¹ Reflects the 2012 Budget plan as outlined in the April 25, 2012 fiscal update.

² Interest on debt expense is net of interest capitalized during construction of tangible capital assets of \$234 million in 2011–12 and \$248 million in 2012–13.

Note: Numbers may not add due to rounding.

2012–13 FISCAL OUTLOOK

The government continues to take strong action to eliminate the deficit. The Province's 2012–13 deficit is now projected to be \$11.9 billion – an improvement of \$2.5 billion from the Fall 2012 Ontario Economic Outlook and Fiscal Review and \$3.0 billion from the 2012 Ontario Budget. This outlook indicates that the plan to eliminate the deficit is working.

This year marks the fourth in a row that the government is ahead of its fiscal targets – and at \$11.9 billion, the deficit is now projected to be 52 per cent lower than the \$24.7 billion deficit projected in the fall of 2009, at the depth of the global recession. In addition, it is estimated that the strong action taken by the government has resulted in an accumulated deficit that is projected to be almost \$20 billion lower (or 2.9 per cent of GDP) than it would have been had the government not reported lower-than-forecasted deficits in each of the last four years.

Ontario's Fiscal Performance

¹ Forecast for 2010–11 to 2012–13 based on the 2010 Budget. Projection for 2009–10 from the 2009 Ontario Economic Outlook and Fiscal Review.

The \$3.0 billion improvement in the deficit this year is a result of both higher-than-projected revenue and lower-than-projected expense. The outlook for 2012–13 indicates that the Province's revenue outlook has increased \$1,250 million from the 2012 Budget forecast, primarily as a result of higher Corporations Tax revenue due to a higher 2011 tax base and a one-time revenue boost related to prior-year tax assessments.

Consistent with the government's commitment to manage growth in expense, the total expense outlook for 2012–13 is now projected to be \$1,210 million lower than forecast in the 2012 Budget. This revised outlook primarily reflects one-time savings in the Ministry of Education as a result of a reduction in liabilities carried by school boards for sick-day banking, retirement gratuities and for grandfathering retiree health benefits for education sector workers under the *Putting Students First Act*; and lower-than-forecast interest on debt expense.

The 2012 Budget included a \$1.0 billion reserve in 2012–13 to protect the fiscal plan from the potential impact of external events that could deteriorate the Province's fiscal performance, and to help ensure the achievement of the government's fiscal target. As a result of higher-than-projected revenue and lower-than-forecast expense, the government is already projected to be ahead of the deficit target for the current fiscal year and it is expected that the full reserve will not be needed this year. As a result, \$0.5 billion from the reserve is being used to reduce the deficit outlook for 2012–13. The remaining \$0.5 billion reserve may be used to address any unforeseen events that could arise before year-end.

The government has consistently maintained that the key to eliminating the deficit was managing growth in spending. The lower-than-forecasted deficits are a direct result of this approach to managing expense. The government has identified \$515 million in ministry savings this fiscal year, and applied these savings towards achieving the year-end savings provision included in the fiscal plan for 2012–13. The current balance of \$355 million in uncommitted contingency funds is available to meet or exceed the remaining \$250 million year-end savings provision.

While the government is projected to be ahead of its fiscal target for the fourth year in a row, eliminating the deficit requires continued strong action to implement the government's plan. As part of the plan, the 2012 Budget included four dollars in savings and cost containment measures for each additional dollar of new revenue measures, including nearly \$18 billion in savings and cost avoidance over three years. The plan is working, yet there remains more work still to be done.

Continued global economic uncertainty will remain a challenge to the Province's fiscal plan. Since the 2012 Budget, expectations for global economic growth have weakened. There are considerable risks to growth, including the recession in Europe and continued fiscal and economic uncertainty in the U.S.

Eliminating the deficit remains the single most important step the Province can take to grow the economy and create jobs. A strong economy is the means to continue delivering the best education and health care in the world, right here in Ontario.

