REASONS AND DECISION

1. OVERVIEW

- [1] These are our reasons for finding that the respondents, CIM International Group Inc. (**CIM**) and Jiubin Feng, breached the *Securities Act*¹ (the **Act**) by perpetrating a securities fraud. The respondents raised funds from investors to be used exclusively to develop a specific real estate project, but then misapplied investor funds for purposes other than what was disclosed in the offering documents which ultimately caused investors to suffer significant losses.
- [2] Between December 2017 and November 2018 (the **Material Time**), CIM was a public Ontario corporation involved in the development of several real estate projects. Feng was its principal directing mind. In 2018, CIM raised \$10 million by issuing secured debentures. The CIM board of directors' resolution authorizing the offering, the offering documents and subscription agreements provided to investors, and the in-person representations, all stipulated that CIM would use the net proceeds of the offering to finance a specific real estate project.
- [3] We find that a significant portion of the net proceeds was not used to develop the stipulated real estate project but was instead directed back to CIM by unsecured loans or invested in or loaned to other real estate projects controlled by Feng.
- [4] We conclude that the respondents engaged in a course of conduct relating to securities that they knew perpetrated a fraud on the investors contrary to s. 126.1(1)(b) of the *Act*.

2. BACKGROUND

- [5] Feng is a real estate developer who became the CEO and Chairman of CIM's board of directors in 2016 through the reverse takeover (**RTO**) of a small mining company listed on the TSX Venture Exchange.
- [6] Feng had immigrated to Canada from China with a PhD in structural engineering. Prior to coming to Canada, Feng worked in real estate development but had no experience operating a public company. As CEO and Chairman of CIM,

¹ RSO 1990, c S.5

Feng shifted the business of CIM from mining to real estate development. Following the RTO, CIM's only significant business activity was making investments in or loans to real estate projects controlled by Feng.

- [7] In Autumn 2017, CIM embarked on a proposed secured bond offering (the **Proposed Offering**). CIM announced the Proposed Offering by press release dated December 6, 2017, with the first \$10 million of proceeds to be loaned to Bayview Creek (CIM) LP (**Bayview Creek LP**), a real estate project controlled by Feng, to finance the development of townhouses at 10747 Bayview Avenue in Richmond Hill, Ontario (the **Bayview Creek Project**). Feng and other CIM representatives started meeting with potential investors commencing in December 2017. The Proposed Offering did not proceed once CIM was advised in January 2018 that Bayview Creek LP could not obtain the required consent for the second mortgage that was to secure the loan under the Proposed Offering.
- [8] On February 1, 2018, CIM's board of directors approved moving ahead with a new debt financing with a revised security package. Rather than a second mortgage, the loan from CIM to Bayview Creek LP would be secured by a negative pledge, covenant and undertaking (that would register a second mortgage on a triggering event) (the **Proceeds Loan**). CIM's board of directors then also approved the issuance of secured debentures in order to raise funds for the Bayview Creek Project. The debentures were secured by units of another Feng controlled project owned by CIM.
- [9] Between February 6 and August 2, 2018, CIM raised \$10 million through the sale of three-year secured debentures, paying 13.5% interest per year semi-annually (the **Offering**), to 36 investors in Ontario, Hong Kong and the United Kingdom.
- [10] Offering documents for the CIM debentures and all but one of the subscription agreements completed by CIM investors stipulated that CIM would use the net proceeds to make the Proceeds Loan to Bayview Creek LP to finance the Bayview Creek Project.
- [11] CIM made the Proceeds Loan to Bayview Creek LP in tranches between February 7 and August 8, 2018. Bayview Creek LP delivered seven debentures to CIM to record each tranche of the Proceeds Loan. Each Bayview Creek debenture provided that the principal bore interest at an annual rate of 20%, payable semi-annually.
- [12] Between February 7 and November 14, 2018, approximately \$3.39 million of the Proceeds Loan was used for non-Bayview Creek expenses, which included unsecured loans from Bayview Creek LP back to CIM and investments in or unsecured loans to other real estate projects controlled by Feng.
- [13] CIM had originally borrowed funds from Bayview Creek LP shortly after the RTO was completed in 2016 and continued to borrow funds from Bayview Creek LP in 2017 and 2018, including the Proceeds Loan. By June 30, 2019, CIM's debt to Bayview Creek LP was nearly as large as Bayview Creek LP's debt to CIM under the Proceeds Loan, and Feng caused CIM and Bayview Creek LP to offset their indebtedness to each other. This offset of debts reduced Bayview Creek LP's interest obligations to CIM.
- [14] CIM was unable to pay interest to investors without the interest payments from Bayview Creek LP on the Proceeds Loan. CIM defaulted on interest payments owing to investors commencing on December 16, 2019. In 2019, the units held by CIM in another Feng controlled entity that were provided as security for the CIM debentures were valued at \$1 due to a lawsuit. Also in 2019, a second mortgage was registered on the Bayview Creek property to secure a loan made by Feng on behalf of Bayview Creek LP, contrary to the series of pledges and covenants made by Bayview Creek LP for the Proceeds Loan.

3. PRELIMINARY MATTER – RESPONDENTS' REQUEST TO ADJOURN THE MERITS HEARING

- [15] On the eve of the start of the merits hearing, the panel received a written request from the respondents to adjourn the merits hearing so the parties may discuss the possibility of settlement. The respondents indicated that a two-to-three-week adjournment was necessary in order to have meaningful discussions.
- [16] Staff of the Ontario Securities Commission (**Staff**) opposed the adjournment, citing Rule 29(1) of the Tribunal's *Rules of Procedure and Forms*, which states that every merits hearing shall proceed on the scheduled date unless a party satisfies the panel that there are exceptional circumstances requiring an adjournment.
- [17] Staff advised it did not believe there was a reasonable prospect of settlement in this case and submitted that a respondent's bare hope that the matter may settle does not constitute exceptional circumstances.
- [18] The standard set out in Rule 29(1) is a high one that reflects the important objective set out in Rule 1 that Tribunal proceedings be conducted in a "just, expeditious, and cost-effective manner".
- [19] We were not persuaded that there were any exceptional circumstances warranting an adjournment, as there was not a reasonable prospect of settlement, the respondents were prepared to proceed with the merits hearing, and there would be significant delay should the merits hearing need to be re-scheduled.

[20] We dismissed the respondents' request and proceeded with the merits hearing as scheduled.

4. EVIDENCE

[21] Staff called three witnesses at the merits hearing: Louisa Fiorini, a Senior Investigator in the Enforcement Branch of the Commission, RP, who as the former President and director of CIM was one of its directing minds between May 2017 and March 2018, and an investor (JH). The respondents called Feng as their only witness.

4.1 Credibility and reliability of witnesses

[22] In assessing the credibility and reliability of witnesses, the Tribunal has accepted the guidance that "the most satisfactory judicial test of truth lies in its harmony or lack of harmony with the preponderance of probabilities disclosed by the facts and circumstances in the conditions of the particular case."²

[23] We may accept some, all or none of a witness's evidence and we may find the evidence of a witness credible in some respects but not in others.

[24] We find Staff's Senior Investigator to be a credible witness and we accept her evidence. The investigator introduced the findings of Staff's investigation and introduced documents obtained and the financial analysis conducted by Staff. We are able to assess and determine the import of the documents introduced and to accept, reject or modify the financial analysis conducted by Staff as necessary.

[25] We also find Staff's remaining two witnesses, RP and JH, to be credible and reliable.

[26] RP was a director and the president of CIM from approximately May 2017 (when he was hired by Feng) until his resignation in March 2018 and was previously registered with the Commission when he worked for an investment advisor in the early 2000s. RP remained a director of CIM after his resignation as president until the summer of 2018. During the merits hearing, RP demonstrated a clear understanding of his obligations as a witness. Where there may have been some inconsistencies during aspects of his testimony, they were inconsequential, and did not undermine our overall assessment of RP's credibility. RP's evidence was generally consistent and supported by documentary evidence and the larger circumstances of the case.

[27] JH was a Hong Kong investor in CIM who invested \$1 million in CIM debentures. JH advised that her sister invested \$3 million in CIM debentures. JH studied economics, worked in banking, owned an insurance brokerage and a restaurant and indicated she had some knowledge of securities. She was introduced to CIM by her accountant. JH's testimony was largely related to what she had been told by Feng in early 2018 in a few different settings related to her proposed investment in the Bayview Creek Project. JH also acted as a referral agent and earned \$200,000 in referral fees by referring multiple investors to CIM – a fact that we find has no bearing on the reliability of her testimony.

[28] We consider JH's credibility together with Feng's as their respective testimonies stand in stark contradiction.

[29] We find JH's testimony to be credible and Feng's testimony to suffer from a range of deficiencies. While at times JH was unable to remember some specific details of her interactions with Feng, we do not find this to be unusual, and her recollection of substantive matters discussed with Feng appeared to us to be strong. Feng's testimony, on the other hand, was inconsistent with earlier statements he had made to Staff in material aspects, inconsistent with RP's testimony in important respects, and his main assertions do not accord with reasonable likelihood. His assertion that the transcripts of his earlier interviews with Staff were inaccurate also damages his credibility.

[30] We note in our analysis below where inconsistencies in witness testimony require a credibility finding on our part.

4. ANALYSIS

4.1 Introduction

[31] One of the main purposes of the *Act*, as stated in s. 1.1, is to protect investors from unfair, improper or fraudulent practices.

[32] In this case, Staff alleges that the respondents committed securities fraud after raising \$10 million through the sale of debentures to 36 investors in Ontario, Hong Kong and the United Kingdom. Staff alleges that the respondents represented to investors that their investments would be loaned to Bayview Creek LP and used to finance the Bayview Creek Project but ended up diverting approximately \$3.39 million of the Proceeds Loan back to CIM or to other Feng controlled projects without the investors' knowledge or approval. Staff further alleges that Feng as a directing mind of

² *Springer v Aird & Berlis LLP*, 2009 CanLII 15661 at para 14

CIM authorized, permitted or acquiesced in CIM's fraudulent conduct and that the respondents engaged in an activity that was contrary to the public interest.

[33] The following questions are before us:

- a. Did the respondents directly or indirectly breach s. 126.1(1)(b) of the Act by engaging or participating in acts, practices, or courses of conduct relating to securities that they knew or reasonably ought to have known perpetrated a fraud on persons or companies?
- b. If CIM breached s. 126.1(1)(b) of the Act, is Feng deemed to have not complied with Ontario securities law pursuant to s. 129.2 because he authorized, permitted or acquiesced in the non-compliance?
- c. Did the respondents engage in an activity that was contrary to the public interest?

[34] For the reasons that follow, we find that Staff has established a. above, and we find it unnecessary to consider b. and c. as a result.

5.2 Fraud

[35] Section 126.1(1)(b) of the *Act* provides:

A person or company shall not, directly or indirectly, engage or participate in any act, practice or course of conduct relating to securities, derivatives or the underlying interest of a derivative that the person or company knows or reasonably ought to know,

...

(b) perpetrates a fraud on any person or company.

[36] The allegation of fraud in this case is focused on the respondents' and Bayview Creek LP's use of the Proceeds Loan for purposes contrary to what CIM investors were told.

[37] The term "fraud" is not defined in the *Act*. The parties agree, and previous Tribunal decisions have held, that the definition in the Supreme Court of Canada's decision in *R v Theroux*³ applies. Accordingly, fraud consists of the following elements:

- a. the *actus reus*, which is an act of deceit, falsehood or some other fraudulent means, and deprivation caused by that act; and
- b. the *mens rea*, which is subjective knowledge of the act, and subjective knowledge that the act could result in the deprivation of another.

5.2.1 Actus Reus

[38] The Tribunal has repeatedly held that an unauthorized diversion, or misuse, of investor funds is an act, practice or course of conduct that constitutes "other fraudulent means" for the purposes of a fraud analysis.⁴ "Other fraudulent means" is determined objectively, by reference to "what a reasonable person would consider to be a dishonest act".⁵

[39] The "deprivation" of the *actus reus* element is established by proof of:

- a. actual loss to the victim;
- b. prejudice to the victim's economic interest; or
- c. risk of prejudice to the economic interests of a victim.⁶

[40] We emphasize that a risk of prejudice, without actual loss, may be sufficient to establish deprivation.⁷

5.2.1.a The respondents told investors the proceeds would be used to develop the Bayview Creek Project

[41] The offering documents that define the terms of the Offering (i.e., CIM's board resolution, a confidential offering memorandum, term sheets and subscription agreements) state that CIM would use the money raised by the debentures

³ [1993] 2 SCR 5 (*Theroux*)

to finance the Bayview Creek Project. The term sheet, which is attached to and forms part of the subscription agreement, explicitly states that "The net proceeds of [this] Offering will be used by the Corporation as a loan (the "Loan") to Bayview Creek (CIM) LP (the Bayview Creek LP) to finance the Bayview Creek real estate project located at 10747 Bayview Avenue, Richmond Hill, Ontario (the "Property")."⁸ These documents were reviewed by and/or signed by Feng, the principal directing mind of CIM. In addition, CIM's marketing material relating to the Offering, including a press release and PowerPoint presentation, provided descriptions of the Bayview Creek Project and stated that the proceeds would be used to develop the project.

- [42] The respondents do not contest this. In his testimony, Feng did not address the import of the language in the documentation; he merely stated what he claimed his subjective understanding was – that he believed that he and CIM were authorized to use investor funds to make loans to or investments in other Feng-controlled real estate projects in addition to the Bayview Creek Project.
- [43] There were oral representations made to investors about the use of investor funds in addition to the documentation. We heard evidence at the merits hearing that investor meetings were conducted in both English and Mandarin (Feng's native language) with interpreters present. RP testified that he told investors in the English portion of investor meetings that the money raised by investors would be used to finance the Bayview Creek Project.
- [44] JH testified that, in the portion of a meeting with her conducted in Mandarin, and at dinners with her and Feng in attendance, she and her family were told, repeatedly, that their investments would go "100% to Bayview Creek". She was shown a PowerPoint presentation about CIM and its projects that stated that the proceeds would be used for the Bayview Creek Project and was told how the secured debentures would work.
- [45] The respondents called no evidence contradicting the testimony of RP and JH that these oral representations were made at the investor meetings. Feng's testimony was that he did not know what investors were told as he was not present at the meetings when the Offering was discussed, other than to greet them at the door. We find that representatives from CIM, including CIM's CFO, orally represented to JH and other investors that the proceeds would be used for the Bayview Creek Project.
- [46] We do not accept the respondents' submission that we should disregard the statements JH attributed to CIM's CFO because Staff did not call him as a witness at the merits hearing. The *Statutory Powers Procedure Act*⁹ permits us to admit and consider the statements attributed to CIM's CFO and we do so, noting those statements are not necessary for our findings but provide additional support for them.
- [47] Furthermore, we find that Feng made the same oral representations. We accept the testimony of JH that Feng assured her, repeatedly, that the money she was investing would be used to finance the Bayview Creek Project and reject Feng's testimony that he did not do so. JH also alerted the panel to WeChat messages between her and Feng to the same effect (though we acknowledge that these messages were not produced during the merits hearing and are of limited value). RP also testified that Feng attended nearly all meetings with potential investors and communicated with them in Mandarin.
- [48] We find that CIM raised \$10 million from investors through a private placement of three-year debentures with the promise to use the net proceeds to finance the Bayview Creek Project. We find, further, that Feng, along with other CIM representatives, including RP, made oral representations to investors that their investments would be used to finance the Bayview Creek Project.

5.2.1.b The money was misapplied

- [49] The documentary evidence presented at the merits hearing, including bank statements, loan agreements and financial statements, show that the respondents diverted a portion of the Proceeds Loan (that had been made by CIM to Bayview Creek LP) from Bayview Creek LP (i) back to CIM, and (ii) to other real estate projects Feng controlled.
- [50] Staff provided evidence that indicated that Bayview Creek LP used a portion of the Proceeds Loan (approximately \$3.39 million) to:
- a. make loans back to CIM;
 - b. make transfers to CIM Port McNicoll LP to pay project debts;
 - c. make loans to the Valleyview Garden Project;

⁸ Exhibit 1, Affidavit of Louisa Fiorini affirmed August 4, 2022, at para 69

⁹ RSO 1990, c S.22, s 15

- d. make loans to the Victoria Harbour Golf Club Community; and
- e. make loans or investments in the Hwy 7 Project.

