disbursement of the Fund; and
- provide substantial funding to help ensure long-term economic growth and diversification of the region.

Lost on Division April 14, 1988.

17. Mr Kanter - Resolution - That, in the opinion of this House, recognizing that organ transplants constitute a cost efficient medical practice that has saved lives and improved the quality of life for thousands of Ontario residents, and recognizing further that hundreds of Ontario residents wait desperately for organs that could give them a second chance at life, physicians should therefore be reminded, through their routine procedures, to consider whether a person who dies in a public hospital is a suitable organ donor and whether it is appropriate to approach the family of the deceased for consent to the transplant of any of the organs of the deceased, therefore the Government should amend the regulations under the Public Hospitals Act to require every public hospital to include questions similar to the following in any form required by the hospital to be completed by a physician to record the death of a patient in the hospital:

1. Has the patient been considered as an organ donor.

2. Are the wishes of the patient regarding donation of his or her organs known.

3. Are the wishes of the patient's family regarding the donation of the patient's organs known.

4. (a) Has consent for organ or tissue donation been obtained.

(b) If so, what organs or tissue have been donated.

Carried April 14, 1988.

18. Mr Rae (York South) - Resolution - That, in the opinion of this House, recognizing that more than one thousand Canadian workers are killed on the job in each year; and recognizing that hundreds of thousands more are injured on the job, thousands of whom are permanently disabled; and recognizing that thousands more suffer and die from disease caused by exposure to toxic substances at the workplace, and further recognizing, that the memories of the workers who have died and the suffering of the still-living victims must be honoured; therefore, the Government of Ontario should declare the 28th day of April in each year as a day of mourning and recognition for the victims of work-related injury and disease, to be observed by a minute of silence and the lowering of flags to half-mast.

Carried April 7, 1988.

19. Mr Swart - Resolution - That, in the opinion of this House, recognizing the need for the expansion of hospital beds and related facilities in scores of communities across the province, and given the undesirability of using the regressive property tax system for funding such construction or renovation, the Lieutenant Governor-in-Council should amend Ontario Regulation 859 under the Public Hospitals Act which now limits provincial contributions to a ceiling of two thirds (five sixths on the North) - a ceiling seldom reached - to allow the provincial contribution to be 100% of the costs.

Withdrawn June 30, 1988.

20. Mr Cooke (Windsor-Riverside) - Resolution, That, in the opinion of this House, recognizing that the scope and recommendations of the Task Force on Inflation Protection for Employment Pension Plans failed to meet the concerns of workers and most particularly retirees whose pensions have already been eroded by inflation but who will get nothing from these proposals, this Legislature strongly urges the Government of Ontario to:

- introduce legislation to require indexation of all pensions with the same indexing formula applicable to current plan members, current pensioners and those entitled to a deferred pension.

- place an immediate moratorium on the use of contribution holidays which are, in fact just another means of surplus withdrawals.

21. Mr Carrothers - Resolution - That, in the opinion of this House, recognizing that cancer continues to be a major source of fatality in Ontario and recognizing the need for extensive research, diagnosis and treatment, the Government of Ontario should support the development of a community based cancer clinic network.

Carried April 21, 1988.

22. Mr Harris - Resolution - That, in the opinion of this House, all future legislation which would establish an agency, board, commission or regulatory system or create new direct expenditures or tax expenditures must contain a sunsetting provision which would, after a specified period of time, require mandatory review of the original legislation by a committee of this House. The Committee would be mandated to report to this House on the impact of the legislation, the degree to which the program and policy objectives have been met and make recommendations as to whether the legislation, regulations, program or agency should be continued, terminated or amended.

Further, this House is of the opinion that all existing legislation which has established an agency, board, commission or regulatory system or created new direct expenditures or tax expenditures should, over the next five years be reviewed by a committee of this House with the mandate indicated above.

23. Mr Runciman - Resolution - That, in the opinion of this House, the Premier of Ontario should institute a system whereby any supplementary appropriations approved by Management Board of Cabinet are referred within 15 days of approval to the Standing Committee on Public Accounts for its consideration.

