33. Mr Laughren - Resolution - That the Treasurer of Ontario be authorized to pay the salaries of the civil servants and other necessary payments pending the voting of supply for the period commencing April 1, 1992 and ending April 30, 1992. Such payments to be charged to the proper appropriation following the voting of supply.

Debated December 18, 1991.

34. Mr Cooke - Resolution - That notwithstanding any Standing Order of the House, this House continue to sit during regular hours commencing Monday, December 23, 1991 and thereafter.

PRIVATE MEMBERS' MOTIONS

1. Mr Eves - Motion - That the Legislative Assembly of Ontario recognizes that the period allotted for members' statements was intended for private members and not for statements announcing government initiatives, legislation, policies or proclamations and that any such announcements should be made during the time allotted for ministerial statements and therefore this House resolves that the Standing Orders of the Legislative Assembly be amended as follows:

   Standing Order 30 be amended by adding thereto the following clause:

   (d) No member shall make a statement announcing any government initiative, legislation, policy or proclamation.

2. Mrs Cunningham - Resolution - That in the opinion of this House, recognizing the need for a highly skilled workforce to maintain Ontario's economic competitiveness, and the need to provide broader economic and educational opportunities for women in society, the Government of Ontario should establish a Women In Science and Engineering (WISE) scholarship fund, and provide start up funding, and invite private sector participation in the program, in order to encourage the study of engineering and applied science by women.

3. Mr Winninger - Resolution - That, in the opinion of this House, recognizing that the Canadian Forces Base in London, Ontario has and may continue to play a significant role in the life of the community, and that a swift response to disaster or emergency in a large urban centre such as London is vital to preserving the health and peace of this community, and that the various socially desirable works that a civilian militia would be called on to perform in the absence of a military base are now well conducted by Canadian Forces Base London, and that the federal government's decision to close down the base will result in a significant loss of employment and dislocation of individuals and families in the community, and that there is no significant cost-saving in closing down the base; therefore, the government of Ontario should urge the government of Canada to immediately reconsider its decision.

4. Ms Poole - Resolution - That, in the opinion of this House, since the National Packaging Protocol (N.A.P.P.) was endorsed by the Canadian Council of Ministers of the Environment on March 20th, 1990, and included a target for the reduction of packaging waste by 50 per cent by the year 2000; and since the environment protection industry offers unique opportunities to create new employment in Ontario; and since legislation had been drafted for presentation to this Legislature in the fall of 1990, after extensive consultation with special interest groups, affected parties and the Waste Reduction Advisory Committee; therefore the Minister of the Environment should, during the 1991 spring sitting of this Legislature:

   1) introduce legislation or regulations to meet the targets of the National Packaging Protocol in Ontario;

   2) require the reduction, re-use and recycling of packaging materials to divert a minimum of 20% of packaging waste from landfill or incineration by 1992, and 35% by 1996;

   3) provide funding and other incentives for research and development in packaging reduction, re-use and recycling;

   4) provide programs and incentives for market development for re-use and recycling of packaging products;

   5) ensure that provincial government procurement policies reflect stringent packaging reduction guidelines.

   Carried on division December 13, 1990.

5. Mr Cousens - Resolution - That, in the opinion of this House, since each of the four major sulphur dioxide sources in Ontario reported in November 1989 to the Standing Committee on General Government that they would meet or surpass the emission reductions required for 1994 by the Countdown Acid Rain Program, and since the Committee subsequently recommended that the Ministry of the Environment should "vigorously" plan for the post-1994 stage of acid gas emission control with respect to the four major emittors, and since the four major emittors only account for 80 per cent of Ontario's sulphur dioxide emissions; therefore, the Ontario Government's "Countdown Acid Rain Program" should be extended beyond 1994 and expanded to include the other 20 per cent of emittors, and this Government should introduce new regulations under the Environmental Protection Act that will:

   1) establish specific emission limits and schedules for each of the four major acid gas emission sources (Ontario Hydro, Inco Ltd., Falconbridge and Algoma Steel) for the period 1995-2005; and

   2) establish specific emission limits and schedules for all other emittors of sulphur dioxide and nitric oxide.

6. Mr Harris - Resolution - That, in the opinion of this House, recognizing that one in six children in this province is living in poverty, and that the April 1990 Report on Food Banks by the Standing Committee on Social Development recommended the creation of school-based meal programs to provide a basic level of nutrition, and that the Statement to the Standing Committee on Finance and Economic Affairs by the Federation of Women Teachers Associations of Ontario recommends such a program; the Government of Ontario, after consultation with educators, and in partnership with private sector sponsors, should establish a breakfast program for elementary school children.

   Carried November 28, 1991.