- [51] We do not intend to discuss the real estate projects above in any detail other than to confirm that they were projects controlled by Feng.
- [52] Staff arrived at the \$3.39 million figure by reviewing the Bayview Creek LP bank account between February 7 and November 14, 2018. November 14, 2018, was selected as the end-point of the review period as this was the first time the bank account reached a negative balance, indicating that all of the investor funds had been dispersed. By adding the bank account's opening balance at the beginning of the review period (\$743,310) with other, non-Proceed Loan deposits into the account (\$3,842,703.23), and then subtracting the total non-Bayview Creek expenses (\$7,973,139.19), the resulting shortfall (\$-3,387,125.96) represents the amount of CIM investor funds that were used to pay for non-Bayview Creek expenses.
- [53] Feng does not contest that the funds from the Proceeds Loan were used for these other purposes. He submits the funds were used in a manner consistent with his understanding of their intended purposes, and in advancing that submission, he points out that the funds were used with the knowledge and approval of RP, CIM's CFO, and CIM's board of directors. In fact, Feng, in his testimony, itemized and confirmed the various amounts that were expended from the Bayview Creek bank account and said he authorized all of these amounts to go out from the Bayview Creek LP bank account to these entities.
- [54] We find that approximately \$3.39 million of the Proceeds Loan was diverted from the Bayview Creek Project to CIM and to other real estate projects controlled by Feng. We find that Fiorini's testimony was straightforward in this regard. Absent any evidence to the contrary, which was not adduced, any amount that left the Bayview Creek LP bank account and went to CIM or to a different real estate project is not an expense related to financing the Bayview Creek Project. We also find it illogical that if, as Feng submits, the Proceeds Loan was intended for multiple real estate projects, the Proceeds Loan would be deposited entirely to the Bayview Creek LP bank account and then parsed out to other projects. No explanation was provided for why the money was not deposited directly to the bank accounts of the other projects if that was the intention.
- [55] Finally, with respect to the monetary figure provided by Staff, we reject the respondents' submission that the review period of the Bayview Creek LP bank account was flawed because the account never reached a zero balance. We see no reason to doubt Staff's calculations and as Staff submits, if necessary, we can simply subtract the balance of \$1,794.63 (the amount the respondents argue was remaining in the account as of November 13, 2018) from the shortfall amount, resulting in a negligible change to the amount allegedly diverted.

5.2.1.c The misapplication caused deprivation

- [56] The question in the *actus reus* stage of the analysis is whether the respondents caused deprivation in fact. Whether the respondents intended to cause deprivation or honestly believed deprivation would not occur is considered in the *mens rea* stage of the analysis.
- [57] In *Theroux*, McLachlin J. (as she then was), writing for the majority of the court, said that the prohibited consequence of depriving another "may consist in merely placing another's property at risk".¹⁰ She referred to Dickson J.'s (as he then was) earlier statement in *R v Olan*¹¹ that "...the element of deprivation is established by proof of detriment, prejudice, or risk of prejudice to the economic interests of the victim caused by the dishonest act".¹²
- [58] Previous panels of the Tribunal have applied this principle finding that the mere creation of a financial risk to another by a dishonest act is sufficient to establish deprivation.¹³
- [59] In this case, CIM was bound to use the Proceeds Loan to finance the Bayview Creek Project. CIM was not authorized to use the proceeds for other purposes. The documents setting out the terms of the Offering, CIM's marketing materials about the Offering and oral representations made to investors by CIM's directing minds clearly stated that the proceeds would be used to finance the Bayview Creek Project.
- [60] There is also no doubt that a significant portion of the Proceeds Loan was misapplied. The bank statements, loan agreements and CIM's financial statements in the record show that a significant portion of the net proceeds of the Offering were used for CIM's operating expenses and to make investments in or loans to real estate projects that Feng controlled other than the Bayview Creek Project.

¹¹ [1978] 2 SCR 1175

¹² *Theroux* at p 15

¹³ *Quadrex Hedge Capital Management Ltd (Re)*, 2017 ONSC 3 at para 21

- [61] We are satisfied that the mere diversion of funds to purposes for which they were not intended placed the investors' investments at risk and constitutes deprivation. While no more is needed, we observe that funds secured by the CIM debentures were used to extend unsecured loans, that actual losses were incurred because some loans were not repaid, that interest payments on the debentures were not made, and that the investors suffered capital losses. JH testified that she, her sister, and the other investors she referred to CIM all lost their entire investments.
- [62] The respondents point to the "Risk Disclosure" section in the subscription agreements, submitting that investors were put on notice that they could lose their entire investment. This acknowledgment of risk does not apply to investments fraudulently misapplied. The investors undertook the inherent risks of investment on the basis that the funds would be invested as stipulated.
- [63] We find that the respondents' misapplication of the Proceeds Loan caused deprivation. As a result, the *actus reus* component of the fraud test is met in this case.

5.2.2 Mens Rea

- [64] The *mens rea* element of the fraud analysis consists of subjective knowledge that one is undertaking a prohibited act and that that act could cause deprivation by depriving another of property or could put another's property at risk.¹⁴ The Tribunal has confirmed that a fraud allegation against a corporation is established where the corporation's directing minds knew or reasonably ought to have known that the corporation perpetrated a fraud.¹⁵ A directing mind can be an officer, director or a person who authorized, permitted or acquiesced in the non-compliance.¹⁶
- [65] The *mens rea* for fraud will be established if Feng "knowingly undertook the acts in question" and was "aware that deprivation, or the risk of deprivation, could follow as a likely consequence".¹⁷ It is no defence for a respondent to maintain that they did not think the acts were wrong, or that they hoped that no deprivation would occur.¹⁸

5.2.2.a Subjective Awareness

- [66] Staff submits that the evidence in this case clearly establishes that Feng was subjectively aware that:
- he made representations to investors that CIM investor funds were to be used to finance the Bayview Creek Project; and
 - CIM investor funds were not used exclusively to finance the Bayview Creek Project contrary to the representations he made to CIM investors.
- [67] During his testimony, Feng sought to portray himself as largely uninvolved in the Offering given his limited proficiency in English. He claims he trusted others involved with CIM to make sure things were done properly. Feng claimed he did not take part in meetings with investors, did not review CIM's press releases until their "final stages" and that he did not look over any marketing materials that were provided to investors. This is inconsistent with evidence provided by other witnesses in this hearing and does not accord with reasonable likelihood given Feng's involvement with CIM and its projects.
- [68] We reject Feng's testimony that he believed the loans were permitted. We find that Feng reviewed documents related to the Offering, had the benefit of a Mandarin interpreter explaining them to him, and understood their contents. JH testified, and we believe, that Feng assured her that her funds would be used for the Bayview Creek Project. To say otherwise would be inconsistent with the various documents he himself signed, such as Board resolutions and offering documents. Feng was aware that the Proceeds Loan was supposed to be used to finance the Bayview Creek Project and was similarly aware the funds were then used for other purposes.
- [69] Based on this evidence, we find that Feng was subjectively aware the Proceeds Loan was not used to finance the Bayview Creek Project. We also find that CIM is deemed to be subjectively aware of the fraudulent act given Feng was, during the Material Time, a directing mind of CIM and intimately involved with all its dealings.
- [70] We reject outright Feng's submission that he believed the expenditures from the Bayview Creek bank account were for the benefit of Bayview Creek. We infer that the directing mind of CIM, as a sophisticated businessperson, subjectively understood that investments and loans carry an inherent risk. We find that Feng and CIM were subjectively aware that its misapplication of the net proceeds of the Offering could cause the investors deprivation by putting their property at risk for other than the stipulated purpose.

5.2.3 Conclusion

[71] For these reasons, we find that both the *actus reus* and *mens rea* components of the fraud test are clearly established against the respondents. Therefore, the respondents have breached s. 126.1(1)(b) of the *Act*.

5.3 Section 129.2 of the Act

[72] Section 129.2 of the *Act* is a “deeming” provision that attributes liability to directors and officers of a company where that company has been found to have breached Ontario securities law and Staff establishes that a director or officer “authorized, permitted or acquiesced” in the breach.

[73] Staff alleges that Feng authorized, permitted or acquiesced in CIM’s non-compliance with the *Act* and ought to be deemed to have not complied with Ontario securities law as a result. However, having found that Feng directly contravened s. 126.1(1)(b) of the *Act*, we find it unnecessary to consider separately any potential liability under s. 129.2 of the *Act* and we decline to do so.

5.4 Conduct contrary to the public interest

[74] Finally, Staff alleges that, in addition to the contraventions of the *Act* outlined above, the respondents’ conduct was also contrary to the public interest and harmful to the integrity of the capital markets.

[75] As the Tribunal has previously noted,¹⁹ the words “contrary to the public interest” do not appear in the *Act*. In this proceeding, Staff has not identified conduct, other than the alleged contraventions of the *Act*, that would warrant an order under s. 127 of the *Act*. As such, we dismiss this additional allegation against the respondents.

6. CONCLUSION

[76] We find that Feng and CIM caused Bayview Creek LP to transfer a significant portion of the Proceeds Loan back to CIM or to other real estate projects controlled by Feng, which was contrary to the representations Feng and CIM made to CIM investors, contrary to s. 126.1(1)(b) of the *Act*.

[77] The parties shall contact the Registrar by 4:30 p.m. on April 5, 2023 to arrange an attendance in respect of a hearing regarding sanctions and costs. The attendance is to take place on a date that is mutually convenient, that is fixed by the Governance & Tribunal Secretariat, and that is no later than April 28, 2023.

2. The Filer is a reporting issuer in all of the provinces and territories of Canada and is not in default of any requirement of securities legislation in the jurisdictions in which it is a reporting issuer.
3. The class A limited voting shares of the Filer are listed on the New York Stock Exchange and on the Toronto Stock Exchange, each under the symbol "BN".
4. The Filer satisfies the basic qualification criteria as set out in section 2.2 of National Instrument 44-101 *Short Form Prospectus Distribution* (**NI 44-101**) and, as a result, is qualified to file short form prospectus that is a base shelf prospectus under section 2.2 of NI 44-102.
5. The Filer has a current annual information form and current annual financial statements (each as defined in section 1.1 of NI 44-101).
6. The Filer has filed (or has been deemed to have filed) the notice required by section 2.8 of NI 44-101 and such notice has not been withdrawn.
7. As of the date hereof, the Filer has two effective short form prospectuses that are base shelf prospectuses:
 - a. the short form base shelf prospectus of the Filer dated September 16, 2022 qualifying the issuance and sale of US\$3.5 billion aggregate principal amount of debt securities, class A preference shares, and class A limited voting shares of the Filer and debt securities of Brookfield Finance Inc., Brookfield Finance II Inc., Brookfield Capital Finance LLC, Brookfield Finance (Australia) Pty Ltd, Brookfield Finance I (UK) PLC and preferred shares of Brookfield Finance II LLC; and
 - b. the short form base shelf prospectus of the Filer dated July 30, 2021 qualifying the issuance and sale of US\$1 billion of class A exchangeable limited voting shares of Brookfield Asset Management Reinsurance Partners Ltd. and class A limited voting shares of the Filer (issuable or deliverable upon exchange, redemption or acquisition of class A exchangeable limited voting shares).
8. On October 6, 2022, the Filer filed on the System for Electronic Document Analysis and Retrieval a management information circular dated September 30, 2022 (the **Circular**) in respect of a plan of arrangement (the **Arrangement**) pursuant to which: (i) shareholders (the **Existing Shareholders**) of the Filer (at such time, known as Brookfield Asset Management Inc.) would receive shares of Brookfield Asset Management Ltd. (the **Manager**), while retaining their shares of the Filer; and (ii) the Manager would acquire a 25% interest in Brookfield Asset Management ULC (the **Asset Management Company**). The Filer would retain the remaining 75% interest in the Asset Management Company.
9. On November 9, 2022, the Filer held a special meeting of shareholders at which the shareholders of the Filer approved the Arrangement.
10. On December 9, 2022, the Filer completed the Arrangement. Prior to closing of the Arrangement, the Manager did not carry on an active business and had not issued any shares. Immediately following the Arrangement, the Existing Shareholders owned 100% of both the Filer and the Manager, which became a publicly-traded reporting issuer in all jurisdictions in Canada.
11. Subject to Item 11.1(3) of Form 44-101F1, Item 11.1(1)(7) of Form 44-101F1 requires the Filer to incorporate by reference in any Prospectus of the Filer any information circular filed by the Filer under Part 9 of National Instrument 51-102 *Continuous Disclosure Obligations* since the beginning of the financial year in respect of which the Filer's current AIF is filed. Item 11.1(3) of Form 44-101F1 permits, among other things, the Filer to exclude from any Prospectus an opinion contained in an information circular prepared in connection with a special meeting of securityholders if the opinion was prepared in respect of a specific transaction contemplated in the information circular, unrelated to the distribution of securities under the Prospectus, and the transaction has been completed. Accordingly, other than as permitted under 11.1(3) to exclude certain portions of the Circular, the Filer is required to incorporate by reference in any such Prospectus of the Filer the entire Circular from the date hereof until the Filer files an annual information form in respect of its financial year ended December 31, 2023.
12. Other than pursuant to the Exemption Sought, any Prospectus prepared by the Filer will comply with the applicable requirements of NI 44-101, NI 44-102 and Form 44-101F1, as applicable.

13. The **Excluded Sections** of the Circular are:
- a. “Information Concerning the Manager Post-Arrangement” starting on page 59 of the Circular;
 - b. “Other Matters to be Acted Upon” starting on page 66 of the Circular;
 - c. “Legal Matters” at page 92 of the Circular;
 - d. “Consents” at page 93 of the Circular;
 - e. “Appendix E – Information Concerning the Manager Post-Arrangement”;
 - f. “Appendix F – Consolidated Financial Statements of Brookfield Asset Management Ltd.”;
 - g. “Appendix G – Combined Consolidated Carve-Out Financial Statements of Brookfield Asset Management ULC”; and
 - h. “Appendix H – Unaudited Condensed Combined Carve-Out Financial Statements of Brookfield Asset Management ULC”.
14. Since the Arrangement has now been completed and the Manager’s shares have been distributed, the information in the Excluded Sections that relates to the Manager is no longer relevant to potential purchasers of the Filer’s securities.
15. Both before and after the completion of the Arrangement, the results and financial position of the Asset Management Company are, and will be, consolidated by the Filer. As a result, the outdated, standalone financial information of the Asset Management Company contained in Appendix G and Appendix H of the Circular is neither material to investors in the Filer’s securities, nor necessary for the Filer to fulfill its obligation to provide full, true, and plain disclosure.
16. The Arrangement’s impact on the Filer’s financial position is the movement of the net book value of the Manager’s 25% interest in the Asset Management Company from the Filer’s common equity to non-controlling interests. This change is immaterial in the context of the Filer’s financial statements.
17. In addition, to the extent that the information in the Excluded Sections relates to the Asset Management Company, the information contained in the Excluded Sections is now outdated and superseded since the financial information relating to the Asset Management Company was as of June 30, 2022 and the Filer has now released its third quarter financial statements.
18. If portions of the Circular that name Canadian counsel and U.S. counsel will be incorporated by reference into a Prospectus, the Filer will file their written consents if required by and in accordance with paragraph 4.2(a)(vii) of NI 44-101 or subsection 7.2(2) of NI 44-102.
19. As such, incorporating by reference the Excluded Sections in a Prospectus is of no benefit to the Filer’s securityholders or potential purchasers of the Filer’s securities.

Decision

The principal regulator is satisfied that the decision meets the test set out in the Legislation for the principal regulator to make the decision.