24. Mr Johnston (Scarborough West) - Resolution - That, in the opinion of this House, the time has come for a major overhaul of provincial policies and practices concerning the education of deaf people in the province of Ontario. The House, therefore, makes the following recommendations:

1. That a thorough evaluation of deaf students throughout Ontario begin immediately, such an evaluation to include, but not be limited to the following:

a) an assessment of the reasons for the current quality of education provided to deaf students, which research shows provides few graduates of Ontario schools for the deaf and secondary schools with a greater than Grade 4 reading ability;

b) the effectiveness of current teaching methods for deaf students, which do not require the involvement of experts in deaf education when individual assessment of the capabilities of deaf children is made;

c) the effectiveness of present classroom integration policies and support services as a result of Bill 82 (Special Education), which do not provide for paying the costs of interpreters;

d) the practices of hiring deaf and hearing-impaired teachers both in schools for the deaf and in the public school systems, as there are now just 8 hearing-impaired teachers among the 170 teachers in our provincial schools for the deaf, and only a handful of hearing-impaired teachers among the more than 500 teachers of the deaf in the public school system;

e) an assessment of the provincial schools for the deaf, including their administration, public accountability and organization, since provincial schools for the deaf lack a system of public accountability, and since only one of the three schools possesses an advisory committee (that is itself appointed totally at the discretion of the superintendent of the school), and since the three schools among themselves do not use a common sign language system;

f) an examination of the use of American Sign Language as a language of instruction in the schools, which is now not recognized as either a heritage language or a language of instruction, and

g) an assessment of the Ministry of Education's role as it pertains to deaf education, an investigation into the fact that no Ontario faculty of education currently provides teacher training for the teaching of deaf students, and an assessment of the Ministry's mandate to collect province-wide data generally on issues regarding the quality, assessment, effectiveness, and success of the teaching of deaf students in Ontario.

2. That the Ministry of Education take immediate steps to involve representatives of the deaf community, advocates for the hearing-impaired and parents of deaf children in all levels of the decision-making process around education for deaf people in Ontario.

3. That the Ministry of Education immediately establish targets and timetables for the hiring of deaf teachers and administrators in schools for the deaf.

4. That the Ministry of Education report to the Legislature by November 1, 1988 on these initiatives.

Carried May 5, 1988.

25. Mr Eves - Resolution - That, in the opinion of this House, the Government should designate the entire riding of Parry Sound, specifically the District of Parry Sound, as being part of Northern Ontario for the purposes of all government ministries, agencies, boards and commissions.

Carried April 28, 1988.

26. Mr Miclash - Resolution - That, in the opinion of this House, recognizing that great distances between communities in the north necessitate long periods of highway travel, and recognizing that speed limits in the United States and Manitoba

are 90 Km.p.h. and recognizing the importance of encouraging tourism in Northern Ontario from these two areas, and also recognizing that some northern roads have been upgraded but that speed limits have not been correspondingly increased, the Government of Ontario should amend current legislation to increase speed limits on secondary highways in Northern Ontario from 80 Km.p.h. to 90 Km.p.h. where highway conditions warrant.
Carried May 12, 1988.

27. Mr Allen - Resolution - That, in the opinion of this House, in order to enhance the capacity of Ontario's young people to appropriate their cultural past, to cope with questions of meaning and values and to understand and respond to issues of a global society and an increasingly pluralist Ontario, the Government of Ontario should be encouraged to develop and promote for Ontario schools a multi-grade, multi-faith religious education curriculum (similar to that in place in a great many publicly supported schools in Great Britain) to be taught by certified teachers with appropriate training, and this House suggests that in preparation for such an undertaking, the Government should establish a religious advisory council and initiate at an early date a few pilot projects in typical board settings in co-operation with the local community involved.
Carried May 19, 1988.
Referred with unanimous consent to the Select Committee on Education.

28. Mrs Marland - Resolution - That, in the opinion of this House, the government's MISA program, which only covers companies dumping industrial effluent directly into the province's waterways, should be extended to now include the additional 97.5 per cent of water polluters in this province that are dumping into the province's municipal sewer systems.

29. Mr McCague - Resolution - That, in the opinion of this House, recognizing that the Ministry of Health is developing new computer systems for OHIP and recognizing that these systems will keep records for every person receiving health coverage under OHIP and recognizing that the billings under OHIP system are climbing at an alarming rate the Government of Ontario should incorporate in the new system a method of issuing regular statements to subscribers of OHIP in order that they may more accurately see the total costs of the health care coverage they receive from the OHIP system. Carried May 19, 1988.

30. Mrs Marland - Resolution - That, in the opinion of this House, the Government of Ontario should designate municipal waste disposal as a matter of "provincial interest" under Section 2 of the Planning Act, 1983; and that the Government should establish

regional waste management councils for the purpose of co-ordinating regional waste management strategies and assisting Municipalities in dealing, on a long-term and co-operative basis, with the current municipal waste management crisis in Ontario.