FISCAL PERFORMANCE
REVENUE AT \$113.8 BILLION

The 2012–13 revenue outlook, at \$113,823 million, is \$1,250 million above the 2012 Budget projection. Changes to the revenue outlook include:

- ◆ A decrease of \$40 million in **Personal Income Tax** revenue as lower wages and salaries growth is only partially offset by a higher 2011 tax base.
- ◆ An increase of \$100 million in **Sales Tax** revenue due to revised Harmonized Sales Tax (HST) estimates provided by the federal government in December 2012, which resulted in lower-than-projected costs for HST rebates, partially offset by lower gross HST revenue.
- ◆ An increase of \$1,090 million in **Corporations Tax** revenue largely due to a higher 2011 tax base and a one-time boost from tax assessments for years prior to 2011.
- ◆ A decrease of \$35 million in **Employer Health Tax** revenue due to lower projected growth in wages and salaries.
- ◆ A decrease of \$10 million in **Ontario Health Premium** revenue.
- ◆ An increase of \$80 million in **Land Transfer Tax** revenue reflecting a stronger housing market than projected in the 2012 Budget.
- ◆ A decrease of \$145 million in **Payments-in-Lieu of taxes** (PILs) revenue due primarily to lower projected PILs from Ontario Power Generation (OPG) and municipal electric utilities.
- ◆ An increase of \$15.3 million in **Government of Canada** transfers, previously reported in the First Quarter Ontario Finances, related to the extension of the Targeted Initiative for Older Workers program in the Ministry of Training, Colleges and Universities, fully offset by the corresponding expense.
- ◆ An increase of \$195 million in the combined net incomes of **Ontario Power Generation** and **Hydro One Inc.** (HOI) primarily due to lower costs at OPG and HOI, lower projected PILs, and higher transmission revenue for HOI.
- ◆ A decrease of \$1.0 million in **Other Non-Tax Revenue**, previously reported in the First Quarter Ontario Finances, reflecting reduced revenue associated with the Nawiinginokiima Forest Management Corporation, offset by the corresponding reduction in expense.
- ◆ An increase of \$1.0 million in **Other Non-Tax Revenue**, primarily related to the introduction of a one-time registration fee for eligible business activities under the Environmental Activity and Sector Registry.

FISCAL PERFORMANCE
TOTAL EXPENSE AT \$125.2 BILLION

The 2012–13 total expense outlook, at \$125,182.6 million, is \$1,210.2 million lower than originally projected in the 2012 Budget. Changes to the expense outlook since the 2012 Budget include:

- ◆ A decrease of \$1,071.5 million in the **Ministry of Education**, as a result of an in-year accounting adjustment associated with reducing liabilities carried by school boards for sick-day banking, retirement gratuities and for grandfathering retiree health benefits for education sector workers under the *Putting Students First Act*.
- ◆ A one-time increase of \$42.0 million in the **Ministry of Community and Social Services** to assist eligible municipalities as they develop and implement their Community Homelessness Prevention Initiative plans.
- ◆ An increase of \$40.0 million in the **Ministry of Energy**, related to a previously reported agreement with TransCanada Energy in relation to sunk costs associated with the relocation of the Oakville natural gas plant.
- ◆ An increase of \$5.4 million in the **Ministry of Municipal Affairs and Housing**, for financial assistance to help the community of Wawa rebuild and recover from damages related to flooding that occurred on October 25, 2012.
- ◆ An increase of \$84.0 million in the **Ministry of Natural Resources**, for emergency forest firefighting, including \$72 million that was previously reported in the Fall 2012 Ontario Economic Outlook and Fiscal Review, to provide additional resources during the 2012 fire season.
- ◆ An increase of \$16.0 million in the **Ministry of Municipal Affairs and Housing** to support disaster relief assistance for the City of Thunder Bay, the Township of Conmee and the Municipality of Oliver Paipoonge, for flooding that occurred in late May, previously reported in the First Quarter Ontario Finances.
- ◆ A net increase of \$4.0 million across **various ministries**, reflecting changes such as interministry transfers and the balance of other changes to ministry expense.
- ◆ A net decrease of \$145.4 million in the **contingency funds** to offset expense increases for disaster relief to the City of Thunder Bay, the Township of Conmee and the Municipality of Oliver Paipoonge; emergency forest firefighting; a previously reported agreement with TransCanada Energy in relation to sunk costs associated with the relocation of the Oakville gas plant; financial assistance to help the community of Wawa rebuild and recover from damages related to flooding that occurred on October 25, 2012; and assisting eligible municipalities as they develop and implement their Community Homelessness Prevention Initiative plans.
- ◆ An increase of \$15.3 million as a result of federal funding to extend the Targeted Initiative for Older Workers program in the **Ministry of Training, Colleges and Universities**, previously reported in the First Quarter Ontario Finances.
- ◆ Interest on debt expense is \$158.0 million lower than forecast in the 2012 Budget. This reduction primarily reflects the impact of lower-than-forecast interest rates and a lower projected deficit for 2012–13.