The decision of the principal regulator under the Legislation is that the Exemption Sought is granted provided that:

- (a) at the time of filing any Prospectus, the Filer satisfies the basic qualification criteria as set out in section 2.2 of NI 44-101;
- (b) the Filer complies with all of the other applicable requirements of NI 44-101, NI 44-102 and Form 44-101F1, in respect of any Prospectus of the Filer (except as varied by this decision); and
- (c) the Filer discloses in each Prospectus that it has obtained exemptive relief from the requirement to incorporate by reference in such Prospectus the Excluded Sections of the Circular, and includes a statement identifying the decision and explaining how a copy of this decision can be obtained.

ONTARIO
(the "Jurisdictions")

AND

THE PROCESS FOR EXEMPTIVE RELIEF APPLICATIONS
IN MULTIPLE JURISDICTIONS

AND

FÉDÉRATION DES CAISSES DESJARDINS DU QUÉBEC
(the "Filer")

DECISION

Background

The securities regulatory authority or regulator in each of the Jurisdictions (the "**Decision Makers**") has received an application (the "**Application**") from the Filer for a decision under the securities legislation of the Jurisdictions (the "**Legislation**") for the following relief (the "**Exemption Sought**"):

- (a) the requirements set forth in Parts 4 and 5 of Regulation 51-102 *respecting Continuous Disclosure Obligations*, c. V-1.1, r. 24 ("**Regulation 51-102**") relating to the filing, on a stand-alone basis, of annual and interim financial statements (the "**Filer Financial Statements**"), along with the accompanying annual or interim management's discussion and analysis (the "**Filer MD&As**");
- (b) the requirements of Part 8 of Regulation 51-102 to (a) determine whether an acquisition or probable acquisition is a significant acquisition with reference to the Filer Financial Statements, and (b) present historical and *pro forma* financial statements in a business acquisition report using the Filer Financial Statements;
- (c) the requirements of sections 4.2 and 5.2 of *Regulation 52-109 respecting Certification of Disclosure in Issuers' Annual and Interim Filings*, c. V-1.1, r. 27 ("**Regulation 52-109**") in respect of filing of the chief executive officer and chief financial officer certificates that the Filer has to file as it currently prepares Filer Financial Statements and Filer MD&As;
- (d) the requirements of Part 2 of *Regulation 44-101 respecting Short Form Prospectus Distributions*, c. V-1.1, r. 16 ("**Regulation 44-101**") for the Filer to have, in at least one jurisdiction in which it is a reporting issuer, current

annual financial statements, in order to meet one of the qualification criteria for use of the short form prospectus regime under Regulation 44-101; and

- (e) the requirements of Part 2 of *Regulation 44-102 respecting Shelf Distributions*, c. V-1.1, r. 17 ("**Regulation 44-102**") which, by reference to the requirements of NI 44-101, require the Filer to have, in at least one jurisdiction in which it is a reporting issuer, current annual financial statements, in order to meet one of the qualification criteria for use of the shelf prospectus regime under Regulation 44-102.

Under the Process for Exemptive Relief Applications in Multiple Jurisdictions (for a dual application):

- (a) the *Autorité des marchés financiers* is the principal regulator for the Application (the "**Principal Regulator**" or the "**AMF**");
- (b) the Filer has provided notice that subsection 4.7(1) of *Regulation 11-102 respecting the Passport System*, c. V-1.1, r. 1 ("**Regulation 11-102**") is intended to be relied upon in British Columbia, Alberta, Saskatchewan, Manitoba, New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland and Labrador; and
- (c) the decision is the decision of the Principal Regulator and evidences the decision of the securities regulatory authority or regulator in Ontario.

Interpretation

Terms defined in *Regulation 14-101 respecting Definitions*, c. V-1.1, r. 3 and Regulation 11-102 have the same meaning if used in this decision, unless otherwise defined.

"**stand-alone basis**" refers to the filing of the Filer Financial Statements, Filer MD&As and other financial information of the Filer only. The Filer Financial Statements currently present the financial position, financial performance and cash flows of the Filer and its subsidiaries on a consolidated basis, in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("**IFRS**").

"**Canadian Securities Laws**" means the securities legislation applicable in each of the provinces of Canada, and the rules, regulations and national, multi-jurisdictional or local instruments, policy statements, published policies, notices, blanket rulings and orders of the Canadian securities regulatory authorities, and all discretionary rulings and orders applicable to the Filer granted by one or more of the Canadian securities regulatory authorities from time to time.

Representations

This decision is based on the following facts represented by the Filer:

1. The Filer is a federation of financial services cooperatives amalgamated under the *Act respecting financial services cooperatives* (Québec), c. 67.3 (the "**Cooperatives Act**").
2. The Filer's head office is located in the province of Québec.
3. The Filer is a reporting issuer in all of the provinces of Canada and is not in default of securities legislation in any of those jurisdictions.
4. The mission of the Filer is to, among other things, (i) protect the interests of the Desjardins credit unions, including the Caisse Desjardins Ontario Credit Union Inc. (collectively, the "**Desjardins Caisses**"), (ii) act as a control and supervisory body over the Desjardins Caisses, (iii) see to the orderly development of the financial services cooperatives' network, (iv) define common objectives for, and look after the risk management of, the Desjardins Group (as defined below), and coordinate its activities, and (v) see to the financial health of the Groupe coopératif Desjardins (as defined below) and its sustainability. The Filer also provides the Desjardins Caisses with a variety of services, including certain technical, financial and administrative services.
5. As at December 31, 2020, there were 219 member Desjardins Caisses.
6. The Filer's outstanding share capital is composed of various classes of capital shares, all of which are owned or controlled by members and auxiliary members of the Filer or of the Desjardins Caisses.
7. The financial group to which the Filer belongs is called the "**Desjardins Group**". For the purpose of this decision, the Desjardins Group is comprised of the Filer and its subsidiaries, the Desjardins Caisses in Québec (the "**Québec Caisses**"), the Fonds de sécurité Desjardins and the Caisse Desjardins Ontario Credit Union Inc. (the "**Ontario Caisse**"). The Desjardins Group is not a single legal entity nor a reporting issuer.

8. Founded in 1900, the Desjardins Group is the largest financial cooperative group in North America, with assets of \$362.0 billion as at December 31, 2020. The Desjardins Group employs more than 48,900 employees.
9. In June 2013, the Principal Regulator determined that the Desjardins Group met the criteria to be designated a domestic systemically important financial institution, which subjects the Desjardins Group to additional capital requirements as well as enhanced supervision and disclosure requirements, much like those of Canadian banks that are declared to be domestic systemically important banks by the Office of the Superintendent of Financial Institutions.
10. The cooperative group to which the Filer belongs, including for purposes of the Cooperatives Act, is called the “**Groupe coopératif Desjardins**”. The Groupe coopératif Desjardins is comprised of the Filer, the Québec Caisses and the Fonds de sécurité Desjardins. For the purpose of this decision, Groupe coopératif Desjardins includes the subsidiaries of the Filer.
11. The Groupe coopératif Desjardins is not a single legal entity nor a reporting issuer. The Groupe coopératif Desjardins is the cooperative group of the Desjardins network in Québec.
12. The delineation of the Groupe coopératif Desjardins results from the jurisdictional reach of the Cooperatives Act, which in concept cannot encompass unconsolidated financial services cooperatives outside of Québec. Accordingly, the Ontario Caisse does not form part of the Groupe coopératif Desjardins.
13. While the Ontario Caisse is not part of the Groupe coopératif Desjardins, it is a Filer «participating auxiliary member» within the Desjardins Group. As such, the Ontario Caisse is required to implement, and has implemented, all necessary actions to benefit from the same rights and comply with the same obligations as the Québec Caisses (subject to the requirements as set out in applicable Ontario laws), as provided for in agreements entered into between the Filer and the Ontario Caisse.
14. The amount dedicated to member dividend payments of the Desjardins Caisses is proportionate to the level of surplus earnings of the Desjardins Group. Therefore, it takes into consideration the performance of the Desjardins Group as a whole.
15. The Ontario Caisse is the only entity outside the scope of the Groupe coopératif Desjardins that is combined in the Group Financial Statements.
16. The Financial Services Regulatory Authority of Ontario (“FSRA”) regulates the Ontario Caisse in accordance with the framework applicable to credit unions and caisses populaires subject to Ontario laws. Such regulatory framework includes, without limitation, comprehensive requirements relating to capital adequacy, liquidity, and deposit insurance. In this respect, the Ontario Caisse relies on the Filer for capital and compliance support, and the obligations of the Ontario Caisse under the FSRA regulatory framework are monitored by the Filer in its capacity as control and supervisory body for the Desjardins Caisses.
17. The Fonds de sécurité Desjardins is part of the Desjardins Group and the Groupe coopératif Desjardins. It was created in 1980 by the Desjardins Group to reinforce the financial security of the Québec Caisses. It is an independent entity whose reserves collectively support all of the Québec Caisses. It is not a reporting issuer.
18. The Fonds de sécurité Desjardins plays an essential role in the Desjardins Group, as it (i) ensures the distribution of capital and other assets between the legal persons belonging to the Groupe coopératif Desjardins as defined in the Cooperatives Act as well as allows each such legal person to perform its obligations to its depositors and other creditors in full, correctly and without delay, and (ii) intervenes with regard to a member of the Groupe coopératif Desjardins as defined in the Cooperatives Act each time it appears necessary to do so in order to protect such member’s creditors.
19. As a reporting issuer, the Filer currently reports financial information in compliance with Regulation 51-102 and Regulation 52-109 and prepares Filer Financial Statements in accordance with IFRS as required under *Regulation 52-107 respecting Acceptable Accounting Principles and Auditing Standards*, c. V-1.1, r. 25 (“**Regulation 52-107**”).
20. Although not a reporting issuer, the Desjardins Group has established internal controls and procedures consistent with Regulation 52-109 to, among other things, demonstrate its willingness to comply with best practices in financial governance. The Desjardins Group prepares combined financial statements in accordance with IFRS as required under Regulation 52-107 (the “**Group Financial Statements**”), and corresponding management’s discussion and analysis (the “**Group MD&As**”). The Group Financial Statements and Group MD&As have been incorporated in offering materials and filed with securities regulatory authorities (including on SEDAR) in connection with offerings of debt securities completed by the Filer and other entities comprising the Desjardins Group since 2002. In practice, the Filer believes that the Group Financial Statements and Group MD&As have been for several years considered by market participants as the most relevant source of financial information in respect of the Filer.

21. The Desjardins Audit and Inspection Commission (the “**AIC**”) is the Filer’s “audit committee” as required under *Regulation 52-110 respecting Audit Committees*, c. V-1.1, r. 28 (“**Regulation 52-110**”). The AIC reviews the Filer Financial Statements, Filer MD&As, Group Financial Statements and Group MD&As. It is also responsible for ensuring that management has designed and implemented an effective internal control system with respect to, among others, financial reporting, and ensures that management has set up systems to manage the principal risks that may influence the financial results of the Desjardins Caisses network and Desjardins Group. The Filer considers that the Group Financial Statements, Group MD&As and related financial information constitute financial statements of the Filer for purposes of Regulation 52-110 and the AIC exercises its review and oversight responsibilities accordingly. In addition, with respect to Desjardins Group’s relations with the AMF, as prudential regulator, the AIC reviews and follows up on the inspection reports issued by the AMF and reviews the financial reports that are submitted each quarter to the AMF. The AIC is composed entirely of independent directors of the Filer.
22. The Desjardins Group is an integrated financial services group, which in and of itself is a complete, distinct economic entity. The Desjardins Group prepares combined financial statements in accordance with IFRS to present the financial position, the financial performance and the cash flows of the Desjardins Group as an economic entity. The Group Financial Statements are a combination of the accounts of the Filer and its subsidiaries, the Desjardins Caisses and the Fonds de sécurité Desjardins. The capital stock of the Desjardins Group represents the aggregate of the capital stock issued externally by the Filer and the Desjardins Caisses.
23. Given the nature of the Filer as a control and supervisory body for the Desjardins Caisses and as the “core” entity which binds the other entities within the Desjardins Group, the Filer considers that changes in its affairs and changes in the affairs of the Desjardins Group are one and the same and that a material change in the affairs of the Filer would result in a material change in the affairs of the Desjardins Group, and vice versa. As such, the Exemption Sought is not expected to alter how the Filer would continue to meet the timely disclosure and material change report requirements under Regulation 51-102. For similar reasons, the Exemption Sought is not expected to alter how the Filer would continue to meet requirements relating to the preparation of annual information forms under Regulation 51-102, and annual information forms of the Filer would continue to include extensive disclosure relating to the Desjardins Group and its various components. By nature, the Filer does not hold meetings of holders of voting securities within the meaning of Regulation 51-102 or applicable corporate law and as such does not prepare or file management information circulars.
24. The Desjardins Caisses are also required to fund the Filer through basic annual assessments for each fiscal year. Assessments may also increase the general and stabilization reserves of the Filer, to the extent deemed necessary to maintain a sound financial profile. The organizational documents to which Desjardins Caisses are subject contain the terms and conditions for the establishment and payment of basic assessments. In addition to the basic assessments which the Desjardins Caisses are bound to pay as per the organizational documents applicable to all Desjardins Caisses, the Filer may establish any such assessment it considers necessary for the pursuit of its missions. Furthermore, entities within the scope of the Groupe coopératif Desjardins, as defined in the Cooperatives Act, are bound by the Cooperatives Act to pay such assessments.
25. The Fonds de sécurité Desjardins levies and collects assessments from the Québec Caisses annually in the normal course and may pool the cost of its interventions between financial services cooperatives that are part of the Groupe coopératif Desjardins as defined in the Cooperatives Act. In addition, the Fonds de sécurité Desjardins may take (and the Filer may request the Fonds de sécurité Desjardins to take) any special intervention measures granted to it under the Cooperatives Act, including the right for the Fonds de sécurité Desjardins to determine and collect assessments from the Québec Caisses. Such caisses are bound by the Cooperatives Act to pay such assessments.
26. The Cooperatives Act also provides that the Filer, the Fonds de sécurité Desjardins and the Québec Caisses may only be wound up by amalgamating all such entities into a single legal person to be wound-up (the “**Universal Liquidation Mechanism**”).
27. In the case of the Ontario Caisse, solidarity mechanisms are found under the organizational documents applicable to all Desjardins Caisses, which provide for assessments and other support and control provisions applicable to all Desjardins Caisses (and which pre-date the additional layer of mandatory provisions that the Cooperatives Act now provide for in respect of Québec Caisses). Such solidarity mechanisms in respect of the Ontario Caisse are also provided under agreements between the Filer and the Ontario Caisse (the “**Contractual Financial Solidarity Mechanisms**”).
28. In addition, *de facto* perennial solidarity among the Ontario Caisse and the other entities comprising Desjardins Group is also achieved for reasons that are not related to the legal nature of solidarity mechanisms (the “**de facto Perennial Solidarity**”). The Ontario Caisse is not material to Desjardins Group from a financial or operational perspective, is dependent on the Filer and cannot reasonably be construed as an operation severable from that of the Desjardins Group. The Ontario Caisse is highly integrated within the Desjardins Group. The financial products and services offered by the Ontario Caisse are Desjardins products and services which require ongoing structuring, capital and support from the Filer and Desjardins Group. The Ontario Caisse also relies on the Filer in whole or in part for all specialized business functions. As a result, in the opinion of the Filer, it is highly unlikely that the Ontario Caisse could fail to fulfill its obligations to the

Desjardins Group in respect of assessments for a prolonged period of time or otherwise evade Filer oversight and direction with respect to its operations and capital management. Furthermore, the Ontario Caisse is fully integrated within the Desjardins Group and the network of Desjardins Caisses from the perspective of the public, as the Ontario Caisse members access the same financial products and services as other members and such product and services are offered under the Desjardins brand. The failure or material default of any Desjardins Caisse, including the Ontario Caisse, could be expected to severely compromise the Desjardins Group as a whole, both reputationally and operationally. In such a case, depositor confidence could be affected, leading to significant withdrawals and increases in wholesale funding costs. As such, in the opinion of the Filer, it is highly unlikely that the Ontario Caisse could be forced into winding-up or otherwise fail as an operation, as the Filer would inevitably intervene in advance and have ample wherewithal to do so.