7. Mr Beer - Resolution - That, in the opinion of this House, the Government of Ontario should introduce legislation during its current mandate to implement a universal disability insurance program; and further, that this legislation should be preceded by a province-wide consultation process initiated before the end of June 1991 and based on a published public consultation document laying out policy options for the management and reform of the current compensation and benefit system.

   Lost on division March 28, 1991.

8. Mrs Sullivan - Resolution - That, in the opinion of this House, given that the dumping of construction fill on agricultural land renders the land unsuitable for production and that this is a matter of continuing concern in rural areas of this Province, and given that there is at present no legislation which addresses this problem, the Minister of Agriculture and Food should move quickly to introduce amendments to the Topsoil Preservation Act to regulate and control the dumping of inert material on agricultural land.

9. Mr Miclash - Resolution - That, in the opinion of this House, recognizing that fully accessible health care for every Ontarian should be a priority of this Government, that Northern Ontario residents often have to travel outside their communities to receive specialized health care services, that travel costs in Northern Ontario are higher on average than in other areas of the province and that some situations, regardless of age, require the assistance of a travel companion, the Government of Ontario should: reduce the distance criteria under the Northern Health Travel Grant Program from 250 kilometres to 200 kilometres; remove the age requirement for companion travel assistance; change the formula used to calculate the grants to more accurately reflect the actual travel costs incurred; expand the programs geographic boundaries to include Parry Sound and all of the Nipissing District; and make these changes retroactive to August 14, 1990.

   Carried on division April 4, 1991.

10. Mr Wiseman - Resolution - That, in the opinion of this House, the Standing Committee on Resources Development should be asked to review the current effectiveness of governmental efforts to protect wetlands in southern Ontario and, in particular study the following matters:

    1. the circumstances and the frequency of wetland loss, with special emphasis on the pressures created by urban development on such wetlands and watersheds as those found in the Altona Forest, Frenchman's Bay, Carruthers Creek, and others that are experiencing similar impacts;

    2. the adequacy of governmental laws, policies and programs for ensuring that there is no net loss of this valuable resource;

    3. whether there is a need for a comprehensive wetland protection statute in Ontario;

    4. the need for education programs on the value of wetlands;

    5. the desirability of establishing a provincial office for wetland protection in order to centrally administer, monitor and enforce all governmental laws, policies and programs;

    6. ways to promote the creation of new wetlands;

    7. ways to resolve conflicts arising from farm activities that impact upon wetland viability; and

    8. any other matter the committee considers relevant to wetland preservation.

    Carried April 11, 1991.

11. Mrs Witmer - Resolution - That, in the opinion of this House; recognizing that the communities of Kitchener and Waterloo are inextricably linked and a spirit of co-operation exists between the two communities; and since the two cities make up the largest twin city community in Canada; and since the Kitchener and Waterloo City Councils have passed resolutions endorsing changes to the Highway 401 directional signs to refer to the cities of Kitchener and Waterloo; and since the Twin City Task Force agrees that the cities of Waterloo and Kitchener will be better served and recognized if the signs along the 401 refer to Kitchener-Waterloo; the Government of Ontario should change the Highway 401 directional signs which currently only name Kitchener, to refer to the cities of Kitchener-Waterloo.

    Carried May 9, 1991.

12. Mr Carr - Resolution - That, in the opinion of this House, recognizing that despite the fact that there is legislation limiting the quality and quantity of air emissions from plants and factories across Ontario, and despite the presentation of a "plan" from the Petro-Canada plant, Oakville Refinery, last December which would drastically reduce their emissions, and that foul-smelling air emissions are still emanating from this plant and causing discomfort and respiratory difficulties to the residents, the Minister of the Environment should move quickly to tighten emission standards.

13. Mr Malkowski - Resolution - That, in the opinion of this House, recognizing that the time has come for a fundamental assessment of provincial policies and practices concerning intervention services and sign language interpreting services, intervenor training and sign language interpreter training and the availability of intervenors and sign language interpreters in educational settings and in the community generally, the Ministry of Colleges and Universities should immediately undertake a thorough review of those policies and practices, with the scope of the review to include,

    (a) the reasons for the current shortage of intervenors and interpreters in this province and its impact on the ability of colleges and universities, elementary and secondary schools, schools for the Deaf and community service agencies and employers to hire qualified intervenors and interpreters;

    (b) the availability of American Sign Language (ASL) interpreters and Langue de signes quebecois (LSQ) interpreters, oral interpreters, and English and French intervenors in Ontario;

    (c) the availability of intervention training programs and sign language interpreter training programs, including either ASL or LSQ, in Ontario;