31. Mr Velshi - Resolution - That, in the opinion of this House, this legislature: condemns the system of apartheid and wishes to see an end to it and to the violence it engenders, acknowledges that there are people of all races in the Republic of South Africa, including whites, who oppose apartheid but are unable to speak out for fear of government reprisal; and others who fear that a democratic South Africa could mean the end of white culture in that country, calls for the creation of a truly democratic state in the Republic of South Africa with whites and non-whites being free and equal partners, with each group retaining its own culture, therefore this legislature wishes to demonstrate its support of the people of all races in the Republic of South Africa who are suffering under and struggling against apartheid and calls upon all Ontarians to cease trade in goods originating in the Republic of South Africa until such time as apartheid has truly ended. Further, this legislature also calls on the Federal Government of Canada to enact forthwith legislation banning the importation and sale of South African goods in Canada.

Carried May 26, 1988.

33. Mr Villeneuve - Resolution - That, in the opinion of this House, the Minister of Agriculture and Food should play an increased role in promoting and developing new crop uses, particularly the use of grain corn for ethanol-methanol gasoline, for the production of calcium-magnesium acetate, and in promoting the increase use of bio-degradable bags, and that to further these aims, the Minister of Agriculture and Food should be more active in promoting these alternate uses to the Minister of the Environment, the Minister of Energy, the Minister of Transportation, the Minister of Industry, Trade and Technology and the Minister of Municipal Affairs.

Carried June 2, 1988.

34. Ms Collins - Resolution - That, in the opinion of this House, recognizing that plastic packaging often poses serious environmental problems, and recognizing that research into possible solutions to these problems is required, and recognizing that plastic packaging materials are important in our economy, and further recognizing that the development of initiatives to develop environmentally sound plastic packaging use and waste management practices could prove economically valuable for Ontario, the Minister of the Environment should develop, as soon as possible, a plastics waste management policy affirming a clear preference for the reuse, recycling, recovery and reduction of plastic packaging materials where feasible and in such cases where the reuse, recycling, recovery or further reduction of materials may be deemed inappropriate or impractical, the Minister should consider safe and environmentally benign degradation a desirable method of waste disposal for certain plastic products. To develop a comprehensive plastics waste management program, the Minister should:

a) identify the areas of plastic usage where degradability may be desirable;

b) identify the pros and cons of the available and potential degradable plastics technologies for different plastics usages;

c) identify the degradable plastics capabilities of Ontario industry and make recommendations regarding public policy initiatives to assist this development;

d) conduct research into the effects of plastics degradation and its breakdown products both in the environment at large and in landfill sites;

43. Mr Brandt - Resolution - That, in the opinion of this House, recognizing that the Ministry of the Environment has identified over 300 waste disposal sites in Ontario as possibly posing hazards to human health and the environment, and given that three years has passed since the Minister of the Environment first promised to establish an environmental SuperFund to clean up these waste disposal sites, the government should establish immediately a provincial environmental SuperFund to deal with the clean-up of leaking municipal and industrial landfill sites, to handle potential environmental problems related to the operation of waste disposal facilities, and thereby prevent further deterioration of our natural environment and reduce the threat to human health. Lost on Division October 20, 1988.

44. Mrs O'Neill (Ottawa-Rideau) - Resolution - That, in the opinion of this House, the issue of the location for the new National Space Agency has become unnecessarily divisive between provinces; that such initiatives should be founded on existing strengths, recognizing that the aerospace industry in Canada is predominantly shared between Ontario and Quebec and the administrative functions based in Ottawa/Hull; that therefore, the logical location for the Space Agency is in the National Capital Region; and that the Government of Canada should announce forthwith its intention to establish the Agency in the Capital Region.

Carried November 3, 1988.

45. Mr Offer - Resolution - That, in the opinion of this House, recognizing the rapid and continuing growth in Peel Region in the residential, commercial and industrial sectors and further recognizing the existence of a very busy international airport in Peel, the location of Peel between Hamilton/U.S.A. and Metro/Southeast Ontario and the significant increase in the number of medium and heavy truck in Peel, this Legislature strongly urges the Minister of Transportation to direct the continuation of Highway 407 westward from Highway 427 to Highway 10.

Carried December 15, 1988.

46. Mr Eves - Resolution - That, in the opinion of this House, recognizing that the tragic death of Lester Donaldson this past summer has once again brought into question the issue of race relations and the criminal justice system, and recognizing that this issue was previously dealt with following the tragic death of Albert Johnson several years ago, and recognizing the importance of both equality before the law and the public perception of equality before the law, the Attorney General immediately should refer the issue of race relations and the

criminal justice system to the Standing Committee on Administration of Justice for public hearings, review and recommendations.