29. The system of assessments, together with the Universal Liquidation Mechanism, the Contractual Financial Solidarity Mechanisms and the *de facto* Perennial Solidarity form the basis of the financial solidarity mechanisms that are the foundation of the Desjardins Group.
30. Pursuant to the *Deposit Institutions and Deposit Protection Act* (the “**Deposit Institutions Act**”), the AMF is responsible for any resolution operations in respect of the Groupe coopératif Desjardins as defined in the Cooperatives Act. The objective of such operations is to ensure the sustainability of deposit institution activities in the event of failure and without recourse to public funds.
31. In the event of the resolution of the Filer, the Principal Regulator may exercise several powers, including those conferred upon it under section 40.50 of the Deposit Institutions Act in respect of debt securities of the Filer that are bail-in instruments (the “**Bail-in Powers**”) (as prescribed by the *Regulation respecting the classes of negotiable and transferable unsecured debts and the issuance of such debts and of shares (Québec)*). Because of the jurisdictional reach of the Deposit Institutions Act, the Bail-in Powers do not formally extend to the Ontario Caisse.
32. The Filer is subject to the capital adequacy guidelines of the Principal Regulator (in its capacity as regulator of certain financial services cooperatives) (the “**AMF Guidelines**”), consistent with the Third Basel Accord (Basel III). For purposes of computing regulatory capital in accordance with the AMF Guidelines, the Principal Regulator looks to the Desjardins Group as a whole, using the Group Financial Statements, as opposed to the Filer Financial Statements, as the Group Financial Statements combine the accounts of, *inter alios*, the Desjardins Caisses, the Filer and its subsidiaries, and the Fonds de sécurité Desjardins, as required by the AMF Guidelines.
33. The Cooperatives Act and the requirements of the Principal Regulator provide that the sound and prudent management practices that must be adhered to by the financial services cooperatives belonging to the Desjardins Group must provide for the maintenance of adequate capital to ensure the financial services cooperatives' network's sustainability (as opposed to the Filer's). Furthermore, the Cooperatives Act provides that AMF may require the Filer to adopt, to the AMF's satisfaction, a compliance program, where the AMF considers that the capital of the financial services cooperatives' network is not adequate to ensure its sustainability.
34. The Filer believes that the Filer Financial Statements and Filer MD&As do not provide securityholders, creditors and depositors with an adequate picture of the financial condition, performance and cash flows of the relevant economic entity with which they engage.
35. The Filer believes that as a result of the various financial solidarity mechanisms among entities part of the Desjardins Group, securityholders, depositors and creditors of the Desjardins Group are directly or indirectly protected by the collective capitalization of the Desjardins Group and its components, as opposed to that of the Filer only. In addition, the Filer believes that the financial information, particularly on the individual capitalization of each of the entities within the Desjardins Group (including that of the Filer), does not provide securityholders, creditors and depositors with an adequate picture of the capital available to support deposits and investments.
36. The financial information most relevant and useful to securityholders, depositors and creditors of the Filer is that of the Desjardins Group, as it (i) presents the financial information of the Filer combined with that of the other entities comprised in the Desjardins Group which are required to participate in the various financial solidarity mechanisms applicable to Desjardins Group as described herein and in the Application, and (ii) faithfully represents the risks to which such persons are exposed, including as a result of the financial solidarity mechanisms applicable to the Desjardins Group.

Decision

Each of the Decision Makers is satisfied that the decision meets the test set out in the Legislation for the Decision Makers to make the decision.

The decision of the Decision Makers under the Legislation is that the Exemption Sought is granted, provided that:

- (a) the Group Financial Statements and the Group MD&As be filed and delivered, as applicable, by the Filer in lieu and place of the Filer Financial Statements and Filer MD&As, in accordance with Regulation 51-102, and the

- Filer maintains in respect of same internal controls over financial reporting as well as disclosure controls and procedures in compliance with Regulation 52-109;
- (b) the Filer uses the Group Financial Statements and the Group MD&As for all relevant purposes under applicable Canadian Securities Laws (including under Regulation 51-102, Regulation 52-109, Regulation 44-101 and Regulation 44-102);
 - (c) any entity outside the scope of the Groupe coopératif Desjardins included in the Group Financial Statements must be (and continue to be) subject to contractual arrangements that allow the Filer to exercise supervisory powers over such entities for the purpose of facilitating the AMF's role as prudential regulator over the entities within the scope of the Groupe coopératif Desjardins;
 - (d) each of the following consolidated items of any entity outside the scope of the Groupe coopératif Desjardins included in the Group Financial Statements represent, relative to the corresponding combined items of Desjardins Group, no more than 10% of such corresponding combined items of Desjardins Group, calculated using the Group Financial Statements, for the periods covered by the combined interim financial report or combined annual financial statements of Desjardins Group, as the case may be, and the applicable quarterly or annual stand-alone financial statements of the applicable entity outside the scope of the Groupe coopératif Desjardins: (i) total income; (ii) total assets; and (iii) total liabilities;
 - (e) the Filer provides in each Group MD&As quarterly or annual (as applicable) summary financial information regarding the total income, total assets and liabilities, total equity, net surplus earnings before member dividend and net surplus earnings after member dividend of the Ontario Caisse (together with any other entity outside the scope of the Groupe coopératif Desjardins included in the Group Financial Statements) relative to the total income, total assets and liabilities, total equity, net surplus earnings before member dividend and net surplus earnings after member dividend of Desjardins Group; and
 - (f) the Principal Regulator continues to recognize the Desjardins Group as a domestic systemically important financial institution under the regulatory framework applicable in the province of Québec.

DECISION N°: 2023-FS-1015380
March 14, 2023

IN THE MATTER OF
THE SECURITIES LEGISLATION OF
QUÉBEC AND
ONTARIO
(the Jurisdictions)

AND

IN THE MATTER OF
THE PROCESS FOR EXEMPTIVE RELIEF APPLICATIONS
IN MULTIPLE JURISDICTIONS

AND

IN THE MATTER OF
ÉNERGIR INC.
(the Filer)

DECISION

Background

The securities regulatory authority or regulator in each of the Jurisdictions (each a **Decision Maker**) has received an application from the Filer for a decision under the securities legislation of the Jurisdictions (the **Legislation**) for an exemption (the **Exemption Sought**) from the requirements of section 3.2 of *Regulation 52-107 respecting Acceptable Accounting Principles and Auditing Standards*, CQLR, c. V-1.1, r. 25 (**Regulation 52-107**) that the financial statements of the Filer: a) be prepared in accordance with Canadian generally accepted accounting principles (**Canadian GAAP**) applicable to publicly accountable enterprises; and b) disclose an unreserved statement of compliance with IFRS in the case of annual financial statements and an unreserved statement of compliance with IAS 34 in the case of an interim financial report. The Exemption Sought is similar to the exemption granted by the Decision Makers under the Legislation to the Filer on March 9, 2018 (the **U.S. GAAP Relief**).

Under the Process for Exemptive Relief Applications in Multiple Jurisdictions (for a dual application):

1. The Autorité des marchés financiers is the principal regulator for this application;
2. The Filer has provided notice that subsection 4.7(1) of *Regulation 11-102 respecting Passport System*, CQLR, c. V-1.1, r. 1 (**Regulation 11-102**) is intended to be relied upon in British Columbia, Alberta, Saskatchewan, Manitoba, Nova Scotia, New Brunswick, Prince Edward Island, Newfoundland and Labrador, Yukon, the Northwest Territories and Nunavut (the **Passport Jurisdictions**);
3. The decision is the decision of the principal regulator and evidences the decision of the securities regulatory authority or regulator in Ontario.

Interpretation

The terms defined in *Regulation 14-101 respecting Definitions*, CQLR, c. V-1.1, r. 3, Regulation 11-102 and Regulation 52-107 have the same meaning if used in this decision, unless otherwise defined.

“Rate-regulated activities” has the meaning ascribed in the Chartered Professional Accountants of Canada Handbook (the **Handbook**).

Representations

This decision is based on the following facts represented by the Filer:

1. The Filer is a corporation existing under the *Business Corporations Act* (Québec), R.S.Q., c. S-31.1. The head office of the Filer is in Montréal, Québec.
2. The Filer is a reporting issuer in the Jurisdictions and each of the Passport Jurisdictions and is not in default of securities legislation in any jurisdiction.
3. The Filer undertakes rate-regulated activities.
4. The Filer is not a SEC issuer and therefore cannot rely on section 3.7 of Regulation 52-107 to file financial statements prepared in accordance with U.S. GAAP.
5. The Filer currently prepares its financial statements for annual and interim periods in accordance with U.S. GAAP, relying on the U.S. GAAP Relief.
6. The U.S. GAAP Relief will cease to apply to the Filer on the earliest of:
 - a) January 1, 2024;
 - b) if the Filer ceases to have activities subject to rate regulation, the first day of the Filer's financial year that commences after the Filer ceases to have activities subject to rate regulation;
 - c) the effective date prescribed by the International Accounting Standards Board (the **IASB**) for the mandatory application of a standard within IFRS specific to entities with activities subject to rate regulation.
7. Accordingly, in the absence of further relief provided by Canadian securities regulators, the Filer would become subject to Canadian GAAP no later than January 1, 2024. Canadian GAAP includes IFRS as incorporated into the Handbook.
8. In January 2021, the IASB published the Exposure Draft – Regulatory Assets and Regulatory Liabilities, which introduces a proposed standard of accounting for regulatory assets and liabilities, applicable to entities with rate-regulated activities. The issuance by the IASB of a standard within IFRS for entities with rate-regulated activities (a **Mandatory Rate-regulated Standard**) would have resulted in the expiry of the U.S. GAAP Relief, giving rise to the obligation of the Filer to commence financial statement preparation and reporting in accordance with IFRS pursuant to Regulation 52-107. It is not yet known when the IASB will finalize and implement such a standard and the Filer will require sufficient time to: (a) interpret and implement such standard and transition from financial statement preparation and reporting in accordance with U.S. GAAP to IFRS; and (b) interpret and reconcile the implications on the customer rate setting process resulting from the implementation.

Decision

Each of the Decision Makers is satisfied that the decision meets the test set out in the Legislation for the Decision Makers to make the decision.

The decision of the Decision Makers under the Legislation is that:

1. The U.S. GAAP Relief is revoked;
2. The Exemption Sought is granted to the Filer in respect of the Filer's financial statements required to be filed on or after the date of this decision, provided that the Filer prepares those financial statements in accordance with U.S. GAAP; and
3. The Exemption Sought will terminate in respect of the Filer on the earliest of the following:
 - a) January 1, 2027;
 - b) if the Filer ceases to have rate-regulated activities, the first day of the Filer's financial year that commences after the Filer ceases to have rate-regulated activities; and
 - c) the first day of the Filer's financial year that commences on or following the later of:
 - i) the effective date prescribed by the IASB for a Mandatory Rate-regulated Standard; and
 - ii) two years after the IASB publishes the final version of a Mandatory Rate-regulated Standard.

**CIBC ALTERNATIVE FUNDS AND
CIBC FIXED INCOME FUNDS AS SET OUT IN SCHEDULE A**

DECISION

Background

The principal regulator in the Jurisdiction has received an application from the Filer on behalf of the CIBC Fixed Income Funds and CIBC Alternative Funds (the **Current Alternative Funds** and, together with the CIBC Fixed Income Funds, the **Funds** and each, a **Fund**) and any alternative mutual fund established or restructured in the future and managed by the Filer or an affiliate of the Filer (collectively with the Current Alternative Funds, the **Alternative Funds**) for a decision under the securities legislation of the Jurisdiction (the **Legislation**) that:

- (a) the time limits for the renewal of each simplified prospectus and fund facts document of the Funds (each, a **Current Prospectus**) be extended to those time limits that would apply if the lapse date was August 26, 2023 (the **Lapse Date Extension**); and
- (b) grants relief to the Alternative Funds from the requirement in subsection 5.1(4) of National Instrument 81-101 *Mutual Fund Prospectus Disclosure (NI 81-101)* that states that a simplified prospectus for an alternative mutual fund must not be consolidated with a simplified prospectus of another mutual fund if the other mutual fund is not an alternative mutual fund (the **Simplified Prospectus Consolidation** and, together with the Lapse Date Extension, the **Exemption Sought**).

Under the Process for Exemptive Relief Applications in Multiple Jurisdictions (for a passport application):

- (a) the Ontario Securities Commission is the principal regulator for this application; and
- (b) the Filer has provided notice that subsection 4.7(1) of Multilateral Instrument 11-102 Passport System (**MI 11-102**) is intended to be relied upon in each of the other provinces and territories of Canada (the **Other Jurisdictions** and together with Ontario, the **Canadian Jurisdictions**).

Interpretation

Terms defined in National Instrument 14-101 Definitions, MI 11-102, and National Instrument 81-102 Investment Funds (**NI 81-102**) have the same meaning if used in this decision, unless otherwise defined.

Representations

This decision is based on the following facts represented by the Filer:

The Filer

1. The Filer is a corporation incorporated under the laws of Canada and has its head office located in Toronto, Ontario.
2. The Filer is registered as follows: (i) as an investment fund manager in each of the provinces of Quebec, Ontario and Newfoundland and Labrador, (ii) as a portfolio manager in all Canadian Jurisdictions, (iii) as a commodity trading manager in Ontario and (iv) as a derivatives portfolio manager in Quebec.
3. The Filer is the trustee and investment fund manager of the Funds.
4. The Filer is also the trustee and investment fund manager of the Renaissance Investments family of funds, the Axiom Portfolios, the Renaissance Private Pools and the CIBC Fixed Income Pools as listed in Schedule A (collectively, the **Other Funds**), which are offered in each of the Canadian Jurisdictions under a simplified prospectus dated August 26, 2022 (the **Other Funds Prospectus**) and so have a lapse date of August 26, 2023.
5. Neither the Filer nor any of the Funds is in default of securities legislation in any of the Canadian Jurisdictions.

The Funds

6. Each of the Funds is an open-end mutual fund trust established under the laws of the Province of Ontario and is a reporting issuer in each of the Canadian Jurisdictions.
7. Securities of the CIBC Fixed Income Funds are currently qualified for distribution in each of the Canadian Jurisdictions under a simplified prospectus dated May 6, 2022 (the **CFIF Prospectus**).
8. Securities of the Current Alternative Funds are currently qualified for distribution in each of the Canadian Jurisdictions under a simplified prospectus dated June 3, 2022, as amended on November 21, 2022 (collectively, the **Alternative Funds Prospectus** and together with the CFIF Prospectus, the **Current Prospectuses**).
9. Pursuant to subsection 62(1) of the *Securities Act (Ontario)* (the **Act**), the lapse date of the CFIF Prospectus is May 6, 2023 (the **CFIF Prospectus Lapse Date**) and the lapse date of the Alternative Funds Prospectus is June 3, 2023 (the **Alternative Funds Prospectus Lapse Date** and, together with the CFIF Prospectus Lapse Date, the **Current Lapse Dates**). Accordingly, under subsection 62(2) of the Act, the distribution of securities of each Fund would have to cease on its respective Current Lapse Date unless: (i) the Fund files a pro forma simplified prospectus at least 30 days prior to its Current Lapse Date; (ii) the Fund files a final simplified prospectus no later than 10 days after its Current Lapse Date; and (iii) a receipt for the final simplified prospectus is obtained by a Fund within 20 days after its Current Lapse Date.