    (d) the appropriateness of current entrance requirements for sign language interpreter training programs, particularly the criteria pertaining to prospective students' sign language fluency;

    (e) the number of sign language interpreter instructors who do not have an appropriate sign language interpreter training background;

    (f) the effectiveness of current sign language interpreter training curricula and an assessment of curriculum standards in Ontario, including the degree of involvement of experts and consumers in curriculum development and the extent of ongoing consultation;

    (g) the availability of funds to cover the costs of intervenor services and interpreter services;

(h) the appropriateness of the currently limited mandates of the Ministries of Community and Social Services, Health, Colleges and Universities, Tourism and Recreation, the Attorney General, Skills Development and Education to assist those who need intervenor services and interpreter services, and the policies of those Ministries on the provision of those services, particularly in relation to interpreter screening, intervenor screening, service quality, and training program quality;

(i) the availability of current intervenor apprenticeship programs and interpreter apprenticeship programs and their funding status;

(j) current practices regarding the hiring of sign language interpreters in educational and other community settings;

(k) the role of the Ministry of Colleges and Universities as it pertains to intervenor and sign language interpreter education, and its mandate to collect province-wide data on issues regarding the quality and effectiveness of the teaching of intervention and sign language interpreting in Ontario;

(l) the reason or reasons why no faculty of education in Ontario currently provides teacher-training for instructors in intervenor programs and sign language interpreting programs; and

(m) such other matters that the Ministry considers necessary to complete a thorough evaluation of provincial policies and practices concerning intervention services and sign language interpreting services.

Further, in the opinion of this House, the Ministries of Colleges and Universities and Skills Development should take immediate steps to establish a provincial intervenor task force and a sign language interpreter task force, with the involvement of representatives of the Deaf and Deaf-Blind communities, professional intervenors and sign language interpreters, intervenor providers and sign language interpreter service providers, and intervenor trainers and sign language interpreter trainers, to develop short and long term goals for the expansion of intervenor services and sign language interpreter services, and to advise on apprenticeship programs and the establishment of an intervention education program and sign language interpreting education program at the college or university level;

The Ministry should immediately establish timetables for pursuing apprenticeship program expansion; and

The Ministry should report to the Legislative Assembly on these matters on or before the 31st day of October, 1991.

Carried May 16, 1991.

14. Mr Martin - Resolution - That in the opinion of this House, the Government of Ontario should support Worker Ownership as a significant initiative in the restructuring of the province's economy by:

    1. developing an interministerial committee comprised of representatives from the Ministries of Consumer and Commercial Relations, Industry Trade and Technology, Labour, and Financial Institutions.

    2. providing development funds and seed capital for a number of worker-owned business models.

    3. establishing a financial incentives program to provide venture and expansion capital to new and existing projects.

    4. amending existing tax law and regulations and developing new legislation which would enable worker-owned enterprises to compete on an equal basis with other business forms.

    5. implementing an interim financial mechanism (to be operative while the above steps are implemented) to compensate for the financial penalties presently incurred because of discriminatory tax law and the inability of worker-owned businesses to access existing government programs.

    6. developing curriculum and programs through the Ministry of Education which would support and encourage awareness of, and participation in, worker-owned and managed workplaces.

    7. encouraging the Ministry of Colleges and Universities to take the initiative in providing training in the management skills appropriate for worker-owned and managed businesses.

    8. including a member of the emerging Worker Co-operative Association on the Premier's Council on the Economy and Quality of Life. May 14, 1991.

    Carried May 30, 1991.

15. Mr Offer - Resolution - That, in the opinion of this House, recognizing that there currently exists a chronic underfunding of social services for children, youth and families in the Region of Peel which has caused a Report to be prepared by the Fair Share for Peel Task Force consisting of volunteer presidents and senior staff from The Children's Aid Society of Peel, Family Services of Peel, Peel Children's Centre, Social Planning Council of Peel and The United Way of Peel Region, which Report has clearly shown the need for a consistent method for allocating provincial grants for social services, the Minister of Community and Social Services should take concrete steps to increase the service base to a satisfactory level over a five year period, and, develop an equitable funding formula that recognizes population growth dynamics and social indicators.

    Carried on division June 13, 1991.

16. Mr Johnson - Resolution - That in the opinion of this House, owners of property utilizing a septic system or holding tank must, prior to offering for sale or changing ownership, provide at their own expense certification indicating that all existing sewage waste systems are operating properly and are non-polluting at the time of sale or change of ownership and that this certificate form part of any listing agreement or legal document.

Carried June 13, 1991.