47. Mr Hampton - Resolution - That, in the opinion of this House, recognizing that the mail service in the communities such as Fort Frances and Kenora and many smaller rural communities of Northwestern Ontario will deteriorate due to the fact that the sorting of the mail will no longer take place in these communities, but instead be moved to a central facility, the Government of Ontario should condemn Canada Post for this action, and the failure to recognize the importance of quality mail service for the rural communities and small towns of Northwestern Ontario, and the Government of Ontario should urge the Government of Canada to halt immediately these plans to cut service and to maintain and improve rural postal services across Ontario.

Carried December 1, 1988.

48. Mr Johnson (Wellington) - Resolution - That, in the opinion of this House, the Attorney General should review the Compensation for Victims of Crime Act to determine whether that legislation is adequate to meet the needs and redress the losses of victims. Such a review should take into account recommendations made by the Standing Committee on the Ombudsman (Sixteenth Report 1988); the Standing Committee on Procedural Affairs (Report on Agencies, Boards and Commissions No. 7 - Dec. 1983); and the areas identified by the past Chairman of the Criminal Injuries Compensation Board as requiring special attention, (Board's Seventeenth Report 1985-86).

interested and wishing to set up such an Authority, sufficient funding to enable them to enhance the value and maintain the viability of the growing forest by those who have a greater stake in its future than those who make the decisions in distant boardrooms.

51. Mr McClelland - Resolution - That, in the opinion of this House, the Government of Ontario should establish a framework within which a working partnership can be initiated and maintained on an ongoing basis with non-governmental voluntary agencies involved in international relief and development.

Carried November 24, 1988.

52. Mr Ballinger - Resolution - That, in the opinion of this House, recognizing the Government of Canada's inability to effectively address the issue of refugee determination which has resulted in a backlog of 9,000 refugee claims in the Greater Toronto area alone; and recognizing that the federal policy is to refuse to issue work permits to refugee claimants which has the result of virtually forcing all of these claimants onto social assistance rolls, costing the Government of Ontario approximately $35 million this year; and further recognizing that amending this policy would not negatively impact on the employment opportunities of Canadians and landed immigrants and would save the taxpayers money, given the present employment opportunities in Metropolitan Toronto and vicinity and the enthusiasm of claimants to work; therefore, the Government of Ontario should urge the Government of Canada to immediately amend its policy and issue temporary work permits until such time as the status of refugee claimants is determined.

Carried December 1, 1988.

55. Mr Adams - Resolution - That, in the opinion of this House, the Government of Ontario be commended for such actions as establishing the Premier's Council and the Environment Council which demonstrate an awareness of the importance of strategic, long-term planning; and that, in keeping with this commitment, and recognizing Southern Ontario is experiencing growth as rapid as any in the world, the Premier should establish, at the earliest possible date, a high profile inquiry similar to the Premier's Council which will provide an overall coordinated strategy for growth for the whole province, and that this inquiry should

(a) advise the Government of the likely magnitude, alternative forms of, and means of accommodating future growth in the Province;

(b) examine the impact of the Greater Toronto Area's unparalleled urban growth on outlying rural communities in the Province;

(c) consider the planning implications of this growth for rapidly growing smaller communities within a 300 kilometre radius of Metro.

(d) recommend appropriate actions to ensure that development is sustainable, environmentally sound, and does not jeopardize the long-term interests of Ontarians; and

That adequate resources should be allocated for such an inquiry.

Carried January 12, 1989.

56. Mr Reycraft - Resolution - That, in the opinion of this House, recognizing that agriculture continues to be a vital component of the Ontario economy and contributes significantly to the social and cultural character of the province; and recognizing that general awareness of the nature and importance of the agri-food system in Ontario has diminished as the province has become increasingly urbanized; and further recognizing that it is

essential to present topics addressing the social and economic importance of the agri-food system to Ontarians through integration into the curricula of both elementary and secondary schools; the Government of Ontario, through the Ministry of Agriculture and Food, should establish a provincial headquarters for the Agriculture in the Classroom program, to function as a collection and distribution centre for learning materials and as a learning centre for teachers and students.

Carried January 19, 1989.

57. Mr Chiarelli - Resolution - That, in the opinion of this House, the Government of Ontario should consider the following in its consultative constitutional process:

1. The promotion of an amendment to the Canadian Constitution adding a sub-section (6) to Section 33 of the Constitution Act 1982 to give to the Parliament of Canada and to any Province the option to permanently render inoperative within its jurisdiction the "Notwithstanding Provision", and that if such an amendment were made to the Canadian Constitution the Government of Ontario would as soon as practicable, permanently opt out of the right to use the "Notwithstanding Clause" and would further encourage the Parliament of Canada and all other Provinces to do likewise.