Reasons for the Lapse Date Extension

10. The Filer wishes to combine each of the CFIF Prospectus and the Alternative Fund Prospectus with the Other Funds Prospectus in order to reduce renewal, printing and related costs. Offering the Funds under the same renewal simplified prospectus as the Other Funds would facilitate the distribution of the Funds in the Canadian Jurisdictions under the same prospectus and enable the Filer to streamline disclosure across the Filer's fund platform.
11. Even though the Current Alternative Funds are alternative mutual funds, the Funds share many common operational and administrative features with each other and with the Other Funds and combining them in the same simplified prospectus will allow investors to more easily compare the features of the Other Funds and the Funds.
12. The Filer may make changes to the features of the Other Funds as part of the process of renewing the Other Funds Prospectus. The ability to combine the simplified prospectuses of the Funds with that of the Other Funds will ensure that the Filer can make the operational and administrative features of the Funds and the Other Funds consistent with each other, if necessary.
13. If the Lapse Date Extension is not granted, it will be necessary to renew the CFIF Prospectus and the Alternative Funds Prospectus twice within a short period of time in order to consolidate the CFIF Prospectus and the Alternative Funds Prospectus with the Other Funds Prospectus and it would be unreasonable for the Filer to incur the costs and expenses associated therewith, given investors would not be prejudiced by the Lapse Date Extension.

14. There have been no material changes in the affairs of the Funds since the date of each Fund's respective Current Prospectus, other than as described in the amendment to the Alternative Funds Prospectus. Accordingly:
 - (a) the CFIF Prospectus and current fund facts document(s) of each of the CIBC Fixed Income Funds represent current information regarding the CIBC Fixed Income Funds, and
 - (b) the Alternative Funds Prospectus and current fund facts document(s) of each of the Current Alternative Funds represent current information regarding the Current Alternative Funds.
15. Given the disclosure obligations of the Filer and the Funds, should any material change in the business, operations or affairs of any of the Funds occur, the applicable Current Prospectus and related fund facts document(s) of the impacted Fund(s) will be amended as required under the Act.
16. New investors of the Funds will receive delivery of the most recently filed fund facts document(s) of the applicable Fund(s). The Current Prospectuses of the Funds will remain available to investors upon request.
17. The Lapse Date Extension will not affect the accuracy of the information contained in the Current Prospectuses or fund facts document(s) of each of the Funds, and will therefore not be prejudicial to the public interest.

Reasons for the Simplified Prospectus Consolidation

18. The Filer wishes to combine the simplified prospectus of the Alternative Funds with the simplified prospectus of the mutual funds existing today (currently, the Other Funds Prospectus) or created in the future (i) that are reporting issuers to which NI 81-101 and NI 81-102 apply, (ii) that are not alternative mutual funds, and (iii) for which the Filer acts as the investment fund manager (the **Conventional Mutual Funds**), in order to reduce renewal, printing and related costs. Offering the Alternative Funds using the same simplified prospectus as the majority of the mutual funds managed by the Filer would facilitate the distribution of the Alternative Funds in the Canadian Jurisdictions under the same prospectus disclosure and enable the Filer to streamline disclosure across the Filer's fund platform.
19. Even though the Alternative Funds are, or will be, alternative mutual funds, they share, or will share, many common operational and administrative features with the Conventional Mutual Funds and combining them in the same simplified prospectus will allow investors to more easily compare the features of the Alternative Funds and the Conventional Mutual Funds.
20. Investors will continue to receive a fund facts document when purchasing securities of an Alternative Fund as required by applicable securities legislation. The form and content of the fund facts document of the Alternative Funds will not change as a result of the Simplified Prospectus Consolidation.
21. The simplified prospectus of the Alternative Funds will continue to be provided to investors, upon request, as required by applicable securities legislation.
22. National Instrument 41-101 General Prospectus Requirements (**NI 41-101**) does not contain a provision equivalent to subsection 5.1(4) of NI 81-101. Accordingly, an investment fund manager that manages exchange-traded funds (**ETFs**) is permitted to consolidate a prospectus under NI 41-101 for its ETFs that are alternative mutual funds with a prospectus for its ETFs that are conventional mutual funds. The Filer submits that there is no reason why mutual funds filing a prospectus under NI 81-101 should be treated differently from ETFs filing a prospectus under NI 41-101.

Decision

The principal regulator is satisfied that the decision meets the test set out in the Legislation for the principal regulator to make the decision.

The decision of the principal regulator under the Legislation is that the Exemption Sought is granted.

DECISION

Background

The principal regulator (**Principal Regulator**) in the Jurisdiction has received an application from the Filer for a decision under the securities legislation of the Jurisdiction (**Legislation**) on behalf of CI Auspice Broad Commodity ETF and other existing or future investment funds subject to National Instrument 81-102 *Investment Funds* (**NI 81-102**) (together with the CI Auspice Broad Commodity ETF, the **Funds**) to exempt the Funds from:

- (a) Section 6.8(1) of NI 81-102, which restricts an investment fund from depositing portfolio assets as margin with a member of a regulated clearing agency or dealer that is a member of a self-regulatory organization that is a participating member of the Canadian Investor Protection Fund for a transaction in Canada involving certain specified derivatives in excess of 10% of the net asset value (**NAV**) of the investment fund at the time of deposit; and
- (b) Section 6.8(2)(c) of NI 81-102, which restricts an investment fund from depositing portfolio assets as margin with a member of a regulated clearing agency or dealer for a transaction outside of Canada involving certain specified derivatives in excess of 10% of the NAV of the investment fund as at the time of deposit;

to permit each Fund to deposit as margin portfolio assets of up to 35% of the Fund's NAV as at the time of deposit with any one futures commission merchant in Canada or the United States (each a **Dealer**) and up to 70% of each Fund's NAV at the time of deposit with all Dealers in the aggregate, for transactions involving standardized futures, clearing corporation options, options on futures, or cleared specified derivatives (**Exchange Traded Specified Derivatives**) (the **Requested Relief**).

Under the Process for Exemptive Relief Applications in Multiple Jurisdictions (for a passport application):

- (a) the Ontario Securities Commission is the principal regulator for this application,
- (b) the Filer has provided notice that subsection 4.7(1) of Multilateral Instrument 11-102 *Passport System* (**MI 11-102**) is to be relied upon by the Funds in each of the other provinces and territories of Canada (together with Ontario, the **Jurisdictions**)

Interpretation

Terms defined in NI 81-102, National Instrument 14-101 *Definitions* and MI 11-102 have the same meaning if used in this decision, unless otherwise defined.

Representations

This decision is based on the following facts represented by the Filer:

Background Facts

The Filer

1. The Filer is a corporation amalgamated under the laws of the Province of Ontario with its head office and registered office located in Toronto, Ontario.
2. The Filer is registered as follows:
 - (a) as an investment fund manager under the securities legislation in Ontario, Québec and Newfoundland and Labrador;
 - (b) as a portfolio manager and exempt market dealer under the securities legislation of each of the Jurisdictions; and
 - (c) as a commodity trading counsel and commodity trading manager under the *Commodity Futures Act* (Ontario).
3. The Filer or an affiliate or associate of the Filer acts, or will act, as manager of each Fund.
4. The Filer is not in default of securities legislation in any of the Jurisdictions.

The Funds

5. Each Fund is or will be an alternative mutual fund established under the laws of the Province of Ontario and will be governed by the provisions of NI 81-102, subject to any relief therefrom granted by the securities regulatory authorities.
6. Securities of each Fund are or will be offered pursuant to a simplified prospectus prepared in accordance with National Instrument 81-101 *Mutual Fund Prospectus Disclosure* or a long form prospectus prepared in accordance with NI 41-101 *General Prospectus Requirements* (**NI 41-101**).
7. Each Fund is or will be a reporting issuer in each of the Jurisdictions.
8. Securities of CI Auspice Broad Commodity ETF are offered for sale pursuant to a long form prospectus prepared in accordance with NI 41-101 dated September 19, 2022.
9. The investment objective and strategies of each Fund permit or will permit the Fund to invest in Exchange Traded Specified Derivatives.
10. The CI Auspice Broad Commodity ETF's investment objective seeks to replicate, to the extent reasonably possible and before fees and taxes, the performance of the Auspice Broad Commodity Excess Return Index (the "**Index**"), or any successor thereto, by investing in financial instruments, including futures contracts and derivatives, to gain exposure to the Index. The Index currently uses a quantitative methodology to track a diversified portfolio of commodity futures contracts, or components, across 3 sectors: Agriculture, Energy, and Metals.
11. Except to the extent that the Requested Relief is granted and other exemptive relief is applicable, the investment strategies of the Funds are and will be limited to the investment practices permitted by NI 81-102. The Funds may seek to use leverage.
12. The Filer is or will be authorized to establish, maintain, change and close brokerage accounts on behalf of the Funds. In order to facilitate transactions on behalf of the Funds, the Filer will establish one or more accounts (each an **Account**) with one or more Dealers.
13. Each Dealer in Canada (each a **Canadian Dealer**) is a member of the Investment Industry Regulatory Organization in Canada and is registered in the applicable Jurisdictions as a futures commission merchant or equivalent.
14. Each Dealer in the United States (each a **U.S. Dealer**) is regulated by the Commodity Futures Trading Commission (the **CFTC**) and the National Futures Association (the **NFA**) in the United States and is required to segregate all assets held on behalf of clients, including the Funds. Each U.S. Dealer is subject to regulatory audit and must have insurance to guard against employee fraud. Each U.S. Dealer has a net worth, determined from its most recent audited financial statements, in excess of the equivalent of C\$50 million. Each U.S. Dealer has an exchange assigned to it as its designated self-regulatory organization (the **DSRO**). As a member of a DSRO, each U.S. Dealer must meet capital

requirements, comply with the conduct rules of the CFTC, NFA and its DSRO, and participate in an arbitration process with a complainant.

15. A Dealer will require, for each Account, that portfolio assets of the Fund be deposited with the Dealer as collateral for transactions in Exchange Traded Specified Derivatives (**Initial Margin**). Initial Margin represents the minimum initial amount of portfolio assets that must be deposited with a Dealer to initiate trading in specified derivatives transactions or to maintain the Dealer's open position in standardized futures.
16. Levels of Initial Margin are established at a Dealer's discretion. At no time will more than 70% of the NAV of each Fund be deposited as Initial Margin with one or more Dealers in the aggregate.
17. The records of each Dealer will show that the applicable Fund is the beneficial owner of the Initial Margin, and evidence that, subject to the satisfaction of the Dealer's applicable margin requirements, the applicable Fund will have the right to the return of the portfolio assets deposited as Initial Margin with the Dealer, such assets being of the same issue as the deposited margin, including the same class and series, if applicable, and having the same current aggregate market value of the deposited margin at the time of such return.

Reasons for the Requested Relief

18. The use of Initial Margin is an essential element of investing in Exchange Traded Specified Derivatives for the Funds.
19. The Requested Relief would allow the Funds to invest in Exchange Traded Specified Derivatives more extensively with any one Dealer, which would allow the Funds to pursue their investment strategies more efficiently and flexibly.
20. Opening Accounts and transacting with multiple Dealers adds complexity and cost to the management of the Funds. Using fewer Dealers will considerably simplify the Funds' investments and operations and will reduce the cost of implementing each Fund's strategy. Using fewer Dealers also simplifies compliance and risk management, as monitoring the data, controls and policies of a smaller number of Dealers is less complex.
21. Each of the Decision Makers is satisfied that it would not be prejudicial to the public interest for the Requested Relief to be granted.

Decision

Each of the Decision Makers is satisfied that the decision meets the test set out in the Legislation for the Decision Maker to make the decision.

The decision of the Decision Makers under the Legislation is that the Requested Relief is granted provided that

- (a) each Fund shall only use Initial Margin such that the amount of Initial Margin held by any one Dealer on behalf of the Fund does not exceed 35% of the net assets of the Fund, taken at market value as at the time of the deposit, and
- (b) each Fund shall only use Initial Margin such that the amount of Initial Margin held by Dealers in aggregate on behalf of each Fund does not exceed 70% of the NAV of each Fund as at the time of the deposit.

DECISION

Background

The principal regulator in the Jurisdiction has received an application from the Filers for a decision under the securities legislation of the Jurisdiction of the principal regulator (the **Legislation**) for relief from the restriction in paragraph 4.1(1)(b) of National Instrument 31-103 *Registration Requirements, Exemptions and Ongoing Registrant Obligations* (**NI 31-103**) (the **Dual Registration Restriction**), pursuant to section 15.1 of NI 31-103, to permit Mark Stacey (the **Representative**) to be registered as an advising representative of each of AGF and Highstreet (the **Exemption Sought**).

Under the Process for Exemptive Relief Applications in Multiple Jurisdictions (for a passport application):

Interpretation

Terms defined in National Instrument 14-101 *Definitions* and MI 11-102 have the same meaning if used in this decision, unless otherwise defined.

Representations

The decision is based on the following facts represented by the Filers:

1. Highstreet is a wholly owned subsidiary of AGF. Highstreet is registered as a portfolio manager and as an exempt market dealer in each of the Jurisdictions. The head office of Highstreet is in London, Ontario.
2. As a portfolio manager, Highstreet is authorized to provide discretionary investment management services to high-net-worth clients. As an exempt market dealer, Highstreet is authorized to distribute AGF's Highstreet Pooled Funds to high-net-worth clients pursuant to certain prospectus exemptions.
3. AGF is a wholly owned subsidiary of AGF Management Limited and is registered as an exempt market dealer in Alberta, British Columbia, Manitoba, Ontario, Québec and Saskatchewan, as a portfolio manager in each of the Jurisdictions, as an investment fund manager in Alberta, British Columbia, Newfoundland and Labrador, Ontario and Québec, as a mutual fund dealer in British Columbia, Ontario and Québec and as a commodity trading manager in Ontario. The head office of AGF is in Toronto, Ontario.
4. AGF is the Investment Fund Manager, Portfolio Manager and Trustee of the Highstreet Pooled Funds.
5. Since Highstreet is a wholly owned subsidiary of AGF, each such entity is an affiliate of the other and are affiliated registrants.
6. The Representative is a resident of London, Ontario and is a registered advising representative and dealing representative of Highstreet. In his role as Senior Director of Investments, Private Wealth, the Representative works directly with Highstreet Private Client Team, providing insight on macro-economic views and in-depth knowledge of the Highstreet Pooled Funds. The Representative also provides discretionary asset management to a client portfolio and supervisory oversight to the Highstreet relationship managers to help better analyze asset mix, risk tolerance and allocations to Highstreet Pooled Funds. Additionally, the Representative is a member of the Highstreet Private Client Management Committee ("**Committee**"). The Committee provides guidance and oversight on legal, compliance, governance, product and marketing and other operational matters related to the successful execution of the growth strategy.
7. AGF requires the Representative's investment management capabilities, leadership, and expertise as a member of the various AGF asset allocation committees, including AGF's Highstreet Balanced Fund Committee. The Representative was previously registered as an advising representative of AGF. In his role of Co-CIO AGFiQ Quantitative Investing, Head of Portfolio Management, he led the firm's investment management functions for AGF's quantitative investment platform, AGFiQ and the Highstreet Pooled Funds. The Representative has previously provided asset allocation and investment advice to the Highstreet Pooled Funds and other AGF funds and is intimately familiar with their investment processes and strategies. His continued involvement in the asset allocation committees is in the best interest of the investors of AGF products, including the Highstreet Pooled Funds.
8. Pursuant to exemptive relief granted on January 14, 2022 to AGF and AGFWave Asset Management Inc. (**AGFWave**), the Representative was dually registered as an advising representative of AGFWave (the **January 2022 Decision**).
9. The Representative is no longer registered as an advising representative of AGFWave and his registration is no longer in reliance on the January 2022 Decision.
10. If the Exemption Sought is granted, the Representative will register as an advising representative of AGF, while maintaining his registration as an advising representative of Highstreet. The Representative will be appointed to the position of registered advising representative (portfolio manager) with AGF.
11. AGF requires the investment management capabilities and expertise of the Representative to achieve its business objectives. The Representative is familiar with the business model of each of AGF and Highstreet and is in the best position to act in the existing and proposed dual roles with AGF and Highstreet.
12. Dual registration would allow the Representative to continue to act as an advising representative of Highstreet while also acting as an advising representative of AGF.
13. The terms and conditions, if any, on the Representative's registration as an advising representative of Highstreet would be the same as under his advising representative registration with AGF. As of the date hereof, there are no terms and conditions on the Representative's registration as an advising representative of Highstreet.
14. The Representative will be subject to supervision by, and the applicable compliance requirements of, both Filers.