17. Mr Stockwell - Resolution - That in the opinion of this House, recognizing that the tax, borrow and spend policies of the government are undermining Ontario's economic competitiveness, discouraging investment, exacerbating the problem of cross border shopping and that these policies will burden this and future generations of taxpayers with a massive debt, this House therefore calls upon the government to immediately introduce legislation:

    1) to impose a 2% cap on wage increases in the broader public sector in Ontario for a one year period,

    2) to establish a budget stabilization fund to be financed through the allocation of any in-year revenue windfalls,

    3) to hold its own direct operating expenditures at last year's levels,

    4) to implement a program freeze. June 3, 1991.

Lost on division June 20, 1991.

18. Mr Callahan - Resolution - That in the opinion of this House, the Legislative process must be reformed to allow individual members the ability to vote for or against a measure as the majority of their electorate wishes, without it triggering a dissolution of the Legislature. It is also fundamental to a true democratic process that every individual member have a meaningful opportunity to participate in the policy decisions of the Legislature and this House calls upon the Government to reform the parliamentary process in a way which would make the contribution of all members more meaningful.

Carried on division June 27, 1991.

19. Mr Kwinter - Resolution - That, in the opinion of this House, given the horrendous negative effect the policies and proposals of the New Democratic Party government have already had on the investment and job creation climate in Ontario, and given the deliberately anti-business proposal by the federal Conservative government to introduce a payroll tax to fund its wage protection program, thus making successful workers and employers pay the costs for their unsuccessful counterparts, the present Government of Ontario should at no time introduce a payroll tax as a means of funding the Employee Wage Protection Program.

Lost on division September 26, 1991.

20. Mr Drainville - Resolution - That, in the opinion of this House, recognizing that cereal farmers need new markets, and that there are compelling environmental and social benefits of renewable fuel production and use, the relevant government ministries should cooperate in an interministerial committee to undertake studies and pilot projects to determine a comprehensive provincial ethanol strategy leading to changes in various provincial regulations; and to aggressively lobby the federal government to alter its regulations and tax policies so as to foster the development of a prosperous ethanol industry in Ontario.

21. Mr Drainville - Resolution - That, in the opinion of this House, the Ministry of Agriculture and Food, in developing policies and programmes for agriculture and rural development should take account of the special needs of the aboriginal peoples - their land ownership structures and political and cultural traditions - so that they may participate to the full in government programmes and initiatives for agricultural and rural development.

24. Mr Runciman - Resolution - That, in the opinion of this House, since the Corporation of the City of Brockville is seriously concerned about the impact on the manufacturing, commercial and tourism sectors of its economy through the loss of income, expenditure and assessment, resulting from the Provincial Government's taxation policies and the proposed introduction of legislation which is currently eroding the competitiveness and profitability in all the sectors noted above; and, since some of Brockville's industrialists have stated that they will move their manufacturing concerns out of Ontario, limit future investment, or close, if some or all of the current legislation is introduced which will increase the cost of doing business in Ontario (for example, labour law reform, sectoral bargaining, increased employer contributions on employee compensation packages, mandatory pension indexation, contracting out, strengthening the Ontario Labour Relations Board, and increasing the minimum wage to 60% of the average industrial wage) and, since the City of Brockville is potentially losing its ability to entice new commerce to the City from major investor interests due to concerns on the impact of the Ontario deficit, and the shift from a "business oriented Province"; and, since the City's manufacturing base, representing the majority of Brockville's manufacturing jobs, supports the City's direction on this matter through extensive consultation, the Corporation of the City of Brockville herein strongly recommends that the Ontario Government freeze all current and proposed legislation that will impact on Ontario business; and further, that the Government be more sensitive in the future to the impact of legislation on the economy of Ontario; and, that an industry/business/labour based task force be established to formulate a strategic direction that will repair the damage that has been done, and put Ontario back in a competitive business climate.

25. Mr Cousens - Resolution - That, in the opinion of this House, recognizing that the Markham Buttonville Airport contributes significantly to the economic prosperity of the Region of York and the Greater Toronto Area and that the possible closure of this crucial component of our transportation network could wreak havoc with provincial air travel routes, this House resolves that the Town of Markham with the support of the Province of Ontario be encouraged to purchase the Markham Buttonville Airport in order to maintain this essential service.

26. Mr Mancini - Resolution - That, in the opinion of this House, given the crisis facing Ontario's agricultural economy in dealing with high input costs and low prices, which have fallen by 35% this crop year for grains and oilseeds and which have remained at depressed levels for other crops and the livestock sectors, and taking into account the fact that long term federal-provincial price and income support programs are not scheduled to take effect until next year; and, given the extensive crop damage in Southwestern Ontario this summer due to drought, particularly in Essex and Kent Counties; given the importance of ensuring the survival of Ontario's family farms; and, given the continuing policy of the NDP government to ignore the problems facing the economy of rural Ontario; the Government of Ontario provide immediate emergency agriculture funding in order to maintain the viability of the rural economy and family farms.