FISCAL PERFORMANCE
IN-YEAR MINISTRY SAVINGS TO DATE

Since the 2012 Budget, the government has identified \$515 million in ministry savings this fiscal year, including \$300 million in the Ministry of Health and Long-Term Care. These savings have been applied towards achieving the year-end savings provision included in the fiscal plan for 2012–13. In addition, \$35 million in ministry savings were identified in the third quarter and allocated to the contingency funds to help mitigate expense risks that may otherwise have a negative impact on results. The current balance of \$355 million in uncommitted contingency funds is available to meet or exceed the remaining \$250 million year-end savings provision.

RESERVE AT \$0.5 BILLION

The 2012 Budget included a \$1.0 billion reserve in 2012–13 to protect the fiscal plan from the potential impact of external events that could deteriorate the Province’s fiscal performance and to help ensure the achievement of the government’s fiscal target. Since the government is already projected to be ahead of the deficit target for the current fiscal year, it is expected that the full reserve will not be needed this year. As a result, \$0.5 billion from the reserve is being used to reduce the deficit outlook for 2012–13. The remaining \$0.5 billion reserve may be used to address any unforeseen events that could arise before year-end.

¹ Revenue and expense have been restated to reflect a fiscally neutral accounting change for the revised presentation of education property taxes, as described in the 2010 Ontario Budget, a fiscally neutral accounting change related to the reclassification of government agencies and organizations as described in the 2011 Ontario Economic Outlook and Fiscal Review, and a fiscally neutral reclassification of a number of tax measures that are transfers or grants, as described in the 2012 Ontario Budget.

² Starting in 2009–10, investments in minor tangible capital assets owned by the Province were capitalized and amortized to expense. All capital assets owned by consolidated organizations are being accounted for in a similar manner.

³ Interest on debt is net of interest capitalized during construction of tangible capital assets of \$148 million in 2009–10, \$203 million in 2010–11, \$234 million in 2011–12 and \$248 million in 2012–13.

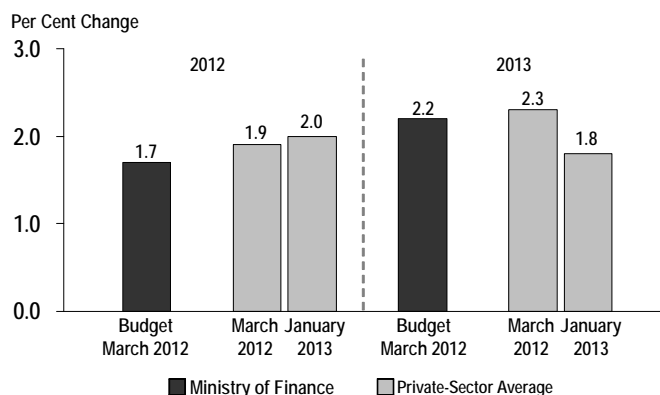

⁴ Starting in 2009–10, Net Debt includes the net debt of hospitals, school boards and colleges consistent with Public Sector Accounting Board standards.

⁵ Gross Domestic Product amounts are based on Statistics Canada's new, revised international standard for economic accounts – the SNA 2008 (System of National Accounts), which includes major conceptual, classification and methodological improvements.

ONTARIO ECONOMIC OUTLOOK

The Ontario economy continues to grow in a challenging global environment, although the pace of growth remains modest. Since the 2012 Budget, expectations for global economic growth have weakened. Economic conditions in Europe have worsened, the growth of emerging market economies has slowed, and U.S. economic prospects remain uncertain. Private-sector economists, on average, project Ontario real GDP growth of 2.0 per cent in 2012, up slightly from 1.9 per cent expected at the time of the 2012 Budget. However, private-sector growth forecasts for 2013 have eased, now averaging 1.8 per cent, down from 2.3 per cent at the time of the Budget. There are considerable risks to the outlook, including the recession in Europe and continued fiscal and economic uncertainty in the U.S.

Ontario Real GDP Growth

Sources: Ontario Ministry of Finance and Ontario Ministry of Finance Survey of Forecasts (March and January).

ONTARIO REAL GDP

- ◆ In the third calendar quarter of 2012, Ontario real GDP increased 0.1 per cent, following 0.6 per cent increases in the first and second quarters. Ontario's real GDP has increased 8.4 per cent over the past three years since the recession ended in the second quarter of 2009 and is 3.4 per cent above the pre-recession level set in the second quarter of 2008.