15. Each of the Filers' respective Ultimate Designated Person will ensure that the Representative has sufficient time and resources to adequately serve each Filer and its clients. Each of the Filers' respective Chief Compliance Officers and management will ensure the Representative has sufficient time and resources to adequately serve each Filer and its clients.
16. Neither AGF nor Highstreet is in default of any requirement of securities or derivatives legislation in any of the Jurisdictions.
17. The dual registration of the Representative will not give rise to the conflicts of interest that may be present in a similar arrangement involving unrelated, arm's length firms. The interests of the Filers are aligned, and because the role of the Representative will be incremental to his existing roles with both Highstreet and AGF and to support the business activities and interests of the Filers, the potential for conflicts of interests is remote. Further there is little expected overlap of the business mandates, client base or investment strategies of Highstreet and AGF.
18. Each Filer has adequate policies and procedures in place to address any potential conflicts of interest that may arise because of the dual registration of the Representative and will be able to appropriately deal with any such conflicts, should they arise.
19. There is adequate supervision of any identified potential conflicts of interest to ensure that the Representative, and each of the Filers, can take appropriate measures.
20. The Filers do not expect that the dual registration of the Representative will create significant additional work and are confident that the Representative will have sufficient time to adequately serve both firms.
21. The relationship between Highstreet and AGF and the fact that the Representative is dually registered with both Highstreet and AGF will be fully disclosed to clients and prospective clients of Highstreet and AGF, as applicable. The Filers will provide written disclosure to the investors of the funds and accounts, as applicable, managed by each Filer of the affiliated registrant relationship between the Filers as well as the dual registration of the Representative in disclosure documents provided by any affected fund to their investors.
22. The Representative will act in the best interest of all clients of each Filer and will deal fairly, honestly and in good faith with these clients.
23. If the Exemption Sought is granted, it will not be relied upon by the Filers if the Representative is sponsored for registration in any of the Jurisdictions as an advising representative or dealing representative of another registered firm.
24. In the absence of the Exemption Sought, the Filers would be prohibited by the Dual Registration Restriction from permitting the Representative to be registered as an advising representative of each Filer, even though the Filers have controls and compliance procedures in place to deal with such advising and associate advising activities.

Decision

The principal regulator is satisfied that the decision meets the test set out in the Legislation for the principal regulator to make the decision.

The decision of the principal regulator under the Legislation is that the Exemption Sought is granted on the following conditions:

- i. The Representative is subject to supervision by, and the applicable compliance requirements of, both Filers;
- ii. The Chief Compliance Officer and Ultimate Designated Person of each Filer ensures that the Representative has sufficient time and resources to adequately service each Filer and its respective clients;
- iii. The Filers each have adequate policies and procedures in place to address any potential conflicts of interest that may arise as a result of the dual registration of the Representative and deal appropriately with any such conflicts; and
- iv. The relationship between the Filers and the fact that the Representative is dually registered with both is fully disclosed in writing to clients of each of them that deal with the Representative.

CSA NOTICE OF NATIONAL INSTRUMENT 13-103 SYSTEM FOR ELECTRONIC DATA ANALYSIS AND RETRIEVAL + (SEDAR+)

March 23, 2023

Introduction

The Canadian Securities Administrators (the **CSA** or **we**) are adopting National Instrument 13-103 *System for Electronic Data Analysis and Retrieval + (SEDAR+)* (**NI 13-103**) and Companion Policy 13-103 *System for Electronic Data Analysis and Retrieval + (SEDAR+)* (**13-103CP**). This Notice should be read together with the CSA notice relating to the repeal and replacement of Multilateral Instrument 13-102 *System Fees for SEDAR and NRD* (**MI 13-102**), which is also being published today.

We are making consequential amendments and changes to existing instruments and policies as set out in Annex E.

We are repealing National Instrument 13-101 *System for Electronic Document Analysis and Retrieval* (**NI 13-101**), which includes the repeal of the SEDAR Filer Manual.

In this Notice, we refer to the adoption of NI 13-103 and 13-103CP, the repeal of NI 13-101 and the SEDAR Filer Manual, and the consequential amendments and changes to existing instruments and policies, collectively, as the **Amendments**.

Provided all necessary Ministerial approvals are obtained, the Amendments will come into force on June 9, 2023 in all CSA jurisdictions.

The text of the Amendments is published with this Notice and is also available on the websites of the following CSA jurisdictions:

www.bcsc.bc.ca
www.albertasecurities.com
www.fcaa.gov.sk.ca

Substance and Purpose

The National Systems Renewal Program (**NSRP**) is an initiative of the CSA that will replace existing CSA national systems with a centralized CSA IT system, System for Electronic Data Analysis and Retrieval + (**SEDAR+**).

The first phase of NSRP replaces the System for Electronic Document Analysis and Retrieval (**SEDAR**), the National Cease Trade Order (**CTO**) Database, the Disciplined List, and certain filings in the British Columbia Securities Commission's eServices system and the Ontario Securities Commission's electronic filing portal. Accordingly, filings made by issuers, including foreign issuers, will be made in SEDAR+ once the Amendments become effective. We expect that future phases of NSRP will incorporate into SEDAR+ those filings made by insiders, registrants, derivatives market participants, marketplaces, self-regulatory bodies and clearing agencies.

NI 13-103 provides the requirement that filers must transmit electronically through SEDAR+ each document required or permitted to be filed with or delivered to a securities regulatory authority or regulator under securities legislation. NI 13-103 also requires filers to complete a current profile containing the information specified in SEDAR+. Certain types of documents will never be filed

or delivered through SEDAR+, as specified in subsections 3(a) to (g) of NI 13-103. These include documents filed or delivered in connection with a hearing, compliance review, proceeding or investigation.

As part of the phased implementation of SEDAR+, NI 13-103 does not apply to certain documents, referred to in Column A of the Appendix to NI 13-103, which we expect to bring into SEDAR+ in a future phase of NSRP. Column B of the Appendix provides for an exception for certain types of filers – mainly issuers – that are nevertheless required to file such documents in SEDAR+ at this time.

CP 13-103 provides guidance to market participants on how we will apply and interpret certain provisions of NI 13-103, including guidance on a number of system-related matters, determining jurisdiction for the payment of system fees, and the public accessibility of documents in SEDAR+.

SEDAR+ will offer online help to guide filers in navigating and using the system. This online help feature will replace the SEDAR Filer Manual.

Anticipated Costs and Benefits

SEDAR+ will provide more secure, single-window access for market participants to file documents and pay fees. The filing process will be more uniform, and the system will enforce modern access controls and expand public search functionality. Some filers may have to adapt their internal processes and systems.

We believe that the benefits of a modernized, more secure and centralized system with improved search capabilities will outweigh the associated costs.

Background

The CSA published the proposed NI 13-103 and CP 13-103 for a 90-day comment period on May 2, 2019.

Summary of Written Comments

The comment period expired on July 31, 2019. We received 9 submissions from commenters on the proposed Amendments. Several of these submissions combined comments on the proposed Amendments with comments on the proposed repeal and replacement of MI 13-102, or provided comments on the system design and functionality. We have considered all of the comments received and thank the commenters for their input. The names of the commenters are contained in Annex C and summary of the comments, together with our responses, is contained in Annex D. The comment letters can be viewed on the websites of the Alberta Securities Commission at www.albertasecurities.com, Ontario Securities Commission at www.osc.ca and Autorité des marchés financiers at www.lautorite.qc.ca.

Summary of Changes Since Publication for Comment

Since the publication for comment, we removed the requirement in NI 13-103 that a person or company must not have more than one profile in SEDAR+, as the system has been designed to handle profile administration and potential duplication administratively.

We have made some changes to section 3 of NI 13-103 and clarified a number of provisions of the Appendix to NI 13-103, in each case to accurately reflect the scope of filings permitted in SEDAR+.

Finally, we changed references to “the Renewed System” to “SEDAR+” to reflect the name of the system.

After considering the written comments received, we made one change to CP 13-103, to broaden the limited circumstances in which the CSA will consider changing the access status of a document from public to private in SEDAR+ without a formal request for confidentiality. The provision now includes all circumstances where a filer is entitled to file a redacted version of a material contract or agreement, and transmits a non-redacted version in error. This would include technical software errors in electronic redaction software, as well as other errors.

Consequential Amendments

The Amendments will update certain existing instruments and policies to remove references to SEDAR and include necessary references to SEDAR+, where appropriate. In many cases, the amendments involve revising or deleting references to format, electronic or otherwise. In certain instruments, we are making housekeeping amendments, such as repealing or deleting transitional provisions that are no longer applicable and correcting grammatical or typographical errors. In these limited cases, the changes are not related to SEDAR+.

Withdrawal and Revision of CSA Notices and CSA Staff Notices

As a result of the Amendments, we are withdrawing a number of CSA Notices and CSA Staff Notices that are no longer required.

Also, we are publishing concurrently with this Notice a list of CSA Staff Notices that will be revised to change references to SEDAR to SEDAR+, and to provide guidance on how to file certain documents on SEDAR+.

The list of CSA Notices and CSA Staff Notices being withdrawn and revised can be found in Annex F.

Local Matters

Annex G is being published in any local jurisdiction that is making related changes to local securities laws, including local notices or other policy instruments in that jurisdiction. It also includes any additional information that is relevant to that jurisdiction only.

Payment of fees

- 5 (1) At the time that a person or company transmits a document through SEDAR+, a person or company must pay through SEDAR+
- (a) the prescribed fee for that document, other than a fee prescribed under Multilateral Instrument 13-102 *System Fees* or, in Manitoba, an equivalent regulation, to the securities regulatory authority or regulator, and

Temporary hardship exemption

- 6 (1) If technical difficulties prevent a person or company from transmitting a document through SEDAR+ within the time required or permitted under securities legislation, the person or company may file the document with or deliver the document to the securities regulatory authority or regulator outside of SEDAR+ no later than 2 business days after the date on or by which the person or company was required or permitted to file the document with, or deliver the document to, the securities regulatory authority or regulator.

Decisions

- 7 (1) Despite paragraph 3(i), if a decision made under securities legislation requires a person or company to file a document with, or deliver a document to, the securities regulatory authority or regulator through the System for Electronic Document Analysis and Retrieval (SEDAR), the person or company must file or deliver the document by transmitting it through SEDAR+.
- (2) In British Columbia, subsection (1) does not apply.

ANNEX B

COMPANION POLICY 13-103
**SYSTEM FOR ELECTRONIC DATA ANALYSIS AND RETRIEVAL +
(SEDAR+)**

Introduction

The purpose of this Companion Policy is to provide guidance on how securities regulatory authorities and regulators (we or us) interpret or apply certain provisions of National Instrument 13-103 *System for Electronic Data Analysis and Retrieval + (SEDAR+)* (the Instrument). This Companion Policy includes explanations, discussion and examples of the application of various parts of the Instrument.

Phased approach to SEDAR+

The National Systems Renewal Program of the Canadian Securities Administrators (CSA) proposes to implement the System for Electronic Data Analysis and Retrieval + (SEDAR+) in several phases, with the objective of replacing all current CSA national systems. The first phase (Phase 1) replaces the System for Electronic Document Analysis and Retrieval (SEDAR), the National Cease Trade Order Database and the Disciplined List. Phase 1 relates principally to documents filed by issuers with securities regulatory authorities or regulators, including:

- all documents previously filed with or delivered through SEDAR;
- Form 45-106F1 *Report of Exempt Distribution*, previously filed in the British Columbia Securities Commission (BCSC) eServices system, the Ontario Securities Commission (OSC) Electronic Filing Portal, and in all other jurisdictions on SEDAR.

In future phases of SEDAR+, we expect SEDAR+ will be capable of accepting the transmission of documents filed with or delivered to securities regulatory authorities and regulators by insiders, registrants, derivatives market participants and regulated entities (such as a marketplace, a self-regulatory body or self-regulatory organization, or a clearing agency).

Phasing of applications, pre-filings and documents under decisions

Applications, pre-filings, and documents filed or delivered under decisions, are being brought into SEDAR+ in a phased manner. Phase 1 of SEDAR+ generally includes all applications, pre-filings and documents previously filed or delivered by issuers, whether in the BCSC eServices system, the OSC Electronic Filing Portal, or by email, courier or regular mail including, but not limited to, applications:

- for an exemption from a provision of securities legislation;
- to be designated as a reporting issuer, mutual fund or non-redeemable investment fund;
- to cease to be a reporting issuer;
- for a full or partial revocation of a cease trade order;
- for a management cease trade order.

Generally, a person or company that is an issuer will file or deliver through SEDAR+ an application, pre-filing, or document filed or delivered under a decision, while a person or company that is an insider, a registrant, a derivatives market participant or a regulated entity will file or deliver the document in the same manner as it currently does, until a future phase of SEDAR+. In future phases of SEDAR+, we expect that SEDAR+ will be capable of accepting the transmission of applications, pre-filings or other documents filed or delivered to securities regulatory authorities or regulators by insiders, registrants, derivatives market participants and regulated entities.

If a provision of Canadian securities legislation is included in Column A of the Appendix of the Instrument, a pre-filing in relation to that provision or an application for an exemption from that provision will not be filed through SEDAR+ at this time, except in the limited circumstances outlined in Column B of the Appendix.

Generally when an application is filed in SEDAR+ pursuant to Column B of the Appendix, and a decision is made, the filer should also transmit through SEDAR+ all documents required to be filed or delivered pursuant to the decision.

Section 1 – Definitions and Interpretation

Unless defined in the Instrument, terms used in the Instrument have the same meanings as in National Instrument 14-101 *Definitions*.

The term “document” includes any report, form, application, pre-filing, information, material and notice, as well as a copy thereof, and applies to a document that is required or permitted to be filed or deposited with, or delivered, furnished, sent, provided, submitted or otherwise transmitted to, a securities regulatory authority or regulator.

Section 2 – Transmission of documents through SEDAR+

We consider the requirement in section 2 that documents filed with or delivered to us be transmitted through SEDAR+ will generally include filings referred to in policies or staff notices. Examples include a “pre-filing” or “waiver application” under National Policy 11-202 *Process for Prospectus Reviews in Multiple Jurisdictions* (NP 11-202), a “pre-filing” under National Policy 11-203 *Process for Exemptive Relief Applications in Multiple Jurisdictions* and the review of a prospectus on confidential pre-file basis under CSA Staff Notice 43-310 *Confidential Pre-File Review of Prospectuses (for non-investment fund issuers)*.

Section 3 – Transmission of documents outside of SEDAR+

Under paragraph 3(i), the Instrument does not apply to a document required or permitted to be filed or delivered under any of the provisions of securities legislation set out in Column A of the Appendix of the Instrument, unless an exception in Column B applies. The same applies to any document that a person or company is required or permitted to file or deliver pursuant to a decision or order issued in respect of any of the provisions of securities legislation set out in Column A of the Appendix, unless an exception in Column B applies. We expect that all of these documents will be incorporated into SEDAR+ in future phases of SEDAR+.

A person or company will file these documents with, or deliver them to, the securities regulatory authority or regulator in the same manner that it currently does, including by email, courier or regular mail, through the System for Electronic Disclosure by Insiders (SEDI), or through the National Registration Database. For example, an issuer filing an issuer event report under National Instrument 55-102 *System for Electronic Disclosure by Insiders* will transmit this information through SEDI.

The Appendix also contains certain exceptions set out in Column B relating to documents filed under the provisions of securities legislation indicated in Column A that will be transmitted through SEDAR+ in Phase 1. For example, Multilateral Instrument 45-108 *Crowdfunding* contains certain registration requirements for funding portals and registered individuals of funding portals, which will be filed outside of SEDAR+ until a future phase of SEDAR+. The exceptions in Column B that relate to Multilateral Instrument 45-108 *Crowdfunding* are the following documents that an issuer will transmit through SEDAR+ as part of Phase 1:

- a Form 45-106F1 *Report of Exempt Distribution*;
- a crowdfunding offering document;
- additional distribution material;
- financial statements filed by an issuer that is not a reporting issuer;
- a notice of use of proceeds.