Lost on division October 10, 1991.

27. Mr Frankford - Resolution - That, in the opinion of this House, the Government of Ontario should begin consultation with the public and with health professionals, pharmaceutical manufacturers and health-related organizations regarding the implementation of a compensation scheme for vaccine related injury.

Carried October 17, 1991.

28. Mr Sola - Resolution - That, in the opinion of this House, given that there is extraordinary population growth in the areas of the Greater Toronto Area immediately surrounding Metropolitan Toronto, and that current development plans, such as the Sandringham-Wellindale development in Brampton, and the pattern of immigrant settlement suggest that such growth will continue indefinitely, and given that in 1991 the growth boards, namely the Peel Board of Education, the Dufferin-Peel Roman Catholic Separate School Board, the Durham Board of Education, the Durham Region Roman Catholic Separate School Board, the York Region Board of Education and the York Region Roman Catholic Separate School Board, were seriously underfunded in comparison to their expressed capital requirements, the present Government of Ontario should undertake to develop a capital funding formula particular to these growth boards to take into consideration their extraordinary needs.

Lost on division October 17, 1991.

29. Mr Cooper - Resolution - That, in the opinion of this House, given that motorcycles use less of everything, the Government of Ontario should promote the use of motorcycles.

Carried October 24, 1991.

30. Mr Carr - Resolution - That, in the opinion of this House, all future legislation which would establish an agency, board, commission or regulatory system or create new direct expenditures or tax expenditures must contain a sunsetting provision which would, after a specific period of time, require mandatory review of the original legislation by a committee of this House. The committee would be mandated to report to this House on the impact of the legislation, the degree to which the program and policy objectives have been met and make recommendations on whether the program or agency should be continued, terminated or amended. Further, that all existing legislation which has established an agency, board, commission or regulatory system or created new direct expenditures or tax expenditures should, over the next five years, be reviewed by a committee of this House with the mandate indicated above.

Lost on division October 24, 1991.

31. 32. Mrs Marland - Resolution - That, in the opinion of this House, recognizing that violence against women is a serious problem which all governments have a responsibility to prevent; and recognizing that there is a body of research which shows a causal link between pornography of a violent nature and violence against women; and recognizing that there have been conflicting court decisions on whether publications in various media, depicting various sexual activities, are obscene; and recognizing that the Ontario Film Review Board is guided in its classification decisions by principles outlined in regulations under the *Theatres Act* which are based on community standards; and recognizing that the Ontario Film Review Board, following recent court decisions, has decided that community standards are such that explicit sexual acts between consenting adults should no longer be censored so long as the films do not depict sex involving violence, coercion, degradation, bondage, minors, bestiality or necrophilia; and recognizing that section 163(2)(a) of the Criminal Code of Canada prohibits people from knowingly selling or exposing to public view "any obscene written matter, picture, model, phonograph record or other thing whatever"; and recognizing that section 163(8) of the Criminal Code defines "obscene" publications as being dominated by "the undue exploitation of sex, or of sex and any one or more of the following subjects, namely, crime, horror, cruelty and violence"; and recognizing that in recent months, police have charged video store owners under sections 163(2)(a) and 163(8) of the Criminal Code for renting or selling adult sex movies which had been approved with a "Restricted" rating by the Ontario Film Review Board; and recognizing that action must be taken so that the enforcement of the Criminal Code does not conflict with the decisions of the Ontario Film Review Board; the Attorney General should consult with the federal Minister of Justice and all provincial attorneys general to develop a more workable definition of "obscene" which can be applied consistently by law enforcement authorities and film classification agencies, and should encourage the federal government to introduce a bill amending the Criminal Code of Canada to replace the old definition of "obscene" with this revised definition.

33. Mr Mahoney - Resolution - That in the opinion of this House, since every member of Provincial Parliament must have a real opportunity to effectively impact on proposed laws and the budget, in order to ensure governing parties remain sensitive to all regions of the province, the Government of Ontario should introduce reforms to the laws governing the legislature to ensure that: (a) The defeat of a government bill will not mean the automatic defeat of the government, so that individual members would have more leverage on a government; (b) Governments would only be defeated in the legislature on express votes of confidence or non-confidence; and (c) The budgetary process would be dramatically opened up to greater public input, before decisions are finalized, and to move most of the budget making process out from behind closed doors.