2. To refer to the Ontario Court of Appeal an appropriate question to determine if federal power of disallowance as set out in Section 90 of the Constitution Act, 1867 (The B.N.A. Act) is a subsisting and usable power for the Parliament of Canada or is it a power rendered inoperative by constitutional convention and, if such power is a subsisting and usable power for the Parliament of Canada, can the power be used by Parliament to disallow a provincial statute, law, regulation or provision which has the effect of depriving any individual or legal entity of basic and fundamental human rights and freedoms.

58. Mr Mahoney - Resolution - That, in the opinion of this House, recognizing the ever increasing costs associated with the hospital care and the alternative of community-based health services, the Government of Ontario should encourage the formation of community-based health centres similar to the health centre in Sault Ste. 1. conduct a thorough review of its programs, policies and practices to ensure that the concept of sustainable development is applied within all areas of Ontario Government decision-making; and,

2. implement a procedure for reviewing, on an annual basis, the progress made by all ministries, boards and crown corporations in applying the concept of sustainable development within their areas of responsibility.

1. Adopting a standard form of agreement of purchase and sale, with rights and obligations of both purchaser and vendor delineated;

Mr Smith (Lambton) - Resolution - That, in the opinion of this House, recognizing that highways in Ontario are constructed in such a way to permit vehicles to travel safely at speeds greater than the presently posted limits, the Government of Ontario should consider amending current legislation to increase speed limits on 400 class highways to 115 km/hr for cars and light trucks, and to 105 km/hr for trucks over 1 tonne, and on secondary highways to 90 km/hr for cars and light trucks and to remain at 80 km/hr for trucks over 1 tonne.

MOTIONS OF NON-CONFIDENCE

UNDER STANDING ORDER 70(a)

1. Mr Rae (York South) - Notice - That the Government lacks the confidence of this House because of its abject failure to provide decent, affordable housing for the working families of Ontario - in particular, through its failure to increase the supply of affordable housing; through its failure to protect the existing housing stock; and through its failure to protect tenants.

   Lost on Division May 2, 1988.

2. Mr Brandt - Notice - That, noting the Government's failure to make a convincing case against the federally negotiated Free Trade Agreement on either economic, legal or constitutional grounds and noting that other provinces are developing economic plans and launching trade missions to the United States to take advantage of the anticipated benefits from this major economic agreement, this House has lost confidence in the Ontario government because of its decided lack of action in developing a strategy to ensure Ontario workers and Ontario business obtain best advantage from the reduction of trade barriers with our largest trading partner.

   Lost on Division May 31, 1988.

3. Mr Rae (York South) - Notice - That the Government lacks the confidence of this House because of its abject failure to deliver on its six-point promise during the 1987 election campaign that if certain conditions were not met on the Canada-U.S. free trade negotiations there would be "no deal", even though none of those conditions were met; and because the three so-called anti-free trade bills now before this House - Bills 147, 168, 175 - add nothing to the ability of the Government of Ontario to resist, oppose or differ from the provisions of the Mulroney trade deal, in the interest of the ordinary working people of the province.

   Lost on Division November 8, 1988.

4. Mr Brandt - Notice - That the Government lacks the confidence of the House because of its failure to maintain a quality health care system, which the people of Ontario have come to expect, resulting in the increased suffering and mortality of patients, the closing of hospital beds, the increased waiting lists for health services forcing more citizens to seek health care outside the province, the deterioration in the cooperation between the government and health care providers in the province, and the frustation of all persons involved in health care in Ontario because of this government's lack of planning and setting of priorities for capital expansion and improvements, lack of leadership in developing adequate support and funding to facilitate a more community-based approach to health care delivery, lack of action in reforming the OHIP system, and systematic attempts to blame everyone else for the problems in the health care system.

Lost on Division February 8, 1989.

5. Mr Rae (York South) - Notice - That the Government lacks the confidence of the House because of its failure to address in any meaningful way the crisis in the supply of nurses within the health care system, both with regard to the recruitment of adequate numbers of people and the retention of nursing professionals within the system, which follows from the unwillingness to address structural issues about the role, responsibilities, respect for and compensation of nurses, the result being that people in Ontario who need hip and knee replacements in order to retain their mobility and the chance to live independently outside institutions are forced to wait many months to get them, thousands of people - including children - needing heart surgery are forced to wait through months of being scheduled, cancelled and re-scheduled for the surgery they need, and because hospital emergency departments (for lack of nurses) are forced to restrict non-critical admissions, patients seeking emergency care often have to travel considerable distances to find an emergency department that will see them for treatment.