Subsection 5(1) – Payment of fees

A filer should consult Multilateral Instrument 13-102 *System Fees* to determine whether it is required to pay a system fee when transmitting a document in SEDAR+, and the amount of any applicable system fee. A filer should consult the local fee rules in each jurisdiction to determine whether it is also required to pay a regulatory filing fee when transmitting a document to the securities regulatory authority or regulator, and the amount of any applicable regulatory filing fee.

Subsection 5(4) – Significant connection

In order to determine the jurisdiction with which a person or company has the most significant connection, a filer should refer to the factors outlined in subsection 3.4(7) of NP 11-202.

Subsection 7(3) – Decisions and orders in British Columbia

Because of differing legislative requirements, subsection 7(1) of the Instrument does not apply in British Columbia. The British Columbia Securities Commission has issued BC Instrument 13-505 *Filings Made under Decisions*, which has the same effect as subsection 7(1) of the Instrument.

Using format and templates specified in SEDAR+

A person or company satisfies a requirement in securities legislation to file a document with, or deliver a document to, the securities regulatory authority or regulator in a prescribed format by transmitting the information in the manner and using the format and templates, if any, specified in SEDAR+. For example, SEDAR+ requires a filer to transmit Form 45-106F1 *Report of Exempt Distribution* in the format and using the templates specified in SEDAR+. In doing so, the filer satisfies all requirements of Form 45-106F1 *Report of Exempt Distribution* that relate to the prescribed format of the report.

Effective time of filing or delivery

SEDAR+ is generally available 24 hours a day, 7 days a week. We consider a document to be filed with or delivered to the securities regulatory authority or regulator when the transmission of the document through SEDAR+ has been completed. SEDAR+ allows a filer to confirm the date and time that the transmission of a document was completed.

Although SEDAR+ is generally available every day to receive documents, Canadian securities legislation or Canadian securities directions that refer to a review of a document by the securities regulatory authority or regulator (for example our timelines to provide a filer with comments on our review of a preliminary prospectus) will continue to provide that the review be carried out within a certain number of business days.

Consent

In certain jurisdictions, the securities regulatory authority or regulator must consent to a document being filed with or delivered to it by the transmission of the document through SEDAR+. We take the view that the acceptance of documents transmitted through SEDAR+ in accordance with the Instrument satisfies any such consent requirement of the securities regulatory authority or regulator contained in electronic commerce legislation.

Requirement to file more than one copy of a document

If any provision of securities legislation requires a person or company to file with or deliver to the securities regulatory authority or regulator more than one copy of a document, the transmission of the document through SEDAR+ in accordance with the Instrument satisfies such a requirement.

Official copy of documents

We consider that, for purposes of securities legislation, securities directions or any other related purpose, an official record of any document transmitted through SEDAR+ is the document stored in SEDAR+.

Certified copy of documents

Securities legislation in certain jurisdictions contains a requirement to produce or make available an original or certified copy of information filed under the securities legislation. We take the view that the securities regulatory authority or regulator satisfies such a requirement by providing a printed copy of the information that contains, or is accompanied by, a certificate of the securities regulatory authority or regulator confirming that the printed copy is a copy of the information filed in SEDAR+.

Use of SEDAR+ by the securities regulatory authority or regulator

The securities regulatory authority or regulator will transmit certain documents through SEDAR+. For example, we will generally transmit through SEDAR+ a receipt and other confirmation of acceptance for a document transmitted through SEDAR+, such as a receipt for a prospectus. We will also generally transmit through SEDAR+ comment related to a prospectus or an application for an exemption that has been filed through SEDAR+.

Public accessibility of documents in SEDAR+

Securities legislation generally requires that the securities regulatory authority or regulator make documents filed with it available for public inspection during normal business hours. We consider that the securities regulatory authority or regulator satisfies this requirement by making such documents publicly available in SEDAR+.

Under securities legislation, documents required or permitted to be delivered are not required to be publicly available but may be subject to an application made under freedom of information legislation. Filers that transmit information in SEDAR+ are responsible for complying with applicable privacy laws.

Changing access to transmitted documents

To change the access status of a document from public to private, a person or company should submit a formal request for confidentiality, generally by way of an application made to the securities regulatory authority or regulator, under the relevant provisions of securities legislation. The securities regulatory authority or regulator will generally not change the access status of a

document from public to private until the request has been reviewed, and a decision has been made in favour of the person or company.

In the following limited circumstances, we will consider changing the access status of a document from public to private in SEDAR+ without a formal request for confidentiality:

- a person or company transmits a document under the incorrect profile;
- a person or company transmits a fee form with an incorrect calculation;
- a person or company transmits a document that contains a virus;
- a person or company entitled to file a redacted version of a material contract or agreement transmits a non-redacted version of the document in error;
- a recipient agency inadvertently makes a document public in connection with a prospectus filing which should have remained private.

To request a change in the access status of a document from public to private in SEDAR+ in these circumstances, a person or company should make a written request to its principal regulator, determined in accordance with subsection 5(2), 5(3) or 5(4) of the Instrument. Since there may be no formal request for confidentiality and, as a result, no confidentiality decision in these limited circumstances, filers should note that documents that are required to be filed and whose access is changed to private in SEDAR+ may still be made available for public inspection under securities legislation.

Filers should also note that changing the access status of a document from public to private in SEDAR+ does not necessarily remove the document from the public domain. For example, various search engines may continue to index the document, notwithstanding that we have changed the access status of the document to private in SEDAR+. We do not assist filers to remove documents from the public domain.

Documents filed with or delivered to us may also be subject to disclosure under freedom of information legislation.

ANNEX D

SUMMARY OF COMMENTS AND CSA RESPONSES

This Annex summarizes the comments we received and our responses to those comments.

ITEM	TOPIC	SUMMARIZED COMMENT	CSA RESPONSE
1.	Support for the adoption of a new national filing system	We received 9 comment letters. The commenters generally support the adoption of a new national system to replace the CSA national systems. The following are examples of the comments received: • We are broadly supportive of the updates being made by the CSA to the CSA national systems, including SEDAR. • Our members look forward to the implementation of a new integrated national information and filing system. • The potential benefits of [SEDAR+] to regulators, market participants and investors are clear and significant. For regulators, a single structured database presents the opportunity to streamline internal workflow processes, break down silos, develop analytics to optimize organizational performance, and identify compliance review priorities. For market participants, the opportunity to easily access the information and data they are required to file would reduce the need for multiple manual data entries, streamline their own internal work processes, and improve compliance by enabling firms to leverage this data in their business operations and compliance supervision activities. • [We are] very supportive of the CSA's proposed centralized information technology system, as well as the harmonized approach the CSA is taking with respect to [SEDAR+]. We believe that replacing outdated, fragmented reporting systems and databases with more efficient, centralized, and secure technology is a key step in reducing regulatory burden, increasing information security, and facilitating information flow in an efficient and cost-effective manner. • We view [SEDAR+] as an important opportunity to improve information flow that is worth the short-term investment for the longer-term benefit of all stakeholders, including for investors and the CSA. • We thank the CSA for the work being done to create and roll out [SEDAR+]. Technology and database updates are often more complex than they seem, but this undertaking is well overdue and, we believe, very worth the resources and time devoted by CSA staff to make it a reality. • [We have] been an advocate for modernizing the national records filing system for years and [are] pleased that the CSA has moved forward on long awaited revisions to this system. • The redevelopment of the existing outdated and unwieldy systems into an integrated framework is an important step in ensuring that the regulatory infrastructure employs	We acknowledge the comments of support and thank the commenters.

ITEM	TOPIC	SUMMARIZED COMMENT	CSA RESPONSE
		appropriate technology and system design to meet the industry's current and future requirements. • [We commend] the CSA for undertaking the proposed integrated information and filing system, as the existing databases and processes are outdated and have exceeded their useful lifespan. • We are very encouraged that the CSA has adopted a harmonized approach to [SEDAR+] as we anticipate that this approach will result in a more efficient exchange of information, thereby increasing productivity for both registrants and regulators. • We are fully in support of the concept behind [SEDAR+] referred to in the CSA Notice. Replacing these outdated platforms with a single, nationally harmonized platform could reduce the regulatory burden of compliance while improving the efficient flow of information that underpins fair and transparent capital markets. • [SEDAR+] will provide long-term added value to industry, regulators and investors if an open architecture path is chosen. • We appreciate the CSA's adoption of the existing principal jurisdiction analysis in Multilateral Instrument 11-102 <i>Passport System</i> in [NI 13-103].	
2.	Comments related to [SEDAR+] generally	Many of the commenters provided feedback and suggestions on matters related to the design, development and implementation of [SEDAR+]. These include comments related to system design, implementation, testing prior to launch, search functionality, systems governance, functionality related to data mining and data. We also received comments on the design of the components of the system related to the Disciplined List, the CTO Database, and the National Registration Database, and comments related to filing of reports of exempt distribution and associated fees.	We thank the commenters for their feedback and suggestions, however these comments are outside of the scope of the NI 13-103. [SEDAR+] program staff have reached out directly to commenters to discuss these comments further in connection with their ongoing work on system design, development and implementation.
3.	Documents required in connection with a hearing, compliance review, proceeding or investigation	Two commenters commented on the decision that documents required in connection with a hearing, compliance review, proceeding or investigation will never be filed or delivered through [SEDAR+]. One of the commenters questioned why these documents should not be filed or delivered through [SEDAR+], given the system security presumed to be included. The commenter noted that allowing for the electronic exchange of these types of documents would further eliminate regulatory burden for registrants and increase efficiency for regulators. The other commenter urged the CSA to expand its system capabilities to allow for the filing of these documents to be delivered securely and seamlessly to the relevant CSA staff. The commenter stated that parallel systems of this nature would considerably improve information flow, reduce regulatory	Hearings, compliance reviews, proceedings, and investigations are local jurisdictional responsibilities. SEDAR+ in its initial phases is focused primarily on national filings, and not on local filings or transfers of large files. Local jurisdictions will continue to receive documents required in connection with a hearing, compliance review, proceeding, or investigation outside of SEDAR+ as they do now.

ITEM	TOPIC	SUMMARIZED COMMENT	CSA RESPONSE
		burden, and address several long-standing technology challenges and frustrations that registrants experience when communicating information during a compliance review or otherwise; several firms have difficulties transmitting large files via email, necessitating several smaller emails to the regulator, causing unnecessary work and fragmentation of documents during what is already a resource, time and document-intensive process.	
4.	Changing access status of a document	Two commenters noted that CP 13-103 states that there are limited circumstances in which the CSA will consider changing the access status of a document from public to private in [SEDAR+] without a formal request for confidentiality, which include instances in which a person or company that is entitled to file a redacted version of a material contract or agreement “transmits a non-redacted version of the document as a result of technical software errors in electronic redaction software”. The commenter believes that this is too restrictive, as it would not permit the change of access status where information is mistakenly filed without redaction, and recommended that the provision be amended to permit a change of access status to private when there has been any mistake in filing a properly redacted version.	We have considered the comments and agree that the provision is too restrictive. We have broadened the provision to permit a change of access status to private in all circumstances where a filer is entitled to file a redacted version of a material contract or agreement, and transmits a non-redacted version in error. This would include technical software errors in electronic redaction software, as well as other errors.
5.	Requirement to update profile	Two commenters commented on the provision of NI 13-103 requiring that, where information in a profile becomes inaccurate, the profile must be updated at the earlier of the next time a document is transmitted through the system, or 10 days after the date on which the information becomes inaccurate. The commenter recommended that, in order to reduce the potential burden imposed by this obligation, the CSA consider a more nuanced approach by assessing the relative importance of the information within the profile, and that more critical profile information should be updated within 10 days, while less critical profile information could be updated when a document is next transmitted through [SEDAR+].	We have considered the suggestions made by the commenters; however, we think that profile information is important information used by market participants, investors and the CSA that needs to be kept current. Also, we do not think that there is a significant burden associated with updating profile information within the timeframes provided.

5. *Form 45-106F1 is repealed and replaced with the following form:*

Form 45-106F1 *Report of Exempt Distribution***A. General Instructions****1. Filing instructions**

An issuer or underwriter that is required to file a report of exempt distribution and pay the applicable filing fee must pay the filing fee and file the information required by this form in the manner and using the templates specified in the System for Electronic Data Analysis and Retrieval + (SEDAR+) in accordance with National Instrument 13-103 *System for Electronic Data Analysis and Retrieval + (SEDAR+)* (in Québec, Regulation 13-103 respecting System for Electronic Data Analysis and Retrieval + (SEDAR+)).

The issuer or underwriter must file the report in a jurisdiction of Canada if the distribution occurs in the jurisdiction, and the issuer or underwriter is relying on a specific exemption from the prospectus requirement set out in section 6.1 of the Instrument. The requirement to file this report might also be a condition of a prospectus exemption provided in a national, multilateral or local rule or instrument, or a condition of an exemptive relief order. If a distribution is made in more than one jurisdiction of Canada, the issuer or underwriter may satisfy its obligation to file the report by completing a single report identifying all purchasers, and file the report in each jurisdiction of Canada in which the distribution occurs. Filing fees payable in a particular jurisdiction are not affected by identifying all purchasers in a single report.

In order to determine the applicable filing fee in a particular jurisdiction of Canada, consult the securities legislation of that jurisdiction. The issuer or underwriter must pay the filing fee through SEDAR+ in accordance with National Instrument 13-103 *System for Electronic Data Analysis and Retrieval + (SEDAR+)*(NI 13-103)(in Québec, Regulation 13-103 respecting System for Electronic Data Analysis and Retrieval + (SEDAR+)).

However, an investment fund issuer that is relying on the exemptions set out in subsection 6.2(2) of NI 45-106 (in Québec, Regulation 45-106 respecting Prospectus Exemptions) may file the report annually in accordance with that subsection.

ANNEX G

LOCAL MATTERS (ONTARIO)

Introduction

This Annex to the accompanying CSA Notice sets out matters required to be addressed by the *Securities Act* (Ontario) (the **OSA**). The Ontario Securities Commission (the **Commission**) is publishing this Annex to supplement the CSA Notice.

In Ontario, the Amendments, the Local Amendments (defined below), as well as other required materials, were delivered to the Minister of Finance on March 22, 2023. The Minister may approve or reject the Amendments and the Local Amendments or return them for further consideration within 60 days of delivery. If, in that time frame, the Minister approves the Amendments and the Local Amendments or does not take any further action, the Amendments and the Local Amendments will come into force on June 9, 2023.

Consequential Amendments and Changes to Rules and Policies

Please note that although Annex E includes amendments and changes to the following rules and policies, they will not be adopted in Ontario as the rule or policy does not apply in Ontario:

- Multilateral Instrument 51-105 *Issuers Quoted in the U.S. Over-the-Counter Markets*;
- Companion Policy 51-105 *Issuers Quoted in the U.S. Over-the-Counter Market*;
- Québec Policy Statement to Regulation 81-107 *Respecting Independent Review Committee for Investment Funds*.

In addition to the consequential amendments and changes included in Annex E, in Ontario, we will be adopting consequential amendments and changes to local rules and policies under the OSA as set out in Schedule 1 to this Annex (the **Local Amendments**). The Local Amendments are intended to update the existing rules and policies with references to SEDAR+ and remove references to existing CSA systems. For example, references to SEDAR are replaced with references to SEDAR+, where appropriate, and OSC Rule 11-501 *Electronic Delivery of Documents to the Ontario Securities Commission* will be amended to remove reference to documents required or permitted to be transmitted through SEDAR+.

Staff Notices

Similar to the CSA Staff Notices referred to in Annex F, we will also consider whether any local staff notices should be revised to reflect filing through SEDAR+. For example, once the Amendments are in effect, OSC Staff Notice 12-703 *Applications for a Decision that an Issuer is not a Reporting Issuer* should direct issuers to file their application through SEDAR+ instead of the OSC Filing Portal. We expect to issue any such revised staff notices on or after the effective date of the Amendments.