34. Mr Sorbara - Resolution - That in the opinion of this House, recognizing that the development of our transportation infrastructure must be an urgent priority, and that initial plans for the looping of the Yonge and Spadina subway lines have already been developed, and that York University comprises a community of over 50,000 people who commute daily to the university campus, the vast majority in automobiles due to the lack of adequate public transportation, and that Metropolitan Toronto's transportation needs can only be properly addressed in conjunction with those of the surrounding regional municipalities - York Region in particular, the Government of Ontario should act immediately to extend the Spadina subway line to York University and along Steeles Avenue to join with the Yonge subway line, thereby significantly reducing the congestion on our roads and highways and laying the basis for an integrated transportation system for the Greater Toronto Area.

35. Mr Eves - Resolution - That in the opinion of this House, recognizing that sexual abuse of patients by health professionals is a serious problem as evidenced by the fact that the Task Force on Sexual Abuse of Patients commissioned by the College of Physicians and Surgeons heard 303 reports of sexual abuse by physicians and others, that the essence of the relationship between a health professional and a patient is based on trust, and further recognizing that patients are vulnerable, and must be protected, the government of Ontario should pass legislation which would:

a) Amend the Regulated Health Professions Act to include two levels of the offence of sexual abuse of patients: i. Sexual Impropriety and ii. Sexual Violation as defined in the final report of the Task Force on Sexual Abuse of Patients commissioned by the College of Physicians and Surgeons of Ontario.

b) Develop a penalty range for Sexual Impropriety including reprimand, apology, fine, temporary suspension of licence, with conditions, or any combination thereof.

c) Amend the Regulated Health Professions Code to include a fine up to $20,000 and mandatory revocation of licence for five years for health professionals found guilty of Sexual Violation.

d) Amend the Regulated Health Professions Code so that upon application for reinstatement, the Discipline Committee, the Council or the Executive Committee must require the applicant to fulfil specific requirements including:

- having the College publish a notice of application which informs all health professionals of the intention of the applicant to apply for readmission, and outlines how to contact the College with any relevant information prior to the applicant's readmission hearing,

- providing a written brief demonstrating the ways in which readmission would be in the public interest,

- making good all financial losses caused by his or her sexual abuse,

- filing a statutory declaration setting out in full his or her business or employment activities during the period following revocation of his or her licence,

- filing a certificate from his or her treating professional detailing the course of treatment entered into and stating the treating professional's opinion of the applicant's compliance with treatment goals and the success of treatment overall,

- filing a certificate from an independent assessor who has evaluated the course of treatment and formed an opinion as to its success in ensuring that the applicant poses no danger to future patients,

- filing a series of documents prepared by the treating professional and the assessor, including an assessment of how the abuse occurred, an outline of specific rehabilitation goals and whether or not they have been met and a list of specific changes in behaviour which have occurred through the rehabilitation process,

- filing a re-entry plan developed by the independent assessor, which includes substantive safeguards to prevent further sexual impropriety or violation,

- demonstrating a commitment to ongoing rehabilitation therapy, including submitting quarterly reports to the College on the status of his or her recovery.

In hearing an application for reinstatement, the Discipline Committee would be required to carefully consider each of the aforementioned documents, as well as,

- testimony from the applicant, the treating professional and the independent assessor as to the applicant's understanding of the harm done by his or her abuse and the effectiveness of rehabilitation in this case, the specific changes in behaviour which have taken place, the commitment to ongoing rehabilitation and specific rehabilitation goals, the proposed safeguards in place should the health professional be reinstated, and any practice restrictions including monitoring which are recommended.

Having reviewed all evidence regarding the rehabilitation of the applicant, the Discipline Committee must be convinced that,

- the evidence presented, including expert evidence, satisfies to a substantial degree of medical and psychological certainty that the applicant will not abuse patients or other vulnerable persons in future,

- readmission would be in the public interest.

e) That the Minister of Health and the Treasurer of Ontario establish a Survivors Compensation Fund to receive all monies paid as fines for sexual impropriety or sexual violation. In addition, the health professional must pay into the new Fund the equivalent amount for fees paid by OHIP as "services" when, in fact, the health professional was sexually abusing the patient. As well, proceeds from a levy of 1% of the annual membership fee of the appropriate body should be forwarded to the Fund as a clear demonstration by the medical profession of its collective responsibility to patients who have been harmed by a member of the profession. That the procedure for this remedy be established in consultation with the Women's Health Bureau of the Ministry of Health.

36. Mr Murdoch (Grey) - Resolution - That in the opinion of this House, recognizing the multicultural nature of Ontario and the contributions of the Scottish community to the economic, agricultural and cultural well being of Ontario, and recognizing that the 6th day of April is a day of historical significance to the Scottish community as it marks the anniversary of the declaration of Scottish independence made in 1320; this House should proclaim the 6th day of April as Tartan Day.