LABOUR MARKET

- ◆ Ontario employment increased 0.5 per cent in the fourth quarter of 2012, following 0.2 per cent gains in the second and third quarters. As of December 2012, Ontario employment was 145,200 (+2.2 per cent) jobs above the pre-recession peak reached in September 2008.
- ◆ The unemployment rate was 7.9 per cent in December, well below the recessionary high of 9.4 per cent in June 2009.

RETAIL SALES

- ◆ Ontario retail sales rose 0.3 per cent in the third quarter, after declining 1.0 per cent in the previous quarter. Over the first ten months of 2012, retail sales were up 2.2 per cent compared to the same period in 2011.

INFLATION

- ◆ The Ontario Consumer Price Index (CPI) rose 0.8 per cent (year-over-year) in the third quarter of 2012, the slowest rate of inflation since the fourth quarter of 2009. Lower energy prices were one of the driving factors behind the slower overall rate of inflation for the quarter.

HOUSING MARKET

- ◆ Ontario home resales declined by 1.2 per cent in the fourth quarter, following a 7.4 per cent drop in the previous quarter. On an annual basis, Ontario home resales were down 2.1 per cent in 2012.
- ◆ Ontario housing starts decreased 12.2 per cent in the fourth quarter, following a decline of 3.8 per cent in the third quarter.

MANUFACTURING SALES AND INTERNATIONAL EXPORTS

- ◆ Ontario manufacturing sales edged down 0.7 per cent in the third quarter of 2012, following a 4.1 per cent increase in the second quarter. On a year-to-date basis, manufacturing sales were up 6.8 per cent compared to the first ten months of 2011.
- ◆ Ontario international goods exports (on a customs basis¹) declined 3.4 per cent in the third quarter of 2012 following a 3.0 per cent advance in the previous quarter. Ontario international goods imports fell by 3.8 per cent in the third quarter, following a 0.9 per cent drop in the second quarter.

Less: Other Capital Contributions ⁶	438	160	175	335
TOTAL PROVINCIAL EXPENDITURE⁷	10,979	10,507	1,985	12,492

¹ Investment in Capital Assets includes interest capitalized during construction of tangible capital assets of \$248 million.

² Mainly consists of transfers for capital purposes to municipalities and universities, and expenditures for capital repairs.

³ Other Transportation includes highway planning activities, property acquisition, highway service centres and other infrastructure programs (e.g., municipal/local roads, remote airports).

⁴ Includes a one-time adjustment of \$248 million in 2011–12 related to 2010–11 capital grants that is fully offset by a revenue recovery from the school board sector.

⁵ Third-party contributions to capital investment in the consolidated schools, colleges, hospitals and provincial agencies.

⁶ Mostly federal government transfers for capital investments.

⁷ Total Provincial Infrastructure Expenditure includes Investment in Capital Assets of \$9.5 billion for 2011–12.

Note: Numbers may not add due to rounding.

TOTAL LONG-TERM PUBLIC BORROWING REQUIREMENT	34,877	34,940	34,490	(450)

¹ Reflects the 2012 Budget plan as outlined in the April 25, 2012 fiscal update.

Note: Numbers may not add due to rounding.

BORROWING PROGRAM STATUS (AS AT JANUARY 15, 2013) (\$ Billions)

	Completed	Remaining	Total
Province	28.7	3.9	32.6
Ontario Electricity Financial Corporation	1.4	0.5	1.9
TOTAL	30.1	4.4	34.5

Note: Numbers may not add due to rounding.

- ◆ Long-Term Public Borrowing completed as at January 15, 2013, totalled \$30.1 billion as follows:

	(\$ Billions)
Ontario Savings Bonds	0.8
Domestic Issues	20.6
Global/ US Dollar/ Other Issues	8.7
TOTAL	30.1

- ◆ Total long-term public borrowing, at \$34.5 billion, is down by \$0.5 billion from the 2012 Budget. In spite of a lower deficit, the Province is maintaining the long-term public borrowing requirement at the same level as in the Fall 2012 Economic Outlook and Fiscal Review, in order to take advantage of historically low interest rates.
- ◆ Higher liquid reserve levels resulting from lower deficits in 2011–12 and 2012–13 will enable the Province to reduce long-term public borrowing in 2013–14 by \$2.7 billion from the 2012 Budget and by \$1.0 billion from the Fall 2012 Economic Outlook and Fiscal Review.