B.5.2 CSA Notice of Repeal and Replacement of Multilateral Instrument 13-102 System Fees for SEDAR and NRD

**Autorités canadiennes
en valeurs mobilières**

**CSA NOTICE OF
REPEAL AND REPLACEMENT OF
MULTILATERAL INSTRUMENT 13-102 SYSTEM FEES FOR SEDAR AND NRD**

March 23, 2023

Introduction

The Canadian Securities Administrators (the **CSA** or **we**) are repealing and replacing Multilateral Instrument 13-102 *System Fees for SEDAR and NRD* (**MI 13-102**),¹ with a new instrument shown in Annex A (the **Amendments**, or the **New Instrument**). This Notice should be read together with the CSA notice relating to the adoption of National Instrument 13-103 *System for Electronic Data Analysis and Retrieval + (SEDAR+)* (**NI 13-103**), which is also being published today. Reference is made in this Notice to the version of the Amendments published for comment on May 2, 2019 (the **Proposed Amendments**).

Provided all ministerial approvals are obtained, the Amendments will come into force on June 9, 2023.

The CSA is renewing its national records filing systems. A new system (**SEDAR+**) will replace:

- existing CSA national systems including the System for Electronic Document Analysis and Retrieval (**SEDAR**), the System for Electronic Disclosure by Insiders (**SEDI**) and the National Registration Database (**NRD**); and
- various local records filing systems.

In connection with the development of SEDAR+, the CSA has reviewed system fees for specified filings made by market participants. As a result of this review, MI 13-102 is being repealed and replaced, primarily to change the structure of the system fees provided by MI 13-102. Under the Amendments,

- system fees continue to be established on a cost-recovery basis, and
- the total system fees collected by the CSA are projected to decline.

We note that system fees are separate from any regulatory fees users must pay in any province or territory.

Background

In 2013, MI 13-102 was adopted to replace the filing service charge schedules under the SEDAR Filer Manual and the NRD User Guide. Adopting MI 13-102 reduced some fee rates to reflect cost saving opportunities based on filing patterns, but retained the fee structure. The fee structure had remained unchanged since the fee models were implemented in 1997 for SEDAR and in 2003 for NRD.

¹ While the Manitoba Securities Commission has not adopted MI 13-102, it is a participant in the system fee regime as a result of Regulation 158/2013 under *The Securities Act* (Manitoba). Corresponding amendments to Regulation 158/2013 are expected as a result of the repeal and replacement of MI 13-102.

SEDAR+ is intended to

- accept most securities law filings and documents,
- be secure and easy to use, and
- be more cost-effective to operate and change.

SEDAR+ is projected to be delivered in phases starting in June 2023. The first phase (**Phase 1**) will replace SEDAR, the Cease-Trade Order Database, the Disciplined List and certain filings in the British Columbia Securities Commission eServices system and the Ontario Securities Commission Electronic Filing Portal.

Additional requirements applicable to insiders (SEDI), registrants (NRD), regulated entities such as exchanges and self-regulatory organizations, and derivatives market participants will be addressed in future phases.

Purpose

In conjunction with the systems renewal, the CSA is revising system fees to align them to projected national system operating costs and to provide for future developments and enhancements. The changes are designed to

- reduce annual system fee revenue,
- minimize fee changes, especially for smaller filers,
- simplify the fee design by adopting flat fees and eliminating some fees, and
- add new fees for significant new services.

Substance of the Amendments

The Amendments replace principal and non-principal regulator fees with flat fees per filing type (**flat fee design**) paid only to a filer's principal regulator. This change substantially simplifies the system fee regime. Further, system fees for certain filing types are being removed, while some new fees for filing types will be introduced, as described below. System fees will rise in some cases (or be newly created) and fall in other cases, based primarily on filing behaviour and volume of use. Total system fees collected by the CSA are projected to decline by approximately \$1.7 million (7%).

Summary of the Amendments

(i) Flat fee design

Currently, the majority of system fees are based on the number of jurisdictions with which market participants file. The Amendments instead reflect a flat fee design. This flat fee design better aligns system fees that users must pay with the CSA's anticipated costs to operate SEDAR+, based on market participants' expected system usage. A flat fee design offers significantly improved administrative simplicity for both market participants and the CSA.

(ii) Eliminating certain system fees

We have eliminated system fees associated with certain filing types, which reduces costs and simplifies the system fees levied in some areas. The filing types and their related fees that we have removed from MI 13-102 are as follows:

- Prospectus – Distribution outside Quebec;
- Registration of an individual in an additional jurisdiction;
- Related Party Transaction Filings;
- Going Private Transaction Filings.

SEDAR users currently pay a one-time charge for creating a profile in SEDAR. Under SEDAR+, there is no charge for creating a profile.

(iii) Harmonizing system fees for similar filings and introducing system fees for new filing types

Under Item 2 of Appendix A of the New Instrument, international dealers and advisers pay a new system fee for filing a notice of reliance on the international dealer or adviser registration exemption in National Instrument 31-103 *Registration Requirements*,

Exemptions and Ongoing Registrant Obligations (NI 31-103). However, international dealers and advisers will not be required to file this document using SEDAR+ until a future phase.

Items 13 and 14 of Appendix A of the New Instrument also provide new system fees for a “pre-filing” or “application” transmitted through SEDAR+. “Pre-filing” and “application” are defined broadly at the beginning of Appendix A. Both definitions include applications for exemptions, but do not cover filer profiles. However, a system fee under Item 14 is nil if it relates to a pre-filing for which a system fee has already been paid under Item 13.

Requiring a system fee for all applications aligns with the existing requirement to pay a system fee for applications for exemptions sought in connection with a prospectus filing or exemptions relating to National Instrument 81-102 *Investment Funds*. This means, for example, that once registrant activities are included in SEDAR+, a registrant that requires an exemption from a registration requirement would file that application for an exemption through SEDAR+ and would pay a system fee for filing that application.

Under SEDAR+, all jurisdictions require reports of exempt distribution (Form 45-106F1 *Report of Exempt Distribution*) to be filed through SEDAR+ and filers to pay a system fee. Today, most jurisdictions require that form to be filed on SEDAR and to pay a system fee, while British Columbia and Ontario currently require that form to be filed using local filing systems and do not require a system fee.

The above-noted new filings represent significant new activities to be handled by SEDAR+.

(iv) *Transitional provision*

The replacement for NRD is not a part of Phase 1. Subsection 7(1) of the New Instrument provides that all system fees relating to a registrant requirement that are required to be paid by registrants will continue to be paid through NRD until NI 13-103 requires filings and renewal through NRD to be made through SEDAR+.

Likewise, notices of reliance on an international dealer or adviser registration exemption filed by international dealers and advisers are not part of Phase 1. Under subsection 7(2) of MI 13-102, system fees for this notice do not come into effect until the notices are required to be filed through SEDAR+.

Related Provisions under NI 13-103 – determination of principal regulator

Under NI 13-103, system fees are to be paid to a filer’s “principal regulator”, as defined in section 5 of NI 13-103. NI 13-103 clarifies how a filer’s principal regulator is determined for the purposes of system fees. The approach taken in NI 13-103 aligns with the approach taken today in Multilateral Instrument 11-102 *Passport System (MI 11-102)*.

Summary of Comments and CSA Responses

The following is a summary of comments and CSA responses in respect of the Proposed Amendments, as described in CSA Notice and Request for Comment *Proposed Repeal and Replacement of Multilateral Instrument 13-102 System Fees for SEDAR and NRD* published on May 2, 2019.

#	TOPIC	SUMMARIZED COMMENT	CSA RESPONSE
1	Support for the adoption of a new national filing system	The commenters generally support the adoption of a new national system to replace the CSA national systems. The following are examples of the comments received: • We are broadly supportive of the updates being made by the CSA to the CSA national systems, including SEDAR. • Our members look forward to the implementation of a new integrated national information and filing system. • The potential benefits of the National Systems Renewal Program (NSRP) to regulators, market participants and investors are clear and significant. For regulators, a single structured database presents the opportunity to streamline internal workflow processes, break down silos, develop analytics to optimize organizational performance, and identify compliance review priorities. For market participants, the opportunity to easily access the information and data they are required to file would reduce the need for multiple manual data entries, streamline their own internal work processes, and improve compliance by enabling firms to leverage this data in their business operations and compliance supervision activities. • We are very supportive of the CSA's proposed centralized information technology system, as well as the harmonized approach the CSA is taking with respect to SEDAR+. We believe that replacing outdated, fragmented reporting systems and databases with more efficient, centralized, and secure technology is a key step in reducing regulatory burden, increasing information security, and facilitating information flow in an efficient and cost-effective manner. • We view SEDAR+ as an important opportunity to improve information flow that is worth the short-term investment for the longer-term benefit of all stakeholders, including for investors and the CSA. • We thank the CSA for the work being done to create and roll out SEDAR+. Technology and database updates are often more complex than they seem, but this undertaking is well overdue and, we believe, very worth the resources and time devoted by CSA staff to make it a reality. • We have been an advocate for modernizing the national records filing system for years and [are] pleased that the CSA has moved forward on long awaited revisions to this system. • The redevelopment of the existing outdated and unwieldy systems into an integrated framework is an important	We acknowledge the comments of support and thank the commenters.

#	TOPIC	SUMMARIZED COMMENT	CSA RESPONSE
		step in ensuring that the regulatory infrastructure employs appropriate technology and system design to meet the industry's current and future requirements. - We commend the CSA for undertaking the proposed integrated information and filing system, as the existing databases and processes are outdated and have exceeded their useful lifespan. - We are very encouraged that the CSA has adopted a harmonized approach to the NSRP as we anticipate that this approach will result in a more efficient exchange of information, thereby increasing productivity for both registrants and regulators. - We are fully in support of the <i>concept</i> behind SEDAR+. Replacing these outdated platforms with a single, nationally harmonized platform could reduce the regulatory burden of compliance while improving the efficient flow of information that underpins fair and transparent capital markets. - The NSRP will provide long-term added value to industry, regulators and investors if an open architecture path is chosen.	
2	Comments related to NSRP generally	Many of the commenters provided feedback and suggestions on matters related to the design, development and implementation of the new NSRP system. These include comments related to system design, implementation, testing prior to launch, search functionality, systems governance, functionality related to data mining and data. We also received comments on the design of the components of this system, related to the Disciplined List, the Cease Trade Order Database, and the National Registration Database, and comments related to filing of reports of exempt distribution reports and associated fees.	We thank the commenters for their feedback and suggestions, however these comments are outside of the scope of MI 13-102. NSRP staff are reaching out directly to commenters to discuss these comments further in connection with their ongoing work on system design, development and implementation. Comments related to system fees are addressed in this annex.
3	General support for proposed system fees	Five commenters were generally supportive of the proposed system fees. The following are examples of the comments received: - We are generally supportive of the CSA's proposed system fees for specified filings made by market participants. We agree that the flat fee structure, paid only to the principal regulator, will simplify and improve upon the current fee system. - We are generally supportive of the system fees consultation and applaud the CSA for simplifying its fee design through the imposition of flat fees, the elimination of certain fees, minimizing fee changes – especially for small registrants, and for reducing system fees overall. - The CSA's proposal that filers only will pay fees to their principal regulator is a sensible way to simplify fee calculations and payment.	We acknowledge the comments of support and thank the commenters.

#	TOPIC	SUMMARIZED COMMENT	CSA RESPONSE
		- We are pleased that the CSA devised a new system fee schedule that is anticipated to result in only 1% of filers having fee increases of over \$1000. - We are supportive of the CSA proposed system fees revisions to provide filers with a simplified one-stop process for submitting required disclosure documentation to the various regulators across Canadian capital markets. We also believe that the adoption of a flat fee design as opposed to the current multi-jurisdictional fee structure to both principal and non-principal regulators is a major improvement. Both of these changes are expected to reduce the administrative burden and complexity faced by reporting issuers and others as they meet their commitment to fulsome continuous disclosure. - We appreciate that the new approach to system user fees has the potential to improve the simplicity of calculating, inputting and transmitting system user fees. - The proposed fee structure provides a coherent, simplified, and fair means for charging for access and use of the system. The flat fee design, payable only to the filer's principal regulator significantly simplifies the process and will reduce the resources required by users to manage these administrative takes. It is appropriate and fair that system fees will be based primarily on filing behaviour and volume of use. We are pleased that SEDAR+ will be run on a cost recovery basis and it has been developed in an efficient manner, so that the total system fees are expected to decline.	
4	Impact of proposed system fees on investment fund managers	Two commenters were concerned that investment fund managers can expect their system fees to increase by approximately 8%, due mainly to the new \$40 fee proposed for Ontario and British Columbia exempt distribution filings in SEDAR+. The commenters noted that many investment fund managers may need to pass these increased costs on to investors. One of the commenters noted that increased costs resulting from the growing regulatory burden is contrary to the objectives of most fund companies, as they negatively affect investors' ability to achieve their savings objectives. The other commenter noted that it is difficult for the industry to lower investment product costs for investors if regulatory costs continue to increase and urged the CSA to be mindful of the impact of fee increases on the costs of products and services to investors.	The system fee proposal sought to have a balanced approach to fees. Overall there is a projected 7% reduction in system fees. As system fees are a very small part of an investment fund managers cost structure, we do not anticipate a noticeable resulting increase in investment product costs.
5	Provide regular reports	One commenter noted that the proposed fee model is designed to reflect the costs of using SEDAR+ and allow for future enhancements. The commenter encouraged the CSA to provide regular reports on system fees, finances, operations and progress updates to users of SEDAR+. A second commenter noted that the CSA acknowledge that certain issuers, most notably investment funds, will see their fees increase under the new system, and there will also be significant fee increases applicable to non-Canadian firms who	The proposed fee model is designed to reflect the costs of using SEDAR+. In some cases, relief has been provided in connection with start-up cost of SEDAR+ (i.e, no charge for initial profiles). Regular reports of the nature noted are contemplated.

#	TOPIC	SUMMARIZED COMMENT	CSA RESPONSE
		rely on the international adviser and international dealer exemptions provided for in NI 31-103. The commenter considers it incumbent on the CSA to explain how it arrived at the overall distribution of fees amongst the various constituents using SEDAR+, and continuously report on a regular basis on that distribution. The commenter suggested that changes may be necessary based on experience in the use of SEDAR+.	
6	New annual fee to file notice of reliance on the international adviser exemption	One commenter discussed the new annual fee payable by international advisers to file a notice of reliance on the international adviser exemption, other than for those operating solely in Ontario and satisfying the Ontario rule requirements. The commenter suggested that the proposal is unclear about how to determine the CSA member to which payment should be made, and remarked that, since the new fee model is generally dictated by a registrant's principal regulator, further clarity is needed as to how international advisers should pay the new fee.	We thank the commenter for its comment. Subsection 5(3) of NI 13-103 outlines how a filer must determine their principal regulator for the purposes of determining the jurisdiction that is to be paid the system fee for a filing that is not otherwise addressed in MI 11-102. This test was designed to apply to all filers, including foreign filers. Under this test, foreign filers will generally need to determine their principal regulator by identifying the jurisdiction with which they have the most "significant connection". The factors for determining "significant connection" are found in section 3.4 of National Policy 11-202 <i>Process for Prospectus Reviews in Multiple Jurisdictions</i>. Relying on this "significant connection" approach provides the most flexibility to a person filing a document that is not otherwise addressed by MI 11-102. We note that registration-related filing requirements are not part of this phase of the systems replacement. Accordingly, international dealers and advisers will not be filing in SEDAR+ until a later phase of this project. They will not pay a fee until they are required to file in SEDAR+.
7	Late fee waiver	One commenter suggested that there should be a waiver of late fees levied under OSC Rule 13-502 and other equivalent provincial fee rules if delays are caused by SEDAR+.	There are no late fees provided in proposed MI 13-102, so a waiver under MI 13-102 is not necessary. Under section 6 of NI 13-103, temporary exemptive relief is available in the event of unanticipated technical difficulties. The temporary exemption provides 2 extra business days for a person or

			company to file a document with, or deliver a document to, the securities regulatory authority or regulator, if unanticipated technical difficulties prevent the person or company from transmitting the document through SEDAR+ within the time required or permitted under securities legislation.