WANT OF CONFIDENCE MOTIONS PURSUANT TO STANDING ORDER 42(a)

1. Mr Elston - Motion - That, since the New Democratic Party government has demonstrated a total disregard for the standards of conduct traditionally adhered to by Cabinet Ministers, as exemplified by the failure of the Solicitor General to comply with the Conflict of Interest Guidelines and Code of Conduct as laid down by the Premier, and since the Solicitor General has failed to comply with the long standing parliamentary tradition which promotes the independence of the judiciary, thereby jeopardizing the separation of powers traditionally associated with Ontario parliamentary history, therefore, pursuant to the provisions of Standing Order 42(a), the House no longer has confidence in the government.

   Lost on division June 18, 1991.

2. Mr Harris - Motion - That the government has lost the confidence of this House because:

   (a) its fiscal and budgetary policies are undercutting Ontario's economic competitiveness, discouraging investment and encouraging the out-migration of Ontario firms, and because these policies will impose an intolerable burden of debt on future generations of Ontario taxpayers and are having a negative effect on cost-sensitive Ontario industries such as the tourism industry, manufacturing industry and the trucking industry and are exacerbating the problem of cross-border shopping;

   (b) in spite of its rhetoric on the need for "partnerships" the government has practised arbitrary and secretive decision making as exemplified by its unilateral decision to change the oath of allegiance to the Queen and has failed to engage in meaningful consultation with the Ontario business community as evidenced by the debacle surrounding the legislation to establish a wage protection fund - Bill 70;

   (c) the Premier has diluted and failed to enforce the principles established in his own conflict of interest guidelines and consequently the government has failed to meet what it described as its "first challenge ... to earn the trust and respect of the people of Ontario".

   Lost on division June 25, 1991.

3. Mr Harris - Motion - That the government has lost the confidence of this House as a result of its continuing failure to recognize the dangers inherent in its fiscal, budgetary and economic policies and programs and in particular:

   1) because of its failure to abandon its tax, borrow and spend agenda, an agenda detrimental to the best long-term interests of the people and taxpayers of Ontario;

   2) because of its failure to implement effective measures to control public sector costs and to cut government spending;

   3) because of its failure to conduct meaningful consultations with all its economic partners on key policies, and

   4) because of its failure to develop and pursue the new directions in fiscal and economic policies required to ensure economic competitiveness, job creation and universal access to affordable public services.

Section 7-4-1

SPECIAL DEBATES

OPPOSITION DAYS

FALL PERIOD 1990

1. Mr Harris - Opposition Day - This House, noting the increase in the number of jobs lost through layoffs, the rising unemployment rate, the increase in the social assistance caseload and in the cost of social assistance programs and noting the deterioration in the province's financial position, urges the government to abandon the tax and spend approach to financial management which has dominated the province's fiscal policy for the past five years, an approach which has added to inflationary pressures and reduced the competitiveness of Ontario's industries, and to adopt a policy of restraint to control costs and to provide the opportunity for tax relief. Treasurer of Ontario and Minister of Economics.

   Lost on division November 29, 1990.

2. Mrs Sullivan - Opposition Day - That in the opinion of this House, since the Minister of the Environment has acknowledged that even under the most optimistic forecasts of reduction, re-use and recycling there will still remain more than three million tonnes of municipal waste within the Greater Toronto Area requiring disposal annually;

   Has effectively absolved communities within the Greater Toronto Area of their responsibility to designate interim sites within their own boundaries to deal with the impending garbage crisis;

   Has indicated she is prepared to exercise emergency powers to extend land-filling at Keele Valley and Brittania Road in excess of currently allowable volumes, thereby ignoring all safeguards under the Environmental Assessment Act, and order without a hearing of any kind the disposal of garbage into the proposed site 6B in Brampton and P1 Whitevale site;

   Has refused to provide this legislature and the public with the details of her waste reduction strategy, and

   Since the present government has clearly abdicated its responsibility to protect the public and the environment, and has failed to provide a sound environmental plan to deal with the impending garbage crisis;

   This House therefore calls upon the Minister of the Environment to provide that:

   i) A comprehensive waste reduction strategy be presented to the legislature immediately for public debate and implementation;

   ii) No existing land-fill sites will have their capacity expanded without full and public hearings under the Environmental Assessment Act;

iii) No region can transport its waste to another municipality in the province without a resolution of the recipient municipality indicating that it is a "willing host" for such waste;

iv) No regional land-fill site that is coming on stream in a municipality having completed the Environmental Assessment process shall be required to accept municipal solid waste from outside the municipality by the Minister of the Environment's emergency powers.

v) No new waste disposal sites will be designated within the province without the benefit of full and public hearings under the Environmental Assessment Act. Minister of the Environment.

SPRING PERIOD 1991

1. Mr Elston - Opposition Day - That, in the opinion of this House, since the New Democratic Party has taken power, Ontario employment has fallen by 282,000 actual jobs which is at the rate of 1600 for every day. Ontario has fallen from its traditional position as the province with the lowest unemployment to 4th behind Saskatchewan, Alberta, and Manitoba, Ontario has the worst job creation record of any province in Canada, based on monthly employment figures, all this government has offered for its seven months in power is a $34 million anti-recession fund for capital projects which amounts to about $4.8 million per month on job creation projects whereas the province takes in over $120 million in revenue, every day, and since this Premier and Treasurer, have turned from being defenders of the people, to defenders of the status quo and have failed to provide the leadership and active government necessary for the Province of Ontario in a period of severe economic recession, therefore, this House calls upon the Premier and the Treasurer to assume their leadership responsibilities in a government which has promised much, and delivered little, and undertake a comprehensive job creation program addressing all aspects of economic life in the province. Treasurer of Ontario and Minister of Economics.

   Lost on division April 11, 1991.

2. Mr Harris - Opposition Day - That, given the continual upward pressure on provincial taxes and the continual off-loading of programs on municipal governments and the ever increasing size of the Ontario provincial debt and recognizing that these trends add to the tax burden on every citizen and result in lost jobs and lost economic opportunity, this House calls upon the Treasurer, in this year's budget, to hold the line on taxes, freeze program off-loading to the municipalities and to introduce a specific plan to establish a balanced budget and debt reduction targets over the next three years. Treasurer of Ontario and Minister of Economics.

   Lost on division April 23, 1991.

3. Mr Bradley - Opposition Day - That in the opinion of this House, the budgetary policy of the Bob Rae government fulfils the worst fears people have of the inability of the New Democratic Party to restrain and control government spending; results in the highest deficit in the province's history, at least $9.73 billion; increases taxes by at least $1 billion; and condemns the province to a generation of crushing debt and increased taxation, therefore, this House calls upon the Premier and the Treasurer: to introduce a new budget after appropriate consultation with the people of the province that provides a strategy for debt reduction, manages government spending, reduces the taxation burden for individuals and business, and creates a climate for economic recovery and growth. Treasurer of Ontario and Minister of Economics.

Lost on division May 28, 1991.

4. Mr Kwinter - Opposition Day - That in the opinion of this House, this government has failed to recognize and address the massive de-industrialization and restructuring underway in the Ontario economy which has led to the loss of 248,000 jobs since the New Democratic Party assumed power, the erosion of Ontario's quality of life and the destruction of the fabric of manufacturing and resource communities, therefore, this House calls upon the Premier and the Treasurer to provide leadership in establishing true working partnerships with business and labour to: reorient the province's fiscal priorities, attract new investment and new jobs, improve competitiveness, and train and retrain Ontario workers in order to enable Ontario industry and workers to compete in an increasingly global market. Treasurer of Ontario and Minister of Economics.

FALL PERIOD 1991

1. Mr Harris - Opposition Day - That this House, having witnessed the serious deterioration of crop prices through 1991, particularly in grains and oilseeds, and realizing that the new federal-provincial support programs are not in place for the 1990/91 crop year, further realizing that the Ontario Government has refused to participate in the NISA program this year, and recognizing that Ontario farmers require the same commitment from their provincial government as farmers across Canada receive from their provincial governments to create a more level playing field, observing that consultations with farm groups have not yielded necessary emergency aid, and recognizing that drought conditions in South-Western Ontario have compounded an already desperate farm income situation, and also recognizing that Ontario agriculture has been neglected as a priority by the Government, calls upon the Premier and Cabinet to participate in the NISA program for this year and to introduce further measures to give Ontario producers at least the same protection for 1990/91 that they will have under the new safety net programs, in order to meet the commitment made by agriculture ministers at their meeting in Regina in March, 1991. Minister of Agriculture and Food.

Lost on division September 30, 1991.

2. Mr Bradley - Opposition Day - That, in the opinion of this House, since the Government has assumed power:
   - the province's unemployment rate has reached 9.6 percent;
   - more than 286,000 Ontario workers have lost their jobs;
   - more than 1 million people in Ontario are on welfare;
   - the government has predicted that Ontario's economy will shrink by 3.3 percent;
   - the deficit will reach $9.7 billion this year;
   - and even with these predictions, the Treasurer has miscalculated twice, been forced to delay spending and ask for more federal money;

   Therefore this House calls upon the Treasurer to introduce a comprehensive plan for economic renewal which will get the province's economy moving again. Treasurer of Ontario and Minister of Economics.
